Commissioner Casale requested to pull Consent Item No. 6.N.1. for discussion. It became Item No. 7.B.B. on the Regular Agenda.

Commissioner Casale expressed her concerns regarding the appealable item related to the reconstruction of the house at 46 Marine Way and the Historic Preservation Board's 6-0 vote of approval. She noted that this is a modest-sized historic home, while the developer plans to construct a new house that will be 3 times larger than the existing structure. Commissioner Casale stated that this project does not comply with the Land Development Regulations and is inconsistent with the historic element of the Comprehensive Plan, as well as the Secretary of the Interior's Design Standards. Additionally, she pointed out that the new home would be significantly larger and taller than neighboring houses.

Commissioner Casale requested that this item be brought back to the Commission for a de novo review. She emphasized that if this item is approved, many similar requests are likely to follow.

Ms. Gelin informed the Commission that two votes were required due to two actions eligible for appeal regarding this agenda item.

A motion was made by Commissioner Casale, seconded by Deputy Vice Mayor Burns, to appeal the Historic Preservation Board's decision regarding the house located at 46 Marine Way.

Ms. Gianniotis entered File Nos. 2022-018 & 2025-164 into the record.

The attorney representing the properties located at 25-27 SE 3rd Avenue presented a request to convert the former office building and bank into a restaurant with both indoor and outdoor dining. He stated that the former bank teller drive-thru area would be re-purposed to serve as a covered outdoor dining oasis while keeping the 84,000 square feet of interior space as a high-quality dining restaurant. He explained that the proposed modifications would connect the renovated building to the north with the former Delray Beach Market to the south, creating a seamless pedestrian experience from East Atlantic Avenue to SE 1st Street.

He mentioned that the additional 26 parking spaces needed were solely a result of the change in use and the conversion of the outdoor bank drive-thru into an outdoor dining area. He stated that as a result, the applicant was proposing to pay into the City's in-lieu parking fund.

He explained that a parking analysis showed this request meets the Delray Beach Land Development Regulations and addresses the need for 26 in-lieu parking spaces for this business location. He also mentioned that the change in the business' use made it necessary to add additional parking spaces due to existing constraints.

Ms. Gianniotis presented a brief staff report on this item and mentioned that staff supported the request for the in-lieu parking spaces. She noted that this project was an excellent example of preserving a historic structure, as it keeps the original character of the building intact.

Mayor Carney opened the floor to public comments.

George Long, 46 North Swinton Avenue, Delray Beach
Stated that this was an excellent example of a building that has been adaptively reused.

Seeing no one else present, Mayor Carney closed public comments.
