SCOPE OF SERVICES

I. City's Intent

The City of Plantation is requesting proposals from qualified Firm(s) for a school zone speed detection system. The Firm will provide and install all equipment and monitor the camera system for violations. The equipment and monitoring will be provided at no cost to the City with revenue sharing of any collections. This is a cooperative RFSP issued by the City of Plantation on behalf of the Southeast Florida Governmental Cooperative Purchasing Group and the participating agencies referenced herein.

II. Scope of Work

The Firm will supply a speed camera detection system and program for school zones in the City of Plantation and any other participating public agencies. This system must be exclusively violator funded. All installation, maintenance, calibration, administration, and regulatory compliance costs are the responsibility of the vendor. The Firm may accomplish this through a revenue split per citation paid, or a fixed cost per citation paid. The Firm is responsible for ensuring that the program meets and maintains compliance with all local, state, and federal laws.

III. Project Specific Requirements

- Firm performs all necessary needs testing.
- Firm provides and installs all signage and equipment related to the program.
- Firm maintains all equipment, documentation, certifications, and permissions related to the program.
- Firm provides system training to the police department at no cost.
- Firm provides the Police Department with the ability to review stored footage (minimum 45 days).
- Firm provides the Police Department with the ability to live stream video from the camera feeds.
- Firm provides software for the approval and management of citations, review of video, and input of "hot list" data.
- Firm provides software for accessing automated license plate readers features.
- Speed detection camera system must be a high definition motion picture camera system that uses only infrared for lighting.
- Automated license plate readers for each location.
- Ability to merge automated license plate readers data with Genentec, Vigilant, and Rekor Recognition database systems.
- System must provide traffic data for speed and volume based on time of day.
- System must be programmable for school calendar, specific enforcement times, and variable speed thresholds.
- System must be fixed location in nature.

SCOPE OF SERVICES

- System must manage multi-lane roads with high volumes of traffic.
- Firm provides all necessary documentation of certifications, citations, and evidence needed for court hearings.
- The service contract with the City of Plantation must be reviewable with an option to terminate after one year of implementation.
- Automated license plate readers and video system capabilities must be maintained at all times without regard to school calendar or the volume of citations generated at any location.
- Firm is responsible for the cost of returning physical locations to their previous state if any equipment is removed or uninstalled for any reason.
- Firm is responsible for ensuring compliance with all applicable Florida laws regarding school zone speed enforcement and automated license plate reading.
- Firm is responsible for obtaining all necessary permits from FDOT, Broward County, and the City of Plantation.
- Programmed enforcement times must be able to be modified within 24 hours' notice to accommodate changes in active school zone times.
