LETTER OF INTENT

November 30, 2016

Delray Beach Purchasing Department
City Hall
100 NW 1st Avenue
Delray Beach, Florida 33444

Re: RFQ No. 2017-010 – Continuing General Architectural Consulting Services

Dear Selection Committee:

DELRAY BEACH needs an experienced A/E team that specializes in Parks & Recreation Design. **WALTERS • ZACKRIA ASSOCIATES, WZA** is the answer to your various project needs. **WZA's** 35 years of serving local **SOUTH FLORIDA** municipalities lends it the vast experience and understanding of scope of work under this RFQ. **WZA** will be an extension of your staff. We understand the scope and the prowess for successful completion. "KNOWLEDGE AND PRECISION, THE ULTIMATE CONFIDENCE BOOSTERS".

WALTERS • ZACKRIA ASSOCIATES PORTFOLIO INCLUDES EXTENSIVE MUNICIPAL FACILITY PLANNING AND DESIGN and ENGINEERING EXPERIENCE. You will benefit from the experience gained through similar multi-project contracts with the following government clients:

- Broward County
- City of Ft. Lauderdale
- City of Coconut Creek
- City of Lauderhill
- City of North Lauderdale
- Town of Hillsboro Beach
- City of Coral Springs
- City of Pompano Beach
- City of Hollywood
- City of Margate
- City of Sunrise
- City of Hallandale Beach
- City of Miramar
- City of Dania
- City of Oakland Park

Long Key Nature Center

Pompano Beach Community Park

Lakewood Park

Previous **DELRAY BEACH** experience includes:

- **Delray Western Community Center (not constructed yet)**
- **Seacrest Soccer Complex & Building**
- **Miller Park Complex**
- **Cornell Park**
- **Fire Station #3 Design**
- **Parks & Recreation Master Plan**
- **Delray Beach Center for the Arts Historical Renovations**

WZA HAS SUCCESSFULLY COMPLETED OVER 1000 SOUTH FLORIDA GOVERNMENT PROJECTS! No other firm has a track record of delivering completed projects on time with minimal change orders in this local public bid arena. The quality control of our construction documents and specifications is superior. We do not design buildings for our ego, we design attractive functional buildings that meet the owner's budgets, functional and long term maintenance requirements and blend in with their surroundings. Your staff and City residents will be proud of our project delivery.

Please turn the page for WZA's answers to your concerns and needs.....

WALTERS • ZACKRIA ASSOCIATES PARK & RECREATION EXPERIENCE is leaps and bounds ahead of any local firm. Since 1996, **WALTERS • ZACKRIA ASSOCIATES** has served **BROWARD COUNTY** directly on over 100 recreational projects!

- 35+ DESIGN BUILD PROJECTS
- 35+ PARK & RECREATION MULTI-TERM
- 30+ DISTRICT VI – OWNER’S REPRESENTATIVE
- DISTRICT II DESIGN BUILD
- LONG KEY NATURE CENTER

*Anne Kolb Nature Center
Reroof*

*Roosevelt Gardens
Community Center*

Quiet Waters Park Activity Pool

The **WZA** portfolio of **BROWARD COUNTY** projects includes:

- Over 100 New & Renovation Projects for Parks & Recreation Division
- District 2 Park Improvements
- District 5 Project Rep.
- Long Key Nature Center
- Broward County Transit Office
- Broward County Traffic Engineering Building

REMODELING/RENOVATION EXPERIENCE

Our experience includes over 200 renovation projects! We will render phasing plans to properly illustrate the sequencing of work to be performed. This sequence will be developed with your staff to allow the least amount of interruption. Our project for the City of Coral Springs Public Safety consisted of building over their existing facility while they utilized it twenty-four hours a day. **We have developed details for temporary waterproofing, dust control, noise control, etc.**

CITY OF DELRAY BEACH APPROVALS

WZA is familiar with DELRAY BEACH’s approval process and your staff. Our past experience will enable us to proceed with these approvals in an effective manner.

The firm of WALTERS • ZACKRIA ASSOCIATES will coordinate all of the necessary approvals, ordinances, consulting engineering firms, space planning and interior design services. It is our goal to make the building process as simple as possible to the user so that your daily business obligations are not disturbed. The project schedules and budgets are set up in the initial schematic design phase and adhered to throughout the project. We will help establish a streamline project management system with one project representative.

LOCATION

Located in Boca Raton and Ft. Lauderdale, our offices are only 30 minutes away. WZA has previously worked on several of your park sites and are very familiar with Delray Beach.

Yes the **WALTERS • ZACKRIA ASSOCIATES** Team will provide these credentials and more! Located in downtown Boca Raton and Ft. Lauderdale. In addition **WZA** is a certified **S/MBE** and in our 35th year! **WZA will provide 50% S/MBE participation.**

AVAILABILITY, FAMILIARITY, AND RESPONSIBILTILITY WILL BE COMBINED IN ONE PACKAGE...**THE WALTERS • ZACKRIA ASSOCIATES TEAM.**

Very truly yours,

Abbas H. Zackria CSI CDT LEED AP
President

CITY OF DELRAY FORMS

Form A - Signature Authority

Indicate below Proposer's type of organization and provide the required documentation as applicable to demonstrate that the executor of Proposer's Proposal is duly authorized to execute on behalf of, and as the official act of, Proposer.

Select	Type of Organization	Officer Who Signed Proposal Submittal Signature Page	Required Authorizing Documentation
<input checked="" type="checkbox"/>	Corporation	President, Vice President, or Chief Executive Officer	None
<input type="checkbox"/>	Corporation	Director, Manager, or other title	Corporate resolution
<input type="checkbox"/>	Limited Liability Company (LLC) – Member-Managed	Member	Articles of Organization or Operating Agreement
<input type="checkbox"/>	Limited Liability Company (LLC) – Manager-Managed	Manager	Articles of Organization or Operating Agreement
<input type="checkbox"/>	Limited Partnership	General Partner	Document demonstrating the legal authority to bind the Limited Partnership
<input type="checkbox"/>	Partnership	Partner	None
		CEO, Director, Manager or other title	Authorizing documentation
<input type="checkbox"/>	Individual	Individual	None

Documentation is not required.

The required authorizing documentation is included with Proposal.

Form B - Public Entity Crimes

NOTIFICATION OF PUBLIC ENTITY CRIMES LAW

Pursuant to Section 287.133, *Florida Statutes*, you are hereby notified that a person or affiliate who has been placed on the convicted contractors list following a conviction for a public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity; may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work; may not submit proposals on leases or real property to a public entity; may not be awarded or perform work as a contractor, supplier, sub-Proposer, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017 [F.S.] for Category Two [\$35,000.00] for a period of thirty-six (36) months from the date of being placed on the convicted contractors list.

Form C - Drug-Free Workplace

In the event a tie exists at the conclusion of evaluations, preference will be given to the supplier(s) who certifies it has a drug-free workplace program in accordance with Section 287.087, Florida Statutes. The drug-free workplace preference is applied as follows:

TIE: Whenever two or more proposals are equal with respect to scoring for the evaluation criteria (e.g., price, experience, quality, service) are received for the procurement of commodities or contractual services, a proposal received from a supplier that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing a tie will be followed if none of the tied suppliers have submitted this Form C and/or have a drug-free workplace program.

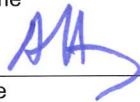

As the person authorized to sign this statement, I certify that this firm complies fully with the following requirements:

- 1) This firm publishes a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
- 2) This firm informs employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
- 3) This firm gives each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
- 4) In the statement specified in subsection (1), this firm notifies the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
- 5) This firm imposes a sanction on or requires the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
- 6) This firm will continue to make a good faith effort to maintain a drug-free workplace through implementation of this section.

Form D - Conflict of Interest Disclosure

The award of the agreement is subject to the provisions of Chapter 112, Florida Statutes. All Proposers must disclose within their Proposal, the name of any officer, director, or agent who is also an employee or relative of an employee of the City of Delray Beach.

Furthermore, all Proposers must disclose the name of any City employee or relative(s) of a City employee who owns, directly or indirectly, an interest in the Proposers firm or any of its branches.

The purpose of this disclosure form is to give the City the information needed to identify potential conflicts of interest for key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any City duty or responsibility in administration, management, instruction, research, or other professional activities.

Please check one of the following statements and attach additional documentation if necessary:

To the best of our knowledge, the undersigned firm has no potential conflict of interest as defined in Chapter 112, Florida Statutes and Section 2-443, Palm Beach County Code of Ordinances.

The undersigned firm, by attachment to this form, submits information which may be a potential conflict of interest due to other Cities, Counties, contracts, or property interest for this RFQ.

- 2004 to 2016 - **City of North Lauderdale**
 City Hall Renovations, Water Treatment Plant Controls Building, Teen Center Renovations, Aquatic Center Renovations, Public Works Building Roof Replacement, New Fire Station #34, Fire Station #44 Renovations and other projects.

