Recommended Action:

Review and consider Resolution No. 127-26, approving a Certificate of Appropriateness, Demolition, Relocation, Variances, and Waivers in association with the vertical relocation and alteration of the existing contributing principal structure (987 sq ft. two-story main structure) Demolition of the existing contributing accessory structure (296 sq. ft. one-story guest cottage), and construction of additions containing 2,333 sq. ft. (3, 321 sq ft total under air, and 5,189 sq. ft. overall building) for the property located at 46 Marine Way, Marina Historic District.

Background:

The subject 0.12-acre property is located on the west side of Marine Way, south of E. Atlantic Avenue and north of SE 1st Street within the Locally and Nationally Registered Marina Historic District. The property contains a two-story residential structure with a detached pool house in the rear of the property. According to the original city of Delray Beach Building Yellow cards, both structures were built in 1926. The structures are classified as contributing to the Marina Historic District and serve as prime examples of Mediterranean Revival architecture within Delray Beach. The original detailing of the structures have been preserved and as such they qualify for individual listing to the National Register of Historic Places.

The request before the board is for the following:

1. Vertical relocation of the existing contributing structure, 987 sq. ft. two-story residence,
2. Demolition of the contributing accessory structure, 296 sq. ft. one story structure,
3. Alteration of the existing principal contributing structure,
3. Construction of new one and two-story additions that will connect the principal contributing structure,
4. Construction of a new swimming pool, and hardscaping.

4 relief requests from the LDR are part of the application:

1. Setback variances for the front (east), and side (south); and
2. Waivers to the Land Development Regulations Section 4.5.1.(E)(7)(m), Visual Compatibility Standards for Secondary and Subordinate, and Building Height Plane.

Each relief request must meet the associated findings. The attached Staff Report provides a full analysis of the application, including the demolition, relocation, variance, and waiver findings. To aid in the assessment of the proposal with City ordinance, the Secretary of the Interior Standards, and the findings of each relief request, the staff report includes the applicable Land Development Regulations (LDR) and standards. LDR language and standards are in **bold** and the analysis follows for each provision.

At its meeting of July 1st, 2026, the Historic Preservation Board denied a Certificate of Appropriateness, Relocations, Variances, and Waivers for the subject property, by a vote of 4 to 3.

Pursuant to LDR Section 2.5(C)(2), on July 8, 2026, the Applicant filed an appeal of the denial.

Pursuant to LDR Section 2.5(E)(2) a *de novo* review of the decision is now before the City Commission.
