Interest & Experiences

List any certifications or licenses which may further qualify you to serve on a board or committee.

American Institute of Certified Planners, No. 019557

Briefly describe why you wish to serve as a member of a board or committee and how your personal experience and background relate:

I have always liked taking on roles that support and enhance community. Working in land use and transportation planning, particularly in the areas of resiliency and sustainability, gave me that purpose on a daily basis. Now that I am no longer working, serving on a Delray Beach Advisory Board would allow me to continue to contribute and lend expertise gained in my professional life and as a long-time resident (35 years).

List any other community/civic involvement which you would like the Commission to consider:

SKIPPED

I Agree

Role

Specialist/Analyst (retired)

Areas of Expertise

Resilience assessment, strategy development, and prioritization

Long-range, multimodal planning

Policy and program development

Integration of transportation and land use

Facilitation and stakeholder engagement

Karen Kiselewski, AICP

Karen Kiselewski, AICP, retired in 2024 as a Principal with Cambridge Systematics (CS) after 22 years in multimodal transportation planning and policy and program development; resiliency and sustainability planning; and collaboration and consensus-building. She performed special planning and transportation projects for state departments of transportation (DOT), metropolitan planning organizations (MPO), local governments, and other agencies. Prior to her planning career, Karen served as a communications software design engineer and staff manager for over 20 years.

Relevant Experience ➡

Resilient Tampa Bay: Transportation. The Hillsborough TPO, in collaboration with the Pinellas MPO, Pasco MPO, Tampa Bay RPC, and Florida DOT District 7, was awarded a FHWA Resilience and Durability to Extreme Weather grant. This project performed a regional exposure assessment, evaluated the economic effects associated with potential compromise of facilities, created a toolbox of adaptation strategies, provided detailed analyses and costs for representative projects and planning level per-unit costs and recommendations based on criticality. The results provided input to the three long range transportation plans. Karen served as Project Manager leading a multidisciplinary team.

Resiliency Policy Implementation for Florida DOT (FDOT). For FDOT's Office of Policy Planning, CS provided on-call support towards implementation of FDOT's resiliency policy and development of its statutorily required Resilience Action Plan. Work included reviewing and providing coordination on resilience research sponsored and monitored by FDOT; information sharing and presentations for partner agencies and organizations; development and implementation of a resiliency integration assessment and implementation plan with actions across all functional areas of FDOT. Karen served as Project Manager.

Florida DOT Multimodal Corridors of Rural Economic Significance (M-CORES). Ms. Kiselewski served as the lead facilitator and Task Force liaison for the Southwest Central Florida Corridor. The Task Force consisted of 47 members of agency and elected officials from nine counties tasked with developing recommendations on how a potential multimodal, multiuse corridor could be planned and implemented. In this role, Karen helped develop Task Force Work and Engagement Plans and assisted in the development of the final report to the Governor and legislature.

Texas Freight Mobility Plan Implementation. For the TxDOT, Karen served as a technical expert assisting in the development of resiliency case studies that informed the identification of needs as part of plan development. The six case studies related to droughts, winter storms, hurricanes, COVID-19, border crossing closures, and cyber threats. These case studies identified needs related to infrastructure, operations, and supply chains.

Education ➡

M.U.R.P., Urban Planning, Florida Atlantic University, 2001

M.S., Computer Science, Ohio State University, 1986

M.S., Mathematics, Ohio State University, 1985

B.S., Mathematics, California Institute of Technology, 1982