- 2002 to 2004 - **Saint Marks Episcopal School**
Gymnasium and Classroom Building
- 1999 to 2016 - **City of Sunrise**
Civic Center Gymnasium Addition, Flamingo Park Renovations, Welleby Park Addition, Pine Island Park Design, Civic Center 50-Meter Pool, Civic Center Splash Pad, Sunrise Athletic Complex Concession and Press Box, Tennis Complex Phase 2, Sunrise Athletic Complex and Welleby Park Renovations.
- 1999 to 2001 - **City of Tamarac**
Community Center
- 1999 to 2000 - **Village of Wellington**
Aquatic Complex Building Renovations
- 2001 to 2004 - **North Broward Hospital District**
Outpatient Care Center Renovation and various ADA renovations.
- 1998 to 2016 - **City of Oakland Park**
Downtown District Entry Arch, Engineering Building Renovations, North Andrews Gardens Community Center, Jaco Pastorius Community Center, Collins Community Center, City wide ADA Study, City Hall and Library Renovations, Wimberly Field Renovations, and various other projects.
- 1998 to 1999 - **City of Palm Beach Gardens**
Tennis Center Building
- 1998 to 2016 - **City of Pompano Beach**
Kester Park Renovations, Beach Community Center, Tennis Center Renovations And Building Replacement, New Public Works Storage Warehouse Building, Utilities Department Administrative Offices, Water Plant Renovations, Golf Course Maintenance Building, Community Park Phases 1, 2 and 3, Avondale Park, Weaver Park, Hunters Manor Park, Weaver Park, Herb Skolnick Community Center and various other projects.
- 2012 to 2016 - **City of Boca Raton**
City wide ADA Study, Police Station Expansion Feasibility Study and Schematic Design, Red Reef Park Restroom Renovations, Hughes Park Restroom Renovations, Silver Palm Park Restroom Renovations, South Beach Park ADA upgrades.

ANTHONY MARK SCALA, P.E.

POSITION: STRUCTURAL ENGINEER

EDUCATION: UNIVERSITY OF CENTRAL FLORIDA
Bachelor of Science in Civil Engineering

LICENSE: Florida Professional Engineer #34353 since 1984
Florida Certified General Contractor, CGC0027660 since 1984

AWARDS: Florida Engineering Society Academic Scholarship
Professional Engineer, active, registered in Florida P.E No. 34353
State Certified General Contractor, inactive, CGC0027660

CURRENT MEMBERSHIPS: American Institute of Steel Construction
American Concrete Institute
National Council of Structural Engineers Association
American Society of Civil Engineers

EXPERIENCE: **August 2004 – November 5, 2010**
Broward County, FL
Chief Code Compliance Officer, Structural Engineer
Broward County Board of Rules and Appeals

Duties for the Board of Rules and Appeals included:
Reviewing projects submitted to Broward's 30 building departments for structural accuracy on both the plans and in the calculations.

- The primary emphasis is to review single family residential and townhouse projects, however, many requests from the building departments included commercial projects.
- In addition to structural reviews, I created, schedule, taught and supported the efforts of continuing education to building officials, contractors, engineers and architects several times per year.

Project Management Institute (PMI)**EXPERIENCE:**

Mr. Siddique has over fifteen (15) years of increasingly responsible professional experience in civil engineering related to roadway and drainage design, water supply, water distribution, wastewater collection, stormwater management, project management, and Construction Inspection. Expertise ranges from initial project planning and development to construction management. Experienced in serving a diverse group of clients, including private developers, cities, counties, municipalities, drainage districts, and Florida Department of Transportation. Duties and responsibilities include project management, development of innovative project specific design solutions, leading design team, building coalitions, proactively communication with the cities, counties, state regulatory agencies, environmental groups, and other entities to solve and evaluate input for implementation. Manages and maintains a continuous liaison with functional areas regarding project status, challenges, and needs. Promotes quality performance and establishes guidelines to measure performance.

THOMPSON & YOUNGROSS ENGINEERING CONSULTANTS, INC.

PERSONNEL

Daniel E. Thompson, P.E.
LEED A.P.

EXPERIENCE AND RESPONSIBILITIES

PRINCIPAL

Mr. Thompson is responsible for marketing, engineering of Mechanical systems, administration, and finance of all projects on a daily basis. Experience of over thirty-five (35) years in the consulting, contracting and HVAC equipment sales provides knowledge, experience and leadership in the design of mechanical systems for new and renovated systems for industrial, office, warehouse, theaters, commercial, hospital, hotels, restaurants, nursing facilities, multifamily residential applications.

EXPERIENCE

As principal of Thompson Engineering Consultants since 1985 and branch manager of the West Palm Beach office of C. E. Bailey & Associates for three years Mr. Thompson has developed management principals and ethics that help provide the environment, which allows design ingenuity and individual initiative.

As either engineer of record or as designer Mr. Thompson has been responsible for numerous and successful projects. These projects include: Hotels, Multifamily Apartment Buildings, Adult Congregate Life Care, Critical Care Nursing Facilities, Spas, Schools for Broward and Palm Beach County, Office Buildings, Water and Waste Water Treatment Facilities, Sports Lighting for City and County Parks, Fire Stations, Municipal Facilities, Warehouse and Industrial, Thermal Energy Storage Systems, Large Single Family Homes, Shopping Centers, Restaurants, Marinas, Parking Garages and Retail Stores.

THOMPSON & YOUNGROSS ENGINEERING CONSULTANTS, INC.

PERSONNEL

Andrew J. Youngross, P.E.

EXPERIENCE AND RESPONSIBILITIES

PRINCIPAL

Thompson Youngross Engineering Consultants, Delray Beach, Florida (561)-274-0200

Mr. Youngross has nearly twenty (20) years experience in electrical engineering field, seven years as owner or principal of his own firm. As Principal of Thompson & Youngross Engineering Consultants, he is responsible for marketing, engineering production and to oversee the Electrical design documents and coordinate all work in the office. He continues to perform site investigations, meet with clients and design electrical systems. .

EXPERIENCE

As principal of Youngross, Cardenal & Associates from September 1999 through March of 2004 and Youngross & Associates from April, 1998 through September of 1999, Mr. Youngross was responsible for all electrical design including, site investigation of existing as-built conditions, construction cost estimation, power distribution design, stand-by power generation, power studies, submittal approvals, lighting calculations and layout design, design of automatic fire alarm and smoke detection systems, and field inspections.

R.A. Kamm & Associates, Inc., Boca Raton, Florida (561)-995-8636

August 1995 – April 1998 Project Manager, manage projects, included, site investigation of existing as-built conditions, construction cost estimation, power distribution design, stand-by power generation, power studies, submittal approvals, lighting calculations and layout design, design of automatic fire alarm and smoke detection systems, and field inspections. Other responsibilities included project management and electrical department head.

Blakely-Ward-Stuckey of Florida, Inc., Pompano Beach, Florida

July 1988 – August 1995, *Design Engineer*, As a design engineer, my responsibilities at BWS include, site investigation of existing as-built conditions, construction cost estimation, power distribution design, stand-by power generation, CAD Maintenance, power studies, submittal approvals, lighting calculations and layout design, design of automatic fire alarm and smoke detection systems, and field inspections.

National Security Agency, Fort Meade, Maryland

June 1986 – July 1988, Project engineer, Leadership Communications Systems Department: Digital hardware design engineer for a digital desktop telephone. The study and implementation of various encryption modules for use in microprocessor applications. Office of Facilities Engineering: site investigation of existing as-built conditions, construction cost estimation, power distribution design, load center sub-stations, CAD drafting, power studies, design of automatic fire alarm and smoke detection systems, lighting design and field inspections.

PROFESSIONAL EXPERIENCE:

Mr. Wohlfarth, P.E. is the Director of the Engineering Department which includes professional and technical personnel. He also has overall responsibility for the Special Inspection, Construction Materials Testing and Geotechnical Engineering Divisions where he directs training, quality system review and personnel evaluations. His responsibilities include report review, signing and sealing geotechnical engineering, structural inspection and laboratory testing reports for the company, providing contract negotiation and administration, budget estimating and project management.

Mr. Wohlfarth has 25 years of experience (20 with NEF; 5 with other) in various aspects of geotechnical engineering which include determining feasibility of site development, foundation design analysis and recommendations, providing engineering evaluation for bridge and roadway construction, pavement design for roadways, roadway subgrade stabilization by geotextiles and other means, design of shoring systems for utility trenches and other deep excavations, dewatering methodology for trench and other excavations and backfill procedures, setting up and monitoring pile load tests, and providing value engineering for foundations.

PROJECT EXPERIENCE AS SENIOR PROJECT ENGINEER:

- City of Delray Beach:
 - Numerous water main, force main and drainage improvements projects throughout the City, including but not limited to: SW 1st Avenue, NW 16th Street, NE 8th Avenue, North Lake Ida Area, Coconut Row, Congress Avenue, Hyacinth Drive, Iris Drive, Linton Boulevard, and NW 3rd & 4th Avenue
 - Atlantic Avenue Improvements: I-95 to NW 12th Avenue, east of I-95 north and south side of Atlantic Avenue -new piping, paver brick/pacer sidewalks, decorative street lamps, landscaping, curb extensions, widening the sidewalks. Converted the signalized intersections at 12th, 10th and 8th Avenue to trombone mast arms.
- Multiple public safety, community and public works facilities throughout Palm Beach, Broward and Miami-Dade County, including but not limited to:
 - Four Arts Library, Palm Beach
 - Fire Station #4, West Palm Beach
 - Fire Station #3 Retaining Wall, Boca Raton
 - Public Safety Headquarters, Greenacres
 - Miramar Police Department Historic District Substation, Miramar
 - Crime Scene Investigation, Miramar
- Dania Beach Library: Provided geotechnical exploration/ engineering for the construction of a single story 10,000 SF library

PROJECT EXPERIENCE:

