

OUR PROMISE _____

Your dedicated partner in response & recovery.
There when you need us.

AshBritt Inc., Response to the City of Delray Beach

AshBritt, Inc. is vigorously committed to contributing and fostering environmental conservation and sustainability through both our corporate and operational practices. Internally, we promote and maintain a robust recycling program in which employees reduce the waste of office paper, supplies, computers, electronics, mercury-containing light bulbs and other applicable products. Recycling containers for paper goods, plastic bottles, and cans are made readily accessible to employees at both our corporate and our satellite offices. Furthermore, we use recycled paper and office products to the greatest practical extent. As such, we wish to express that:

100% of the paper in this proposal is recycled paper

■ *The AshBritt Difference*

- AshBritt has conducted over **330** disaster response missions and **30** special environmental projects, successfully serving more than **600 clients**.
- AshBritt has been directly involved in the recovery efforts of over 60 federally declared disasters in 19 states.
- In the last six years, AshBritt removed over 24,000,000 cubic yards of debris, **giving AshBritt more experience than any company in our industry**.
- AshBritt's bonding capacity is **\$650,000,000**.
- AshBritt has **\$50 million dollars** of company working capital.
- AshBritt's Senior Operations team have been working together for a minimum of 14 years.
- **Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur Fire (2017/2018):**
 - AshBritt has conducted fire debris removal operations on over 1,900 properties in Northern California.
 - Removed over 770,000 tons of fire debris within the 4 impacted jurisdictions.
 - At our peak, AshBritt had over 115 debris removal crews working and moved 25,000 tons of fire debris in one day.
- **Hurricane Irma & Harvey (2017):**
 - Activated as the prime contractor in more than 85 jurisdictions in Florida, Georgia, South Carolina, and Texas.
 - AshBritt cleared and processed over 12,000,000 cubic yards of debris.
- **Hurricane Matthew (2016):**
 - 24 separate debris removal missions across 14,015 square miles in Florida, Georgia, and South Carolina
 - Collected over 5,700,000 cubic yards of disaster-generated debris
 - Managed 45 Temporary Debris Storage and Reduction Sites
- **Hurricane Katrina USACE Mission (2005):**
 - Collected and removed over 9,000,000 cubic yards of debris during the first 60 days
 - Average production rate of approximately 150,000 cubic yards per day
 - Collected and removed 21,500,000 cubic yards of debris
 - Underwrote \$100,000,000
- AshBritt has an Experience Modification Rating of .70 and an ISNetworld safety "A" ranking.
- Supporting local and small businesses is a core corporate value. We commit to working with Small, Disadvantaged, Minority-Owned, Women-Owned, and Veteran-Owned business enterprises.
- AshBritt has been part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE).
 - FEIN: 65-0364711
 - Duns No.: 848970893

Tab 1. Introduction

**** Please see the following pages for AshBritt's Cover Letter ****

June 9, 2018

City of Delray Beach City Hall, Front Lobby Reception Desk,
100 N.W. 1st Street,
Delray Beach, Florida 33444

RE: RFP #2018-001 for Disaster and Debris Management Services

Dear Ms. Alvarez,

AshBritt, Inc. (AshBritt) is the national leader in disaster response and recovery operations. AshBritt is pleased to respond to the City of Delray Beach's RFP for Disaster and Debris Management Services. AshBritt is providing a positive commitment to provide the required services.

▲ *Experience*

AshBritt has managed and performed more than 330 disaster recovery projects and 30 special environmental projects across the United States, including 150 projects in the state of Florida, since our inception in 1992.

AshBritt most recently completed a disaster and debris management services project for the City of Delray Beach in response to Hurricane Irma in 2017. In total, AshBritt removed 147,000 cubic yards of debris, conducted hazardous tree and limb removal, and managed a temporary debris storage and reduction site on S. Congress Ave.

We have been directly involved in the disaster recovery efforts of over 60 federally declared disasters in 19 states. AshBritt is one of only two firms to be a part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE). Today we hold the USACE pre-positioned debris removal primary contract for the South Atlantic Division (SAD) and for the South Pacific Division (SPD).

▲ *Recent Experience*

California Fires: AshBritt is currently tasked by the USACE to conduct a Private Property Debris Removal (PPDR) operation for fire damaged homes and structures in Sonoma, Napa, Mendocino, and Lake Counties, California. This work includes removing contaminated soil, ash, metal, concrete, and other related debris streams on 1,900 properties. AshBritt has removed 770,000 tons of fire debris within the four counties. We also are performing air monitoring and implementing erosion control methods throughout the entire project. For this operation, we certified 1,700 hauling units and are utilizing hundreds of pieces of loading equipment. At our peak, AshBritt had over 115 debris removal crews working, 553 trucks, and moved 25,000 tons of fire debris in one day.

Hurricane Irma: AshBritt recently completed over 65 separate disaster debris removal and recovery missions throughout the states of Florida, Georgia, and South Carolina in response to Hurricane Irma. AshBritt removed over 10,700,000 cubic yards of debris for these missions. AshBritt was the debris removal contractor for all of Collier County, Florida. This was the largest debris removal project conducted in response to Hurricane Irma. In addition to removing 3,600,000 cubic yards of debris, AshBritt removed HHW, white goods, marine debris, hazardous trees, and provided debris management site services, emergency push, vac trucks, meals ready to eat, and port-o-lets.

AshBritt was also the debris removal contractor for Monroe County, Florida. This project was the most difficult debris removal mission in response to Hurricane Irma due to numerous logistical factors requiring specialized equipment to work in and throughout the Florida Keys. AshBritt removed 400,000 cubic yards of debris for this mission in addition to supplying two base camps capable of housing 1,000 people. AshBritt also conducted emergency road clearance operations for the USACE following Hurricane Irma's landfall in Florida. AshBritt mobilized crews both locally from within the State of Florida as well as crews from as far away as Jackson, Mississippi to ensure resources were provided to complete this mission.

Hurricane Harvey: AshBritt recently completed 14 separate disaster debris removal missions throughout the state of Texas in response to Hurricane Harvey. AshBritt collected, managed, reduced, and disposed of 1,700,000 cubic yards of debris. In Fort Bend County, Texas, AshBritt removed 400,000 cubic yards of debris in addition to conducting management/reduction, haul out services, and sand removal and hauling. AshBritt also provided numerous ancillary services including meals ready to eat, shower and bathroom trailers, generator services, and a road clearance mission that required us to remove thousands of cubic yards of corn that had washed into the main roadways due to flooding.

▲ **Financial Strength**

AshBritt's current bonding capacity is \$650,000,000. AshBritt underwrote \$100,000,000 during our operation for the United States Army Corps of Engineers (USACE) Hurricane Katrina mission and currently has \$50,000,000 of company working capital.

▲ **Commitment to Safety**

AshBritt maintains an excellent safety record. **AshBritt's Experience Modification Rating is .70.**

▲ **Industry Expert**

AshBritt collected and removed more than 9,000,000 cubic yards of debris during the first 60 days of our Hurricane Katrina United States Army Corps of Engineers (USACE) mission and we collected over 8,000,000 cubic yards of debris during the first 90 days of our 2017 Hurricane Irma mission. AshBritt works year-round with the federal and state agencies governing disaster recovery, specifically FEMA. We understand the importance to a client of maximizing federal reimbursement and we have proven experience completing missions within the intervals established by the Sandy Recovery Improvement Act.

▲ **Local Partners**

Working with local and regional partners, and with small and minority owned businesses, is a core corporate value. **In response to Hurricane Irma, AshBritt reached out to and utilized local businesses for the City of Delray Beach debris removal project.** AshBritt has received commitments from minority owned local subcontractor (Juarez Lawn and Tree Service) and local subcontractor (Delray Tree Trimming). We look forward to identifying additional local and regional subcontracting partners.

D. Disaster and Debris Management Services

• Signature Projects

AshBritt has provided disaster and debris management services for over 120 clients since November 2015. Although we have only listed four to keep the proposal concise, additional qualifying projects can be found in our Past Experience Table located in Tab (5).

- *USACE – Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur Fires, 2017-2018*

<u>Project Period</u>	<u>Event Details</u>	
<u>Point of Contact</u>	<u>Scopes of Work</u>	
11/13/17 – Present	<p>Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur Fire</p> <p>\$100,000,000 - Still Pending</p>	

Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur Fire - Sonoma, Napa, Mendocino, and Lake County, CA Collection Stats

AshBritt was tasked by the USACE to conduct a Private Property Debris Removal (PPDR) operation for fire damaged homes and structures in Sonoma, Napa, Mendocino, and Lake County, CA. This work included removing contaminated soil, ash, metal, concrete, and other related debris streams on over 1,900 properties. AshBritt removed 770,000 tons of fire debris within the four counties. We also performed air monitoring and implemented erosion control methods throughout the entire project. For this operation, we certified over 1700 hauling units and utilized 200 pieces of loading equipment. At our peak, AshBritt had 115 debris removal crews working and moved 25,000 tons of fire debris in one day. AshBritt conducted and attended numerous planning and coordination meetings with federal, state, and local agencies including but not limited to the EPA, CalEPA, CalOES, tribal agencies, USACE, CalOSHA to ensure all compliance across all stakeholders and agencies.

▪ *Delray Beach, FL – Hurricane Irma, 2017*

Under AshBritt's contract with the City of Delray Beach Florida. For the emergency push period, AshBritt mobilized and deployed skid steers, chainsaw men, and other resources to clear roadways in the affected region. For debris removal operations, AshBritt identified and designated collection zones in each section of the City. AshBritt conducted debris removal in a cemetery by utilizing laborers sweeping through a publicly owned and maintained cemetery. AshBritt removed 4,344 hazardous hanging limbs, 168 hazardous hanging trees, and 8 hazardous stumps. In total, AshBritt collected 147,379 cubic yards of debris in 3,001 loads.

In addition, AshBritt sourced a privately owned TDSRS at the SW corner of Germantown Rd. and S. Congress Blvd. in Delray Beach. This site was utilized for management and processing of the vegetative debris that was collected throughout the City. AshBritt is currently discussing the ability to have a pre-event agreement in place to utilize this TDSRS for the 2018 hurricane season.

3,500,000 cubic yards of debris was collected in 78 days.

Under AshBritt's contract with Collier County Florida, AshBritt received three activations in response to Hurricane Irma: Collier County, the City of Naples and Marco Island. For the emergency push period, AshBritt mobilized and deployed 40 Wheel Loaders, 16 Skid Steers, 100 Chainsaw Men, 70 Vacuum Trucks, 300 Port-o-lets, 125 Generators, 2 Special Waste Crews and built 11,000 ft. of roads to open 6 Temporary Debris Storage and Reduction Site locations that we developed, staffed and operated throughout the affected areas. For debris removal operations, AshBritt identified and designated collection zones in each municipal jurisdiction. We employed and managed over 100 subcontractors, 235 debris hauling vehicles and 50 tree crews which removed 1,000 hazardous trees and 25,000 dangerous hanging limbs.

AshBritt is currently conducting a marine debris removal mission from over 40 canals throughout Collier County, FL in response to Hurricane Irma. To date, AshBritt collected 13,000 cubic yards of marine debris. AshBritt is utilizing various types of boats with grapples attached to them to remove the debris from the waterway and then unload the debris from boat into a collection truck.

Hurricane Matthew - 2016 Chatham County, GA Collection Stats

▪ **Project Overview**

Hazardous Tree work in Chatham County

The response area for AshBritt's contract with Chatham County, GA, covers 462 square miles of contracted geographic area. AshBritt identified and designated collection zones in each jurisdiction. We sourced, retained and assigned subcontractors for all collection zones. We developed, staffed and operated 3 temporary debris staging and reduction sites throughout the affected areas. AshBritt conducted right of way vegetative debris collection, operated and Temporary Debris Storage and Reduction Site, reduction of vegetative debris through grinding, and haul out services. In addition, services included a leaner/hanger program and a hazardous stump mission in which AshBritt removed 1,175 leaning trees, 21,795 hanging limbs, 113 stumps.

■ ***E. Scrutinized Company Certification Form***

AshBritt Is NOT listed on the Florida State Board of Administration, Scrutinized List of Prohibited Companies.

ATTACHMENT G
Vendor Certification Regarding
Scrutinized Companies Lists

Vendor Name: AshBritt, Inc.

General Instructions		
Section references are to the Internal Revenue Code unless otherwise noted.		
Future developments. The IRS has created a page on IRS.gov for information about Form W-9, at www.irs.gov/w9 . Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.		
Purpose of Form A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends.		
Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to: <ol style="list-style-type: none"> 1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued), 2. Certify that you are not subject to backup withholding, or 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the 		
Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

Tab 5. Experience and References

■ A. Years in Business

Since our inception in 1992 (25 years), we have conducted over 330 disaster projects and 30 special environmental projects of various sizes, successfully serving more than 600 clients.

■ B. Team Overview

As mentioned previously, AshBritt has been providing the services requested in this solicitation since 1992 (25 years). AshBritt is a national leader in disaster response and recovery services in terms of experience, capacity, quality of service, operational innovation, and financial strength. AshBritt is exclusively a disaster response and recovery contractor; and we continue to bring the best recovery solutions to the City of Delray Beach.

Our senior operational and field personnel are experts on the federal emergency management standard Incident Command System (ICS) program, a key component of the National Incident Management System (NIMS). AshBritt has integrated the foundations of the ICS into our own organizational structure and planning standards for response, logistics, and recovery. Our team is also familiar with the base tenets of NIMS and the National Response Plan (NRP) through completion of the FEMA Emergency Management Institute training IS-00700, NIMS, An Introduction, and IS-00800.A, NRP, An Introduction.

Our team is certified through the USACE program Construction Quality Management for Contractors, which is the stringent standard for safety and quality control followed by the USACE during disaster recovery missions.

We have proven through our capabilities and wherewithal to be a professional, reliable, and competent contracting partner. We have witnessed first-hand the economic strain and demands that communities face in the aftermath of major disasters. Although state and federal funding to support immediate local recovery efforts may lag significantly, proper documentation will aid in the speed of reimbursement from federal and state agencies. To ensure response and recovery progresses and reimbursement is obligated rapidly, we use our records and reporting system identified as Disaster Information Management System (DIMS). This record and reporting system allows AshBritt to give access to the City to monitor applicable projects. In addition, this makes it possible to keep tabs on all work being done from the ROW to TDSRS management ensuring a smoother reimbursement process.

■ C. Years of Service

As mentioned previously, AshBritt has been providing the services requested in this solicitation since 1992 (25 years).

***Regulations & Agencies of the Disaster Industry ***

- Federal Emergency Management Agency (FEMA) – Public Assistance Program
- Environmental Protection Agency (EPA)
- Occupational Safety and Health Administration (OSHA)
- Federal Highway Administration (FHWA)
- Moving Ahead for Progress in the 21st Century (MAP 21)
- Robert T. Stafford Act
- Sandy Recovery Improvement Act
- Homeland Security Act
- Post-Katrina Emergency Management Reform Act
- 2 C.F.R. – 200.317-337

Since our inception, AshBritt has collected over 58,500,000 cubic yards of disaster-generated debris and handled more than 138,500,000 cubic yards of disaster-generated debris.

D. Experience in Disaster and Debris Management

We have been directly involved in the recovery efforts of over 60 federally declared disasters in 19 states, beginning with Hurricane Andrew in South Florida and most recently with Hurricane Irma. Our Past Experience Table, provided later in Tab (5), illustrates our broad and extensive performance record. AshBritt has successfully responded: hurricanes, tornadoes, tropical storms, floods, ice storms, earthquakes, wildfires, and invasive species infestation. AshBritt has responded to 150 missions throughout Florida dating back to Hurricane Andrew in 1992.

In the last seven years, AshBritt completed disaster recovery projects and managed over 24,000,000 cubic yards of debris in the states of **FL, GA, SC, CT, MA, NJ, NY, VA, TX, CA, and MD**. These projects included debris removal, debris site management, hanger/leaner programs, stump removal programs, and numerous other recovery services.

- 2011 Connecticut Severe Storms (DR-4046)
- 2011 Massachusetts Severe Storm and Snowstorm (DR-4051)

The disaster experience
AshBritt has gained in the last
7 years is unmatched by any
other firm in the industry.

Note: We've included the FEMA declaration (DR) number after projects that were federally declared disaster events.

AshBritt has been part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE). We were awarded the primary contract for the South Pacific Division (SPD) and South Atlantic Division (SAD) for USACE pre-positioned Advanced Contracting Initiative (ACI) debris removal contracts. The USACE SAD region includes Florida, Georgia, Alabama, North Carolina, and South Carolina. The USACE SPD region includes California, New Mexico, Nevada, Arizona, and Utah. The USACE adheres to the most stringent federal guidelines when selecting pre-positioned disaster debris removal contractors. This award represents the most elite contract in the disaster recovery industry.

AshBritt maintains the highest levels of safety, quality, and integrity in conducting our services and operations while adhering to all guidance set forth by *OSHA, USACE, EPA, and FEMA*. In support of past events, we have always met or exceeded small business requirements. AshBritt was once a small business and we recognize utilizing disadvantaged businesses including but not limited to: Small Business Enterprises (SBE), Historically Underutilized Businesses (HUB), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) to the fullest extent possible in accordance with 2 C.F.R. 200.

**In terms of safety, AshBritt has an
ISNetworld "A" ranking, an Experience
Modification Rating of .70.**

- *Experience Overview*

Please see the following pages for our recent experience overview.

- **USACE - Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur (2017)**: Please see our Signature Projects Section in Tab (3) for the information on this project.
- **Hurricane Irma**: AshBritt recently completed over 70 separate disaster debris removal and recovery missions throughout the states of Florida, Georgia, and South Carolina in response to Hurricane Irma. AshBritt removed over 10,700,000 cubic yards of debris for these missions. AshBritt was the debris removal contractor for all of Collier County, Florida. This was the largest debris removal project conducted in response to Hurricane Irma. In addition to removing over 3,600,000 cubic yards of debris, AshBritt removed HHW, white goods, marine debris, hazardous trees, and provided debris management site services, emergency push, vac trucks, meals ready to eat, and port-o-lets. AshBritt is currently conducting a marine debris removal mission from over 40 canals throughout Collier County, FL in response to Hurricane Irma. To date, AshBritt collected 13,000 cubic yards of marine debris. AshBritt is utilizing various types of boats with grapples attached to them to remove the debris from the waterway and then unload the debris from boat into a collection truck.

