

Exhibit A – Tree Placement Map

The screenshot displays the 'TREEPLOTTER INVENTORY' web application interface. The main map area shows an aerial view of a residential neighborhood with streets labeled 'NW 2nd St' and 'NW 5th Ave'. A building is labeled 'Manpower'. Several tree placement markers are visible: a red dot (Simpson's stopper) and four cyan dots (Slash pine) are located on the left side of the map, while a blue icon is on the right side.

The top navigation bar includes the 'TREEPLOTTER INVENTORY' logo and three icons: 'ADD', 'MOVE', and 'LOG OUT'. A 'Filters Applied' dropdown menu is open, showing the filter: 'Tree Filter: Project Name = ('Delray Beach ROW 22/23 NW 5th Ave CRA)'. The 'LEGEND' panel on the right features the 'community GREENING' logo and the following settings:

- Layer: Trees
- Display by: Common Name
- Symbology: None

Below the legend, it states 'Showing 5 of 5 sites.' and includes a 'Toggle All' checkbox. The legend also lists the following tree types with their counts:

- Simpson's stopper
- Slash pine (4)

A 'Charts' section is visible at the bottom right of the legend panel.