- City of Boynton Beach CRA:
 - Historic Cottage relocation of a historical wood frame cottage: Relocation included a new foundation, a crawl space, a new patio area, various access stairways and renovation of paver brick walkways and existing parking lot
 - Children's Amphitheater on East Ocean Avenue : Renovation of the existing amphitheater for a canopied covered stage area supported by three newly constructed main columns and the conversion of the existing staircase area into an elevated stage
 - Proposed Parking Lot: 415 NE 4th Street, Boynton Beach
- City of Coral Springs:
 - Municipal Complex, City Hall & Garage Project, West Sample Road and NW 94th Avenue
 - Coral Hills force main on Coral Hills Drive and NW 36th Place
 - Forest Hills wellhead rehabilitation at various locations
 - Emergency water services interconnect upgrades at Coral Ridge Drive
- Various projects for the Palm Beach County Board of Commissioners: Qualification Based Contract (1986-2000; 2011 - ongoing) Environmental Assessments, Geotechnical Engineering, Material Testing, Structural Inspections
 - Kirk Road Bridge over LWDD L-9 Canal (2012516)
 - Village of Palm Springs Water Interconnection (WUD 11-146)
 - 10th Avenue North Water Main Extension (WUD 12-073)
 - Riddle Road, Karl Road, Willow Road & Pine Road Water Main Extension
 - Belvidere Road & Haverhill Road Intersection Improvements (2004516a)
 - South County Water Services Replacement Phase II (WUD 12-082)
- Gulfstream Park, Hallandale: Expansion of racetrack and ancillary structures, construction of shopping and dining area, parking lot, six-story parking structure, residential tower, outdoor leisure areas, sidewalks
- Emerald Estates Park Improvements, Weston: Improvements include enlarging the parking area, new asphalt walkways, relocating the basketball court, along with other minor improvements
- Sportsplex at Coral Springs: Installation of bleachers and associated press box adjacent to the track and field area
- City of Miramar: Miramar Community and Outdoor Cultural Amphitheater @ Miramar Regional Park, Miramar overflow parking facility, Ansin Sports Complex, Bass Creek staging area, Vizcaya Park
- City of Coconut Creek: Geotechnical exploration/engineering and construction material testing firm for the installation of 5,900 lf new underground reclaimed water pipe line in the area of Wiles Road, Lyons Road and the NE 39th Street

PROFESSIONAL EXPERIENCE:

Mr. Gworek serves as a Project Manager/ Engineer. His responsibilities include preliminary site studies, geotechnical explorations to determine site preparation, feasibility studies for land development, foundation design analysis and recommendations, supervision and training of drill crews, workload analysis, observation of piling installations, pile load tests, classification of in-situ soils and field/laboratory materials testing. Mr. Gworek's experience includes construction layout, prepare surveys and asbuilts for approval from clients, contractors and the county, collection of field data, layout of structures, buildings and roads and ensuring quality of work being performed in the field by maintaining correspondence between the office and the contractor.

Mr. Gworek has 15 years of experience (15 with NEF; 3 with other). Project experience includes design of flexible (asphalt) and/or rigid (concrete) pavement. Mr. Gworek has been providing pre-condition video surveys and vibration monitoring services over the past 10 years. He has been working with representatives of GeoSonics (Seismograph Developer) on an on-going basis to continuously improve his knowledge on the interpretation of the data collected.

PROJECT EXPERIENCE AS SENIOR PROJECT ENGINEER:

- City of Boynton Beach CRA:
 - Historic Wood Frame Cottage Relocation: Relocation included a new foundation, a crawl space, a new patio area, various access stairways and renovation of paver brick walkways and existing parking lot
 - Children's Amphitheater on East Ocean Avenue: Renovation of the existing amphitheater for a canopied covered stage area supported by three newly constructed main columns and the conversion of the existing staircase area into an elevated stage
- City of Delray Beach CRA:
 - Spady Museum Proposed Parking Lot: 95 SW 5th Avenue, Delray Beach
 - Proposed Triplex: Lots 16 and 17, SW 14th Avenue, Delray Beach
 - Proposed Triplex: Lots 22 and 23, SW 14th Avenue, Delray Beach
 - 14th Avenue Townhomes: SW 14th Avenue between SW 1st and SW 2nd Street, Delray Beach
- Habitat for Humanity of South Florida, ongoing since 2014: 31 single-family residences as part of a redevelopment project throughout the Cities of Delray Beach and Boynton Beach.

PROJECT EXPERIENCE:

- Various projects for the Palm Beach County Board of Commissioners: Qualification Based Contract (1986-2000; 2011 - ongoing) Environmental Assessments, Geotechnical Engineering, Material Testing, Structural Inspections
 - Glades Citizens Villas Drainage Improvements
 - Belvidere Road and Haverhill Road Intersection Improvements
 - 74th Street North Water Main Improvements
 - Jog Road Improvements from SR 710 to north of Turnpike Entrance
- Boynton Regional Force Main, Boynton Beach: Monitored driven pile vibrations @ LWDD L30 canal and CSX RR during construction of a reclaimed wastewater force main for the South Central Regional WWTP; multiple open cut roadways (~20,000 lf), replacing/restoring driveways, damaged asphalt, existing gravity sewer pipes and irrigation.
- Various projects for the Village of Wellington
 - Wellington WWTP Improvements
 - 2-story 53,000 SF municipal building, 1-story 1,200 SF restroom building, playground structures and 3,200 SF amphitheater
 - Wellington Aero Club
 - 40th Street South Improvements
- West Village Artist Flats, City of Lake Worth: Constructing two (2) three-story townhome buildings consisting of three and five units, and a 2,000 square foot commercial building as part of the neighborhood redevelopment along Lucerne Avenue.
- Boca Raton Downtown Promenade Beautification: Arches at Sanborn Square, NE 1st Avenue at intersection of 2nd Street and East Palmetto Road
- Westgate Neighborhood Redevelopment, West Palm Beach: Redevelopment of the Westgate/ Belvedere Neighborhood after extensive damage and destruction was caused by the 2004/2005 hurricanes. Construction included nine (9) single-family residences and two (2) townhomes (affordable housing community)
- Town of Palm Beach via private firms, projects include but not limited to:
 - Proposed Drainage Improvements, Ridgeview Drive, Cherry Lane and West Indies Drive
 - E-3 Force Main Replacement, North Lake Trail
- City of Lake Worth, 7th Avenue South Extension: 1,600 to 1,700 linear feet of new asphalt paved roadway section consisting of two lanes, each bordered by concrete curb and gutter and a four foot wide bike lane
- Deerfield Beach Streetscape and Drainage Improvements, Deerfield Beach: SE 15th Avenue, East Hillsboro Boulevard and SE 4th Street

STEVEN M. WATTS, PSM
Project Manager
AWN Design & Consulting Group, Inc.

EDUCATION:

BSLS, Purdue University, 1984

PROFESSIONAL REGISTRATION:

Florida PSM No. 4588

QUALIFICATIONS:

Mr. Watts is President of AWN Design & Consulting Group, Inc. (AWN) specializing in surveying and mapping, land acquisition, computer mapping, land information/geographic information systems (LIS/GIS) and facilities management. As Principal Surveyor of AWN he is responsible and involved in all aspects of the company's surveying and mapping projects.

Prior to incorporating AWN in April, 2003, he was Vice President and Director of Surveying for Williams, Hatfield and Stoner, Inc. (WHS) having been an employee of WHS since 1984 upon graduation from Purdue University (BSLS-Lambda Sigma: Land Surveying Honorary). Having spent his entire professional surveying career working in Florida, he is extremely knowledgeable of the rules, requirements and specifications for completing large scale surveying and mapping projects in the South Florida area.

Mr. Watts also has extensive experience in the development of the CADD standards applicable to surveying and engineering projects together with experience in developing computer capabilities applicable to the surveying and engineering disciplines.

EXPERIENCE:

General Surveying & Mapping Services – City of Pompano Beach

Boundary & Topographic Surveys: Community Park, Canal Point Park; Legal Descriptions: Avondale Fishing Piers; Topographic Surveys: Pompano Beach Air Park; Taxiway "N" – Pavement Widening, Runway 15 – Runway Protection Zone, Magnetic Heading, Runways 6-24, 15-33 and 10-28.

General Surveying & Mapping Services – City of North Lauderdale

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, City Limit Determinations and General Surveying Services for the City of North Lauderdale. Additional responsibilities include project surveyor for the topographic survey of the municipal complex, GIS, water control district and utility mapping, Hampton Pines Park and Silver Lakes Middle School ball field renovation.

General Surveying & Mapping Services – City of Coral Springs

Boundary and Topographic Surveys, As-Built Surveys, Legal Descriptions, Design Surveys, Construction Stakeout, and General Surveying Services for the City of Coral Springs

WALTERS  ZACKRIA

ARCHITECTS

TEAM EXPERIENCE

Corporate Profile

Walters Zackria Associates, PLLC brings forth over 1,000 South Florida projects and thirty four years of local experience. The firm is located Fort Lauderdale, Florida.

WZA specializes in municipal public safety, public works and parks and recreational building projects. The firm's portfolio displays fresh and exciting solutions to the user's needs. Our past clients take pride in the facilities we have designed.

A few of the firm's clients include: **Broward County Aviation Department, Broward Sheriff's Office, City of Wilton Manors, City of Oakland Park, City of Margate, City of Delray Beach, Broward County Parks and Recreation, City of Coconut Creek, City of Ft. Lauderdale, City of Pompano Beach, City of Tamarac, City of Coral Springs, City of North Lauderdale, City of Sunrise, City of Hallandale City of Dania Beach, and the Town of Davie.**

A unique quality control system for construction documents and specifications has been developed through our 34 years of public bidding. Projects receive very few change orders and the Owner's construction budgets are adhered to.