AshBritt was also the debris removal contractor for Monroe County, Florida. This project was the most difficult debris removal mission in response to Hurricane Irma due to numerous logistical factors requiring specialized equipment to work in and throughout the Florida Keys. AshBritt removed over 400,000 cubic yards of debris for this mission in addition to supplying two base camps capable of housing over 1,000 people. AshBritt also conducted emergency road clearance operations for the USACE following Hurricane Irma's landfall in Florida. AshBritt mobilized crews both locally from within the State of Florida as well as crews from as far away as Jackson, Mississippi to ensure resources were provided to complete this mission.

- **Hurricane Harvey**: AshBritt recently completed 14 separate disaster debris removal missions throughout the state of Texas in response to Hurricane Harvey. AshBritt collected, managed, reduced, and disposed of 1,700,000 cubic yards of debris. In Fort Bend County, Texas, AshBritt removed over 400,000 cubic yards of debris in addition to conducting management/reduction, haul out services, and sand removal and hauling. AshBritt also provided numerous ancillary services including meals ready to eat, shower and bathroom trailers, generator services, and a road clearance mission that required us to remove thousands of cubic yards of corn that had washed into the main roadways due to flooding.
- **Hurricane Matthew (2016)**: AshBritt recently completed 24 separate debris removal and disaster recovery missions covering a contracted geographic response area of 14,015 square miles in Florida, Georgia, and South Carolina in response to Hurricane Matthew. These services included emergency road clearance, Right-of-Way (ROW) collection, management, hauling, and disposal of vegetative and C&D debris, hazardous tree and limb work, and beach debris removal. In total, AshBritt has collected over 5,700,000 cubic yards of disaster-generated debris and managed 45 Debris Management Sites in response to Hurricane Matthew.

- **California Blue Cut Fire (2016):** In response to the Blue Cut Fire in 2016, AshBritt provided the County of San Bernardino a shelter at the San Bernardino County Fair Grounds in Victorville. AshBritt provided 40 portable toilets, 15 were ADA compliant, 40 portable showers, 10% of which were American Disability Act (ADA) compliant. In addition to providing these critical shelter services, we set up staffing donation stations, freezer and refrigerator trailers, laundry units, fuel trucks, among other similar services for a 3500 person County managed shelter.

AshBritt provided portable toilets and additional ancillary services for the 2016 Blue Cut Fire in San Bernardino, California

- **California Soberanes Fire (2016):** Conducted ROW debris clearing of hazardous fire damaged trees that were cut down by CalFIRE in response to the 2016 Soberanes Fire in Monterey County, CA. AshBritt also conducted cutting and removing hazardous fire damaged trees that were still standing in the County's ROW.
- **Texas Severe Storms and Floods (2016):** Completed a C&D debris removal project in response to the 2016 City of Jersey Village, TX Severe Storms and Flooding (DR-4269).
- **California Valley Fire (2015):** AshBritt completed a hazardous tree removal project for Lake County, CA. Operations were focused on felling, trimming, and chipping of fire damaged and destroyed trees in the ROW and on private property. Throughout this project, we were abiding by all FEMA Fire Management Assistance Grant Program (FMAG) guidelines for Lake County, CA to maximize their federal reimbursement for the Valley Fire (DR-4240). AshBritt processed 193,216 cubic yards of fire damaged and destroyed trees for this project. Simultaneously, AshBritt was conducting a separate hazardous tree removal project in Lake County, CA for Pacific Gas & Electric Company from October 2015 through December 2015. Operations were focused on felling, trimming, and chipping of fire damaged and destroyed trees posing a threat to power distribution lines. Project-wide, over 28,000 trees were felled on this project.
- **South Carolina Flooding (2015):** AshBritt completed a Right-Of-Way (ROW) vegetative, C&D, and E-waste collection mission for the City of Sumter, SC in response to the October 2015 flooding event.
- **Florida Severe Storm (2015):** AshBritt completed a Right-Of-Way (ROW) vegetative debris mission following a Severe Storm that impacted Collier County and the City of Naples, FL. We collected and disposed of over 40,000 cubic yards of debris.
- **Virginia and Maryland Winter Storm Jonas (2015):** AshBritt conducted snow removal services for seven days while utilizing over 350 pieces of heavy equipment for nine jurisdictions in Virginia and Maryland.
- **Florida Red Tide Fish Kill (2015):** AshBritt completed a Red Tide Dead Fish collection and disposal project for the City of Longboat Key, FL. This included the collection disposal of 10,000 pounds of dead fish.
- **South Carolina Severe Storm and Flooding (2015):** AshBritt completed a ROW debris collection and disposal operation in Charleston, SC for vegetative and C&D debris streams in response to the October 2015 South Carolina Severe Storms and Flooding (DR-4241). We collected 31,464 cubic yards of debris for the City.

AshBritt Red Tide Fish Kill Cleanup – Long Boat Key, FL - 2015

- **Texas Flooding Event (2015):** During July of 2015, AshBritt conducted water relocation services by providing over 20 Vac trucks in Hidalgo County, TX in response to flooding events.
- **Winter Storm Pax (2014):** In February 2014, AshBritt was activated in eight municipalities after Winter Storm Pax impacted Georgia and South Carolina. In South Carolina, AshBritt removed, managed, and disposed of more than 350,000 cubic yards of vegetative debris and mitigated more than 50,000 hazardous trees and limbs from public property. Operations included the deployment of more than 40 crews and the management of five TDSRS throughout the six projects (Hampton County, Georgetown County, Sumter County, Sumter, Colleton County, and Marion County). *AshBritt was able to recycle and put to beneficial reuse 100% of the 350,000 cubic yards of debris collected in South Carolina.* In addition to these South Carolina projects, AshBritt simultaneously removed 750,000 cubic yards of debris, 26,000 hangers, and operated six TDSRS sites in Augusta, GA.

- **Hurricane Sandy (2012):** AshBritt was activated by 54 separate jurisdictions to assist with the disaster recovery and debris removal operations after Hurricane Sandy made landfall in October of 2012. AshBritt managed the removal and disposal of approximately **3,500,000 cubic yards** of storm-related debris.
- **CT & MA Winter Storms (2011):** AshBritt's state contracts for Connecticut and Massachusetts were activated in response to the Halloween Snowstorm event. We assisted 43 jurisdictions with removing, managing, and disposing of almost **4,000,000 cubic yards** of vegetative debris. AshBritt removed 188,000 hazardous hanging limbs for these two projects.
- **Eastern U.S. Tornadoes and Hurricane Irene (2011):** Additionally, in 2011, we were activated in Georgia, North Carolina, Virginia, Delaware, Connecticut, and Massachusetts assisting multiple clients following Hurricane Irene and the Eastern U.S. tornado outbreaks.
- **Mid-Atlantic Snowstorm (Snowmageddon) (2011):** AshBritt provided snow clearing and removal services, as well as salt delivery hauling. AshBritt utilized loaders and dump trucks for these services in six jurisdictions in Maryland and Virginia. We mobilized 360 of pieces of heavy equipment, had over 3,000 man-hours, and approximately 25,000 equipment/truck hours.
- **Deepwater Horizon Oil Spill (2010):** In response to the 2010 Oil Spill, AshBritt responded and provided on-site pre-planning support with local officials and subcontractors for over two weeks before receiving a task order from FDEP. In total, AshBritt deployed 11,000 linear feet of oil deflection boom utilizing over 75% local businesses and personnel in Gulf County, FL and 95,000 linear feet of oil deflection boom for Bay County, FL.

AshBritt built a boom gate in a channel in Bay County, FL in order to minimize the oil entering the intercostal waterway. The boom system was comprised of 18 42-inch free-standing steel pilings and eight

pile "dolphins" (each consisting of three pilings attached together with a cap on them). The total of 54 pilings vary in length depending on the depth of the water, and extend at least 10 feet above the mean high tide level and about half their entire length is buried below the bay's floor.

The boom is made of 30-inch diameter, two-inch thick HDPE pipe and will have a 48-inch long HDPE fabric weighted skirt hanging below the pipe. Some 2,400 feet of boom, along with the 400-foot-wide gates were fused together, for a total of 2,800 feet of boom.

In the middle of the channel, a 400-foot hinged boom gate will allow for opening or closing the pass and diverting the oil products to the sides, where skimming vessels will be used on either side of the project to collect oil.

The hinged boom in the center of the pass allowed boat traffic to come and go with the outgoing tide and closed to traffic with the incoming tide when oil was actively being removed from the area. The gates stay open if oil is not a threat to the bay.

- **Hurricane Ike (2008):** AshBritt's response to Hurricane Ike included removal, management, and disposal of 1,500,000 cubic yards of debris for 15 jurisdictions throughout the state of Texas.

AshBritt supplied emergency power generation, fuel, pumping services, as well as mobile sleeper units, showers, emergency meals, lodging & hygiene, MREs, water, Gatorade, temporary housing, temp offices, refrigerators, dry containers, grocery deliveries, a mobile command center, and an aviation trailer directly following the hurricane.

AshBritt relocated 350 million gallons of flood water for Hidalgo County, Texas. We were also tasked by Orange County, TX with providing building restoration services for 17 government buildings. This included water/debris extraction, decontamination and disinfecting, drying-in, climate control, and document recovery. Between our Orange County and Galveston project, we handled 19,000 White Goods, of which 7,500

required Freon Extraction, and 8,700 required decontamination owing to putrescent food. AshBritt disposed of 2,200 E-waste units and 195,000 pounds of household hazardous waste.

- **Citrus Canker, and Hazardous Tree Fuels Reduction (2005):** In addition to our disaster response and recovery work, AshBritt has performed significant environmental and hazard mitigation projects. These projects included the 2005 Citrus Canker Eradication Project for the Florida Department of Agriculture, which consisted of the removal, processing, and disposal of over 200,000 infected citrus trees. AshBritt also conducted several projects in 2005 for the removal of dead, dying or diseased hazardous trees for the purpose of fire safety, fuels reduction, and hazard mitigation for the Counties of San Diego, Riverside, and San Bernardino, California .

AshBritt chartered an Antonov (AN 124) from France to deliver skimmer boats for FDEP Deepwater Horizon Oil cleanup mission.

AshBritt conducting water relocation services in Hidalgo County, TX - 2008

- **Hurricane Katrina and Wilma (2005):** AshBritt was the *Prime Contractor* for the U.S. Army Corps of Engineers (USACE) recovery mission in response to Hurricane Katrina. ***The Hurricane Katrina recovery project in Mississippi was the largest disaster management mission completed by a single company in U.S. history.*** In 2005, AshBritt was the initial response contractor for the USACE in both Louisiana and Mississippi following Hurricane Katrina. Ultimately, we were the USACE's prime contractor for debris removal and management in the state of Mississippi. For this unique mission, we collected and disposed of **21,500,000 cubic yards** of debris and wreckage. While responding to 27 jurisdictions in Louisiana and Mississippi, AshBritt removed 350,000 cubic yards of debris for 11 jurisdictions in South Florida following Hurricane Katrina. AshBritt removed, managed, and disposed of over 4,500,000 cubic yards for 22 jurisdictions in South Florida following Hurricane Wilma.

No other company in this industry has proven their capacity to handle simultaneous cleanups in multiple states like AshBritt.

Below is a clear representation of our proven capability and experience.

- 4 Jurisdictions in response to USACE Tubbs, Nuns, Pocket, Atlas, Redwood Valley, and Sulphur Fire in 2017 (1,250,000 cubic yards/770,000 Tons)
- 70 Jurisdictions in response to Hurricane Irma in 2017 (10,700,000 cubic yards)
- 14 Jurisdictions in response to Hurricane Harvey in 2017 (1,700,000 cubic yards)
- 24 Jurisdictions in response to Hurricane Matthew in 2016 (5,700,000 cubic yards)
- 60 Jurisdictions in response to Hurricane Sandy in 2012 (3,500,000 cubic yards)
- 32 Jurisdictions in response to the MA Severe Storm and Snow Storm in 2011 (1,700,000 cubic yards)
- 17 Jurisdictions in response to CT Severe Storm and Snow Storm in 2011 (1,800,000 cubic yards)
- 24 Jurisdictions in response to Hurricane Wilma in 2005 – (4,800,000 cubic yards)
- 27 Jurisdictions in response to Hurricane Katrina in 2005 – 2006 (21,500,000 cubic yards)
- 8 Jurisdictions in response to Hurricane Charley, Frances, Jeanne – 2004 (4,800,000 cubic yards)

- ***Past Experience Table***

Please see the following pages for our Past Experience Table, which describes our qualifications and experience to perform the work described in this solicitation. AshBritt welcomes the City to utilize the Points of Contact identified in our Experience Table as additional references if they wish to inquire about further details.

Client	ST.	Event	Description of Services Provided	Response Time	Start Date	End Date	Final Project Cost	Contract Details	Point of Contact	Phone Number	Email
Broward County	FL	Hurricane Irma	Provided Debris Management Site management and haul out services.	<24 hours	1/11/2017	Pending	Pending	Pending	Richard Meyers	(954) 474-1848	rmeyers@broward.org
Collier County	FL	Hurricane Irma	AshBritt provided generators, toilets and shower facilities, vacuum trucks, traffic signal inspections, food and water for over 1,800 people, temporary fencing, and other ancillary Conducted emergency road clearance, Right of Way vegetative debris collection, Debris Management Site management, reduction of vegetative debris through grinding, and haul out services. Additionally, AshBritt conducted waterway collection services and provided ancillary services including vacuum and fuel trucks.	<4 hours	9/20/2017	Pending	\$49,245,000	3,130,499 cubic yards, hourly and	Dan Rodriguez	(239) 252-2504	DanRodriguez@colliergov.net
Marco Island	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris collection, Debris Management Site management, reduction of vegetative debris through grinding, and haul out services. Additionally, AshBritt provided waterway collection services and provided a leacher, hauler, and hazardous stump mission.	<4 hours	9/20/2017	Pending	\$3,270,000	269,517 cubic yards	Dan Rodriguez	(239) 252-2504	DanRodriguez@colliergov.net
Naples	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Hazardous tree removal.	<4 hours	9/20/2017	Pending	\$2,915,000	197,328 cubic yards	Dan Rodriguez	(239) 252-2504	DanRodriguez@colliergov.net
Orange County	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<24 hours	9/15/2017	Pending	\$4,530,000	184,344 cubic yards	Ralphetta Aker	(407) 836-8011	ralphetta.aker@ocf.net
St. John's County	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<24 hours	9/14/2017	Pending	\$8,500,000	674,324 cubic yards	Greg Caldwell	(904) 209-0132	gcaldwell@co.st-johns.fl.us
Orange County	TX	Hurricane Harvey	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<48 hours	9/13/2017	Pending		367,118 cubic yards	Ralph Valenciano	(409) 745-9717	rvalenciano@co.orange.tx.us
Lauderhill	FL	Hurricane Irma	Conducted emergency road clearance and Right of Way vegetative debris collection.	<24 hours	9/11/2017	Pending	\$24,200 hourly	10,062 cubic yards	Chuck Feranda	(954) 730-3000	citymanag@lauderhill-fl.com
Miami Gardens	FL	Hurricane Irma	Emergency Road Clearance	<12 hours	9/8/2017	Pending	\$74,200	Hourly Services	Tom Ruiz	(786) 279-1260	trui@miamigardens-fl.gov
Lumberton	TX	Hurricane Harvey	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<48 hours	9/14/2017	12/1/2018	\$246,000	15,972 cubic yards	Steve Clark	(409) 755-0031	sclark@gtbizclass.com
Refugio County	TX	Hurricane Harvey	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<48 hours	9/20/2017	2/9/2018	Pending	145,530 cubic yards	Stan Upton	(361) 526-2820	refugioxmc@yahoo.com
Gainesville	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Hazardous tree and limb removal.	<24 hours	9/13/2017	1/17/2018	\$854,600	92,283 cubic yards	Steve Joplin	(352) 334-2330	joplins@cityofgainesville.org
Hendry County	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Hazardous tree and limb removal.	<48 ->24 hours hours	9/22/2017	1/16/2018	\$2,849,000	276,181 cubic yards	Brian K. Newhouse	(863) 674-5400	brian.newhouse@hendryfla.net
Pinellas County	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. AshBritt also conducted a leacher/hanger mission and removed over 10,000 hangers and 60 leachers.	<24 hours	9/12/2017	1/16/2018	\$3,800,000	221,484 cubic yards	Sean Tipton	(727) 464-8809	stipton@co.pinellas.fl.us
Key West	FL	Hurricane Irma	AshBritt performed ROW debris collection of vegetative debris, C&D, white goods, and HHW, sand and seagrass removal. Debris Management Site management, reduction of debris via grinding and compaction, and haul out services, including white goods haul out and the collection and haul out of 23,940 pounds of putrescent debris.	<24 hours	9/16/2017	1/11/2018	\$2,173,900	146,687 cubic yards	Alan Averette	(305) 809-3933	aaverette@keywestcity.com
Orlando	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, haul out services, and removal of over 5,200 hazardous trees.	<24 hours	9/15/2017	1/5/2018	\$1,320,000	59,794 cubic yards	Michael Carroll	(407) 246-3050	michael.carroll@cityoforlando.net
Hardin County	TX	Hurricane Harvey	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.	<48 hours	9/12/2017	1/4/2018	\$2,128,000	116,975 cubic yards	Chris Kirkendall	(409) 617-1513	chris.kirkendall@co.hardin.tx.us
Charleston County	SC	Hurricane Irma	Conducted Right of Way vegetative debris through grinding, reduction of C&D through compaction, and haul out services. Hazardous tree and limb removal.	<24 hours	9/28/2017	1/2/2018	Pending	41,282 cubic yards	James Neal	(843) 202-7600	jneal@charlestoncounty.org

