Public Comment

None

Rebuttal/Cross

None

Board Comments

Wensky Villanoix expressed support for the proposed architectural design and color palette, stating that the requested parking reduction does not present any concerns.

Linda Purdo concurred with the design quality and noted no objection to the parking reduction. She observed, however, that the building's side elevation appeared visually uninviting due to the absence of windows.

Robert Lewis stated that he found the building design to be superior to several surrounding structures and raised no concerns regarding the proposed parking reduction. Annette Gray inquired about the visual impact of the development on adjacent residential properties. In response, the project architect, Jaime Mayo, explained that the site would be screened by a four-foot-tall fence, four-foot-tall landscape hedges, and multiple palm trees.

Rafik Ibrahim added that the structure is limited to a single story in height and that the proposed landscaping will provide an effective buffer for adjacent residential uses.

- A. **MOTION** to move **approval** of the Level 2 (2023-206) Site Plan, Architectural Elevations and Landscape Plan with a parking reduction, to construct a 5,597 square foot warehouse and office development located at **1215 Milfred Street**, by finding that the request is consistent with the Comprehensive Plan and meets criteria set forth in the Land Development Regulations.

was made by Linda Purdo and seconded by Wensky Villanoix.

MOTION Carried 4-0

10. Reports and Comments