The **Walters Zackria Associates Team** is committed to the "Triangle of success"—creative solutions that conform to design intent, budget and schedule.

FIRM PROFILE

Wallace Drive Office/Warehouse, Delray Beach

Established in 1988, **Dave Bodker Landscape Architecture/Planning (DBLAP)** offers a full range of services, from conceptual design and planning through construction and installation administration. We take a personalized and detailed approach to every project to insure quality and to meet the client's budget and schedule.

Mr. Bodker's experience ranges from conceptual design and planning through supervision of construction. Our scope of projects includes single-family residential, multi-family residential, commercial properties (restaurants, shopping centers, hotels, office complexes, banks), public and semi-public facilities (churches, schools, utility complexes, parks), and industrial facilities. Although we work primarily in South Florida, our firm is involved in projects throughout the state.

Over the years, we have won numerous awards for landscape design, such as the Prism, FAME and Aurora Awards, City of Delray Beach Site Plan Review and Appearance Board Awards, and

the City of Fort Lauderdale Community Appearance Award.

DBLAP produces all drawings on Autocad. Additional capabilities including scanning, color rendering, and production of CDs for information and storage.

The firm's principal, Dave Bodker, has more than 30 years of professional landscape architectural experience. He graduated from Louisiana State University and is a registered Landscape Architect.

EXPERIENCE

Thompson & Youngross Engineering Consultants is a well-established Professional Engineering firm with a record of providing complete mechanical, electrical engineering service for many and varied projects. By close coordination with other project design professionals, where applicable, and concerted efforts to design projects that meet the owners' needs while maintaining budget restraints, we have been able to exceed the expectations of our clients. Close attention to detail, defining the scope of work to be completed, follow through from schematic design to project close out help keep costly design changes and change orders to a minimum. Every project has the close supervision of either Daniel Thompson or of Andrew Youngross; both Principals of Thompson & Youngross Engineering Consultants so that the design professional selected by the Owner is the same person that is responsive and responsible for the design and project follow through.

Our well trained and experienced staff of individuals' work as a team to provide the best design for each project while keeping the ultimate goal of not only first costs, but also owning and operating costs in mind for each project. Training is accomplished by in house classes presented by either staff members or invited guest trainers. Outside training is provided through attendance of various seminars. Most of the staff is CADD trained and capable of providing construction documents in the electronic medium as well as the more traditional pencil or pen on vellum and Mylar mediums as the project dictates.

Over the years Thompson & Youngross Engineering Consultants has provided Consulting and Design Services for a varied range of projects. Some of our areas of experience include Design HVAC, Plumbing, Electrical, Communication, Fire Alarm, Security, Computer Network Cabling and Thermal Energy Storage, for Hotels/Motels, Apartment Buildings, Life Care Communities, Nursing Homes, Office Buildings, Manufacturing Facilities, Warehouse, Municipal Complexes, Fire Stations, Libraries, Parking Garages, and Site Lighting.

STAFF

Daniel E. Thompson, P.E.; LEED-AP – PRINCIPAL

Phone Extension #446

E-mail: dan@tecfla.com

Mr. Daniel E. Thompson is responsible for marketing, engineering of Mechanical and Electrical systems, administration, and finance of all projects on a daily basis. Experience of over thirty-five (35) years in the consulting, contracting and HVAC equipment sales provides knowledge, experience and leadership in the design of mechanical and electrical systems for new and renovated systems for industrial, office, warehouse, theaters, commercial, hospital, hotels, restaurants, nursing facilities, multifamily residential applications. As principal of Thompson Engineering Consultants since 1985 and branch manager of the West Palm Beach office of C. E. Bailey & Associates for three years Mr. Thompson has developed management principals and ethics that help provide the environment, which allows design ingenuity and individual initiative.

As either engineer of record or as designer Mr. Thompson has been responsible for numerous and

successful projects. These projects include: Hotels, Multifamily Apartment Buildings, Adult Congregate Life Care, Critical Care Nursing Facilities, Spas, Schools for Broward and Palm Beach County, Office Buildings, Water and Waste Water Treatment Facilities, Sports Lighting for City and County Parks, Fire Stations, Municipal Facilities, Warehouse and Industrial, Thermal Energy Storage Systems, Large Single Family Homes, Shopping Centers, Restaurants, Marinas, Parking Garages and Retail Stores.

Andrew J. Youngross, P.E. – PRINCIPAL

Phone Extension #447

E-mail: andrew@tecfla.com

Mr. Youngross has nearly twenty (20) years experience in electrical engineering field, seven years as owner or principal of his own firm. As a Principal of Thompson & Youngross Engineering Consultants, he is responsible for marketing, engineering production and to oversee the Electrical design documents and coordinate all work in the office. He continues to perform site investigations, meet with clients and design electrical systems.

As principal of Youngross, Cardenal & Associates from September 1999 through March of 2004 and Youngross & Associates from April, 1998 through September of 1999, Mr. Youngross was responsible for all electrical design including, site investigation of existing as-built conditions, construction cost estimation, power distribution design, stand-by power generation, power studies, submittal approvals, lighting calculations and layout design, design of automatic fire alarm and smoke detection systems, and field inspections.

Michael A. Bassford, P.E. – MECHANICAL ENGINEER-PROJECT MANAGER

Phone Extension #452

E-mail: mikeb@tecfla.com

Mr. Bassford is responsible for designing HVAC mechanical systems for commercial and residential buildings such as schools, multi-use buildings, special-care facilities, medical/dentist offices, restaurants, hotels and office/retail spaces. Mr. Bassford has participated in project coordination, working with Architects and Contractors, including site investigation, design conceptualization, in-house project management with MEP design engineers, to meet strict deadlines, and provide support through construction phase. Extensive tenant improvement design experience, requiring coordination of new engineering system requirements with existing site conditions.

Artur Amaral, P.E. – MECHANICAL ENGINEER-PROJECT MANAGER

Phone Extension #453

E-mail: artur@tecfla.com

Mr. Amaral is responsible for designing plumbing and HVAC mechanical systems for commercial and residential buildings such as schools, multi-use buildings, special-care facilities, medical/dentist offices, restaurants, hotels and office/retail spaces. Other responsibilities include; Coordination of projects with clients, site investigation of existing as-built conditions, Auto-CAD layout design, creation of contract spec documents, submittal approvals, coordination of plumbing/mechanical/electrical systems within office prior to final construction documents.

Matthew D. Thompson - BUSINESS MANAGER AND CONTRACT ADMINISTRATOR

Phone Extension #448

E-mail: matt@tecfla.com

Mr. Matthew Thompson is responsible for cost control, personnel relations, project estimating, project scheduling, invoicing, accounts payable and receivable. Mr. Thompson has in the past been responsible

for design layout of: lighting, power, communication, fire alarm systems for residential and commercial structures, computer aided photometric calculations using AGI (TM), programs selection of power and lighting equipment, coordination with other design team members. Other duties are shop drawing review, liaison with clients and site project review. Mr. Thompson is the office/business manager and computer system and network manager responsible for updating the several systems within the office.

Robert Robbins, P.E. – MECHANICAL ENGINEER – PROJECT MANAGER

Phone Extension #451

E-mail: rob@tecfla.com

Mr. Robbins recently joined the firm on in March of 2015 and brings over 22 years' experience in electrical and mechanical design, construction documents and specifications. His responsibilities include complete engineering design of electrical systems for new and renovated buildings, electrical systems analysis and coordination with mechanical and plumbing disciplines. His past experience includes engineering design for; signal and multi-family residential buildings, automobile dealerships, restaurants, medical offices, commercial retail buildings, office buildings, tenant office renovations, and hotels.

Professional Qualifications of the Firm

NUTTING ENGINEERS OF FLORIDA, INC. has been one of the premier geotechnical engineering firms in South Florida since its inception in 1967. Prior to this date work was performed under the name Nutting Engineers, Inc., which originated in 1956 preceded by H.C. Nutting in Miami from 1932 until 1956.

NUTTING's comprehensive range of services include geotechnical exploration and engineering including soil borings and groundwater well drilling, monitoring of pile installation, groundwork modification and chemical grouting procedures, quality control/ quality assurance testing of construction materials, structural inspections (special/threshold) of structures.

Project types include airports, seaports, roadways (improvements, widening, extensions, lighting, guard rails), bridges, parking lots and garages, drainage systems, city halls and municipal buildings, parks, recreational facilities, hospitals, educational facilities (K-12 and higher educational facilities) including auditoriums, stadiums/ sports facilities, water and wastewater treatment plants, water storage facilities, courthouses, industrial parks, mining operations, shopping centers, residential communities, hotels, assisted-living facilities, high-rise condominiums and office towers, and communication towers.

REQUESTED SERVICES

GEOTECHNICAL EXPLORATION AND ENGINEERING:

NUTTING'S geotechnical exploration and engineering services include site explorations, sample analysis, site and foundation recommendations, site feasibility, ground modification recommendations, large scale geological survey programs, utilization of outcroppings of subsurface materials, resistivity testing, and geophysical techniques such as ground penetrating radar, soil borings, monitoring well installation and seismographic equipment utilization. **Drillers (7)** are trained and certified to perform geotechnical drilling services in accordance with the South Florida Water Management District (SFWMD) and the Florida Department of Transportation (FDOT) standards.

The NUTTING fleet includes **eight (8) company owned** soil and rock drilling rigs, including Mobile B-57 and B-59 drill rigs, a Dietrich D-50 track rig and portable tripod equipment.

