

## EXHIBIT F – PROJECT NARRATIVE

**AGTLAND, P.A.**, is a full-service Landscape Architecture firm founded by Mr. Grant Thornbrough (Owner). The firm has been serving South Florida and the Caribbean since 1975 and has been at its current location since 1990. AGTLAND, P.A. has designed numerous award-winning projects in Delray Beach and the South Florida community. Most recently, it was awarded the 2019 U.S. Green Building Council Most Outstanding Residential Award for its work on a local University Residence Hall. Other notable projects include Old School Square's original Development Plan, Historical Bankers Row Master Plan, the Delray Beach International Tennis Center, Grove Square Redevelopment Project, among others.

**The property is located at 132 North Swinton Avenue, within CRA sub-area #3.**

The Owner submitted an application for funding assistance in December 2019, requesting funding assistance to renovate the mini campus-like property that houses three Mission Revival building structures dating back to 1925—classifying them as contributing structures within the Old School Square Historic District. Renovations are long overdue, with the last renovation project of any scale having taken place over thirty years ago. Prior to purchasing the property in 1990, the site was converted into professional office spaces a year earlier, in 1989 with basic renovations completed. Those renovations have not aged well over the 30 years. The owner has maintained the property as best as possible and is now requesting assistance to make much-needed and significant renovations to update the property.

Interior and exterior improvements will include: replacement and upgrade of windows and doors to impact standards, framing, carpentry, stucco, painting, landscaping, flooring, purchase and installation of cabinetry, plumbing and electrical upgrades.

Total capital investment for the overall project is an estimated \$203,211.

The improvement project is expected to be complete by April 2020.
