Delray Beach, FL 33444

RE: Atlantic Crossing Phase II – Waiver Request: 4.4.13(F)(4)(a) – Front Setbacks
KA#: 220066

Ms. Rodrigues,

In accordance with Land Development Regulation (LDR) 2.4.11(B) this letter represents a formal request for a partial Waiver of 2013 LDR (please note this development is subject to the statutes of the 2013 LDR) 4.4.13(F)(4)(a) – Front Setbacks. Regulation 4.4.13(F)(4)(a) requires a front setback “For buildings with nonresidential uses on the ground floor: five feet (5’); refer to Exhibit 1.1 (overall site plan) for location of Wavier request at Building IV.

Specifically, this request is for a building encroachment into the front setback at ground level that reduces the depth of the setback from 5’-0” to not less than 2’-6” for a length of 8’-0” and an encroachment into the front setback at vertical elevation 23.00’, which is approximately 13’-3” above the surface of the adjacent sidewalk, that reduces the depth of the setback from 5’-0” to 2’-6” for a length of 44’-0”. Refer to Exhibits 2.1 and 2.2 (building plans), 3.1 (building elevation) and 4.1 (building section).

This Waiver is requested to accommodate certain architectural features of the building that are constrained in location by the adjacent private drive; such private drive to accommodate deliveries, including deliveries by the USPS, for the building and to provide valet services for the entirety of the broader Atlantic Crossing development. The massing and location of the encroaching elements are also necessary to accommodate the architectural style of the building and the structural support for an overhead sculpture spanning NE 7th Avenue. Please note that both the sculpture and architectural style of the building have been recommended and approved by the Site Plan Review and Appearance Board (SPRAB) at meetings of the Board on November 13, 2019, October 25, 2023, and January 1, 2024 (see attached minutes from each meeting).

In considering this Waiver request, please note the following in accordance with LDR 2.4.11(B)(5):

(a) Granting of this Waiver request shall not adversely affect the neighboring area.

Areas neighboring the location of this Waiver request are the Atlantic Crossing development (to the North, West, and South) and Veterans Park (to the East). Regarding the Atlantic Crossing development - the intent of this Waiver is to maintain the design of the valet drop-off lanes; such valet to provide service for the entirety of the Atlantic Crossing project, and to accommodate the massing and materials critical to the execution of features associated with the architectural style of the building. Such architectural style has been determined to be compatible with, and complementary to, the several other buildings that are a part of the Atlantic Crossing development by SPRAB approval of the same at meeting held January 1, 2024 (minutes attached). Regarding Veterans Park – this Waiver will not affect the façade of any building facing Veterans Park nor the landscape areas between buildings and Veterans Park; in addition, this Waiver will not affect access to Veterans Park in any way.

(b) Granting of this Waiver request shall not significantly diminish the provision of public facilities.

Water, sewer, and stormwater utility systems will be unaffected by this Waiver. The requested Waiver will not diminish the width of the roadway (NE 7th Avenue) or sidewalk at this location and in no other way will the Waiver affect the provision of emergency services. As stated above this Waiver has no diminishing impact on Veterans Park or access to Veterans Park.

(c) Granting of this Waiver request shall not create an unsafe situation.

The nominal encroachment into the Front Setback requested by this Waiver does not result in the creation of an unsafe condition as the sidewalk width remains clear and unobstructed, including overhead obstructions. The large openings in the wall of the porte cochere adjacent to the sidewalk at this location result in clear sightlines in all directions for pedestrian safety.

(d) Granting of this Waiver request does not result in the grant of a special privilege in that the same waiver would be granted under similar circumstances on other property for another applicant or owner.

The intent of this Waiver is to support the architectural design of the building while facilitating public access, through valet service, to the entirety of the Atlantic Crossing development. If granted, this Waiver will result in an enhancement to the public experience of the development and will not have an adverse effect on neighboring areas, public facilities, safety, the pedestrian experience, street and sidewalk plans, or civic open spaces. As such, it is likely the same waiver would be granted under similar circumstances.