Client	ST.	Event	Description of Services Provided		Response Time	Start Date	End Date	Final Project Cost	Contract Details	Point of Contact	Phone Number	Email
Miami Lakes	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of vegetative debris through grinding, haul out services, and removal of over 8,800 hazardous limbs		Before start time	9/8/2017	1/2/2018	\$2201,700	61,922 cubic yards	Carlos Acosta	(305) 364-6100 x1129	acostac@miamilakes.fl.gov
Coral Gables	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<24 hours	9/16/2017	12/30/2017	\$7,839,000	319,416 cubic yards	Brook Dannemiller	(305) 460-5130	bdannemiller@coralgables.com
Dunedin	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. In addition, AshBritt performed a leaner/hanger program and a hazardous stump mission.		<24 hours	9/16/2017	12/30/2017	\$721,000	32,556 cubic yards	Bill Pickrum	(727) 298-3215 x1322	WPickrum@DunedinfL.Net
Monroe County	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Additionally, AshBritt provided base camps, and collecte, 128,100 pounds of purified food waste, removed 671 hazardous stumps, and haul out from, and hauled out over 5,300 units of white goods.		Before Start Time	9/18/2017	12/22/2017	\$15,095,900	420,773 cubic yards	Judith S. Clarke	(305) 295-4329	Clarke-judith@monroecounty-fl.gov
Manatee County	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris collection, Debris Management Site management, reduction of vegetative debris through grinding and haul out services. Additionally, AshBritt conducted a leaner/hanger program and collected over 17,000 hangers and 200 leaners.		<24 hours	9/15/2017	12/20/2017	\$8,200,000	478,484 cubic yards	Jeanne Detweller	(941) 798-6760	jeanne.detweller@mymanatee.org
Islamorada	FL	Hurricane Irma	AshBritt performed push operations, ROW debris collection of vegetative debris, C&D, white goods, and concrete, sand removal, Debris Management Site management, reduction of debris via grinding and compaction, and haul out services, including white goods, haul out, Hazardous tree, limb, and stump removal.		Before start time	9/8/2017	12/20/2017	\$4,866,100	214,146 cubic yards	Ana Hernandez	(305) 664-6453	ana.hernandez@islanorada.fl.us
Rose Hill Acres	TX	Hurricane Harvey	Conducted Right of Way vegetative debris, C&D and white goods collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<48 hours	9/12/2017	12/19/2017	\$143,000	10,247 cubic yards	Rich Thomisee	(409) 751-0075	rthomisee@ymail.com
Hillsborough County	FL	Hurricane Irma	Conducted emergency road clearance, ROW vegetation debris and C&D collection, Debris Management Site management, reduction of debris via grinding and compaction, and haul out services.		<24 hours	9/8/2017	12/19/2017	\$4,666,000	246,369 cubic yards	Kimberly Byer	(813) 272-5680	kbyer@HCFI.Gov.net
Victoria County	TX	Hurricane Harvey	Conducted emergency road clearance, Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of vegetative debris through grinding, reduction of C&D through compaction, and haul out services. Hazardous tree and limb removal.		<48 hours	9/28/2017	12/12/2017	\$1,859,200	155,887 cubic yards	Rick McBrayer	(361) 485-3362	rrmcbrayer@victoriabx.org
Victoria	TX	Hurricane Harvey	Conducted emergency road clearance, Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of vegetative debris through grinding, reduction of C&D through compaction, and haul out services. Hazardous tree and limb removal.		<48 hours	9/26/2017	12/12/2017	\$5,743,700	398,844 cubic yards	Darryl Lesak	(361) 485-3230	dlesak@victoriabx.org
Delray Beach	FL	Hurricane Irma	Emergency push operations, ROW vegetation debris collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Hazardous tree and limb removal.		<12 hours	9/12/2017	12/8/2017	\$2,145,000	147,379 cubic yards	Joe Frantz	(561) 445-8430	franz12@mydelraybeach.com
Deerfield Beach	FL	Hurricane Irma	Emergency push operations, ROW vegetation debris collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services. Hazardous tree and limb removal.		Before start time	9/8/2017	12/8/2017	\$1,257,400	70,792 cubic yards	Chad Gresek	(954) 480-4382	CGresek@deerfield-beach.com
Sarasota County	FL	Hurricane Irma	Right of Way vegetation debris collection		<24 hours	10/20/2017	12/7/2017	\$260,000	35,000 cubic yards	Lois Rose	(941) 861-1589	lerose@sgcov.net
Port Orange	FL	Hurricane Irma	Conducted Right of Way vegetative debris, Debris Management Site management, reduction of debris through grinding, and haul out services.		<24 hours	9/26/2017	12/6/2017	\$1,940,000	98,608 cubic yards	Alex Torrent	(386) 506-5573	atorrent@port-orange.org
St. Lucie County	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<24 hours	9/18/2017	12/6/2017	\$1,155,000	84,362 cubic yards	Ron Roberts	(772) 462-1631	Robertson@stlucieco.org
Hallandale Beach	FL	Hurricane Irma	Conducted Right of Way vegetative debris and C&D collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<24 hours	9/16/2017	12/6/2017	\$556,200	33,516 cubic yards	Steve Parkinson	(954) 459-1526	sparkinson@hallandalebeachfl.gov
Sour Lake	TX	Hurricane Harvey	Conducted Right of Way C&D and white goods collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<48 hours	9/13/2017	12/2/2017	\$49,000	3,250 cubic yards	Larry Saurage	(409) 287-3574	lsaurage@cmaccess.com
Belleair Beach	FL	Hurricane Irma	Conducted emergency road clearance, Right of Way vegetative debris collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<24 hours	9/27/2017	11/30/2017	\$60,000	3,931 cubic yards	Lynn Rives	(727) 595-4646	lyn.rives@cityofbelleairbeach.com
Belleair Bluffs	FL	Hurricane Irma	Conducted Right of Way vegetative debris collection, Debris Management Site management, reduction of debris through grinding and compaction, and haul out services.		<24 hours	9/26/2017	11/29/2017	\$101,000	7,643 cubic yards	Robert David	(727) 584-2151	@cityofbelleairbeach.com
Indian Shores	FL	Hurricane Irma	Right of Way vegetative debris and C&D collection and haul out		<24 hours	9/25/2017	11/29/2017	\$5,200	542 cubic yards	Michael Scroggins	(727) 474-7716	mscroggins@mwindianshore.com

Client	ST.	Event	Description of Services Provided		Response Time	Start Date	End Date	Final Project Cost	Contract Details	Point of Contact	Phone Number	Email

State of Massachusetts	MA	Severe Storm & Showstorm	On October 29, 2011 most of the state was blanketed by as much as 27 inches of wet snow from the Massachusetts Severe Storm and Showstorm. This event generated massive amounts of hurricane like vegetative debris. AshBritt received separate task orders from the State for emergency road clearance operations in various municipalities. Additionally, the state offered the contract to all municipalities and public agencies for large volume debris removal, management and disposal operations. Twenty separate municipalities as well as the City of Springfield's Parks Department and publicly owned Springfield College chose to utilize this contract. AshBritt removed hazardous hanging limbs (hangars) from 101,835 trees and 5,143 hazardous leaning trees (leaners). AshBritt loaded, hauled and reduced through grinding 1,774,452 cubic yards of vegetative material. All vegetative material was disposed of through beneficial re-use. AshBritt utilized company owned equipment as well as 101 subcontractors deploying 694 pieces of rubber-tired equipment. AshBritt had more than 75 personnel including corporate principals, senior project managers, project managers, quality control representatives and administrative staff working daily out of a local field office building in West Springfield, MA.	<6 Hours	10/29/2011	8/25/2012	\$79,489,033	1,774,452 cubic yards	David B. State of Connecticut	CT	CT Severe Storm	On October 29, 2011 much of the State of Connecticut was blanketed by as much as 27 inches of wet snow due to an early season snowstorm resulting in extensive vegetative damage. Approximately 800,000 residents were without power. AshBritt's contract was activated by the State initially for emergency road clearance operations. AshBritt subsequently received 17 disaster debris management task orders for municipalities and three for state agencies including the Connecticut Department of Transportation. Statewide operations included the removal of hazardous hanging limbs from 86,210 trees, the removal of 11,185 hazardous trees and the padding, hauling, reduction through grinding and disposal, through beneficial re-use, of 1,835,101 cubic yards of vegetative material. AshBritt utilized company owned equipment as well as the support of 141 subcontractors utilizing over 1,293 pieces of rubber-tired equipment to assist in this large storm generated debris management project. AshBritt had more than 55 personnel including corporate principals, senior project managers, safety officers, project managers, quality control representatives and administrative staff.	<1 Hour	10/29/2011	3/12/2012	\$73,538,607	1,835,101 cubic yards	Judy Pahl	(860) 685-8543	judy.pahl@ctd.gov

US Army Corps of Engineers	Multi	Hurricane Katrina	AshBritt was the initial Response contractor for both Louisiana (LA) and Mississippi (MS). Within the first 30 days following contract activation, AshBritt initiated debris removal operations in 11 LA jurisdictions assigned by task order from the USACE and was tasked to service 16 separate jurisdictions in MS, covering over 8,400 square miles and over 175 miles inland. AshBritt identified and designated collection zones in each jurisdiction. We sourced, retained and assigned subcontractors for all collection zones. Of vital importance to the mission, AshBritt provided emergency quartermaster and hygiene facilities for more than 300 government personnel, as well as established a commissary that served more than 10,000 meals. In LA, we provided over 50,000 gallons of emergency diesel fuel for initial operations, avoiding any equipment downtime. We also developed and staffed 26 TDSR sites throughout the affected areas and had collected and hauled over 1,000,000 cu yd of debris in less than 5 weeks. Additionally, we removed 19 tons of petroleum fuel from commercial cold storage facilities in Orleans Parish. In MS, we collected, hauled and processed approximately 21 million cubic yards of vegetative debris and wreckage, staffing, managing and operating 52 temporary debris processing sites. Specifically, we hauled over 700,000 loads of debris, using approximately 12,400 certified vehicles.	N/A	9/1/2005	8/28/2006		\$650,000,000	21,500,000 cubic yards	Joan Arnold	(337) 281-5092	missy.karnold@mwr2.usace.army.mil

Hampton	VA	Imminent Danger Tree Program	Project Description: Mitigation, removal and disposal of hazardous hanging limbs, leaning trees, tree felling, stump excavation, tree and root grubbing, and site restoration.	N/A	9/1/2003	3/1/2004	\$1,500,000	Debris Management	Ted Henfien	(757) 727-6346	thefin@hrsd.com
Hampton	VA	Hurricane Isabel	AshBritt collected and processed approximately 2,200,000 cy of disaster debris, while disposing of over 750,000 cy of reduced vegetative waste and C&D. AshBritt managed 1 massive TDSR site in excess of 100 acres. Debris was reduced by grinding, compaction and burning. Over 1,687 loads were managed for both debris collection and disposal, utilizing over 190 collection trucks and 85 disposal trucks. In addition, AshBritt removed over 1,400 hazardous trees under the imminent danger tree program, removed debris from severs and catch basins throughout the City, provided emergency power to municipal buildings and lift stations, provided propane delivery as generator fuel to the City EOC, provided technical assistance to the City as it relates to the Public Assistance program categories A-G.	N/A	9/1/2003	3/1/2004	\$23,809,544	552,484 cubic yards	Ted Henfien	(757) 727-6020	thefin@hrsd.com
Chowan County	NC	Hurricane Isabel	AshBritt conducted emergency response road clearance and debris collection for the County during the 70 hour emergency period. AshBritt collected 28,000 cy of debris, while disposing of 9,500 cy of reduced vegetative waste and C&D. Overall 1,945 loads were managed for both debris collection and disposal, utilizing over 59 collection trucks.	N/A	9/1/2003	9/10/2003	\$313,281	28,000 cubic yards	Patricia Madry	(252) 482-4365	patry.mdry@ncmail.net
Edenton	NC	Hurricane Isabel	AshBritt conducted emergency response road clearance and debris collection for the City during the 70 hour emergency period. AshBritt collected 25,000 cy of debris, while disposing of 8,500 cy of reduced vegetative waste and C&D. Overall, 840 loads were managed for both debris collection and disposal, utilizing over 52 collection trucks.	N/A	9/1/2003	9/10/2003	\$269,509	25,000 cubic yards	Ann Marie Knighton	(704) 866-6775	anne-marie.knighton@ncmail.net
Sumter	SC	Ice Storm	AshBritt collected and processed approximately 76,000 cy of disaster debris, while disposing of over 25,000 cy of reduced vegetative waste and C&D. AshBritt managed 3 TDSR sites. Debris was reduced by grinding, compaction and burning. Overall, 2,500 loads were managed for both debris collection and disposal, utilizing over 45 collection trucks. Portions of reduced vegetative debris were diverted for beneficial agricultural use and fuel source. Provided technical assistance to the City as it relates to the Public Assistance program categories A-G.	N/A	1/1/2003	3/1/2003	\$837,035	76,000 cubic yards	Bobby Galloway	(803) 436-2329	
Sumter County	SC	Ice Storm	AshBritt collected and processed approximately 32,000 cy of disaster debris, while disposing of over 10,700 cy of reduced vegetative waste and C&D. AshBritt managed 3 TDSR sites. Debris was reduced by grinding, compaction and burning. Overall, 1,100 loads were managed for both debris collection and disposal, utilizing over 27 collection trucks. Portions of reduced vegetative debris were diverted for beneficial agricultural use and fuel source. Provided technical assistance to the County as it relates to the Public Assistance program categories A-G.	N/A	1/1/2003	3/1/2003	\$355,270	32,000 cubic yards	Bobby Galloway	(803) 436-2329	
Cornelius	NC	Ice Storm	AshBritt collected approximately 14,000 cy of disaster debris, utilizing 26 trucks. 481 loads were collected and hauled to 2 TDSR sites. Over 541 cy of debris was disposed of in a FDS.	N/A	1/21/2002	2/1/2003	\$155,749	14,000 cubic yards	Matthew Bulick	(704) 889-5212	
Gastonia	NC	Ice Storm	AshBritt collected approximately 59,000 cy of disaster debris, utilizing 74 trucks. 1,239 loads were collected and hauled to 2 TDSR sites. Over 541 cy of debris were disposed of using 22 trucks.	N/A	12/1/2002	2/1/2003	\$651,257	59,000 cubic yards	David Mitchell	(704) 886-6775	
Huntersville	NC	Ice Storm	AshBritt collected approximately 14,000 cy of disaster debris, utilizing 21 trucks. 466 loads were collected and hauled to 2 TDSR sites. Over 529 cy of debris were disposed of in an Final Disposal Site (FDS).	N/A	1/21/2002	2/1/2003	\$158,796	14,000 cubic yards	Mark Settemeyer	(704) 875-6541

■ *E. Key Team Member Overview*

- *Years of Experience*

AshBritt's core team members have worked together for over 13 years. The following chart indicates the years each individual has worked in the Disaster Debris Management Industry. *The project lead is denoted by a (*) by their name. Key support personnel are denoted by a (**) by their name. Those with over 10 years of AshBritt experience are highlighted in orange.*

Key Personnel	Position	General Work Experience	Disaster Debris Management Experience
Brittany Perkins	CEO	11	7
Randal Perkins	Senior Operations Advisor	32	25
John Noble	COO	30	23
Terrance Jackson	CMO	40	20
Dow Knight*	Project Manager	25	14
Christopher Holsinger**	Operations Manager	6	6
Rob Ray**	Quality Control Manager	26	14
Jim Loomis**	FEMA/Technical Assistance	37	25
Bill Johnson**	Director of TDSRS Operations	45	18
Brett Postelli**	Environ. Health & Safety Mgr.	15	15
Matt Gierden*	Operations Supervisor	17	17
Kelly Beckmann**	Data Manager	22	7
Christine D'Emidio**	Controller	14	14
Danny D'Emidio**	TDSRS Manager	26	23
Richie Bensh**	Operations Supervisor	24	24
Additional Personnel to be Utilized if Scope of Work Expands			
David Poe	Environmental Compliance Manager	29	27
Tom Credle	FEMA/Government Liaison	45	36
Michael Wyrick	Operations Supervisor	20	7
Jeff Spoerl	Environ. Health & Safety Mgr.	22	18
Barry Scanlon	FEMA Technical Consultant	32	26
Mark Merritt	FEMA Technical Consultant	29	25
Jason Santiago	QC Supervisor	13	16
Phil Foreman	Operations Supervisor	35	35
Fred Neris	Operations Supervisor	18	15
James Sellers	Operations Supervisor	17	4
James Buddy Lofton	Operations Supervisor	42	42
John Noble Sr.	Operations Supervisor	32	13
Mike Noble	Operations Supervisor	19	11
Bob Hewitt	Operations Supervisor	17	12
James Robbins	Operations Supervisor	17	10
Andy Rudd, Jr.	Operations Supervisor	7	7
Wayne Smith	Operations Supervisor	13	13
Jason Haynie	Operations Supervisor	19	11

- *Resumes*

AshBritt has presented Resumes for all of our key team members assigned to the City of Delray Beach. As identified in our *Years of Experience Chart* above, AshBritt has additional personnel that are available to be mobilized if the disaster warrants a more expansive disaster recovery team. For project details and information on each disaster event our team members worked on, see our *Past Experience Table* in Tab (5). Any changes to personnel listed in this proposal will be communicated and approved by the City. For each key team members role and responsibility, please see Tab (6) Approach and Capacity, Section F. Organizational Diagram.

Brittany Perkins
Chief Executive Officer

Overview:

Brittany Perkins is the Chief Executive Officer at AshBritt Environmental and has been a member of the company's Board of Directors since 2014. Brittany oversees corporate direction, strategy and client relations and manages business partnerships. After being named Chief Executive Officer in 2016, Brittany led AshBritt's operations in response to the numerous disaster events. Most recently, Brittany led AshBritt's USACE California Fire project, Hurricane Irma, Hurricane Harvey, and Hurricane Matthew operations which included 108 jobs across 4 states and the collection of over 17 million cubic yards of storm-generated debris.

Prior to joining AshBritt, Brittany managed a law practice in Austin, Texas, held positions as a prosecutor in Texas and Florida, and was a program manager for projects in Washington, D.C. and Doha, Qatar. Brittany holds a Juris Doctor from The University of Texas at Austin and Bachelor State Bar Arts in Public Policy from Vanderbilt University. She is bilingual English-Spanish and is a member of the State Bar of Texas. Brittany is Chair of the AshBritt Foundation, serves on the Board of the 4Girls Foundation, and maintains an active pro bono legal practice working with survivors of domestic violence and individuals and families impacted by disasters.

Disaster Recovery Experience

- 11 Years

Areas of Expertise

- Executive Management
- Program Management and Logistics
- Litigation

- Member, State Bar of Texas

Education

- Juris Doctor, The University of Texas School of Law
- Bachelor of Arts, Vanderbilt University

Select AshBritt Experience

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, Oct. 2016 – Florida, Georgia, and South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Blue Cut Fire, August 2016 – San Bernardino County, CA**
Provided mobile showers, toilets, and other ancillary services
- **Soberanes Fire, August 2016 – Monterey County, CA**
ROW debris removal for hazardous fire damaged trees.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 - NY & NJ**
Vessel removal and management, ROW, and DMS Management.
- **Hurricane Katrina (DR-1603) & (DR-1604), Aug. 2005 - MS & LA**
Debris removal and multiple ancillary services to remove of 21.5 million cubic yards of disaster debris.
- **Hurricane Wilma (DR-1609), Oct. 2005 - FL**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **AshBritt Board of Directors, Member, 2014-present**

Randal Perkins
Senior Operations Advisor/
Chairman of Board

Overview:

Randal “Randy” Perkins founded AshBritt in 1992 and led the company as President and CEO until 2016. Randy currently serves as Senior Advisor to AshBritt, Chairman of AshBritt’s Board of Directors, and is active in the AshBritt Foundation. Randy also maintains an active leadership role during operations. Randy is highly qualified and experienced in all phases of disaster response and recovery operations from his 25 years of hands-on experience in this industry. He has in-depth knowledge of all response measures, including damage assessment, debris collection, removal, reduction, recycling, and disposal activities. Moreover, Randy is a skilled communicator who supports high-level stakeholders with the public information demands following major disaster events. Randy holds seats on the Board of Directors of several national charitable organizations and is very active in state and local charitable endeavors.