Geotechnical exploration services include:

- ◆ Standard penetration test borings
- ◆ Installation and monitoring of monitor wells
- ◆ Double ring infiltration tests
- ◆ Undisturbed sampling (Shelby tube samples)
- ◆ Roadway soil survey
- ◆ Percolation tests for exfiltration and Septic systems- SFWMD & FDOT
- ◆ Rock coring
- ◆ Power/manual auger borings
- ◆ Ground Penetrating Radar (G.P.R)
- ◆ Well abandonment
- ◆ Structure investigation

Monitoring services include:

- ◆ Fill and demucking operations
- ◆ Vibroflotation & Vibro replacement (stone columns)
- ◆ Deep dynamic compaction
- ◆ Pile load test & load bearing tests
- ◆ Footing preparation
- ◆ Precast yard

Professional Qualifications of the Firm

- ◆ Cementitious and chemical grouting
- ◆ Piling installation - driven and auger cast piles
- ◆ Temporary & permanent excavation shoring techniques
- ◆ Fire proofing
- ◆ Vibration monitoring (seismograph)
- ◆ Test pits

CONSTRUCTION MATERIAL TESTING SERVICES:

Construction materials quality control testing of soil, concrete, asphalt, grout and mortar is performed by **field technicians (~25 company wide)** with certifications and training through the Construction Training Qualification Program (CTQP), ACI, Masonry Inspectors, Florida Building Codes and Standards, FDOT, Troxler Nuclear and SFWMD.

Field-testing services include:

- ◆ Soil density by nuclear gauge
- ◆ Concrete cylinders, slump, air content tests
- ◆ Masonry grout prism tests
- ◆ Pile grout cube tests
- ◆ Asphaltic concrete coring and thickness tests
- ◆ Windsor probe & Swiss hammer tests-concrete
- ◆ Pachometer testing (re-steel location, size)
- ◆ Precast plant testing and inspection
- ◆ Structural concrete coring
- ◆ Load testing of structural members
- ◆ In-situ pressure testing and pump testing
- ◆ HRS soil profiles for septic systems
- ◆ Roof fastener pull test
- ◆ Floor flatness testing

LABORATORY SERVICES/ SPECIALTY CERTIFICATIONS:

NUTTING'S fully equipped main laboratory is accredited by the Construction Materials Engineering Council (CMEC) and the Florida Department of Transportation (FDOT). Each laboratory and its technicians are held to the same standards, therefore strengthening our commitment to our clients by guaranteeing accurate test results with routinely calibrated and tested equipment.

Our Laboratory Manager has undergone intense training and has multiple certifications through these same organizations (AASHTO, CMEC, and FDOT) as well as the Construction Training Qualification Program (CTQP). He is therefore qualified to perform and oversee the lab personnel (**3 lab techs**) perform a wide variety of laboratory testing services.

LOCAL PRESENCE = RAPID RESPONSE

NUTTING's Palm Beach County office/laboratory will be responsible for handling this City of Delray Beach contract with the benefit of considerable local project experience and presence. The Miami-Dade County office/laboratory will provide backup support on an as needed basis. *The recent, current and projected workload of the Palm Beach County office is at ~80%, so we have the personnel available to service this contract immediately.*

Given the strategic location(s) of our offices close to I-95, SR 836 and the Florida Turnpike, our team of field crews, technicians, project managers and project engineers can quickly mobilize to any project site within South Florida and the Treasure Coast. Given the large pool of equipment resources, management and multi-licensed and cross-trained technicians among the 3 offices/laboratories, quality of service will be first-rate.

Village of Pine Crest Drainage Improvements, Pine Needle Lane, Rock Garden and Vista Lane, Pinecrest	Chen Moore & Associates 155 South Miami Avenue Miami, Fl. 33130 Ms. Angela Baron (786) 497-1500 x1052	2012	Geotechnical engineering/ testing services that consisted of two (2) asphalt cores, eight (8) 15' SPT borings and eight (8) exfiltration tests to determine existing asphalt conditions including base and sub-base conditions for the purpose of drainage and roadway improvements.

COMPANY PROFILE
AWN DESIGN & CONSULTING GROUP, INC.
SURVEYORS & MAPPERS

AWN Design & Consulting Group, Inc. is a surveying and mapping firm which specializes in engineering and architectural design surveys, land acquisitions, legal descriptions and computer mapping. Incorporated in 2003, the president of AWN, Steven M. Watts, PSM, has over 32 years of experience in surveying and mapping with 28 of those years as a Florida Professional Surveyor and Mapper and spending his entire career employed in Broward County, Florida. Throughout the firm's existence AWN has provided surveying services either directly to various Broward County municipalities or as a surveying sub-consultant.

AWN Design & Consulting Group, Inc.
Surveyors & Mappers
227 Goolsby Boulevard
Deerfield Beach, Florida 33442
Telephone: 954-481-8682
Mobile: 954-914-4026
E-Mail Address: s_watts@bellsouth.net

AWN was also a sub consultant for the Eastern Broward parcel mapping project for the Broward County Property Appraisers' office. The project involved creating a highly accurate seamless base map for all the tax folio parcels located in the eastern half of Broward County. The parcel map is the base on which the various land and geographic information systems (LIS/GIS) that exist on Broward County websites display their data.

AWN is known by its ability to provide a high level of commitment, responsiveness and hands-on effort to its clients. Our philosophy is that our staff is at the client's beckoning and that our present clients, and the relationships we build with them, will continue to be our future clients. We are proud of our demonstrated level of commitment to our profession and our clients. As most survey projects are in short duration from a time standpoint though usually the first critical path item in any municipal project, once it has been approved, we strive to respond immediately to any survey need.

As president of a small firm, Steve Watts, is personally responsible for the work being performed and is actively involved in the day-to-day operations of the firm. He has a hands-on approach which has proven to be a key to the success both the firm and he have experienced in the surveying and mapping profession. Potential clients are encouraged to contact references to inquire as to the quality and timeliness of service.

AWN staff includes a Professional Surveyor and Mapper (PSM), CADD technician, survey crew and administrative assistant.

Project: Relocate/Replace Taxiway Delta – Pompano Beach Air Park

Organization Name: Kimley-Horn

Address: 600 N. Pine Island Road, Suite 450, Plantation, FL 33324

Project Dates: Spring 2015

Status of Project: Design

Key Personnel's Role in Project: Steven Watts, PSM, Project Surveyor, Involved in all aspects of project:

Scope-of-Work:

- Establish a base line along the new Taxiway Delta alignment (240' southwest and parallel to Runway 15-33). Identify and establish equation stations for intersection pavements including both runways and taxiways.
- Develop a 25' grid of cross sections for the entire length of the proposed taxiway extending from the intersection of Taxiway Bravo to the intersection with Runway 10-28. In addition provided elevations 17.5 offset left and right of proposed taxiway centerline. Elevation shall be taken on grid points, edge of pavements, ground shots at edges of pavements, and at all grade breaks. In locations where swales are present or other significant geographic feature would alter earthwork computations, increase the density of points to document the changes.
- Locate all pavement markings.
- Locate all taxiway/aircraft apron edge lights including type of light (base or stake mounted).
- Locate all signs, including sign message with description of type of sign and any concrete sign/base footer.
- Locate (if present) upper and lower end, including invert elevations and pipe material and size of all culverts and storm drains passing through the limits of survey. Locate all structures within the limits of survey including top and invert elevations and invert elevation of connecting pipes.
- Invert elevation at both ends and lengths of pipes extending outside the limits of survey shall also be determined.
- Establish control points outside the area of construction for monumentation. Five (5) permanent control points with bench mark elevations should be established for contractor use during construction.

Project: Boundary & Topographic Survey Miramar Civic Center

Organization Name: Walters Zackria & Associates

Address: 1500 W. Cypress Creek Rd., Suite 105, Fort Lauderdale, FL 33301

Project Dates: June 2014

Status of Project: Design

Key Personnel's Role in Project: Steven Watts, PSM, Project Surveyor, Involved in all aspects of project:

Scope-of-Work:

- Boundary survey of a developed parcel, approximately 4 acres in size, located at 3500 S.W. 69th Avenue, Miramar, FL.
- The parcel being a portion of Section 26, Township 51, Range 41, with a Parcel ID# of 5141-26-00-0072 and legally described in O.R.B. 17025, Pg. 169, B.C.R.
- Survey prepared in accordance with the standards as set forth by Chapter 5J-17 of the Florida Administrative Code pursuant to Florida Statutes Chapter 472.027. Survey included the legal description, flood zone information for the subject property and other pertinent survey information. All encumbrances and or easements that affected the property were graphically shown on the Map of Survey.
- Topographic Survey included locations of all above ground improvements within the parcel including the right-of-way of the adjacent roadways, with horizontal locations and vertical elevations being obtained for such items as parking lots, walks, edge-of pavement, islands, access points, buildings, and visible above ground utilities.
- A 50 ft. grid of spot elevations taken throughout the site together with any swales and mounds.
- All trees within the site with a 3 in. caliper measured at breast height were located.

