ARTS & ECONOMIC PROSPERITY 6

National FindingsLocal & Regional FindingsNational CalculatorTools & Resources

Definitions:

Total Expenditures:

The total dollars spent by your nonprofit arts and cultural organization and its audiences; event-related spending by cultural audiences is estimated using the average dollars spent per person, per event by cultural attendees in similarly populated communities.

Jobs (Employment):

Employment data in IMPLAN is an annual average headcount of full time, part time, and seasonal employment. Note that a person can hold more than one job, so the job count is not necessarily the same as the count of employed persons. While IMPLAN employment adjusts for seasonality, it does not indicate the number of hours worked per day. It is not, therefore, equal to full time equivalents. This is the same definition used by the U.S. Bureau of Economic Analysis Regional Economic Accounts and the U.S. Bureau of Labor Statistics Census of Employment and Wages.

Household Income:

The total dollars paid to community residents as a result of the expenditures made by your arts and cultural organization and/or its audiences. Household income includes salaries, wages, and entrepreneurial income paid to residents. It is the money residents earn and use to pay for food, shelter, utilities, and other living expenses.

Government Revenue:

The total dollars received by local, state and federal governments as a result of the expenditures made by your arts and cultural organization and/or its audiences. Government revenue includes revenue from local and state taxes (e.g., income, sales, lodging, real estate, personal property) as well as funds from license fees, utility fees, filing fees, and other similar sources. Local government revenue includes funds to governmental units such as city, county, township, and school districts, and other special districts.

5X Le Mans Winner

Derek Bell, MBE

Derek Bell MBE has enjoyed one of the most successful, diverse and wide-ranging racing careers of any International racing drivers which spans over 40 years.

Bell is best-known as the consummate endurance sports car driver who won the Le Mans 24 Hours five times, the Daytona 24 Hours three times and the World Sports Car Champion twice! He is considered to be the greatest British racing driver ever to compete in endurance racing.

His sports car racing career spans the Ferrari 512 and Porsche 917, the Gulf-Mirage era, Renault's turbo effort at Le Mans, the Porsche 936, Porsche 956 and 962, the Kremer Porsche K8, the Ferrari 333 SP, and the McLaren F1. The latter earned him yet another Le Mans podium alongside his son Justin Bell in 1995 – a very proud moment for the father and son.

Honorary Judge:

Luigi Chinetti Jr.

(Legendary Legacy: Ferrari's Arrival to the USA in the 20th Century)

Ferrari has always been omnipresent in Luigi Chinetti, Jr.'s life. He boasts three participations in the 24 Hours of Le Mans with the Italian marque: in 1971 with Bob Grossman (fifth), in 1972 with 1965 winner with Ferrari Masten Gregory (retirement) and in 1973 with François Migault (13th). There is also the story of **North American Racing Team (NART)** created by his father, which develops the American market for Ferrari. Chinetti, Jr. shares a few lively (and sometimes mischievous) recollections.
