NARRATIVE

The proposed mural art is a harmonious addition to the recently refreshed adjacent commercial center. It poses no safety hazards, ensuring a safe environment for all. The artist, known for producing enduring works recognized by the community for their exceptional graphic quality, has created abstract representations of numbers and vegetation. This neutral approach to cultural diversity is fitting for the site. The artwork is contextually appropriate, referencing financial facilities and processes, and complements the adjacent Taco Bell, which also features a mural. Specifically designed for the new bank building, the mural will be painted on the cement plaster surface by an experienced artist with other notable works in the community and region. The building occupant will engage the artist for maintenance as needed. Importantly, the proposed art conforms to the Local Development Regulations (LDRs), ensuring it meets all necessary standards.

Artist: Benjamin Heller

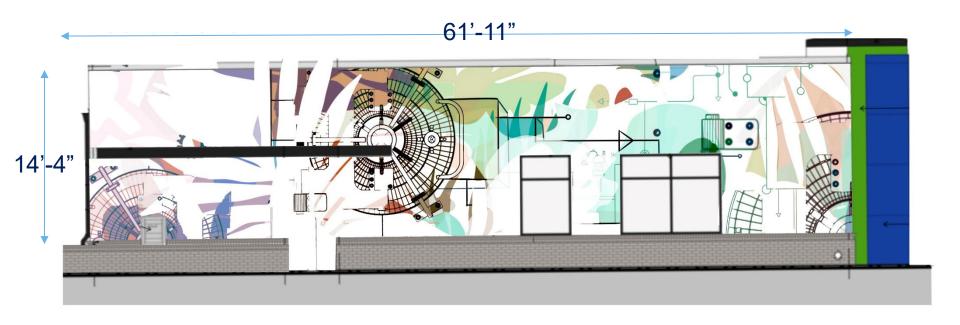

•At Booboosketch Fine Art, our team harnesses the power of urban art to create large-scale murals that captivate and inspire. Our expertise lies in turning bland walls into canvases that reflect the vibrant stories of our clients, which include commercial spaces, educational institutions, and civic organizations.

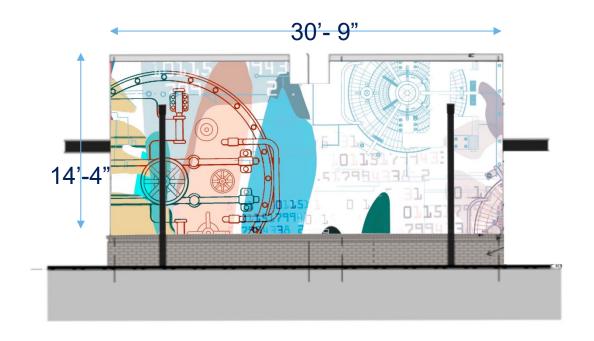

Our recent projects boast collaborations with entities like Pebb Enterprises and Brightline Corp, where we've melded artistry with social consciousness. This blend of creativity and purpose underscores our commitment to using murals as a medium for positive change and community engagement.

Fifth Third Bank, 5070 West Atlantic Ave: Mural Description

- •This mural design for Fifth Third Bank blends bold, abstract shapes with cool technological elements, creating a dynamic and modern look. The mix of flowing forms and geometric lines reflects the bank's forward-thinking approach while still highlighting growth and community. The color palette—greens, blues, and oranges—adds warmth and trust, giving the mural a welcoming vibe that complements the bank's role in the community.
- •A standout feature is the inclusion of vault doors, which tie into the bank's core promise of security and protection. These vault designs bring a sense of stability and strength, reminding people of the bank's commitment to safeguarding their finances. Overall, the mural strikes a balance between innovation and reliability, showing that Fifth Third Bank is both modern and dependable.

CREATIONS

• PALM BEACH TAX COLLECTORS OFFICE, 2024

Artist selected in the call to public artist for the New Tax Collectors office in Palm Beach Gardens. Selected to paint an abstract mural with some floral aspects, 170 ft by 22 ft.