Project: Drainage Easements Bel Air Neighborhood Lauderdale By The Sea

Organization Name: Town of Lauderdale-By-The-Sea

Address: 4501 N. Ocean Drive, Lauderdale-By-The-Sea, FL 33308

Project Dates: October 2013

Status of Project: Legal

Key Personnel's Role in Project: Steven Watts, PSM, Project Surveyor, Prepared Sketch & legal descriptions:

Scope-of-Work:

- Ascertain whether there were any existing, recorded drainage easements within the Bel-Air neighborhood and more specifically within the 8 outfall locations as per the Town's maps.
- Performed a diligent search of all publicly recorded information as it pertained to any drainage and/or utility easements encumbering the 15 platted lots and 1 canal\street parcel.
- Report provided to the Town with the 8 outfall locations, the platted legal descriptions, addresses and a summary of the research for each location.
- Prepared a certified sketch and legal description for each required drainage easement, the size and location as directed by the Town. The sketch and legal descriptions were prepared in accordance with the Florida Minimum Technical Standards governing surveying as set forth by Chapter 5J-17 of the Florida Administrative Code pursuant to Florida Statutes Chapter 472.027.

Project Name: District 2 Park Renovations

Description: Project included renovations to 4 parks facilities:

Tradewinds Park – Construct (4) softball fields, (3) soccer / cricket fields, (3) concession / restroom buildings, parking lot drainage upgrades, entry drive, ticket booth and gatehouse. 20 acres redesigned.

Quiet Waters Park – Construct aquatic playground structure, maintenance building, parking lots, restroom building entry drive, ticket booth and gatehouse. 5 acres redesigned.

North Broward Park – Replace baseball field with soccer / football field. 2 acres redesigned.

Deerfield Island Park – Replace natural area elevated walkway.

Each park, except Deerfield Island, included landscaping, irrigation, site lighting, and sports field lighting.

Project Cost: \$9,280,000

Change Orders: \$120,000 requested by Owner for general park maintenance and repairs.

Project Started in 2009 and was completed in 2012.

Design Services Provided: Prime Architectural Design Services provided by WZA. Sub-consultant services included Surveying, Civil Engineering, Landscape, Irrigation, Mechanical, Electrical, Plumbing, Structural, Aquatics, and Sports Field Lighting.

Project Name: Pompano Beach Community Park

Description: 72 acre Park Project Included Multiple Phases from 2001 to 2011.

Master planning started in 2001; Phase 1 construction began in 2005 and phase 3 was completed in 2011.

1. Phase 1 – Construct Parking lots, playground, practice ballfields, walking trail, exercise stations,
Tennis center renovations with new fencing, lighting, and hydrocourt drainage.
2. Phase 2 – Construct (2) baseball fields, soccer/ football fields, concession/restroom building, maintenance building.
3. Phase 3 – Replace (4) Softball fields, concession/restroom building, shelter, playground.

Each phase included landscaping, irrigation, site lighting, and sports field lighting

Cost: Phase 1: \$1.6 million; Phase 2: \$3.9 million, and Phase 3 \$2.3 million

Change Orders were for \$20,108 requested by the Owner for general park maintenance and repairs.

Design Services Provided: Prime Architectural Design Services provided by WZA. Sub-consultant services included Surveying, Civil Engineering, Landscape, Irrigation, Mechanical, Electrical, Plumbing, Structural, Tennis Courts, and Sports Field Lighting.

Key Personnel – up to five projects

Dave Bodker

1. Project Name: The Landmark
Address: Doral, FL
Project Date: 6/2015 to present
Status of Project: Construction
Key Personnel's Role: Designer, Project Manager
Scope of Work: Planting and irrigation design for new apartment complex.
2. Project Name: Modello
Address: Miami-Dade Co, FL
Project Date: 11/2014 to present
Status of Project: Permitting
Key Personnel's Role: Designer, Project Manager
Scope of Work: Planting and irrigation for new low income residential complex.
3. Project Name: Quiet Waters Park
Address: Deerfield Beach, FL
Project Date: 11/2015 to present
Status of Project: Construction
Key Personnel's Role: Designer, Project Manager
Scope of Work: Planting and Irrigation design for portion of park.
4. Project Name: Coconut Creek Public Works
Address: Coconut Creek, FL
Project Date: 2/2011
Status of Project: Complete
Key Personnel's Role: Designer, Project Manager
Scope of Work: Planting and Irrigation Design for new Public Works Building.
5. Project Name: Flamingo Park
Address: Pembroke Pines, FL
Project Date: 2/2016 to present
Status of Project: Design
Key Personnel's Role: Designer, Project manager
Scope of Work: Planting and Irrigation design for renovation to portions of Flamingo Park.

Municipal Projects

City of Delray Beach, FL, Pompey Park Sports Lighting

Principal in Charge: Andrew J. Youngross, P.E.

Electrical Designer: Robert Butler

City of Delray Project Manager: Victor Majtenyi (majtenyi@ci.delray-beach.fl.us)

Scope of Work: Design of new sport lighting and electrical power distribution for three ball fields, outdoor basketball and tennis court lighting.

Town of Lake Park, FL

Principal in Charge: Andrew J. Youngross, P.E.

City of Lake Park Project Manager: Mr. Richard Pittman, CRA project Manager
535 Park Ave.

Lake Park, Florida, 33403

PH: 561- 881-3347

Scope of Work: Lighting Design for new street lighting for the Town to include all residential areas, retail and industrial zones. Work involved budget estimating for first cost and operating costs for three different options.

City of Pompano Beach, FL Fire Station Number 11

Principal in Charge: Andrew J. Youngross, P.E.

City of Pompano Beach Project Manager:

Clayton Young

1201 NE 5 Avenue

Pompano Beach, Florida 33060

Phone: 954-786-4029

Clayton.young@copbfl.com

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT

Scope of Work: Mechanical, Electrical, Plumbing and fire Protection design for a new Fire of new Fire Rescue building with three apparatus bays, common area, fire fighters living and sleeping area. Project is LEED.

Village of Palm Springs, FL Maintenance Facilities

Principal in Charge: Daniel E. Thompson, P.E.

Village of Palm Springs Project Managers:

William Davis – Public Service Director

561-965-5770

Bette Lowe

561-965-4016

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT

Scope of Work: Design of Mechanical, Electrical, Plumbing and fire Protection design for a new 25,000 square foot 5 bay service area and warehouse with office space.

City of West Palm Beach, FL Fire Station #4

Principal in Charge: Andrew J. Youngross, P.E.

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT

City of West Palm Beach Project Managers:

K. W. “Kenny” Jones – Assistant Fire Chief

West Palm Beach Fire Rescue

561-804-4705

Walter “Butch” Brandt

West Palm Beach Fire Rescue

561-804-4840

Scope of Work: Design of new Fire of new Fire Rescue building with three apparatus bays, common areas, fire fighters living and sleeping area. Project is LEED. Project is on hold for funding.

City of Delray Beach, FL Fire Station #3

Principal in Charge: Andrew J. Youngross, P.E.

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT

Scope of Work: Mechanical, Electrical, Plumbing and fire Protection design for a new Fire of new Fire Rescue building with three apparatus bays, common area, fire fighters living and sleeping area. Project is LEED. This project is on hold for funding and is similar to City of Delray Beach Fire Station #4.

City of Delray Beach, FL Fire Station #4

Principal in Charge: Andrew J. Youngross, P.E.

City of Delray Beach Project Manager: Rafael C. Ballestero – Deputy Director of Construction

City of Delray Beach; 561-243-7320

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT

Scope of Work: Mechanical, Electrical, Plumbing and Fire Protection design for a new Fire of new Fire Rescue building with three apparatus bays, common area, fire fighters living and sleeping area. Project is LEED. This project is on hold for funding and is similar to City of Delray Beach Fire Station #4.

City of Boca Raton, FL – Five new Fire Rescue Stations and Three Renovated Fire Rescue Stations.

Principal in Charge: Andrew J. Youngross, P.E.

Project Manager for BRFR: Cpt. Tom Woods, BRFR and Michael J. Gagnon - Construction
Project Manager, City of Boca Raton: Cell: 561-239-1840

Mechanical Design Engineer: Michael Bassford, P.E.; Fabio Faerman, EIT

Electrical Designer: Dennis Mikulski; Matthew Thompson.

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT; Artur Amaral, EIT

Scope of Work: Remodel of existing fire rescue facilities and complete demolition of existing facilities or completely new facilities in the City of Boca Raton, FL. All of the Fire Rescue buildings have a minimum of three apparatus bays, common area, fire fighters living and sleeping area. Included in this work was the addition to Fire Rescue Station No. 5 service bays for vehicle maintenance.

Village of Key Biscayne, FL Community Center

Principal in Charge: Daniel E. Thompson, P.E.

Project Manager for the Village of Key Biscayne: Ernest Cercas, Ecercas@aol.com.

Project Manager for Architectural Firm Currie Sowards Aguila: Jose Aguila, Architect

Mechanical Designers: Artur Amaral, EIT; Jose Menendez, P.E. (retired), Fabio Faerman, EIT

Electrical Designers: Matthew Thompson, Dick Crowl, (retired).

Scope of Work: Mechanical, Electrical, Plumbing and Fire Protection design for a new community center with interior gymnasium and basketball court, exercise rooms, meeting rooms, arts and crafts, exterior pool, and underground parking.

Palm Beach County, FL South County Regional Park

Principal in Charge: Andrew J. Youngross, P.E. and Daniel E. Thompson, P.E.

Electrical Design: Matthew Thompson, Dick Crowl (retired), Dennis Mikulski

Mechanical Design Engineer: Michael Bassford, P.E., Daniel Thompson, P.E.

Plumbing and Fire Protection Designer: Angelo Da Silva, EIT and Artur Amaral, EIT

Project Manager for Palm Beach County Parks and Recreation: Various.

Project Manager for Civil Engineer: Tracy Ward, P.E. Heller Weaver and Shermetta.