Disaster Recovery Experience

- 25 Years

Areas of Expertise

- Executive Management
- Operations

Training & Certifications

- FEMA IS 100 & 700
- USACE Contractor Quality Control Management (CQCM) for Contractors

Education

- Business Administration – University of Central Florida
- Global Business Concepts – University of Miami

Select AshBritt Experience: Since 1992

Mr. Perkins served as the CEO and President of AshBritt, overseeing all operations.

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE’s, generator services, shelter services.
- **Hurricane Matthew, Oct. 2016 – Florida, Georgia, and South Carolina**
ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- **Severe Storm, Jan 2016 – Collier County & Naples, FL**
ROW debris collection, reduction, and disposal.
- **Winter Storm Jonas, Jan 2016 – Multiple Jurisdictions in MD & VA**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean-up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean-up of fire damage and destroyed trees.
- **South Carolina Flooding (DR-4241), Oct 2015 - Charleston, SC**
ROW debris collection for vegetative and C&D debris streams.
- **Texas Flooding Event (DR-4223), June 2015 - Hidalgo County, TX**
Utilized 20 Super Tanker Vac Trucks to relocate 13,500,000 gallons of water.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 - GA & SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4086-7), Oct. 2012 - CT & NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 - CT & MA**
ROW, DMS Management, and multiple other debris services.
- **BP Deep Water Horizon Oil Spill, 2010 – MS & FL**
Oil spill recovery and skimmer vessels utilizing local personnel and resources.
- **Hurricane Ike & Dolly (DR-1791/1780), Sept. 2008 - Southeast TX**
Debris removal, building restoration, water relocation, and ancillary services.
- **Hurricane Katrina (DR-1603) & (DR-1604), Aug. 2005 - MS & LA**
Debris removal and multiple ancillary services to remove of 21 million cy of debris
- **Hurricane Wilma (DR-1609), Oct. 2005 - FL**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Ivan (DR-1551), Sept. 2004 - Escambia County, FL**
ROW Debris removal of vegetation and C&D in addition to waterways.
- **Hurricane Charley (DR-1539), Aug. 2004 - Central Florida**
ROW collection, transportation, and disposal of vegetative and C&D debris.
- **Hurricane Andrew (DR-955), Aug. 1992 - South Florida**
Incorporated AshBritt following the devastating impact of Hurricane Andrew.

John Noble
Chief Operating Officer/ Sr. Ops. Mgr.

Overview:

John Noble is an environmental engineer who earned his Master's degree in Solid and Hazardous Waste Management from the University of Florida. He also is a graduate of the United States Military Academy at West Point, where he earned a Bachelor's Degree in Civil Engineering-Engineering Management. Over his career, John has managed a long line of environmental construction and mitigation projects. Since joining the AshBritt team in 1994, he has successfully overseen the operations of over 100 mid-to-large-scale disaster response and recovery projects, and he has provided operational oversight for all of AshBritt's recovery deployments. John is currently a State of Florida Board of Professional Engineers – Engineer Intern (# 1096ET126) and a licensed Certified Pollutant Storage System Contractor (No. PC C056744). He is certified in OSHA's 40 Hour Hazardous Waste Operations and Emergency Response training, the 8-Hour Annual Refresher course, and the USACE Contractor Quality Control Management (CQCM) for Contractors. Mr. Noble is responsible for leading and managing the organization's operations. Duties include but are not limited to bid research, debris estimating, subcontractor coordination, equipment selection and acquisition, project management, and reporting.

Dow Knight
Sr. VP/Project Manager

Overview:

Dow Knight is a graduate of the United States Merchant Marine Academy in Kings Point, New York. His maritime and inter-modal experience, both ashore and at sea, provides AshBritt with the logistics and transportation experience necessary to conduct large-scale operations for both domestic and international response requirements. For over a decade, AshBritt has applied his expertise toward the management of timely and efficient resource allocations for disaster projects. We have also relied on his management expertise and organizational skills in navigating the complexities of planning and executing large-scale, multifaceted response and recovery projects. Holding a degree in Marine Transportation, Dow also provides operational oversight for all marine services projects, whether disaster-related or through general opportunities. Additionally, he is a Commander in the Navy Reserve assigned to Fleet Cyber Command, and in 2010 deployed overseas in support of Operation Enduring Freedom. Dow was recently providing strategic direction for our disaster debris removal mission for the USACE in California in response to the fires that swept across the state. In this capacity, he provided project leadership on all project activities from project personnel and subcontractor management and assignments scheduling, documentation and reporting as well as a host of other duties.

Disaster Recovery Experience

- 15 Years

Areas of Expertise

- Transportation/Logistics
- Marine and Vessel Management
- Operations
- FEMA Technical Assistance
- Subcontractor Management

Training & Certifications

- FEMA IS 100 & 700
- G202 – Debris Management
- 40 Hour HAZWOPER
- NTSS: Fall Prevention, Ladder Safety, and Scaffolding Certificate of Completion
- USACE CQCM for Contractors
- Joint Interagency Training Center – West: Consequence Management Disasters Course
- U.S. Navy – Enterprise Safety Applications Management System for CNRF: Job Hazard Analysis Training
- USAID: Joint Humanitarian Operations Course

Education

- United States Merchant Marine Academy, BS, Marine Transportation with a Minor in Marine Engineering

Select AshBritt Experience: Since 2003

Mr. Knight served as the Project Manager, Operations Manager, Quality Control Manager, or held other key personnel roles for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Florida**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Matthew (DR-4284), Oct. 2016 – Chatham County & Pooler, GA**
ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- **Winter Storm Jonas, Jan 2016 – Multiple Jurisdictions in MD & VA**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 - GA & SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 - NJ**
Vessel removal and management, ROW, and DMS Management.
- **Deepwater Horizon Oil Spill, FDEP, 2010 – Bay County & Gulf County, FL**
Mobilization, staging, and deployment of 100,000 linear ft. of deflection boom.
- **Haiti Earthquake Response, 2010 - Port Au Prince, Haiti**
Ocean shipment of over 300 pieces of heavy equipment, a base camp, and conducted debris collection and disposal operations.
- **Hurricane Ike & Dolly (DR-1791/1780), Sept. 2008 - Southeast TX**
Debris removal, building restoration, water relocation, and ancillary services.
- **Severe Ice Storm (EM-3268), 2006 – Alden & Eerie County, NY**
Debris collection and disposal.
- **Hurricane Wilma (DR-1609), 2006 – Weston, FL**
Canal marine debris removal mission.
- **Hurricane Katrina (DR-1603) & (DR-1604), 2005 – Hope, Hancock County, and Pass Christian, MS & LA & Broward County, FL**
Debris removal, PPDR, Demolition, HHW, and Putrescent debris collection.
- **Southern California Edison Bark Beetle Tree Removal Program - 2004**
- **Hurricane Dennis (DR-1609) – Escambia County, FL**
- **Citrus Canker Eradication Program, FL Department of Agricultural - 2005**
- **Hurricane Charley, Sept. 2004 - Charlotte County, FL**
- **Hurricane Isabel, 2004 - Hampton, VA**
- **Hurricane Ivan (DR-1551), Sept. 2004 - Escambia County, FL**

Christopher Holsinger
Operations Manager

Overview:

Christopher is a FEMA Debris/Public Assistance specialist who earned his Masters of Public Administration with a specialization in Emergency Management from Florida State University. He is a licensed EMT, Private Pilot, and earned a Bachelor's Degree in Political Science, and minors in Emergency Management and Urban Regional Planning at Florida State University. Christopher has tenure working for the Florida Division of Emergency Management (FDEM) Mitigation Bureau, where he assisted in the formulation of mitigation plans as well as doing research for the Governors' South Atlantic Alliance on Private Public Partnerships for short-term economic recovery. After some time in the Mitigation Bureau, he entered into the Recovery Bureau assisting Florida subgrantees with the FEMA Public Assistance program. Christopher was an instructor for the FEMA G202 Debris Management course, assisted in formulating debris related appeals for FDEM subgrantees, reviewed and submitted Debris Management Plans for the PA Alternative Procedures Pilot Program under the Sandy Recovery Improvement Act, was a Public Assistance Coordinator under FDEM for the FEMA Fire Management Assistance Grant Program (FMAG), as well as reviewed Florida county, city, municipality, and special jurisdictions contracts and RFP's for FEMA and C.F.R. compliance. Since joining AshBritt, he has assisted communities in maximizing their federal cost share during declared disasters as well as reinforcing FEMA policies to ensure they retain maximum federal dollars.

Disaster Recovery Experience

- 6 Years

Areas of Expertise

- FEMA Technical Assistance

Training & Certifications

- FEMA IS 100, 120a, 139, 200b, 200HCA, 208a, 230b, 235b, 240a, 241a, 242a, 244a, 632a, 634, 660, 703a, 704, 775, 800b, FL-601 and 603, G-202 (Instructor), G-272, G-278, G-300, G-393, G-400, L-948
- FL-606 Env. & Historic Preservation Compliance
- OSHA First Responder Ops
- 40 Hour HAZWOPER
- HAZWOPER Supervisor
- FEMA Procurement Disaster Assistance Team Training
- Pilot License & EMT License (FL) (2012 – Present)
- USACE CQCM for Contractors

Education

- Florida State University – Bachelors of Political Science, Minor: Emergency Management & Urban Regional Planning
- Florida State University – Masters of Public Administration, Specialization: EM

Select AshBritt Experience: Since 2014

Mr. Holsinger served as the Technical Assistance Manager, FEMA Public Assistance Liaison, Project Manager, or Operations Manager for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Delray Beach, FL**
ROW collection and disposal, and Hazardous Tree and Limb Removal.
- **Hurricane Harvey, Aug. 2017 – Victoria County, TX**
Emergency Push, ROW collection and disposal, generator service.
- **Hurricane Matthew, (DR-4283) Oct. 2016 – Martin County, FL**
ROW collection and disposal and Hazardous Tree Removal.
- **Winter Storm Jonas, Jan 2016 – Baltimore County & City, MD**
Snow removal operations utilizing heavy equipment.
- **Red Tide Dead Fish Collection and Disposal, 2015 - Longboat Key, FL**
Collection, removal, and disposal of over 10,000 lbs. of dead fish in waterways/

Florida Division of Emergency Management (FDEM), FL: 2012-2014

- **Public Assistance Coordinator – Fire Management Assistance Grant Program (FMAG)**

Collected all pay policies, timesheets, work logs, vehicle logs, statewide mutual aid agreements, and all other necessary documentation for the obligation of federal reimbursement for 12 subgrantees for (DR-2902) FEMA FMAG program.

- **Debris Specialist**

DR 4138 Florida Severe Storms and Flooding

Debris Specialist – Provided Technical Assistance for affected jurisdictions in the Panhandle of Florida in order to coordinate proper debris removal and contracting techniques set forth by FEMA.

- **Debris Technical Assistance**

Throughout Mr. Holsinger's tenure at FDEM Bureau of Recovery, he assisted Florida counties and many jurisdictions with procurement and FEMA Public Assistance guidance. From Debris Removal/Monitoring Contract review, Debris Management Plan review, to Comprehensive Emergency Management Plan re-approval, to assisting with technical questions and teaching.

- **Hazard Mitigation Grant Program (HMGP)**

Mr. Holsinger assisted the Mitigation Bureau in various projects that were being completed under the FEMA (HMGP) program. In addition, he was a part of the five-year update to the State of Florida Hazard Mitigation Plan.

Rob Ray
Sr. VP/Quality Control Manager

Overview:

Rob Ray has 24 years of Business Development and Customer Service management experience, with specific experience in disaster response/recovery, environmental contracting, foreign relations contracting and safety training management. He currently serves as a Sr. Vice President, managing Client Relations throughout multiple states. Rob first collaborated with AshBritt, as part of a joint venture in 2003, as an Operations Manager for several large-scale hazardous fire fuels reduction projects that included high volume Hazardous Tree Removal in San Diego County, San Bernardino County, and Riverside County, California. In 2005, Rob served as both a Senior Project Manager and as the Operations Manager for the USACE Hurricane Katrina State of Mississippi recovery operations, coordinating and assisting in organizing over 1,000 subcontractors for disaster recovery operations in 16 counties. Rob has managed more than 60 disaster recovery projects and continues to surpass client expectations and project goals through his effective management and operational expertise. Rob most recently served as Operations Manager in charge of overall project operational management for our Hurricane Irma disaster debris removal project throughout the western coast of Florida.

Disaster Recovery Experience

- 14 Years

Areas of Expertise

- Operations
- Quality Control
- Safety
- FEMA Technical Assistance

Training & Certifications

- FEMA IS 100 and 700
- Building Resilience by Reducing Infrastructure Vulnerability (H-2016) Training
- USACE CQCM for Contractors
- Anti-Terrorism Certification – Level 1
- NTSS: Fall Prevention and Ladder Safety Certificate of Completion

Education

- Culpeper County High School, Culpeper, VA

Select AshBritt Experience: Since 2004

Mr. Ray served as the Project Manager, Operations Manager, Quality Control Manager, or held other key personnel roles for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – West Coast of Florida**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew (DR-4286), 2016 – SCDOT**
ROW collection and disposal and Hazardous Tree Removal.
- **Blue Cut Fire, August 2016 – San Bernardino County, CA**
Provided showers, toilets, and other services for 3500 person County Shelter.
- **Soberanes Fire, August 2016 – Monterey County, CA**
ROW debris removal for hazardous fire damaged trees.
- **Severe Storms and Flooding, May 2016 – Jersey Village, TX**
ROW debris removal, management, and disposal.
- **Winter Storm Jonas, Jan 2016 – Multiple Jurisdictions in MD**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA & PG&E**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Texas Flooding Event (DR-4223), June 2015 - Hidalgo County, TX**
Utilized 20 Super Tanker Vac Trucks to relocate 13,500,000 gallons of water.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 – Augusta, GA**
ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4086-91-92), Oct. 2012 – VA, MD, NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 - MA**
ROW, DMS Management, and multiple other debris services.
- **Hurricane Irene (DR-4034), 2011 – MA**
Emergency road clearance and road repair.
- **Severe Storm and Tornadoes (DR-1994), May 2011 - Massachusetts**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Deepwater Horizon Oil Spill, FDEP, 2010 – Bay County & Gulf County, FL**
Mobilization, staging, and deployment of 100,000 linear ft. of deflection boom.
- **Blizzard, Jan 2010 – VA & MD** - Snow removal operations.
- **Hurricane Ike & Dolly (DR-1791/1780), Sept. 2008 - Southeast TX**
Debris removal, building restoration, water relocation, and ancillary services.
- **Hurricane Katrina (DR-1603) & (DR-1604), Aug. 2005 – MS & FL**
Debris removal and multiple ancillary services to for 21 million cubic yards.

Brett Postelli

Environmental Health and Safety Manager

Overview:

Responsible for establishing and communicating mission safety rules, ensuring vehicle, vessel, and equipment safety inspections are to specifications, preparing weekly safety meeting agendas, investigating accidents, implementing and reviewing DMS Site-specific Safety and Health Plans and updating as appropriate, performing structural safety inspections, including the DMS inspection towers. He serves as a liaison with client safety representative(s).

Disaster Recovery Experience

- 15 Years

Areas of Expertise

- Safety
- Waterway Management
- Trainings
- Hazardous Waste

Training & Certifications

- USACE: UXO/EOD #2657
- Over 20 Medical First Responder Certifications
- Multiple Hazardous Material Handling Certifications
- Certified as Instructor for Hazardous Materials, First Responder Courses, Rescue SCUBA, and Anti-Terrorism Courses.
- Highly Specialized in Unexploded Ordnance Trainings
- 40 Hr. & 8 Hr. HAZWOPER
- USACE CQCM for Contractors

Education

- TA&M – Unexploded Ordnance Tech (UXO), College Station, TX - 2010
- International School for Security & Explosives (EOD 1)– College Station, TX - 2010
- Kalamazoo Valley College, Fire Science/ Police Academy, Kalamazoo, MI - 1994

Select AshBritt Experience: Since 2010

Mr. Postelli has served as the Environmental Health and Safety Manager, Quality Control Manager, Operations Manager, or held another key role for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, Oct. 2016 – Florida, Georgia, and South Carolina**
ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 - NJ**
Vessel removal and management, ROW, and DMS Management.
- **Deepwater Horizon Oil Spill, FDEP, 2010 – Bay County & Gulf County, FL**
Mobilization, staging, and deployment of 100,000 linear ft. of deflection boom.

Nationwide Training & Safety Services, MI: Since 2003

■ Training & Safety Officer

Provide specialized training for Emergency Medical Response, 40 Hr. HAZWOPER, Confined Space, Level I-IV Confined Space Rescue, Anti-terrorism, Maritime Safety & Security, Industrial Fire Brigade, Maritime Firefighting, Physical & Technical Security. Acts as Safety Officer and Project Manager for clients.

GEO Group, TX: 2012

■ Fire & Safety Manager

Responsible for all fire, safety, security matters in a federal corrections setting. Perform scheduled and unscheduled emergency drills to evaluate departments' strengths and weaknesses in response procedures.

Veolia ES, CA: 2009 – 2011

■ Emergency Response & EHS Manager

Responded to national hazmat and explosive incidents (Industrial fires, BP oil spill, pipeline ruptures, lab explosions, meth labs, rail car leaks, interstate spills/releases, etc.) Conducted regulatory training and occupational safety training. (i.e., 40hr HAZWOPER, Confined Space Entry/Rescue, Technical Rescue, First Aid/CPR, etc.). Assist the USACE, DOD, and EMR Environmental in the remediation process of Unexploded Ordnance in the Great Lakes.

Underwater Construction Corporation, MI: 2007-2009

■ Safety & Electronics Specialist

Communication specialist and underwater surveillance system tech for the nuclear diving company. Provided site safety and safety training to all personnel.

Atlantic Group, VA: 2006-2007

■ NRC Nuclear Radiation Worker

Provide supplemental support as an NRC certified Radiation Worker to Nuclear Power Stations throughout the United States, providing special services in technical and industrial skills.

