WHEREAS, pursuant to Florida Statutes 163.3174(4)(c), the Planning and Zoning Board for the City of Delray Beach, sitting as the Local Planning Agency, considered this item at a public hearing on **October 19, 2020**, and **voted x to x** to recommend these proposed text amendments be approved,

finding the request and approval thereof is consistent with the Comprehensive Plan and meets the criteria set forth in the Land Development Regulations; and

WHEREAS, after consideration of all evidence presented to the Planning and Zoning Board and the City Commission, the Commission makes the following findings with respect to establishments that process and sell cannabidiol (“CBD oil establishments”):

- A. The City Commission has a reasonable basis to believe that there are land use compatibility issues relating to the siting of CBD oil establishments and their customers when located adjacent to sensitive land uses such as residential zones, schools, parks, day care facilities, community residences, houses of worship, bars, and other CBD oil establishments.
- B. The City Commission notes that CBD oil is a federally and state regulated product whose effects are the subject of limited research but ongoing study; although legally available under federal and state regulation.
- C. Through its zoning code provisions, the City of Delray Beach seeks to maintain property values, protect tax revenues, provide neighborhoods social and economic stability, attract business and industry, and encourage conditions that make the City of Delray Beach a pleasant and sustainable place to live and work.
- D. Buffer provisions implement the compatibility and other City goals as stated above, as they serve to 1) protect the quality of life and neighborhoods in the City; 2) protect the City’s retail and commercial trade; 3) minimize the potential for nuisances related to the operation of CBD oil establishments; and 4) protect the well-being, tranquility and privacy of the home with the residential buffer. Accordingly, the City finds that it does not serve compatibility or its other goals to allow CBD oil establishments within 500 feet of a residential zone, schools, parks, day care facilities, or houses of worship.
- E. The City Commission also desires to avoid the clustering of CBD oil establishments so that the City does not experience a significant change in the character of the commercial and retail areas of the City. Clustering of specialty uses such as CBD oil establishments can create a specialty destination area that increases traffic and congestion, and is not consistent with nor serves to protect neighborhood serving commercial uses. Moreover, the City has for many years striven to overcome the blighting influence of illegal and inappropriate concentrations of facilities operating to prey on drug addicted persons. The City desires to encourage businesses that are of a scale in keeping with its history as the low key Village by the Sea. Accordingly, the City finds that it serves the interest of the public health, safety and welfare to avoid concentration and require 750 feet of distance between all CBD oil establishments or bars and not more than one per block.

F. The City Commission by these regulations does not intend to totally prohibit the location of CBD oil establishments, but to regulate their location within the City.

WHEREAS, the City Commission considered these LDC text amendments after duly noticed public hearings held according to law.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF DELRAY BEACH, FLORIDA, AS FOLLOWS:

Section 1. That the findings set forth in the above Whereas clauses are adopted and incorporated as if specifically set forth herein.