(tw_hws@bellsouth.net)

Project Manager for the Architect: Mr. Dale Meaux, Architect, API Group

(dalem@apiboca.com)

Scope of Work: The projects consist of a 320 acre final phase of the South County Park. Included in the park is; a 27 hole golf course with driving range, clubhouse, maintenance facilities, golf cart storage; amphitheater with outdoor seating for 500 persons; passive park area, standalone toilet facilities and park shelters, lakes. Mechanical, HVAC, plumbing and electrical design was provided for all the structures. Electrical design and coordination with FPL for all power service, street lighting and parking lot lighting was provided.

Small Projects for Palm Beach County, FL

Principal in Charge: Andrew J. Youngross, P.E.

Electrical Designer: Matthew Thompson.

Project Manager for Palm Beach County Facilities:

Pat D'Angelo, pdangelo@co.palm-beach.fl.us

2633 Vista Parkway

West Palm Beach, FL 33411

561 233 2051

Scope of Work: Numerous small projects including site lighting design, emergency power generators for various locations in the county.

Monroe County, FL

New Fire Rescue Stations in Key Largo, Big Coppit Key, Lower Matecumbe Key and renovations to several other Fire Rescue Stations.

Principal in Charge: Daniel Thompson, P.E.

Electrical Design Engineer: Andrew Youngross, P.E., Dennis Mikulski, Matthew Thompson

Mechanical Design Engineer: Michael Bassford, P.E.

Murray T. Nelson Upper Keys Government Center

Principal in Charge: Andrew J. Youngross, P.E. and Daniel Thompson, P.E.

Mechanical Design Engineer: Michael Bassford, P.E.

Electrical Designer: Dennis Mikulski, Matthew Thompson

Plumbing and Fire Protection Designer: Artur Amaral, EIT and Angelo Da Silva, EIT

Kevin G. Wilson, Project Manager

Monroe County Facilities Development

wilson-kevin@monroecounty-fl.gov

Scope of Work: The mechanical, plumbing, electrical and fire protection design for a new government center for the upper keys located at MM 103 on the Overseas Highway. The facility housed government offices for planning and zoning, building and other municipal services.

Continuing Contract for Professional Services – Monroe County

Principal in Charge: Andrew J. Youngross, P.E. and Daniel Thompson, P.E.

Professional engineering and surveying services for work of a specified nature as described in specific and individualized task orders as requested by the County. Each individual project costs do not exceed \$100,000.00 and professional service fees do not exceed \$10,000.00.

Contract date is from October 21, 2015 for four years with option for renewal for one additional year.

1.
 - a. Organization: Palm Beach County - Department of Engineering and Public Works
 - b. Address: West Palm Beach, Florida
 - c. Project Date: Ongoing
 - d. Status: Ongoing
 - e. Role: Principal Engineer (Sub-Consultant geotechnical engineering services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. (NE) holds a qualification- based contract with Palm Beach County. As part of this contract, NE was retained by the County to provide geotechnical exploration/engineering services for the installation of a new pathway along 32nd Drive South, as well as multiple roadway and infrastructure improvements.

2.
 - a. Organization: City of Miramar
 - b. Address: Miramar, Florida
 - c. Project Date: Ongoing since 2001
 - d. Status: Ongoing
 - e. Role: Principal Engineer (Sub-Consultant geotechnical engineering and/or construction materials testing services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. holds a qualification-based contract with the City of Miramar. Projects under this contract include but are not limited to the City of Miramar Overflow Parking Facility, Fire Station #107, Miramar Police Department, East Miramar fire hydrant and line improvements, Old City Hall site, Ansin Sports Complex, Miramar Multi-Service Center, numerous parks and infrastructure improvement projects.

3.
 - a. Organization: Town of Miami Lakes
 - b. Address: Miami Lakes, Florida
 - c. Project Date: Since 2010
 - d. Status: Ongoing
 - e. Role: Principal Engineer (Sub-Consultant geotechnical engineering and/or construction materials testing services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. was retained by the Town of Miami Lakes to perform geotechnical exploration/engineering services, laboratory testing, and construction materials testing services for various park improvement projects, including but not limited to: Construction of a new ~4,000 square foot clubhouse building and associated drainage improvements at Optimus Park Clubhouse, new picnic shelter, playground, basketball half court, observation pier, and asphalt paved walkways for the Sevilla Estates Park Improvements, and new Youth Center, basketball court, two (2) picnic areas, and a dumpster enclosure for the Park East Park Improvements.

4.
 - a. Organization: City of Hallandale Beach
 - b. Address: Hallandale Beach, Florida
 - c. Project Date: Since 2001
 - d. Status: Ongoing
 - e. Role: Principal Engineer (Sub-Consultant geotechnical engineering services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. has performed geotechnical exploration/engineering, construction materials testing and/or inspection services for the City of Hallandale Beach since 2001. Most recent projects include, but are not limited to: Construction of a new community recreation center, swim sports facility, field house, pool and children's area, multiple sports courts and two (2) baseball fields on a 16.5 acre site at Blusten Park, Golden Isles tennis complex and dog park, and construction of a two to three-story, ~45,000 square foot building with associated site amenities at OB Johnson Park.

5.
 - a. Organization: The City of Pompano Beach c/o C3TS
 - b. Address: Pompano Beach, Florida
 - c. Project Date: 2012
 - d. Status: Completed
 - e. Role: Principal Engineer (Sub-Consultant geotechnical engineering services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. was obtained by the C3TS to perform geotechnical exploration/engineering for various improvements and repairs at Alsdorf Park, including expansion of paved parking area, existing boat dock, boat ramp and seawall.

1.
 - a. Organization: The City of Pompano Beach
 - b. Address: Pompano Beach, Florida
 - c. Project Date: 2010 - 2015
 - d. Status: Completed
 - e. Role: Senior Geotechnical Engineer (Sub-Consultant geotechnical engineering services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. was retained by the City of Pompano Beach to perform geotechnical exploration/engineering and construction materials testing services for numerous projects including but not limited to the construction of a new aquatic timing device (scoreboard) at the Community Park Aquatic Center, and new 1-story, 500 SF restroom facility within the park for the Palm Aire Park Improvements.

2.
 - a. Organization: City of Lauderhill
 - b. Address: Lauderhill, Florida
 - c. Project Date: Since 2008
 - d. Status: Ongoing
 - e. Role: Senior Geotechnical Engineer (Sub-Consultant geotechnical engineering and/or construction materials testing services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. has been providing geotechnical engineering and/or construction material testing and threshold inspection services for various projects throughout the City. Projects include but are not limited to the construction of a new three-bay fire station #110, new proposed fire tower, the 33,000 square foot Performing Arts Center and adjacent 11,000 square foot Library, and the 40,000 square foot Municipal Building.

3.
 - a. Organization: The Village of Wellington
 - b. Address: Wellington, Florida
 - c. Project Date: Since 2007
 - d. Status: Ongoing
 - e. Role: Senior Geotechnical Engineer (Sub-Consultant geotechnical engineering and/or construction materials testing services)
 - g. Scope of work: Nutting Engineers of Florida, Inc. hold a qualification based continuing contract with the Village of Wellington for geotechnical engineering and construction material testing services. Projects under this contract include but are not limited to the construction of a new 53,000 square foot municipal complex, Boys and Girls Club.

4.
 - a. Organization: South Florida Water Management District
 - b. Address: West Palm Beach, Florida
 - c. Project Date: Since 2009
 - d. Status: Ongoing
 - f. Role: Senior Geotechnical Engineer (Sub-Consultant geotechnical engineering services)
 - g. Scope of work: Nutting Engineers of Florida, Inc. holds a qualification- based contract to perform Phase I/II environmental assessment services, geotechnical engineering and construction materials testing services. As part of this contract, NE performed geotechnical engineering services relevant to the planned repairs to the pump stations that control the discharge of flood runoff and prevent over drainage by maintaining optimum water levels above the structures, and prevent salt water intrusion including S-50 Pump Station repairs and S-48 Pump Station repairs.

5.
 - a. Organization: The City of Coral Springs
 - b. Address: Coral Springs, Florida
 - c. Project Date: January 2013 - current
 - d. Status: Ongoing
 - e. Role: Senior Geotechnical Engineer (Sub-Consultant geotechnical engineering and/or construction materials testing services)
 - f. Scope of work: Nutting Engineers of Florida, Inc. was obtained by the City of Coral Springs to perform performed geotechnical exploration/engineering and/or construction material testing services for projects throughout the City. Projects include but are not limited to: New 5-story City of Coral Springs municipal building and three-story parking garage, Tennis complex storage building, and Humane building west side expansion.

WALTERS  ZACKRIA

ARCHITECTS

PROJECT APPROACH

UNDERSTANDING THE PROJECT AND PROJECT REQUIREMENTS

WZA has been providing Architectural and Engineering services on various projects for the past thirty-five years. We have extensive knowledge and experience working within the City and many of its facilities. We thoroughly understand the needs and have the solutions to make each project a success. WZA and our Consultants' staff of design and engineering experts can readily provide professional services for the following project types:

- Site Investigation, including geotechnical and environmental investigations
- Surveying
- Space Planning
- Programming
- Specifications
- Architectural and Interior Design
- Architectural 3D Rendering and Animation Services
- Civil Engineering
- Transportation and Traffic Engineering
- Telecommunications and Data Engineering / Technology review
- Landscape Architecture / Irrigation Design
- ADA Analysis and Design
- Sustainable / LEED Design
- Building Performance Analysis
- Historical Preservation
- Fueling Systems Design
- Aquatics / Pool System Design
- Structural Design
- Mechanical, Electrical, Plumbing, Fire Protection Design
- Permitting
- Commissioning
- Bidding
- Contract Administration
- Construction Testing and Inspections
- Cost Estimating, Planning and Scheduling

TECHNICAL APPROACH AND IMPLEMENTATION

METHODOLOGY

The first aspect of WZA's methodology is to develop and facilitate a framework to involve all stakeholders within a project team. The framework involves constant communication and cooperation between all parties. We provide the hub for all the spokes on the project team, include WZA staff, City staff, Engineering Consultants, Specialty Consultants, Owner's Vendors and Suppliers, Contractor, Building Officials and all other individuals involved in the project.