Christina D'Emidio
Controller

Overview:

Accounting administrator for all AshBritt projects since 2005. Mrs. D'Emidio manages all payables, reconciles operational reporting to subcontractor invoices, processes subcontractor invoices for payment, and is the lead data entry and invoicing contact. As Controller, she handled all invoicing and subcontractor files for over 300 subcontractors in the Hancock and Pass Christian projects in Mississippi following Hurricane Katrina (2005-2007). She assists the project managers in all administrative duties. This includes but is not limited to invoices and billing for all clients and subcontractors.

Disaster Recovery Experience

- 14 Years

Areas of Expertise

- Data Management
- Subcontractor Management
- FEMA Documentation

Training & Certifications

- FEMA IS 100 & 200
- Florida Notary
- USACE CQCM for Contractors

Education

- Pensacola Christian College, BS in Music Education (piano proficiency)
- Pensacola Christian College, MS in Music Education (piano proficiency)

Select AshBritt Experience: Since 2004

Mrs. D'Emidio served as the Controller, Data Manager, and contact for audit inquiries for all of the disaster recovery and debris removal projects listed below:

- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, Oct. 2016 – Florida, Georgia, and South Carolina**
ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- **Blue Cut Fire, August 2016 – San Bernardino County, CA**
Provided showers, toilets, and other services for 3500 personnel in County Shelter.
- **Soberanes Fire, August 2016 – Monterey County, CA**
ROW debris removal for hazardous fire damaged trees.
- **Severe Storms and Flooding, May 2016 – Jersey Village, TX**
ROW debris removal, management, and disposal.
- **Winter Storm Jonas, Jan 2016 – Multiple Jurisdictions in MD & VA**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **South Carolina Flooding (DR-4241), Oct 2015 - Charleston, SC**
ROW debris collection for vegetative and C&D debris streams.
- **Texas Flooding Event (DR-4223), June 2015 - Hidalgo County, TX**
Utilized 20 Super Tanker Vac Trucks to relocate 13,500,000 gallons of water.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 - GA & SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 - NY & NJ**
Vessel removal and management, ROW, and DMS Management.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 - CT & MA**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 - Massachusetts**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Hurricane Ike (DR-1791), Sept. 2008 - Southeast TX**
Debris removal, building restoration, and ancillary services.
- **Hurricane Dolly (DR-1780), July 2008 - TX**
Debris removal and supplied water relocation equipment.
- **Hurricane Katrina (DR-1603) & (DR-1604), Aug. 2005 - MS & LA**
Debris removal and multiple ancillary services to remove of 21.5 million cy.
- **Hurricane Wilma (DR-1609), Oct. 2005 – South Florida**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Dennis (DR-1609), 2005 – Escambia County, FL**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Ivan (DR-1551), Sept. 2004 - Escambia County, FL**
ROW Debris removal of vegetation and C&D in addition to waterways.

Kelly Beckmann
Data Manager/Alt. Controller

Overview:

Mrs. Beckmann is responsible for quality control checking data and documentation related to disaster recovery operations. She is also responsible for management of all required field operations documents. She takes the source documents that are scanned and entered into the database for report compilation, subcontractor invoice payment, and client invoice data. Ms. Beckmann also functions as the companies GIS Technician. She creates maps in order to assist in debris planning and area management. This helps AshBritt in managing, tracking, and updating the Right-Of-Way (ROW) debris collection, removal, and disposal phases.

Disaster Recovery Experience

- 7 Years

Areas of Expertise

- Data Management
- Subcontractor Management
- FEMA Documentation
- Quality Control
- GIS Mapping

Training & Certifications

- USACE CQCM for Contractors

Education

- Andrew Jackson University, Bachelor's Business Administration - 2010

Select AshBritt Experience: Since 2011

Mrs. Beckmann served as the Controller or Data Manager for all of the disaster recovery and debris removal projects listed below:

- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, Oct. 2016 – Florida, Georgia, and South Carolina**
ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- **Winter Storm Jonas, Jan 2016 – Multiple Jurisdictions in MD & VA**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **South Carolina Flooding (DR-4241), Oct 2015 - Charleston, SC**
ROW debris collection for vegetative and C&D debris streams.
- **Texas Flooding Event (DR-4223), June 2015 - Hidalgo County, TX**
Utilized 20 Super Tanker Vac Trucks to relocate 13,500,000 gallons of water.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 - GA & SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 - NY & NJ**
Vessel removal and management, ROW, and DMS Management.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 - CT & MA**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 – MA & CT**
Debris, DMS management, disposal, and hazardous tree mitigation.

GIS Dolph Map, Inc., FL: 2002-2009

- **Research Manager**

Ms. Beckmann supervised and trained all researchers, provided GIS research coordination for all map projects, and was responsible for all quality control of all information on map projects. She edited all map projects during annual updates. As Purchasing Coordinator, she created and tracked all purchase orders, performed quality control, managed freight logistics, provided production tracking for all projects, coordinated inventory controls and managed efficient inventory levels, and maintained vendor relationships through direct negotiations.

Jim Loomis
FEMA Technical Consultant

Overview:

Mr. Loomis has 35 years of management experience and 24 years of regulatory and contract analysis experience at the local, state and federal level. He has been the lead manager and senior partner for in procurement, contracts, appeals, claims, protests, small business participation, and case management. Mr. Loomis has relevant disaster management capabilities developed during his 12-year career at the State of Florida Department of Community Affairs in the Division of Emergency Management. Mr. Loomis worked extensively on all types of federal assistance projects and handled many program challenges. He has supervisory and hands-on experience with more than one hundred federal disaster declarations in the areas of government-to-government assistance for wildfire management and infrastructure assistance; government-to-individual assistance to meet uninsured family needs, and government-to-business assistance for uninsured business recovery needs. He was the primary liaison and coordinator for the emergency management community in the public-private partnership that became the Partners in Recovery Program with the Florida Insurance Industry. This partnership between the Florida Insurance Council, the Insurance Department, and Emergency Management is a national model for coordination of disaster recovery activities. While with the State of Florida Mr. Loomis worked in the hurricane shelter survey program, Community Right to Know program, Emergency Management GIS Unit and then served as the Administrator of the Disaster Recovery Programs. In this capacity, he was responsible for planning, coordination, oversight, and development of emergency recovery activities and worked with stakeholders for four years on the legislation that became the Disaster Mitigation Act of 2000. Mr. Loomis has specific construction expertise and cost estimating experience beginning in 1972 with Gunn and Gunn Construction Company in Miami, Florida. Mr. Loomis developed residential and commercial construction repair cost estimates used for insurance claims resulting from fire damage. Mr. Loomis is currently certified by the USACE and NAVFAC in Construction Quality Management for Contractors.

Disaster Recovery Experience

- Over 35 years

Areas of Expertise

- FEMA Technical Assistance
- Project Worksheet Formulation
- FEMA Appeals
- FEMA Documentation

Training & Certifications

- Over 50 FEMA and Emergency Management Certifications and Trainings.
- USACE CQCM for Contractors

Education

- Miami Edison Senior High School
- Miami Dads Junior College – Associates Degree
- Florida State University

Select AshBritt Experience: Since 2005

Mr. Loomis served as the FEMA Technical Consultant for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Sandy (DR-4086), Oct. 2012 - NJ**
ROW, DMS Management, and multiple other debris services.
- **Acquiring A-901 License for Hurricane Sandy**
The State of New Jersey requires that all companies transporting non-recyclable waste within its jurisdiction must have a state issued an A-901 license. Mr. Loomis coordinated the application for the A-901 License for the Hurricane Sandy Disaster Recovery Mission. The application and supporting documents, which included but were not limited to, corporate information and financial documents, personal history documents, and personal financials, totaled over 1,000 pages. AshBritt activated an all-hands, 24/7 effort to compile the required information and submit to the state within five days to meet mission requirements.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 - CT & MA**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 - Massachusetts**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Hurricane Irene (DR-4034), 2011 – MA**
DMS management, debris collection, and disposal.
- **Hurricane Katrina (DR-1603) & (DR-1604), Aug. 2005 - MS & LA**
Debris removal and multiple ancillary services to remove of 21.5 million cubic yards of disaster debris.
- **Hurricane Wilma (DR-1609), Oct. 2005 - FL**
ROW debris removal, DMS site management, debris recycling, and disposal.

Bill Johnson
TDSRS Director

Overview:

Mr. Johnson's has over 40 years of disaster recovery experience. His primary responsibility includes the operational implementation of DMS plans, he supervises site management, debris separation, and reduction crews, ensures proper containment and categorization of hazardous waste found in the debris stream. He arranges for recycling of appropriate debris materials as per the mission or task specific plans in the planning and operational phases. He ensures adherence to work rules, safety and environmental monitoring guidelines, supervises the loading of reduced debris for transportation to final disposal, ensures debris haul trucks are loaded within state DOT weight limits, and conducts site closures.

Disaster Recovery Experience

- 18 Years

Areas of Expertise

- DMS Management
- Recycling
- Disposal
- Operations
- Project Management

Training & Certifications

- FEMA IS 100 & 700
- 40 Hr. HAZWOPER
- USACE CQCM for Contractors

Education

- Miami Springs High School, Miami Springs, FL

Select AshBritt Experience: Since 2000

Mr. Johnson served as the TDSRS Director or Operations Manager for all of the disaster recovery and debris removal projects listed below:

- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Victoria County, TX**
Emergency Push, ROW collection and disposal, generator service.
- **Hurricane Harvey, Aug. 2017 – Victoria, TX**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, (DR-4283) Oct. 2016 – Brevard County, FL**
ROW collection and disposal and Hazardous Tree Removal.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Red Tide Dead Fish Collection and Disposal, 2015 - Longboat Key, FL**
Collection, removal, and disposal of over 10,000 lbs. of dead fish in waterways.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **South Carolina Flooding (DR-4241), Oct 2015 - Charleston, SC**
ROW debris collection for vegetative and C&D debris streams.
- **Winter Storm Pax (DR-4165), Feb. 2014 – Georgetown County, SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 – Ocean County, NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 – Springfield, MA**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Atlantic Snow Storm, 2010 – Alexandria, VA**
Snow removal operations.
- **Haiti Earthquake Response, 2010 - Port Au Prince, Haiti**
Ocean shipment of over 300 pieces of heavy equipment, a base camp, and conducted debris collection and disposal operations.
- **Hurricane Katrina (DR-1603) Aug. 2005 – Jackson County, MS**
Debris removal, PPDR, Demolition, HHW, and Putrescent debris collection
- **Over 10 Other significant disaster response and recovery projects**

Waste Management, Inc., FL: 1997-1999

- **Divisional Vice President**

Responsible for leading and managing the organization's Refuse Collection Division and recycling plant in Broward County, Florida.

Browning Ferris, Inc., FL: 1979-1997

- **Vice President**

Responsible for the operations of over 250 employees and 125 route trucks in the West Palm Beach area.

United States Army, Fort Leonard Wood, MO

- **Specialist 5: Heavy Equipment Operator**

Served 18 months in Vietnam

Danny D'Emidio
TDSRS Manager

Overview:

Mr. D'Emidio is a key member of a rapid-response team with over 20 years of experience. He deploys to manage disaster recovery operations for assigned project client area. He will conduct debris field surveys, facilitate and communicates progress reports, assists client with media briefings and manages disaster recovery operations. Furthermore, he directs all activities of assigned operations personnel, subcontractors, and vendors in the execution of contracted scope of work. He will ensure contractual compliance in areas of technical approach, quality control and safety. During the operations, he reports to the Senior Project Manager/Operations Manager.

Disaster Recovery Experience

- 23 Years

Areas of Expertise

- DMS Management
- Recycling
- Disposal
- Operations
- Project Management

Training & Certifications

- FEMA IS 100
- 40 Hour HAZWOPER
- USACE CQCM for Contractors
- Class A Commercial Driver's License
- DOT Traffic Safety Course Certification

Education

- Miramar High School, FL

Select AshBritt Experience: Since 1992

Mr. D'Emidio served as the TDSRS Director, TDSRS Manager, Quality Control Manager, or Project Manager for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Brevard County, FL**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Victoria County, TX**
Emergency Push, ROW collection and disposal, generator service.
- **Hurricane Harvey, Aug. 2017 – Victoria County, TX**
Emergency Push, ROW collection and disposal, MRE's, generator services.
- **Hurricane Matthew, (DR-4283) Oct. 2016 – Brevard County, FL**
ROW collection and disposal and Hazardous Tree Removal.
- **Soberanes Fire, August 2016 – Monterey County, CA**
ROW debris removal for hazardous fire damaged trees
- **Winter Storm Jonas, Jan 2016 – Rockville, MD**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 – NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm (DR-4046) & (DR-4051), Oct. 2011 – Chicopee, MA**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 – Monson, MA**
Debris, DMS Management, disposal, and hazardous tree mitigation.
- **Haiti Earthquake Response, 2010 - Port Au Prince, Haiti**
Ocean shipment of over 300 pieces of heavy equipment, a base camp, and conducted debris collection and disposal operations.
- **Deepwater Horizon Oil Spill, FDEP, 2010 – Gulf County, FL**
Mobilization, staging, and deployment of 100,000 linear ft. of deflection boom.
- **Hurricane Ike (DR-1791), Sept. 2008 – Brazoria and Liverpool, TX**
Debris collection, removal, and disposal.
- **Hurricane Dolly (DR-1780), July 2008 - Hidalgo County, TX**
Debris removal and supplied water relocation equipment.
- **Hurricane Katrina (DR-1603) Aug. 2005 – MS**
Debris removal, PPDR, Demolition, HHW, and Putrescent debris collection
- **Hurricane Dennis (DR-1609), 2005 – Escambia County, FL**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Frances, Sept 2004 - Port St. Lucie, FL**
ROW debris removal, DMS site management, hazardous tree mitigation.
- **Over 10 other significant disaster response and recovery projects**

Matt Gierden
VP/Operations Supervisor

Overview:

Matt offers more than 15 years of experience in disaster recovery projects, special environmental operations, client development, customer service, and public relations. He is a strategic contributor for numerous efforts that have driven the successful completion of major and high-priority disaster response and recovery initiatives that have substantially impacted the company's growth. Over the years, Matt has established a reputation as a decisive leader who expertly enhances the capabilities of the organization. He handles new challenges with his intrinsic capability for innovation and problem-solving. Equipped with an enthusiastic attitude and exceptional people skills, he successfully maintains a myriad of client relationships throughout the southeast US. Matt initially served as an entry-level field supervisor in 2002 and was immediately promoted to project manager to regional manager and later to vice president. Matt's ambitious and visionary style has significantly enhanced the company's ability to thrive in a variety of demanding disaster recovery environments. His ever-expanding portfolio of successful projects includes more than 40 Federal Emergency Management Agency (FEMA) disaster recovery projects. His most recent contribution was providing strategic direction for our Hurricane Irma disaster debris removal mission for Collier County, FL

Disaster Recovery Experience

- 17 Years

Areas of Expertise

- Subcontractor Management
- Operations
- FEMA Technical Assistance
- Quality Control

Training & Certifications

- FEMA IS 100, 200, 230, 632, 700, and 800.
- Anti-Terrorism Certification – Level 1
- 40 Hr. HAZWOPER
- FL-603 Public Assistance Grant Program
- USACE CQCM for Contractors

Education

- Mishawaka High School, Mishawaka, IN

Select AshBritt Experience: Since 2001

Mr. Gierden served as the Project Manager, Operations Manager, Quality Control Manager, or held other key personnel roles for all of the disaster recovery and debris removal projects listed below:

- **Tubbs/Pocket/Sulphur/Atlas/Redwood Valley/Nuns Fire – Oct. 2017 - USACE**
– CA Private property debris removal, erosion control, air monitoring, & disposal.
- **Hurricane Irma, Sept. 2017 – Collier County, FL**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Fort Bend County, TX**
ROW collection and disposal, HHW, sand removal.
- **Hurricane Matthew (DR-4286), 2016 – Charleston & Colleton County, SC**
ROW collection and disposal and Hazardous Tree Removal.
- **Blue Cut Fire, August 2016 – San Bernardino County, CA**
Provided showers, toilets, and other services for 3500 person County Shelter.
- **Severe Storm, Jan 2016 – Collier County & Naples, FL**
ROW debris collection, reduction, and disposal.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **South Carolina Flooding (DR-4241), Oct 2015 - Charleston, SC**
ROW debris collection for vegetative and C&D debris streams.
- **Texas Flooding Event (DR-4223), June 2015 - Hidalgo County, TX**
Utilized 20 Super Tanker Vac Trucks to relocate 13,500,000 gallons of water.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 - SC**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct 2012 - NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm (DR-4046) & (DR-4051), Oct 2011 - MA**
ROW, DMS Management, and multiple other debris services.
- **Hurricane Irene (DR-4024-28-34), 2011 – VA, CT, MA**
DMS management, collection, and disposal.
- **Atlantic Snow Storm, 2010 – Alexandria, VA**
Snow removal operations.
- **Deepwater Horizon Oil Spill, FDEP, 2010 – Gulf County, FL**
Mobilization, staging, and deployment of 11,000 linear ft. of deflection boom.
- **Hurricane Ike (DR-1791), Sept 2008 – Hardin County, TX**
Debris removal, collection, and disposal.
- **Hurricane Katrina (DR-1604), July 2006 – LA**
Debris collection, disposal, PPDR, and Demolition, base camp services.
- **Hurricane Frances (DR-1545), Jeanne (DR-1561), Charley (DR-1539), 2004 - FL**
ROW debris removal, DMS site management, and hazardous tree mitigation.

Richard Bensh
Operations Supervisor

Overview:

Mr. Bensh is a key member of a rapid-response team with over 20 years of experience. He deploys to manage disaster recovery operations for assigned project client area. He will conduct debris field surveys, facilitate and communicates progress reports, assists client with media briefings and manages disaster recovery operations. Furthermore, he directs all activities of assigned operations personnel, subcontractors, and vendors in the execution of contracted scope of work. He will ensure contractual compliance in areas of technical approach, quality control and safety. During the operations, he reports to the Senior Project Manager/Operations Manager.