(e)1. Granting of this Waiver request shall not result in an inferior pedestrian experience along a Primary Street, such as exposing parking garages or large expanses of blank walls.

The Waiver request does not diminish the streetscape design nor the associated pedestrian experience. The 18'-0" deep streetscape design at the location of the request consists of 10'-0" (measured from back of curb to detached sidewalk) of landscape area and an 8'-0" wide sidewalk. The 10'-0" landscape area includes a 5'-0" wide Curb Zone to accommodate three (3) street trees (Highrise Live Oak) along with shrub and ornamental plant materials; refer to

Exhibit 1.2 (enlarged landscape diagram). The architectural design of the building at this location provides large openings in the wall that meet grade to create transparency and interest, and to allow for additional landscape materials between the sidewalk and valet drive. Building materials at this location are durable and tactile and include a stone base and stucco wall treatment. Additionally, by allowing for the structural support required for the aforementioned overhead sculpture, the waiver will enhance the pedestrian experience.

(e)2. Granting of this Waiver request shall not allow the creation of significant incompatibilities with nearby buildings or uses of land.

The intent of this Waiver is to maintain the design of the valet drop-off lanes; such valet to provide service for the entirety of the Atlantic Crossing project, and to accommodate the massing and materials critical to the execution of features associated with the architectural style of the building. Such architectural style has been determined to be compatible with, and complementary to, the several other buildings that are a part of the Atlantic Crossing development by SPRAB approval of the same at meeting held January 1, 2024 (minutes attached).

(e)3. Granting of this Waiver request shall not erode the connectivity of the street and sidewalk network or negatively impact any adopted bicycle/ pedestrian master plan.

The requested Waiver will not diminish the width of the 8'-0" sidewalk and does not require adjustment to the width of the roadway (NE 7th Avenue) at this location. In addition, the width of vehicle queuing lanes and pedestrian walks associated with the valet drop-off are maintained by this Waiver request.

(e)4. Granting of this Waiver request shall not reduce the quality of civic open spaces provided under this code.

The location of the requested Waiver is within close proximity to plaza areas between several buildings that are a part of the Atlantic Crossing development; the encroachment associated with this Waiver in no way impacts the quality of those plazas. The location of the requested Waiver is also proximate to Veterans Park and a landscape plaza that will create connection between Veterans Park and the Atlantic Crossing development.; the encroachment associated with this Waiver in no way impacts the quality of either.

Please advise if you require any additional information to consider this request.

Sincerely,

Bryce Hall
KEPHART

Board Comments

Jose Alvarez voiced support for the proposed architectural changes to Building 4 and observed that the alterations proposed for Building 2 were minimal. He also raised concerns about the inconsistent architectural styles between Buildings 2 and 4.

Steven Cohen inquired whether there were any changes in the height of the proposed buildings, to which the applicant clarified that there were no alterations in height.

Keith Beal expressed support for the refined architectural style, highlighting that the applicant had addressed concerns raised by the Board in the previous October meeting. He emphasized the cohesive nature of the proposed changes with the entire project.

Adam Nelson noted his previous reservations about the architectural design presented during the October meeting. However, he expressed satisfaction with the revised design, stating that it had alleviated his concerns.

Annette Gray recognized the applicant's efforts in addressing the Board's previous concerns and suggested brightening the banding. Additionally, she sought confirmation from staff regarding the number of workforce housing units being offered, highlighting the importance of affordable housing.

MOTION to move to approve the Level 3 (Class III) Site Plan Modification for Phase II of Atlantic Crossing (Phase II) including the reduction of the number of units in Building IV-S, reduction of the retail/commercial area in Building IV-S, modifications to the exterior elevations for both Buildings IV-S and II, and the reduction of parking spaces in the SE Parking Garage, by finding that the request is consistent with the Comprehensive Plan and meets criteria set forth in the Land Development Regulations, was made by Steven Cohen and seconded by Adam Nelson.