Second is to have rigorous Quality Assurance and Quality Control Standards for the firm and for the project.

Third is to hire and engage highly qualified individuals and field experts to perform the necessary tasks.

Fourth is to provide the resources and flexibility to the working individuals so they can provide the best results for the City and for the project.

TECHNICAL APPROACH

Each project will have its own unique characteristics and addressed individually. Listed below is the technical approach that will apply to most projects.

Task 1 – Existing Facilities Analysis

WZA and its Consultants will review the existing City facilities and functions to develop a baseline analysis of existing conditions.

Task 2 – Needs Assessment

WZA will meet with City staff and others to document current and future needs for the projects. WZA will distribute Questionnaire and Survey to obtain input from various stakeholders, as required. Small renovation projects may not require this, whereas larger projects and master planning studies may require extensive meetings and consultation.

As part of the Needs Assessment process, the WZA team will interview key City personnel to gather additional information, specific insight, and special needs.

Task 3 – Site Analysis

WZA and its Consultants will review the proposed project site for ingress, egress, parking, vehicular movement, security, access control, green space, existing trees, existing grading, any environmentally sensitive conditions, protected species habitat, utility services, etc.

WZA will send staff to measure existing buildings or project sites to review existing conditions and to prepare CAD as-builts.

If a current Site Survey is not available, WZA can hire a surveyor prepare a Site Survey on behalf of the owner. If a Geotechnical Report is not available, WZA can order a Geotechnical Report on behalf of the owner.

WZA and its Consultants can provide building assessments, 40-year building inspections, environmental assessments, land use assessments and traffic assessments.

Task 4 – Programming

Based on the review of the existing condition, staff questionnaire and interviews, WZA team will prepare a space program. This program will define function and size of each space. In additional, relationships and adjacencies will be outlined. Equipment and finishes for each space will be listed. Specialized equipment and / or special finishes will be highlighted.

Task 5 – Masterplan Development

WZA will update the existing master plan to incorporate the proposed renovations and modifications, site ingress and egress, public and staff parking areas, vehicular movement, security and access control, disposition of existing trees, and proposed landscape areas, etc.

Task 6 – Sustainability

WZA will review the USGBC LEED design rating criteria with City staff and affirm the level LEED performance desired (Certified, Silver, Gold, or Platinum). WZA will review various options available to achieve the desired goal. Alternate systems and technologies will be discussed, including on-site power generation, energy efficient lighting, etc.

Task 7 – Schematic Designs

Based on the review of the existing condition, staff questionnaire and interviews, space program, LEED goals, and project budget, WZA will prepare schematic design drawings for the project. These drawings will provide a concept for the project.

Task 8 – Outline Specifications

WZA will prepare outline specifications for major materials and services to be provided as part of the project. The Outline specifications will set minimum quality standards

Task 9 – Design Development and Construction Documents

WZA will incorporate the Site Survey, Geotechnical Report, Site Masterplan Schematic Design Drawings, Outline Specification, and all supporting criteria to develop the Project Construction and Bid Documents.

WZA will submit the drawings and specification submittals to the City staff at 30%, 60%, 90% and 100% Construction Document levels for review and approval.

Task 10 – Project Cost Estimating

WZA will prepare a probable budget estimate for the project. Probable budget estimate will provide the City with a breakdown of costs for various items and budgetary allowances for hard and soft costs.

Task 11 – Permitting

WZA will submit for and obtain all necessary permits, including but not limited to Building Department, Palm Beach County EPD, SFWMD, FDEP, etc. Depending on the scope of the project, other approvals may also be required.

Task 12 – Post Design Support

WZA will provide technical support to the City during the bid and award phase, during the bidder evaluation process, and after the successful contractor has been selected, and through the final completion of the project.

WZA will provide full construction administration services throughout the construction phase by attending regularly scheduled meetings, review on-site construction, coordinate with Owner's Fixtures, Furnishings, and Equipment suppliers and the Contractor.

WZA will provide Construction Management Services, including QA/ QC testing, inspections services, and RPR services to ensure that the projects meet the quality standards specified and that they are built within the designated schedule and project budget.

PROJECT SCHEDULE CONTROL

Listed below is a brief summary that describes WZA's schedule control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Schedule Control During Design / Pre-Construction Phase

- Specific target dates for both completion dates and critical path dates are pre-determined by the City's project schedule or occupancy date.
- Hitting the necessary dates starts with coordination between WZA and City staff in which milestone dates and a completion date are set.
- We do a thorough walk through of the construction site, and review all as-built documents to minimize potential conflicts.
- The Design Team creates a CPM schedule with start and finish dates for each design phase.
- Bi-weekly Design meetings are held to keep the project on track.
- Civil Engineering and Landscaping Construction Documents are completed early for long lead environmental permitting submittals while the other disciplines complete building systems coordination.
- Meetings are scheduled with the building department to review the project scope and expedite the permitting process.
- Architect and Engineers begin to address comments prior to the release of the entire package. In a "best case" scenario, within a day of when we receive the plans back from the plans reviewers their comments have already been addressed and the plans are immediately back into the building department for the final review.

2) Schedule Control During Construction Phase

- Once the permit is issued, the construction CPM schedule is revised to track all critical tasks and advanced as necessary to ensure early project completion.
- Bi-Weekly Construction meetings are held to keep the project on track.
- The Schedule of Values supplements the monitoring of the schedule each month by raising red flags as indicated by the percentage of completion billings on the Schedule.
- The weekly meetings and the monthly billing review give the team represented by the Contractor, the City, and the WZA time to identify and address issues that could negatively impact the Team's ability to complete the job on time and on budget.
- The WZA actively participates in the creation, enforcement and modification (when necessary) of the project schedule while maintaining milestone dates.

PROJECT COST CONTROL

Listed below is a brief summary that describes WZA's cost control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Cost Control During Design Phase

- WZA produces pre-construction budgets using our database of current construction costs for similar municipal facilities.
- Currently, this database includes projects bid out in the past 10 years. We have project that go out to bid almost on a monthly basis. As the latest prices come in, we update our database to stay current with the market conditions.
- We supplement square foot pricing by meeting one on one with players to clearly establish scope of work, brainstorm on potential issues, and emphasize our client's expectations for this project.
- We perform thorough walk through of the construction site, and review all as-built documents to minimize potential conflicts.

- We evaluate the overall project and adjust the construction programming to gain efficiencies and save expenses.
- We work closely with the Design Team to reduce overall project cost.
- We coordinate phased construction to meet City's Annual or Project budget and timeline requirements.
- We provide Deduct Alternate Bid Items in the Construction Documents maintain cost control.
- We provide Value Engineering services to extend the client's budget.
- We provide concise detailing to reduce cost and construction time.

2) Cost Control During Construction Phase

- Since most projects are hard bid, the project cost is known at the start of construction.
- WZA produces a superior set of construction documents that ensure the City gets what is specified and so there are no change orders to increase the project bid cost.

PROJECT QUALITY CONTROL

Listed below is a brief summary that describes WZA's quality control methods for the (1) Design Phase and (2) the Construction Phase of project development for a typical project.

1) Quality Control During Design / Pre-Construction Phase

- WZA's Project Manager and the Principals work closely with the Design Team to ensure that the Construction Documents meet the City's intended project scope.
- We do an early thorough walk through of the construction site, and review all as-built documents to minimize potential conflicts and unnecessary costs for field modifications.
- Construction Documents are reviewed by the entire team at 30%, 60%, 90%, and at 100% stages.
- WZA's 34 years of public bid construction projects had resulted in a quality control program that is second to none. Not only are the firm principals directly involved in the design and the construction document generation, they also review the sets with a keen eye for potential conflicts.
- WZA uses an AIA Document Checklist to ensure each project meets the highest quality standards.
- A full set of specifications, based on the Construction Specifications Institute format, is generated for the project. All products, techniques, materials, warranties, and basis of quality are defined.

2) Quality Control During Construction Phase

Specific responsibilities include:

- The quality of the finished product we achieve together starts with comprehensive, high quality Construction Documents. This component is assured by WZA and the strong team of Consultants.
- The construction team, specifically the CM, PM, and Superintendent ensure that the proper level of Quality Control of all subcontracted and self-performed work is maintained. They coordinate the performance of all required inspections and testing, and have the authority to stop all work when it is determined to either be unsafe, defective or not to the proper standards of quality.
- The design team and the construction team have direct responsibility to review all shop drawings and specification submittals to ensure compliance with design drawings. Accurate and timely delivery and review of these documents is mandatory to ensure on time supply of the required materials and equipment necessary for success of the project.
- WZA pursues a quality job through its long-term relationships with proven contractors that have for years or even decades shown qualities of both character and craftsmanship. These contractors have proven job after job that the client's expectations and needs come first.
