Orchard				<p>Proposed for FY25: Will be used for Academic Achievement Incentive K-5 —We have focused on increasing student achievement through a competitive team approach that encourages students to engage in learning and take accountability for standards taught and mastered. This year, we have created a F.A.S.T. Olympics Games program that aligns with our academic goals. Throughout the year, students are given incentives for their teams to compete against each other and win prizes in their grade level. These events not only serve as an academic checkpoint but they also serve as school, community and positive behavior support, all year long. To fund these events, we would need approximately \$7,000. In May FY25, our students will have an opportunity to celebrate their academic success with their peers. We will purchase carnival games, food, drinks, and other materials. This event will cost \$8,000.00. Students will earn tickets to the Carnival based on their engagement and effort during instructional and testing preparation/game events.</p>