Board Comments

Linda Purdo voiced support for the project, for the addition of a mural and expressing no concerns regarding the structure's height.

Steven Cohen inquired about the number of waivers, with the applicant clarifying that most related to existing conditions at the location. Mr. Cohen further sought information from staff about the waiver related to the minimum square footage requirement.

Carol Perez conveyed her endorsement for the proposed landscape plan and the project as a whole.

Annette Gray expressed support for the landscape design and endorsed the requested waivers, citing the existing nonconformities at the development site.

Alison Thomas supported the proposed development.

Benjamin Baffer noted that the structure's design was fitting for the location.

Dana Adler voiced support for the entire project.

MOTION to move to approve of the Class V Site Plan Application, including a Landscape Plan and Architectural Elevations, for an 1,820 square foot freestanding branch bank facility, Fifth Third Bank, with a drive-thru, and a requested height exception for the parapet exceeding the maximum 4 feet to screen the roof equipment located at 5070 W Atlantic Avenue, by finding that the request is consistent with the Comprehensive Plan and meets criteria set forth in the Land Development Regulations, was made by Linda Purdo and seconded by Alison Thomas.

C. Atlantic Crossing (2022-191): Consideration of a Class III Site Plan Modification for Phase II of Atlantic Crossing including the reduction of the number of units in Building

IV-S from 30 to 15, reduction of the retail/commercial area in Building IV-S, modifications to the exterior elevations for both Buildings IV-S and II, and reduction in the amount of parking spaces in the SE Parking Garage.

Board Comments

Benjamin Baffer voiced support for the original approved design, expressing reservations about the proposed Masonry Modern Design and raising concerns regarding the requested parking reduction.

Alison Thomas advocated for the initially approved architectural style, noting that the proposed Masonry Modern architectural style is not cohesive with the existing buildings.

Annette Gray emphasized the appropriateness of the original approved architectural style for the neighborhood, and its cohesiveness with the architectural style of the existing

structures. Ms. Gray also expressed concern about the reduction in the number of workforce housing units.

Steven Cohen voiced apprehension about the lack of consistency between the proposed Masonry Modern architectural style and the existing structures.

Linda Purdo questioned the compatibility of the Masonry Modern style with the overall project, highlighting the need for additional affordable housing rather than luxury apartments.

Dana Adler expressed reservations about the proposed lack of integration of the architectural style with the existing structures and stressed the need for affordable housing.

MOTION to move for a continuance of the Class III Site Plan Modification (2022-191) for Phase II of Atlantic Crossing (Phase II) including the reduction of the number of units in Building IV-S, reduction of the retail/commercial area in Building IV-S, modifications to the exterior elevations for both Buildings IV-S and II, and the reduction of parking spaces in the SE Parking Garage, by finding that the request is inconsistent with the Comprehensive Plan and does not meet criteria set forth in the Land Development Regulations was made by Benjamin Baffer and seconded by Linda Purdo.

MOTION Carried 6-0

Carol Perez returned to the Dias.

10. Reports and Comments

A. City Staff

The upcoming Board meetings will be held on November 29, 2023, and December 13, 2023.

The amended Chapter 2 of the City's Land Development Regulations was adopted on October 17th. Board appointments will be conducted on November 7th regardless of status with terms beginning on November 1st.

B. Board Attorney

Kelly Brandon reminded the Board members that ethics training needs to be completed every two years. A legal training will be conducted, links to the video will be provided to the Board members.

C. Board Members

Steven Cohen asked about the difference between continuing a project versus denying a project.

11. ADJOURN

There being no further business to come before the Board, the meeting was adjourned at 6:37 p.m.

The undersigned is the Board Clerk of the Site Plan Review & Appearance Board and the information provided herein is the Minutes of the meeting of said body for **October 25, 2023**, which were formally adopted and **APPROVED** by the Board on **November 29, 2023**.
