**BID: ANNUAL SUPPLY OF MEDICAL SUPPLIES AND MEDICATIONS**  
**BID No.: 044-2210-16/JMA**

**CURRENT CONTRACT PERIOD: JULY 3, 2016 THRU JULY 2, 2017**

Dear Ms. Rudd:

The Contract for "Annual supply of Medical and Medication Supplies" will expire on July 2, 2017. This contract allows for two (2) additional one-year renewals with the same terms and conditions. The City of Boynton Beach would like to renew this contract with Midwest Medical Supply Co., Inc. for an additional one-year extension with the same terms and conditions.

Please indicate your response on the following page and return it via email to: [triestmani@bbfl.us](mailto:triestmani@bbfl.us) at your earliest convenience. If you should have any questions, please do not hesitate to contact Ilyse Triestman, Purchasing Manager at (561) 742-6322. Thank you.

Sincerely,

A handwritten signature in black ink, reading "Tim W. Howard".

## Key Advantages:

- In-house water purification plant combined with a closed loop delivery system reduces the risk of particulate and contamination
- Over **ten years** of in-house medical grade water purification and saline has gained the confidence of customers around the world
- Pre & Post sterile in-house chemistry labs are utilized for continued process controls and to ensure products meet USP requirements
- The use of an FDA-registered 3<sup>rd</sup>-party laboratory for additional post sterile testing and process support confirms we are maintaining the highest quality and safest products possible
- Our syringe filling process is monitored closely by multiple individualized and automated inspection stations, which ensures we are producing a safe and reliable product

## 0.9% Prefilled IV Flush Syringes

**3 mL**

ITEM ID: 1203

**5 mL**

ITEM ID: 1205

**10 mL**

ITEM ID: 1210

MMS is Now:

- Made in USA
- Individually Packaged
- Gamma Sterilized
- 180 Syringes to a Case
- 24-Month Shelf Life
- FDA Approved
- Luer Lock Tip
- Latex Free

## Syringe Information

Since introduction into clinical use in the early 2000's, prefilled IV flush syringes have proven to be a convenient and cost effective tool for the medical professional.

| Feature                                  | Benefit                                                                                                      |
|------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| <i>12mL syringe barrels</i>              | Standard syringes for a natural feel. 12mL syringe barrels have less pressure than a 10mL syringe barrel.    |
| <i>Drug stopper quality plunger tip</i>  | Delivers low break force to easily remove air bubble. Also provides greater sensitivity to plunger movement. |
| <i>Low break force</i>                   | Delivers low break force to easily remove air bubble. Also provides greater sensitivity to plunger movement. |
| <i>Latex and Preservative free</i>       | Latex and Preservative Free.                                                                                 |
| <i>Labeled specifically for flushing</i> | 1mL graduation increments to help discourage clinicians from mixing medication in the syringe.               |

| Question                                                              | Answer                                                |
|-----------------------------------------------------------------------|-------------------------------------------------------|
| <i>Is your syringe Latex Free, Preservative Free &amp; DEHP Free?</i> | Yes, they are Latex, Preservative & DEHP free.        |
| <i>Can your syringe be dropped on a sterile field?</i>                | No.                                                   |
| <i>Is your syringe sterile?</i>                                       | Only the fluid and fluid path are guaranteed sterile. |
| <i>Is your syringe terminally sterilized?</i>                         | Yes.                                                  |
| <i>How is your syringe Sterilized?</i>                                | Gamma Irradiation.                                    |
| <i>What is the pressure on your 12mL syringe?</i>                     | 10psi with "normal" 3 lbs thumb pressure.             |

## Nasopharyngeal Airways

| Reorder No. | FR Size | Spec. ID Millimeter | Quantity |
|-------------|---------|---------------------|----------|
| 4591        | 20Fr.   | 5.0 +/-0.15         | 10/Cs    |
| 4592        | 22Fr.   | 5.5 +/-0.15         | 10/Cs    |
| 4593        | 24Fr.   | 6 +/-0.15           | 10/Cs    |
| 4594        | 26Fr.   | 6.5 +/-0.15         | 10/Cs    |
| 4595        | 28Fr.   | 7 +/-0.15           | 10/Cs    |
| 4596        | 30Fr.   | 7.5 +/-0.15         | 10/Cs    |
| 4597        | 32Fr.   | 8 +/-0.15           | 10/Cs    |
| 4598        | 34Fr.   | 8.5 +/-0.15         | 10/Cs    |
| 4599        | 36Fr.   | 9 +/-0.15           | 10/Cs    |

Recommended for use in the semi-conscious or unconscious patient with an intact gag reflex. Not easily dislodged during transport and better tolerated than an Oropharyngeal Airway. Designed to be inserted into the nasal passageway to secure an open airway. When a patient becomes unconscious, the muscles in the jaw commonly relax and can allow the tongue to slide back and obstruct the airway.