Disaster Recovery Experience

- 24 Years

Areas of Expertise

- DMS Management
- Recycling
- Disposal
- Operations
- Project Management

Training & Certifications

- FEMA IS 100
- 40 Hr. HAZWOPER
- USACE CQCM for Contractors
- Class B Commercial Driver's License
- DOT Traffic Safety Course Certification

Education

- Miramar High School, FL

Select AshBritt Experience: Since 1994

Mr. Bensh served as the DMS Manager, Quality Control Manager, Project Manager, or Operations Manager for all of the disaster recovery and debris removal projects listed below:

- **Hurricane Irma, Sept. 2017 – Florida**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Refugio County, TX**
ROW collection and disposal.
- **Hurricane Matthew, (DR-4283) Oct. 2016 – St. John County, FL**
ROW collection and disposal, Beach Clean up, and Hazardous Tree Removal.
- **Winter Storm Jonas, Jan 2016 – Baltimore, MD**
Snow removal operations utilizing heavy equipment.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Winter Storm Pax (EM-3369), Feb. 2014 – Sumter, SC**
ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct. 2012 – NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 –Monson, MA**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Hurricane Irene (DR-4024), 2011 – Emporia, VA**
Debris collection, removal, and disposal
- **Haiti Earthquake Response, 2010 - Port Au Prince, Haiti**
Ocean shipment of over 300 pieces of heavy equipment, a base camp, and conducted debris collection and disposal operations.
- **Hurricane Ike (DR-1791), Sept. 2008 – Orange County, TX**
Mold and Asbestos removal in government buildings.
- **Hurricane Katrina (DR-1603) Aug. 2005 – MS**
Debris removal, PPDR, Demolition, HHW, and Putrescent debris collection
- **Hurricane Katrina (DR-1602), Oct 2005 – Coral Gables, FL**
Vegetative and C&D debris collection, processing, DMS man., and disposal.
- **Hurricane Wilma (DR-1609), Oct. 2005 – South Florida**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Dennis (DR-1609), 2005 – Escambia County, FL**
ROW debris removal, DMS site management, debris recycling, and disposal.
- **Hurricane Frances, Sept 2004 – Boca Raton, FL**
ROW debris removal, DMS site management, and hazardous tree mitigation.
- **Ice Storm. 2004 – Sumter, SC**
Debris removal, collection, and disposal.
- **Hurricane Isabel, Sept 2003 – Hampton, VA**
Debris removal, collection, and disposal.
- **F5 Tornado, May 1999, Oklahoma City, OK**
Debris removal, collection, and disposal.

Jason Santiago
QC Supervisor

Overview:

Mr. Santiago is a key member of a rapid-response team with over 15 years of experience. He deploys to manage disaster recovery operations for assigned project client area. Mr. Santiago is the primary liaison with the client and conducts debris field surveys, facilitates and communicates progress reports, assists client with media briefings and manages disaster recovery operations. He directs all activities of assigned operations personnel, subcontractors, and vendors in the execution of contracted scope of work. Mr. Santiago may also assume responsibility of the operational implementation of DMS plans, supervise site management, debris separation, and reduction crews, ensures proper containment and categorization of hazardous waste found in the debris stream. He arranges for recycling of appropriate debris materials as per the mission or task specific plans in the planning and operational phases. He ensures adherence to work rules, safety and environmental monitoring guidelines, supervises the loading of reduced debris for transportation to final disposal, ensures debris haul trucks are loaded within state DOT weight limits, and conducts site closures.

Disaster Recovery Experience

- 15 Years

Areas of Expertise

- DMS Operations
- Project Management
- Recycling
- Quality Control

Training & Certifications

- FEMA IS 10, 15b, 100, and 700.
- Flagger/Worker zone Safety Certification
- USACE CQCM

Education

- Flanagan Highschool, FL

Select AshBritt Experience: Since 2001

Mr. Santiago served as the Project Manager, Operations Manager, Quality Control Manager, DMS Manager, or held other key personnel roles for all of the disaster recovery and debris removal projects listed below:

- **Hurricane Irma, Sept. 2017 – Collier County, FL**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Victoria County, TX**
Emergency Push, ROW collection and disposal, generator service.
- **Hurricane Harvey, Aug. 2017 – Victoria County & City, TX**
ROW collection and disposal, generator services, shelter services.
- **Hurricane Matthew, (DR-4284) Oct. 2016 – Chatham County, GA**
ROW collection and disposal and Hazardous Tree Removal.
- **Severe Storm, Jan 2016 – Collier County & Naples, FL**
ROW debris collection, reduction, and disposal.
- **Valley Fire (DR-4240), Dec 2015 - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric - Lake County, CA**
Hazardous tree felling and clean up of fire damage and destroyed trees.
- **Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 – Augusta, GA**
Park and ROW debris removal, management, and disposal.
- **Hurricane Sandy (DR-4085-6), Oct 2012 - NJ**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm (DR-4046) & (DR-4051), Oct 2011 - MA**
ROW, DMS Management, and multiple other debris services.
- **Severe Storm and Tornadoes (DR-1994), May 2011 – Springfield, MA**
Debris, DMS management, disposal, and hazardous tree mitigation.
- **Hurricane Irene (DR-4024-28-34), 2011 – VA, CT, MA**
DMS management, collection, and disposal.
- **Atlantic Snow Storm, 2010 – Montgomery County, MD**
Snow removal operations.
- **Hurricane Ike (DR-1791), Sept 2008 – Hardin County, TX**
Debris removal, collection, and disposal.
- **Hurricane Katrina (DR-1604), Aug 2005 – MS**
ROW debris removal, DMS site management, and hazardous tree removal.
- **Hurricane Katrina (DR-1604), July 2006 – Plantation, FL**
Debris collection, DMS site management, and disposal.
- **Hurricane Charley (DR-1539), 2004 – Charlotte County, FL**
ROW debris removal, DMS site management, and hazardous tree mitigation.

Barry Scanlon
FEMA Technical Consultant

Overview:

Barry W. Scanlon is co-founder at DCMC Partners, a strategic management consulting firm that builds on its founders' decades of leadership in the private and public sectors. DCMC provides consulting and partnership development services to the private sector, governments, and non-profit clients. Prior to DCMC, Scanlon was co-founder and partner at Witt O'Brien's, where he served as Senior Vice President of Business Development and Government Relations. His organization managed all government and corporate sales, strategic partnerships, and relationships with executive-level private sector and government leaders. More importantly, he held a critical role in numerous avenues related to their disaster consulting. Under his leadership, business grew from start-up in 2001 to \$80 million in 2013 with industry-leading margins and record client satisfaction. Mr. Scanlon had an intricate role with disaster consulting and monitoring contracts with the State of Louisiana in the aftermath Hurricane Katrina, the New York/New Jersey Port Authority after 9/11, the City of Joplin following the devastating 2011 tornado, and the State of Indiana after the 2011 State Fair stage collapse. Prior to his role of Sr. VP at Witt O'Brien's, Scanlon led the government relations consulting practice as President of Witt Associates. Under Scanlon's leadership, Witt Associates built niche markets and was one of the first companies to create an industry around post-disaster financial recovery. His experience building an industry-leading crisis management company has given him personal understanding of how to manage and assist jurisdictions with the technical assistance guidance needed after major disasters. Prior to his leadership at Witt Associates, Scanlon was appointed as Director of Corporate Affairs for the Federal Emergency Management Agency by President William J. Clinton. At FEMA, he created, developed, and implemented Project Impact, a \$100 million joint public-private sector initiative focused on building resilient communities.

Disaster Recovery Experience

- Over 30 years

Areas of Expertise

- FEMA Technical Assistance
- Private Public Partnerships
- FEMA Appeals
- FEMA Legislation

Education

- George Washington University – Bachelors in Political Science

AshBritt Experience – 2016 - Present

- **Hurricane Irma, Sept. 2017 – Florida, Georgia, South Carolina**
ROW collection and disposal, Beach Clean-up, and Hazardous Tree Removal.
- **Hurricane Harvey, Aug. 2017 – Texas**
ROW collection and disposal, HHW, MRE's, generator services, shelter services.
- **Hurricane Matthew, (DR-4283) Oct. 2016 – Florida, Georgia, South Carolina**
ROW collection and disposal and Hazardous Tree Removal.

DCMC Partners

- **Co-Founder**

Consulting in private and public sectors. DCMC provides consulting and partnership development services to the private sector, governments, and non-profit clients.

Witt O'Brien

- **Sr. Vice President of Business Development and Government Relations**

He managed all government and corporate sales, strategic partnerships, and relationships with executive-level private sector and government leaders

- Hurricane Katrina – Louisiana
- 9/11 - NY/NJ Port Authority
- Tornado - Joplin, MO

Witt Associates

- **President**

Responsible for development of mergers and acquisitions opportunities.

Federal Emergency Management Agency

- **Director of Corporate Affairs – Clinton Administration**

Responsible for \$100 million dollar joint public-private sector initiative focused on building resilient communities.

Mark Merritt
FEMA Technical Consultant

Overview:

Mark C. Merritt is co-founder at DCMC Partners, a strategic management consulting firm that builds on its founders' decades of leadership in the private and public sectors. Prior to DCMC, Mark C. Merritt was co-founder and partner at Witt O'Brien's, where he served as Senior Vice President of the firm's Recovery Division. Merritt and his team of technical experts managed large-scale disaster debris clean up operations; worked with clients to navigate the challenging regulatory areas of insurance and government reimbursement; and supported clients in evaluating, financing, and executing opportunities to rebuild after disasters. His work represented at least half of the firm's revenue since he co-founded Witt Associates in 2001. Under his leadership, his team managed and implemented more than \$20 billion in federal reimbursement, including \$17 billion in FEMA Public Assistance and \$3.5 billion in FEMA Hazard Mitigation Grant Program funding. Merritt has raised the standard for disaster recovery consulting. Governors and mayors proactively seek out Merritt's guidance following significant disasters. Merritt and his team have worked every major disaster in the U.S. and its territories over past 13 years. Merritt managed large-scale disaster recovery efforts for the State of Louisiana (after Hurricane Katrina and subsequent storms) and for the State of New Jersey (following Superstorm Sandy). These clients attribute billions in funding to Merritt and his team that the states would not have otherwise received from the federal government (including \$3 billion in Louisiana and nearly \$.5 billion in New Jersey). Other clients have included the states of Indiana and Iowa (after the devastating 2008 floods), the State of Florida (following the 2004 hurricanes), and the University of Texas System (in the aftermath of hurricanes). Merritt graduated from West Point Military Academy. He served six years of active duty in positions ranging from an intelligence officer to an executive officer and aid to three different Army Generals. Following his military service, Merritt started at FEMA as a Program Assistant to the Director in the agency's recovery division. There he learned the intricacies of recovery programs and served as recovery representative to the White House. He was promoted to FEMA Deputy Chief of Staff and spearheaded the agency's first-ever team to review, reconcile, and close-out past disaster recovery programs. In its first year the team returned more than \$2 billion in federal assistance to the U.S. Treasury.

Disaster Recovery Experience

- Over 30 years

Matt Giorden
Regional Manager
565 E. Elliboro Blvd
Deerfield Beach, FL 33441

Dear Manager Giorden:

I would like to take a moment to thank you and all your employees for going above and beyond your duties during hurricane Irma. Now that Collier County is under "blue skies" and things are slowly returning to normal, my staff, I, and the citizens of Collier County graciously appreciate your generous support and assistance before, during and after hurricane Irma.

As the Director of Emergency Management, it is such a great feeling to know how resilient our community really is, and how everyone came out to support one another, especially during the trying times that presented during this devastating storm.

The generosity and support that you and your organization provided is greatly appreciated. It is businesses such as yours that have made Collier County a strong community that recovered quickly from this devastating storm. Collier County is a great place to live, work, and play, and through your hard work and support you have been a part of that effort.

Again, on behalf of my staff, I, and the citizens of Collier County, thank you for your generosity of time, assistance and continued support.

Sincerely,

Dan E. Summers, CEM, FPEM
Director
Collier County Emergency Services

To: Whom it May Concern
From: John Archambo, Director
Customer Relations
Subject: Ashbritt, Inc. Emergency Debris Management Services

Palm Beach County was impacted by Hurricane Irma on Sunday, September 10, 2017, which generated approximately 3 million cubic yards of storm debris to be collected, reduced and transported to a final disposal (recycling) destination.

The Solid Waste Authority of Palm Beach County (SWA) is the agency responsible for the cleanup of storm debris impacting the County. Ashbritt, Inc. played a key role removing, processing and transporting eligible storm debris material to a final destination in a very safe and timely manner. They also operated temporary debris disposal sites in a safe and efficient manner.

Ashbritt, Inc.'s constant communication before, during and after Hurricane Irma provided a true sense of confidence in the task before us. They are a proven and experienced disaster response team that will exceed a customer's expectations at every turn. Ashbritt, Inc. always provides a very high quality team of managers that communicate and organize an outstanding cleanup effort.

The Ashbritt, Inc. team are also well aware of all FEMA eligibility requirements, responding immediately to any and all challenges presented during a natural disaster.

It is truly a pleasure working with the Ashbritt, Inc. team and I can assure you this company will not disappoint.

You may feel free to contact me at 561-697-2700, ext 4725 if you require any further information.

January 10, 2018

RE: Letter of Recommendation for
AshBritt, Inc.
ATTN: Brittany Perkins, Chief Executive Officer
565 East Hillsboro Boulevard
Deerfield Beach, FL 33441

To Whom It May Concern:

Mirack Construction, Inc. (Mirack) is writing to recommend AshBritt, Inc. (AshBritt) as a General Contractor based on our recent experience on the Santa Rosa Fire Cleanup Project. Founded in 2009, Mirack is a Minority-Owned Small Disadvantaged SBA and CALTRANS certified DBE general contractor. With a highly skilled and experienced staff of 35 full time employees, Mirack has completed over 100 contracts to date, contracts including Multiple Award Construction Contracts (MACCs and MATCCs) for the U.S. Army Corps of Engineers, Department of Homeland Security, U.S. Navy, U.S. Air Force and the Department of Veterans Affairs. Mirack is a licensed contractor, local to the State of California, and is currently on its fifth year in the SBA 8(a) program.

AshBritt sought and incorporated my business into its work in Northern California and provided Mirack the opportunity for small business to compete immediately adjacent to big business throughout the Santa Rosa debris recovery efforts. The Northern California debris recovery project has been an economic development driver for Mirack. We have been able to deeply invest in safety gear, demolition equipment and personnel training where Mirack can now provide a very substantial emergency response effort.

AshBritt insisted on Safety First and encouraged the strictest guidelines in the industry. AshBritt's Safety Officers were hands-on and displayed a real concern for Mirack's employees and overall public safety. Operational and upper management always had an open-door policy for Mirack, including Saturday and Sundays. They also encouraged Mirack to pay forward our opportunity by fostering the participation of Veterans and local fire victims. AshBritt orchestrated a win-win by fitting contractors with particular attributes for specific properties, avoided unnecessary congestion, and overall created a safe and productive project. As work progressed and field operations gained unique local experience, AshBritt was very open to suggestions and responsive to changing conditions. AshBritt's record keeping was outstanding (matched every ticket), and payment to Mirack was timely.

We look forward to maintaining a productive and successful relationship. It was a great pleasure to be part of the AshBritt/Corps/FEMA Team and I am very pleased to offer the highest recommendation for AshBritt, Inc.

Sincerely,

Anthony C. Cortabartane
President

Re: Letter of Recommendation

Dear Ralph,

I want to take this opportunity to thank you and all those involved with Ash Britt Environmental for the fantastic job done cleaning up our City as a result of Hurricane Matthew.

Prior to the storms arrival on Friday October 7, 2016, you maintained contact with me to let me know you were closely monitoring Matthew's storm track and that Ash Britt Environmental was ready and prepared to assist our City when called upon. As it became evident that Holly Hill was in the direct path of the storm, our contract with you was activated and true to your word you arrived the next day.

Beginning with the 72 hour push and continuing right on through until the last limb was picked up, Ash Britt Environmental was on the job every single day. For more than 3 months, working 7 days a week sun up to sun down, your crews worked diligently removing debris expeditiously and efficiently. The debris was hauled to our Debris Management Site (DMS) where it was ground and chipped to be hauled to its final resting place. I especially want to thank Mr. John Noble Sr. for his efforts overseeing the DMS operations and his coordination with City Staff working to clean our City.

I greatly appreciate the hard work and dedication of Ash Britt Environmental assisting in our recovery from Hurricane Matthew and would not hesitate to utilize your services again if necessary. Thanks again for everything you do!

Sincerely,

Mark T. Blaino, PWLF

TOWN OF SEWALL'S POINT

April 21, 2017

Mr. Randal Perkins
AshBritt Environmental
565 East Hillsboro Blvd.
Deerfield Beach, FL 33441

Re: Mr. Chris Holsinger

Dear Mr. Perkins:

As you know, the Town of Sewall's Point recently utilized the services of AshBritt Environmental for the cleanup of our town following Hurricane Matthew. We are very grateful for the services performed by your company, but particularly appreciate of the guidance and expertise we received from Mr. Chris Holsinger.

Having served in various executive capacities in local and regional government agencies for many years, I have had the opportunity to work with many knowledgeable professionals in a wide variety of capacities. Mr. Holsinger's expertise and proficiency, however, were notably remarkable. In every conversation with Chris, with every problem or concern that arose, Chris had the solution. And not only did he know the answer, he could quote the section and verse of the code that supported his position.

In the pitfall-laden world of FEMA reimbursement, having a person with the knowledge and expertise of Chris Holsinger was immeasurably reassuring. I could not let the opportunity pass to commend you for providing such outstanding service to the Town of Sewall's Point, and to congratulate you on having a consummate professional in the person of Chris Holsinger representing your company during the challenging times of disaster recovery.

Very truly yours,

Pamela Mac'Kie Walker
Town Manager

Mr. John Noble
AshBritt Environmental Inc.
565 East Hillsboro Blvd.
Deerfield Beach, FL 33441

Dear Mr. Noble:

I am writing to express my appreciation for the performance of the entire team from AshBritt in the marine debris removal operations for Hurricane Matthew. As our marine debris removal firm the level of support and professional performance provided has been outstanding. My direct points of contact with your firm were Project managers Dan Strode at the beginning and Blake Riley. Both supported the County in an outstanding manner. They are both professional in all respects and helped to establish a high standard for compliance. On a personal level, Blake was extremely responsive to answer any questions and provide the assistance I required. As the Debris Manager I am not exaggerating when I state that without his diligence, knowledge, and ability to gain the cooperation within the team we would not have been as effective. I am sure you are aware of the challenges presented in just dealing with 6-8 foot tide changes every 6 hours. All observers of our operation remarked that "Beaufort County had their operation together". Blake played a huge part in making that happen.

Providing Ralph Dahlgren to assist with the process allowed the County to get a jump on a difficult task. Ralph provided essential high level technical support and coordination for the debris removal operation. His experience and knowledge enabled the entire team to work seamlessly. His professionalism, personality and ability to communicate with our citizens kept things moving smoothly. Ralph handled the most difficult situations with ease which I sincerely appreciated. His ability "To Make the Noise Stop" was exceptional. I would also be remiss if I did not mention your safety officer Brett Postelli who did an outstanding job in all respects.

