

Moon and Flower Coffeehouse, Tea & Apothecary

Project Narrative

Moon and Flower is a new woman-owned business, and the owner, Jackie Tufford, is using her savings to build this dream, with hopes of obtaining financing from the banks in the future.

Moon and Flower: Coffeehouse, Tea and Apothecary is going to be a place of community unlike anything else. The shop is based on Jackie's creative vision as a trained fine artist, barista, yogi and healer. She is here to be of service and help fellow creatives have proper representation, support local businesses and sell quality beverages based on various healing modalities and flavors. Her business will be known as that unique place to come in Delray Beach to meet local artists, healers, families and for a unique and beautiful beverage experience.

Moon and Flower: Coffeehouse, Tea and Apothecary needs an updated kitchen with sinks installed for city permits. Minor electrical and plumbing needs to be done to install the sinks according to code. Bathrooms need to be updated to be more inviting to guests and to be tiled for easy cleaning.

Moon and Flower needs a coffee bar and back counter built and installed in the front room to serve customers coffee, tea and snacks. The coffee bar will need electrical and plumbing work to cater to the appliances needed.