- Sterile
- Flared end prevents the device from becoming lost inside the patient's nose
- Soft – no damage to nasal passage
- Flexible – resists collapse or kinking
- Not made with natural rubber latex

## Oral Airways (Berman Type)

| Reorder No. | Description                                                | Quantity  |
|-------------|------------------------------------------------------------|-----------|
| 4715        | Infant, 40mm, Pink                                         | 100/Cs    |
| 4717        | Infant, 40mm, Pink, Individually Bagged                    | 24-Bg/Bx  |
| 4725        | Child, 60mm, Black                                         | 100/Cs    |
| 4727        | Child, 60mm, Black, Individually Bagged                    | 24-Bg/Bx  |

| 4737        | S, 80mm, Green, Individually Bagged                        | 24-Bg/Bx  |
| 4745        | M, 90mm, Yellow                                            | 100/Cs    |
| 4747        | M, 90mm, Yellow, Individually Bagged                       | 24-Bg/Bx  |
| 4755        | L, 100mm, Red                                              | 100/Cs    |
| 4757        | L, 100mm, Red, Individually Bagged                         | 24-Bg/Bx  |
| 4765        | XL, 110mm, Orange                                          | 100/Cs    |
| 4767        | XL, 110mm, Orange, Individually Bagged                     | 24-Bg/Bx  |
| 4791        | Kit – 1 of Each Size: 40mm, 60mm, 80mm, 90mm, 100mm, 110mm | 6 Kits/Cs |

- Oral Airways are made of polypropylene (PP)
- Disposable airways provide superior performance
- Unobstructed passage – unique perforated midway openings assure ventilating channel and permit access of a suction catheter, even if airway shifts or is partially occluded
- Strength – reinforced bite block prevents collapse of airway
- Flexibility – smooth, non-brittle finish permits easy insertion without danger of breaking when distorted
- Less trauma – greater accessibility of suction catheter permits removal of secretions at a faster rate

Dear Valued Customer,

This letter will confirm that CONMED Corporation will implement price increases of 2% on some of its products.

As I'm sure you are aware, material and manufacturing costs have increased. CONMED has historically worked to offset and absorb the majority of the cost increases with productivity and sourcing actions and we will continue to do so.

Thank you for your continued support of CONMED Corporation

Pam Boggan  
MMS – A Medical Supply Company

Dear Pam,

This letter is to advise you that we have had a price increase on Item 6600 on the City of Boynton Beach renewal request on our Quote #4468

Item#      6600 Large Ice 6 x 9, CS/24    6% Increase

Raw materials cost increase was reason for the 6% increase.

Please let me know if you need any additional information or have questions regarding this bid renewal.

Thanks so much.

Sincerely,

  
Della Thompson, Controller

October 29, 2016

Dear Valued Distribution Partner:

As a distributor of Microtek products, we appreciate your continued efforts to supply quality products and service. We take great pride in our products and their impact on your ability to provide the highest quality health care products to our mutual customers.

In an effort to ensure a smooth transition into the upcoming year, enclosed is the distributor pricing for Microtek products for 2017. In preparation, we have reviewed the current pricing of our products; the costs associated with each product; and the current dynamics within the health care market in order to make the necessary adjustments in price.

Attached is a list of the Microtek products including the acquisition cost that will go into effect 1/1/17. Any products that you have loaded in your system and are not included on the attached price list will expire effective 12/31/16. Please be sure to update your records.

Please let us know if you have any questions regarding the attached information. We look forward to working together to service our mutual customers in 2017.

Regards,

JoAnne Calvis

## 2017 PRICE LIST

December 5, 2016

Dear Valued Dealer:

Thank you for your continued support of our innovative emergency care products. There has been a growing interest in our vacuum immobilization products in a number of areas around the country. The **FASPLINT FULLBODY®** and the **FASPLINT HALFBACK®** join our well known **EVAC-U-SPLINT®** Mattress as alternative solutions for proper spinal splinting. One of our vacuum immobilization products in conjunction with the CombiCarrierII, which serves as the ultimate patient transfer device, provides a winning combination to address the current changes in EMS patient handling protocols being implemented in various regions of the country.

The **CombiCarrierII®** continues to be well received by EMS organizations around the world. With its impeccable reputation for reliability and durability, the CombiCarrierII is the perfect solution to your customer's patient handling needs. Because it can be used for vehicle extrication situations and also functions as a scoop type stretcher, the CombiCarrierII is two products in one. The CombiCarrierII can also eliminate equipment loss. By separating in half, the CombiCarrierII can be easily removed from the patient when placed on the cot or upon delivery to the hospital, eliminating the need to leave the product behind at the receiving facility. This can be a major cost savings for your customer. We have also created an olive drab version of the CombiCarrierII for military customers and a compatible head immobilizer in black. Please call us for details.

The price on our Color-Coded BriteView® Laryngoscope Blades have remained the same and most of our top selling products have increased less than 3%. Some products necessitated a higher increase due to material and production costs. Your 2017 pricing information is attached. These prices will be effective with all orders received on or after January 1, 2017.

We appreciate your continued support of our innovative emergency care products and we remain committed to providing you with the high quality products backed by legendary customer service.

Cordially,

Gary R. Williams

August 2nd, 2016

**Subject: Ferno Price Increase Effective September 1, 2016**

Dear Ferno Partners:

Due to continued rising costs for raw materials, Ferno will institute a 4% price increase on most EMS products effective September 1, 2016.

Ferno will honor all outstanding quotations for a period of 30 days. For current pricing to be honored, it will be necessary for you to provide a copy of your quotation along with your order. Any order submitted prior to September 1, 2016 dated for immediate shipment will receive our current pricing.

To obtain a faxed or e-mailed copy of the revised price list, please contact the Ferno Customer Service team at (877) 733-0911.

We value your continued partnership and appreciate your understanding and support in this matter.

Best Regards,

A handwritten signature in black ink, appearing to read 'K. Turner', followed by a horizontal line.