Bottom line, AshBritt did an exceptional job and I am thankful for each member of your team. You completed a very difficult project with superlative results and continue to provide us with excellent customer service. I am forwarding a copy of this letter to our Administration and Purchasing Department for future reference.

Regards

James S. Minor, Jr.
SOLID WASTE / DEBRIS MANAGER

Deerfield Beach, Florida 33441

Subject: AshBritt's Past Performance Providing Disaster Debris Management to the South Carolina Department of Transportation

To Whom It May Concern:

In October of 2016, Hurricane Matthew brought high winds and heavy rainfall to South Carolina. The effects of this hurricane resulted in flooding and wind damage resulting in many downed trees; breached dams; and rivers that burst their banks washing away roads, bridges, and flooding homes. As a result, the South Carolina Department of Transportation (SCDOT) activated AshBritt's pre-positioned contract for Disaster Recovery Assistance to provide debris management services to Dillon, Dorchester, and Marlboro counties.

AshBritt quickly mobilized and began debris management operations. The project team was accessible, responsive, knowledgeable, and professionally implemented a recovery plan. The AshBritt team has been flexible and able to address evolving project plans, and successfully executed the scope of work in each assigned county.

We appreciate AshBritt's continued support with post-event clean-up and are pleased to have them as a part of our disaster response and recovery team. Please feel free to use this letter as a positive recommendation attesting to AshBritt's ability to successfully provide disaster debris management services.

Sincerely,

David B. Cook, PE

AN EQUAL OPPORTUNITY
AFFIRMATIVE ACTION EMPLOYER

AshBritt Inc. Response to the City of Delray Beach RFP 2018-001 for Disaster and Debris Management Services

February 24, 2017

Dear Sir/ Madam,

I am writing this letter to recommend the services of AshBritt. During this past hurricane season we were hit by Hurricane Matthew. It had a serious impact on our community and brought significant damage to the City.

From the beginning, AshBritt was knowledgeable and helpful with many aspects of reimbursement through FEMA. Specifically, Dow Knight made sure we were on the path to have things done right the first time. He assisted greatly in the finalization of our contract and worked tirelessly to get the ball rolling.

AshBritt sent professionals to work in our community. They were adamant about being notified of any concerns and never complained when we sent more work their way. Project managers were diligent about checking in and keeping us up to date with progress. AshBritt fulfilled each detail of their contract and went above and beyond with their service. If you need a disaster professional, then I would highly recommend them to you.

Best Regards,

Matthew E. Saxon

Ash Britt

Re: Gratitude and Thanks

Ash Britt

I am writing this letter to express my gratitude. Now that this experience is all but behind us, I have had a moment to reflect back at the work that you (Dow Knight) and Ash Britt have accomplished. I truly believe that Chatham County fare well due to you and the Ash Britt's team's extraordinary efforts. I know that it is truly a team effort. After seeing you and your crew in action, it is easy to understand why you are regarded with such high standards. You have a way of working with everyone from the guys in the field all the way up the department heads and even the commissioners when called upon.

It is evident that you are a seasoned vet and very knowledgeable within your area of expertise. It has been a pleasure working with you and Ash Britt. Although I hope that the County doesn't have to go through this again, I know that as long as Ash Britt and you are onboard the County will have nothing less than expedient first class service.

Thanks for all that you did for Chatham County and good luck with all of your endeavors.

*Respectfully,
Alice Gibbons

RE: Recommendation -- AshBritt Environmental, Inc.

AshBritt Environmental, Inc.
565 East Hillsboro Blvd, Deerfield Beach, FL 33441
Re: Hurricane Matthew 2016 - 2017

I would be remiss if we did not take the time to commend your company and express how grateful and appreciative we are of the amazing operation your company ran here during Hurricane Matthew from October 2016 – January 2017.

Ash Britt provided outstanding service during a time of urgency for our county after it was impacted by Hurricane Matthew. AshBritt Environmental worked quickly and efficiently to remove debris on the Right of Way, as well as worked diligently and carefully during a beach clean-up mission from the storm. AshBritt Environmental helped St. Johns County provide the most efficient and expeditious debris removal services to its residents.

Your assistance in our time of need meant a great deal not only to our Department but to our community as well. The clean-up efforts were overwhelming yet the competency, structure and organizational skills displayed by Ash Britt were excellent and helped our county return to its normal state as quickly as possible.

Sincerely,

Solid & Hazardous Waste Management Division

Company Name: ASHBritt, INC.

Comments:

The Board of County Commissioners approved AshBritt, Inc. (AshBritt) as our primary contractor to provide disaster debris management and removal services for the 2016 hurricane season. AshBritt has been under contract with Collier County for eleven years.

Following Hurricane Wilma in 2005, AshBritt provided exceptional and professional post-disaster debris collection, monitoring, and disposal services. The county was divided into 58 work zones. Debris was collected and disposed of in full compliance with FEMA rules and regulations, qualifying Collier County for maximum reimbursement of federal and state emergency funds. The county's four temporary debris staging sites were reviewed and surveyed. A complete restoration of all four sites was done in a timely manner.

The collection and monitoring of approximately 1 million cubic yards of Hurricane Wilma-generated debris was completed in 45 days, with the debris staging sites cleared shortly thereafter. AshBritt provided an excellent FEMA liaison and worked effectively with FEMA representatives, operating within FEMA's guidelines to optimize the county's eligibility for reimbursement. AshBritt's cradle-to-grave contract price included stumps, collection, processing, and disposal. Following the project's final audit, Collier County received a reimbursement of \$24 million, with only \$1,000 ineligible.

AshBritt also provided exceptional and professional debris collection and removal services following Tropical Storm Fay in 2008, collecting and disposing of an estimated 20,000 cubic yards of debris at an estimated cost of \$403,571.

Solid and Hazardous Waste Management Division • 3339 Tamiami Trail East, Suite 302 • Naples, Florida 34112-5361 • 239-252-2508 • FAX 239-774-9222

AshBritt Inc. Response to the City of Delray Beach RFP 2018-001 for Disaster and Debris Management Services

AshBritt was deployed on January 17, 2016 for a severe wind storm event that unexpectedly hit Collier County during the pre-dawn hours of that day. AshBritt was outstanding and had skillful staffing quickly mobilizing the debris collection and removal, collecting and disposing of an estimated 25,000 cubic yards of debris at an estimated cost of \$450,000.

Deerfield Beach, FL 33441

RE: Winter Storm PAX 2014

Dear Mr. Gierden,

On behalf of Colleton County, I extend our thank you and appreciation for the services provided by AshBritt, Inc amidst our time of emergency during the Winter Storm PAX which occurred in February 2014. In addition to the immediate disaster relief, I thank you for the continued clean-up efforts and coordination that took place over the following weeks.

It has been a long time since the County has experienced a natural disaster of this magnitude. Most of the personnel in leadership roles that were present during the last disaster are no longer with the County. Needless to say, there was a steep learning curve for us current County employees tasked with leading the relief efforts. I am most grateful and appreciative how AshBritt came along side our staff with support and direction, helping us navigate the detailed FEMA procedures required in order to later seek potential federal aid reimbursements for our clean-up efforts.

In addition to the debris management services, I am thankful for the coordination effort extended by AshBritt as we worked through payment. Colleton County is a large rural county with a small operating budget. The disaster and clean-up efforts from Winter Storm PAX were not a planned expenditure. AshBritt worked with the County as we sought federal reimbursement and reallocated funds from the operating budget to cover the incurred expenses.

In all, we are pleased with the excellent services provided and are confident we can rely on AshBritt in the wake of any future disaster.

Sincerely,

Jared Fralix, PE
County Engineer

Ash Britt Environmental
565 E. Hillsboro Blvd.
Deerfield Beach, FL 33441

To Whom It May Concern:

The Ash Britt Corporation was hired by Ocean County in November of 2012 to remove right-of-way debris and vegetative debris. Once contracted, they mobilized in a quick and efficient manner operating over 300 trucks per day, removing the right of way debris seven days a week. In total, they removed between one and a half to two million cubic yards of debris. Some of the constraints they faced, as in many major hurricanes, were damaged roads and no electricity for weeks in an area of Ocean County virtually destroyed. They were able to keep their operation focused and because of their quick removal of the debris, it allowed our utility companies the opportunity to repair and reenergize electrical lines, gas lines, etc. and for the County and towns to repair streets and roads. They communicated daily with a coordinator from each town that was in the County's Shared Services Agreement as well as the County itself. There were 20 temporary debris management areas plus the County. I received no complaints and only compliments about the efficiency and thoroughness of the physical debris operation. Answering the ultimate question if I was faced with the opportunity of hiring this firm again, yes I would do so.

If you have any further questions, please feel free to contact my office.

Very truly yours,

Carl W. Block
County Administrator

Re: Super Storm Sandy Project
Holmdel Township, Monmouth County, NJ

Dear Mr. Noble:

As you know, AshBritt, Inc. was awarded the State Contract for the removal of all vegetative debris from the Township's rights-of-way following Super Storm Sandy. The project was deemed complete and acceptable at close of business December 17, 2012 by our Department of Public Works Superintendent, Jeffrey P. Smith, and your Project Manager, James "Buddy" Lofton.

The Township would be remiss if we did not take the time to advise you how grateful and appreciative we are of the amazing operation Buddy ran here in Holmdel. From the moment Buddy set foot in our municipal building we had the overwhelming sense that we were in good hands and he never disappointed us. For us, this project was overwhelming yet the competency, structure and organizational skills displayed by him was truly amazing to watch.

Our approved DEP site had multiple aspects going on at the same time which could have proved a disaster yet with his strong sense of leadership and diplomacy the project moved on without issue.

Buddy had great praise for the cooperation of our DPW Superintendent, the Deputy Superintendent and the entire DPW staff. Mr. Lofton and the Township of Holmdel developed quite a partnership; one which we believe helped to bring this project to completion ahead of schedule.

Once again, thank you for all your support and assistance.

Very truly yours,

October 31, 2013

Dear Mr. Noble:

As of today, Thursday, October 31, 2013, 3 outflows have been dredged by AshBritt Environmental, Inc. in Long Beach Township.

On October 29, 2013, Superstorm Sandy came ashore in Long Beach Township. This storm consisted of high winds with an unprecedented storm surge, the dunes were breached by the ocean and in many areas the ocean met the bay. The full moon coupled with the forecast created Superstorm Sandy.

AshBritt Environmental, Inc. was contracted to dredge the outflows. Their professionalism and experience, under the supervision of Jamie Robbins was outstanding. Jamie, the project manager, organized the dredging of the outflows. Working as a team with Long Beach Township, allowed the outflows to be dredged quickly and efficiently. Jamie's crews were easy to work with on a daily basis.

Jamie's confidence and knowledge in a disaster situation was impressive. We would undoubtedly recommend AshBritt Environmental, Inc. and their staff to any municipality or agency requiring assistance with disaster recovery services.

Sincerely,

Andrew Baran

Dear Mr. Robbins:

I would like to take this opportunity to thank AshBritt and you personally for the outstanding job you have done in the debris removal process following Hurricane Sandy. As you are aware Stafford Township was devastated by this storm and, although we had made some strides toward recovery before engaging your company, it has been your efforts that have allowed us to turn the corner on the recovery process. AshBritt has more than met our expectations in the clean-up process but beyond that it is the manner in which they did it that has made all the difference. Throughout the process your company has been a pleasure, efficient and ever mindful of the effect of this storm on our residents. It has been a pleasure to work with you and with AshBritt throughout this process. Although I would hope that we would never again face such a tragedy I can say with absolute certainty that should such a tragedy befall Stafford Township again AshBritt will be my first call for assistance.

It is with great pleasure that after careful inspection by representatives of the Township and myself we are now able to release AshBritt from all debris removal responsibilities in Stafford Township. Given that we still hold the permit for the TDMA we still need to close out that operation, however, based on our meeting on Friday the 11th of January I anticipate that we will be able to close out that operation within the week.

Thank you and AshBritt for all your efforts on behalf of the citizens of Stafford Township. If there is ever anything that we can do to assist you or AshBritt in the future please do not hesitate to contact me.

Very truly yours,

James A. Moran
Administrator

Date: January 30, 2013
To: Bob Hewett of AshBritt
From: Hayden Hull CPWM
Superintendent of Tewksbury Township Public Works
Regarding: Hurricane Sandy ROW & TDMS

Mr. Hewett,

I would like to thank you for a job well done. With your experience, and the experience of the contractors you provided we were able to form a team that expeditiously removed the ROW hazards left to us by Hurricane Sandy. Without the cooperation of the contractors and our DPW staff as monitors I don't think our clean up would have gone so effectively and efficiently.

ROW Hazards

The ROW clean-up has been completed, and to the best of my knowledge there are no outstanding issues AshBritt is responsible for.

Temporary Debris Management Site (TDMS):

Your subcontractor, D & J did a superb job in managing the site. The TDMS has been cleared of all vegetative debris and machinery. The site has been restored to the satisfaction of the Township. At this time I see no outstanding issues AshBritt is responsible for.

With your cooperation and the cooperation of both of our staffs working effectively together, we were able to provide safe and timely passage to our residents, school bus transportation systems and traveling public during a difficult and challenging clean-up effort.

Thank you and your staff for the commendable efforts and cooperation,
Hayden Hull CPWM.

July 9, 2013

Ralph Dahlgren, Sr. Vice President
AshBritt, Inc.

565 East Hillsboro Blvd.
Deerfield Beach, FL 33441

RE: Winter Strom Alfred Contract Activation

Dear Mr. Dahlgren:

The State of CT found itself in need of supplemental assistance in order to recover from the damage caused by Winter Strom Alfred on October 29th, 2011. The Connecticut Division of Emergency Management and Homeland Security (DEMHS) would like to sincerely thank you and your team for your timely mobilization in our time of need. Your assistance with damage assessment, record keeping, assisting with the development of a formal scope of work and your operational success once the scope of work was agreed upon were truly remarkable and appreciated. In total, AshBritt supported sixteen municipalities and three state agencies including the Connecticut Department of Transportation during this mission. The right-of-way debris collection, operation of the reduced debris management sites, haul out of the reduced material, disposal/re-use of the reduced material, hazardous hanging limb removal, and hazardous tree removal were handled with operational efficiency.

The State and the Interagency Debris Management Task Force we greatly appreciate the professionalism and effectiveness that AshBritt displayed while working with multiple State agencies and local municipalities. We also appreciate your ongoing annual participation in our training workshops and the support your company provides to the State even when your operations are not required.

While I can't say that we hope to work with you again, as that would mean we would be responding to another natural disaster, I feel confident that AshBritt will continue to be a great partner if the State of Connecticut is ever in need of your services again.

Thank you again for your assistance and support.

Sincerely,

Judy Pahl

Re: Letter of Recommendation – AshBritt, Inc.

To Whom It May Concern:

I have worked with AshBritt, Inc. for 4+ years. Each year they take the extra steps to visit and train with us at the start of Hurricane Season.

Because of their extra effort and professionalism, I would like to express my gratitude for the excellent service that your company provided during Hurricane Ike last year. We are very pleased with the quality of service and sincerely appreciate your responsiveness.

AshBritt, Inc. provided outstanding project management as well as tremendous resources and excellent services to the City of Galveston during the course of cleaning up after Hurricane Ike. AshBritt's management team has demonstrated excellent professionalism and provided great expertise and knowledge due to their professional experience in the disaster response and recovery industry.

I highly recommend AshBritt for any work relating to disaster recovery services in the cleaning up of storm debris.

If you have any questions, please contact me at 409-765-3725.

Sincerely,

Charlie Kelly
Emergency Management Coordinator

July 7, 2009

To Whom It May Concern:

AshBritt was contracted to provide disaster related services to Orange County in 2007. Those services included logistic support such as generators, food, water, ice, as well as debris removal and disposal services.

Orange County sustained severe damage as a result of Hurricane Ike. Some areas of the County received 14 feet of storm surge. During the entire process I was repeatedly impressed by AshBritt's performance. Adrian Parker, our point of contact, arrived at the Emergency Operations Center prior to landfall and remained throughout the entire process working tirelessly to the successful completion of each project.

Every aspect of our disaster response package was required and I can say without hesitation that every item and service was executed by AshBritt in a timely and professional manner. All deadlines were met and in most cases arrived considerably sooner than anticipated. AshBritt provided cut out and drying of all County buildings, records preservation and restoration, debris management (vegetative, C&D, HHW, E-Waste and white goods), along with many other services.

The logistical support provided by AshBritt included generators, food, water, fuel, portable offices, shower units and many other items.

Since enlisting their services, my experience with AshBritt has been extremely positive. They have exceeded all expectations each time I have called upon them to respond. Every call to AshBritt with a question or concern has resulted in immediate response. The yearly training that they provide for us has been invaluable, and has helped me bring together many jurisdictions in our area.

Every AshBritt representative I have been in contact with has shown nothing but the highest degree of professionalism. We have been duly impressed with their services, and would recommend them for any services they offer.

Respectfully,

Jeff Kelley

Dear Mr. Parker:

After Hurricane Ike, Hardin County utilized the services of AshBritt, Inc. for debris removal, disposal services, and generators.

Learning many lessons from Rita, we prepared ahead for possible disaster by contracting with AshBritt, a reputable, dependable company, for emergency services. This was beneficial to us as we assumed the great responsibility of helping our citizens cope with yet another hurricane. AshBritt kept in contact with us daily during the recovery period, demonstrating their concern for us at such a difficult time. They honored their commitment to us.

I am pleased to recommend AshBritt, Inc. for any services they may provide.

Sincerely,

Billy Caraway

Randy Perkins, President
AshBritt, Inc.
480 South Andrews Avenue Suite 103
Pompano Beach, FL 33069

Dear Mr. Perkins:

Here in the City of Pass Christian we remember Katrina two years later in part by thanking those who worked so hard during recovery operation on our behalf. As you recall, as the Chief Administrative Assistant to the Mayor and City Attorney I was the principal person in charge of the debris operation while the former Mayor was ill, unavailable and after he resigned. Mayor McDermott was only elected Mayor at the very end of this debris operation and he has asked and authorized me to send this letter on behalf of the City.

The City of Pass Christian is a satisfied customer of the AshBritt/Army Corps partnership, which helped clean up the wreckage left by Katrina. You truly made a positive difference, not only by completing the work in a professional and timely manner, but as importantly by putting devastated local citizens to work as crew members and employees. It is our understanding from these citizens that men and women from all walks of life, who had lost nearly everything, picked up meaningful work and paychecks by working for AshBritt. At the time, there was nowhere else for them to turn for work and for this we are eternally grateful.

When the City decided not to hire private contractors and go forward with the Army Corps using AshBritt, we hoped (and later found out) that when the work was completed we would not have to endure the same level of scrutiny by other federal and state recovery agencies as other cities and counties have experienced. At this time we barely have the manpower and resources to work on the rebuilding of the public buildings and infrastructure that were all destroyed. We would not have wanted to use these scarce resources to compile, analyze and present documents for audits or other reviews, although we believe the process we followed under the supervision of the Army Corps would more than pass muster of any review.

I again want to express my thanks and appreciation to you for your outstanding accomplishment on our behalf under the most stressful and difficult conditions imaginable. God forbid another disaster in our City requiring your services but based upon your past performance, I would be glad to recommend your company again to work in our community.

With kind regards,

Malcolm F. Jones

RE: Hancock County, Mississippi

Dear Randy:

I have been requested by the Hancock County Board of Supervisors to personally thank you, your employees and contractors that served Hancock County in the demolition and debris removal process conducted through the U.S. Army Corps of Engineers following Hurricane Katrina. Hancock County greatly appreciates the demolition and debris removal services performed by your company and was very pleased with the quality of your work and the relationship forged with our citizens. Your company's efforts were crucial in allowing us to begin our recovery process.

Again, on behalf of Hancock County we would like to thank you and your company for the work and effort provided in the wake of Hurricane Katrina. This was a monumental task the scope of which was previously unseen in our country that could not have been completed without you.

Sincerely,

Ronald J. Artigues, Jr.

Pompano Beach, FL 33069

Dear Mr. Noble:

We would like to express our gratitude for the excellent service that your company provided during Hurricane Wilma last year. We are very pleased with the quality of service and sincerely appreciate your responsiveness and the way you conduct business.

The professionalism and efforts that you provided in removing the hurricane-related debris was exemplary. The resources used including reliable contractors, highly trained personnel, equipment and technologies were exceptional. We received a positive feedback from the community including the State of Florida and FEMA, and OIG. Due in part to your organization's professionalism and accounting of debris collected and "correct" invoicing, Collier County has received all reimbursement, allowed from FEMA and the State of Florida.

Again, thank you for the opportunity to be associated with such an excellent company and we look forward to working with you on future projects.

Sincerely,

Daniel R. Rodriguez, M.B.A., CFM
Solid Waste Management Department Director

Phone: (941) 575-3869
Fax: (941) 577-9265

www.charlottecountyfl.com

May 17, 2005

To Whom it May Concern:

In 2003, Charlotte County Florida entered into a contract with AshBritt Environmental to provide debris management services in the event of a natural or manmade disaster. That eventuality happened on August 13, 2004 when Hurricane Charley swept through the County.

AshBritt Environmental personnel were on scene within hours of the passing of the hurricane, helping a stunned and dazed County staff regroup and jump start the recovery process. AshBritt was called upon to perform emergency protective measures that allowed for our primary EOC and Government Center to be placed back in service within 36 hours after sustaining substantial structural damage.

With AshBritt's assistance and guidance we were able to quickly establish three TDERS and start initial debris collection within 48 hours. Within a week, AshBritt had over 220 trucks with associated equipment loading and hauling debris from throughout the County.

They have worked continuously to ensure that, not only was the debris collection processed and removed in a timely manner, but also economically as possible and in such a way as to maximize Federal and State reimbursement. AshBritt provided us with options and information that allowed Charlotte County to make informed decisions on how to deal with both storm debris and massive amounts of mobile home wreckage.

No one person or company is responsible for the successful recovery from a natural disaster. We have to work as a team and without concern for individual reward or recognition. AshBritt demonstrated that they are the consummate team player and the residents of Charlotte County will be eternally grateful for all of their assistance.

It is without hesitation that I wholeheartedly recommend the services of AshBritt Environmental to local governments for their emergency debris management needs.

Sincerely,

R. Alan Holbach, PPEM
Maintenance & Operations Manager

Re: Letter of Recommendation – AshBritt, Inc.

To Whom It May Concern:

I have had the pleasure of working with AshBritt, Inc. during the storm seasons of 2004 and 2005 in the two municipalities I was employed in at those times.

AshBritt, Inc. provided outstanding project management as well as tremendous resources and excellent services to the City of Weston during the course of cleaning up after Hurricane Wilma. AshBritt's management team has demonstrated excellent professionalism and provided great expertise and knowledge due to their professional experience in the solid waste industry.

I highly recommend AshBritt for any work relating to solid waste services or disaster recovery services in the cleaning up of storm debris.

Pompano Beach, FL 33069

Re: Hurricane Wilma

Mr. Randal Perkins:

I would like to take this time to thank you and your Company for the fine job it did in the cleanup of Hurricane Wilma. This storm took a toll on our sunup in the amount of destruction that was caused by the storm, as well as the debris that was generated. As the Public Works Director of Cooper City and the Chair of the South Florida Branch of the American Public Works Association I would personally like to thank AshBritt for a job well done.

I would also like to give credit to the people who have worked directly with Cooper City, as well as with APWA. These are the people who carry the name of your company as well as its good will. They are the ones that ended up helping you with your debris removal, cleanup, protection and they make things happen both during the cleanup, as well as the final closure. They are the real heroes of AshBritt, and they are the ones who deserve the most praise. Tim Mooney and Ralph Dahlgren are the members of AshBritt who helped Cooper City complete this task. I personally would like to give them the largest amount of credit. They can make a decision and get things done. I think you know that I have stressed this issue to many of my counter parts in Broward & Dade County through APWA.

Thank you AshBritt, for a job well done.

Sincerely,

Carl Miller

Re: Letter of Reference

To Whom It May Concern:

After a number of years of having a contract with AshBritt for "Disaster Recovery Services" we needed their services during the busy hurricane season of 2004. Even with all the areas of the State of Florida needing services at basically the same time AshBritt was quick to respond and very efficiently provided the help and service we needed, as well as following up to assure our goals and needs were met and completed. I would without hesitation recommend this company to others needing such services and also found Don Madio to be very helpful and thorough in arranging our needs.

Suite 103
Pompano Beach, FL 33069

RE: LETTER OF RECOMMENDATION

Dear Mr. Jackson:

I wish to express my sincere appreciation for AshBritt's assistance during the recent hurricanes of Fall 2004 that ravaged Brevard County and its cities. The timely response shown by AshBritt ensured a quick start on debris removal operations in the City of Titusville.

I believe AshBritt went above and beyond normal debris removal efforts to assist the City with collection. In addition, the company and its sub contractors displayed both professionalism and efficiency when dealing with our customers.

Without your assistance removal efforts would have taken much longer. Further, there were very few debris removal problems encountered in the process. I know the citizens of Titusville appreciated your efforts and the timely collections because I received many compliments on the work done by AshBritt.

Again, I wish to express my deepest gratitude and satisfaction for a job well done. I will certainly recommend AshBritt to my solid waste counterparts for debris removal collections and operations. I look forward to working with you in the future should the need arise again.

Sincerely,

Hillary H. Arens

"A City of Service"

SARASOTA COUNTY
"Dedicated to Quality Service"

November 21, 2001

To Whom It May Concern:

On September 14, 2001, Sarasota County experienced a severe storm, Tropical Storm Gabrielle. As a result of damages sustained from the storm, Sarasota County's Solid Waste unit engaged the services of AshBritt, Inc. for removal of storm debris.

AshBritt, Inc. performed these services from September 20th to November 5th. Mr. Terry Jackson, Vice President of Operations, was the chief company official in charge of the operation. The company performed these services in a professional and competent manner. All aspects of the operation (from mobilization through staging, cleanup, and demobilization) were handled efficiently and effectively. All members of the AshBritt operation were cooperative and exhibited a philosophy of *working together and getting the job done*.

Sarasota County's association with AshBritt, Inc. occurred during a time of duress for the County. However, due to the quality of the AshBritt organization, this trying time was made much easier for both County staff and residents.

As our experience with AshBritt, Inc. was very positive, I highly recommend this company to others. The County plans to enter into a long-term contract with AshBritt for removal of storm debris. If you would like additional information, please feel free to contact me at (941) 364-4400 extension 5708.

Sincerely,

Anita Largent

City of Hampton

COPY

June 4, 2004

Mr. Brad Kaine
Assistant Director of Public Works
The City of Parkland
6600 University Drive
Parkland, FL 33067

Re: Letter of Recommendation for AshBritt Environmental

Dear Mr. Kaine,

It is with great pleasure and without reservation that I write this letter of recommendation for AshBritt Environmental. The City of Hampton contracted with AshBritt for debris management services after Hurricane Isabel in September 2003. AshBritt provided debris removal services, constructed and managed our temporary debris storage and reduction site, handled our danger tree removal program, performed right-of-entry work, cleared public property of debris and provided extensive technical support in dealing with FEMA and debris issues in general.

AshBritt was on-site removing debris within 12 hours of my phone call activating their contract. The TDSS was under construction within 24 hours and accepting debris within 36 hours. Their ability to mobilize quickly played a crucial role in our recovery efforts. Their equipment and the equipment brought by their subcontractors were in excellent condition and able to maintain our 12-hour day, 7 day per week operation for the first 5 weeks of operations.

The technical support AshBritt provided enabled the City of Hampton to minimize the cash flow impact of such a major disaster, by assisting us in obtaining early reimbursement funding from FEMA that continued to flow to the city throughout the recovery operation. To date the City has received over \$20 million in reimbursements with no issues regarding eligibility.

I cannot say enough about the professionalism, dedication and quality service AshBritt provided to the City of Hampton and I highly recommend them for similar work in any jurisdiction.

Subject: AshBritt Training

Dear Mr. Perkins:

Just a quick note to let you know how much we appreciated the annual training provided by your staff as part of our pre-positioned contract for response and recovery services. This training is an essential part of our preparedness planning. Having experienced the full brunt of Hurricane Charley, we are uniquely aware of the benefits of training provided by AshBritt.

Your staff does an excellent job of tailoring the training to fit our needs. They understand the various levels of experience that our employees have and ensure that the training sessions provide something for everyone. The instructors' expert subject knowledge and their empathy are major factors in improving our employees' abilities to respond to disasters.

Keep up the good work!

Sincerely,

R. Alan Holbach

06/07/18	Complaint	Gonzalez & Sons Equipment, Inc. v. Ashbritt Environmental Services, Inc. Breach of Contract	Case No. 2018-017893-CA-01 Circuit Court of the 11 th Judicial Circuit in and for Miami-Dade County, Florida	Pending	Hurricane Irma

■ H. References

AshBritt maintains a professional, positive relationship with all our clients. Below is a list of references for similar projects that can attest to our knowledge, quality of work, timeliness, diligence, and flexibility for services.

Collier County, FL – Dan Rodriguez

Phone: (239) 252-2504

Fax: (239) 252-3991

Email: Dan.Rodriguez@colliercountyfl.gov

Address: 3339 Tamiami Trail East, Suite 302, Naples, FL 34112

Project Term: SEPT 20, 2017 - Pending

Project Details: Hurricane Irma – 3,600,000 CY

ROW Collected: 97% collected on ROW

TDSRS Handled: 3,600,000 CY

Project Cost: \$55,000,000

Reimbursed Amount: Project Worksheet still pending

Contract Dates: 01/12/2016 – 01/12/2021

Services Provided: ROW, hazardous tree/limbs, TDSRS, waterway debris removal, emergency push, HHW, white goods, MRE's, generators, vac trucks.

Refugio County, TX – Stan Upton

Phone: (361) 526-2820

Fax: 361-526-1325

Email: refugiotxemc@yahoo.com

Address: 808 Commerce, Room 104 Refugio, TX 78377

Project Term: SEP 20, 2017 – FEB 11, 2018

Project Details: Hurricane Harvey – 149,200 CY

ROW Collected: 100% collected on ROW

TDSRS Handled: 149,200 CY

Project Cost: Pending

Reimbursed Amount: Project Worksheet still pending

Contract Dates: 10/10/2017 – 10/10/2019

Services Provided: ROW, hazardous tree/limbs, TDSRS.

Victoria County, TX – Rick McBraver

Phone: (361) 485-3362

Fax: (361) 580-5779

Email: rmcbraver@victoriatx.org

Address: County of Victoria Texas, 205 N. Bridge St., Victoria, Texas 77901

Project Term: AUG 28, 2017 – DEC 12, 2017

Project Details: Hurricane Harvey – 153,000 CY

ROW Collected: 100% collected on ROW

TDSRS Handled: 153,000 CY

Project Cost: \$1,859,000

Reimbursed Amount: Project Worksheet still pending

Contract Dates: 06/22/2015 – 06/22/2018

Services Provided: ROW, TDSRS, emergency push, generators.

State of Connecticut - Judy Pahl

Phone: (860) 685-8543

Fax: (850) 256-0877

Email: judy.pahl@ct.gov

Address: DEMHS at DESPP - 111 Country Club Road Fl 3C Middletown, CT 06457

Project Term: October 29, 2011 – March 12, 2012

Project Details: Connecticut Severe Storm 2011 - 1,835,101 CY

ROW Collected: 98% collected on ROW

TDSRS Handled: 1,835,101 CY

Project Cost: \$73,538,607

Reimbursed Amount: 100%

Contract Dates: 07/02/2014 - - 2/02/2019

Services Provided: ROW, hazardous tree/limbs, TDSRS, emergency push.

Victoria, TX – Darryl, Lesak

Phone: (361) 485-3230

Fax: (361) 485-3534

Email: dlesak@victoriatx.org

Address: 700 Main Center, Victoria, TX 77901

Project Term: AUG 26, 2017 – DEC 12, 2017

Project Details: Hurricane Harvey - 393,000 CY

ROW Collected: 100% collected on ROW

TDSRS Handled: 393,000 CY

Project Cost: \$5,743,700

Reimbursed Amount: Project Worksheet still pending

Contract Dates: 06/22/2015 – 06/22/2018

Services Provided: ROW, TDSRS, emergency push, generators.

Chatham County, GA – Marc Ginsberg

Phone: (912) 652-6867

Fax: (912) 652-6845

Email: MBGinsbe@chathamcounty.org

Address: 7226 Varndoe Dr. P.O. Box 8161 Savannah, GA 31412

Project Term: OCT 18, 2016 – FEB 23, 2017

Project Details: Hurricane Matthew – 1,620,000 CY

ROW Collected: 91% collected on ROW

TDSRS Handled: 1,500,000 CY

Project Cost: \$23,023,000

Reimbursed Amount: Project Worksheet still pending

Contract Dates: 10/11/2016 - 10/11/2018

Services Provided: ROW, TDSRS, hazardous trees/limbs, hazardous stumps, emergency push.

■ I. Contracts in Florida

AshBritt has presented a list of our current contractual obligations to other jurisdictions. AshBritt has the ability to handle simultaneous activations of over 70 jurisdictions across multiple states for debris removal services.

Tab 6. Approach and Capacity

■ i. Project Management Approach

AshBritt will deploy a Project Management Team(s) (PMT) to the City that is commensurate with the severity of the disaster event. Disaster debris stream quantities, makeup, and overall post-disaster conditions will *always* vary. AshBritt will respond individually and proportionately to any recovery with the appropriate personnel, organizational structure, equipment assets, communications, resources, and systematic plans for execution.

For a large-scale recovery operation, we will deploy a larger more specialized PMT to handle the complexity of an expanded recovery mission. For smaller events, when the recovery response is limited to the collection of vegetative debris, we will deploy a smaller PMT. During a minor recovery event, the Operations Manager will assume a greater share of the Project Manager responsibilities. Any deployed PMT will likely expand and contract over the course of the recovery, smoothly transitioning to achieve the optimal level of personnel. AshBritt explicitly assures the City that the management deployed for any recovery in the City will be dedicated and sufficient to design and execute the best Management and Operations Plan to meet the City's needs. As the City's current and future contractor, the following standards, at a minimum, will be upheld by any recovery efforts in which we may be called upon to assist the City:

- **Rapid Deployment & Accessibility.** The quantity and quality of resources deployed to the City, as well as the speed of deployment of these, will meet or exceed AshBritt's commitment to the City. We will make a full and concerted effort to conduct an expeditious, safe and cost-effective recovery. Our senior management will be available 24/7 throughout the course of the project via various communication channels.
- **Common Framework.** As part of a larger effort and mutual aid response, best practices of cooperation, clear communication, collaboration, accountability and efficient use of shared and owned resources will be followed. Flexibility, visibility, and accessibility will be maintained throughout the project.
- **Project Responsibility.** AshBritt senior management will have full responsibility and the authority to direct all subcontractors and teaming partners who are involved in the recovery efforts. Management will be solely responsible for all aspects of the operations and other project procedures.
- **Regulatory Compliance.** All activities related to every aspect of the recovery operation will be conducted according to Federal (FEMA), Florida Statutes, the City of Delray Beach laws, regulations, and guidelines. Any deviation from the guidelines, will be addressed and adjudicated immediately and decisively, as well as reported completely and promptly.
- **Self-Sufficiency.** AshBritt staff and subcontractors will maintain self-sufficiency with regards to housing, sanitation, food, and lodging. The staff will also maintain self-sufficiency with equipment safety, maintenance, repair and fuel by means that are consistent with local requirements to minimize adverse effects and further disruption in the City of Delray Beach.
- **Timely and Accurate Reporting.** Daily, weekly or other cumulative reporting, accounting and reconciliation will satisfy the City's standards. The best available support technology and systems will be used. All data, documentation, and invoices will be timely, accurate, and audit quality. Transparency of the documentation and reporting process will be accomplished through our Disaster Information Management System (DIMS).
- **Financial Control & Integrity.** Through the employment of our Standard Operating Procedures and plans, and the administration and enforcement by our PMT, this will ensure the most cost-effective means of recovery. With our sound financial standing, lines of credit, and streamlined DIMS tracking system, we will be able to rapidly and accurately compensate our subcontractors during the outset of any disaster event. Moreover, DIMS seamlessly segregates debris quantities from multiple contracts, including Federal Highway Administration (FHWA) debris quantities where applicable.

- **Qualified Technical Assistance.** Guidance offered by our *Technical Assistance Team* will be timely, consistent, thorough, and accurate, resulting in the full realization and reimbursement of all eligible claims. Members of our team have worked for State Divisions of Emergency Management and administered programs for FEMA. This knowledge will further assist the needs of our clients. The *Team* will participate to the greatest extent allowable by the local, state, and federal authorities to offer support and assistance throughout the funding process while at the same time maintaining the highest level of neutrality and integrity.
- **Safety & Health.** AshBritt abides by all OSHA regulations and other federal and state agency guidelines when conducting an operation. Operational safety, health, and accident prevention measures will be in effect and reinforced daily by all active personnel. These measures and procedures will be reiterated weekly during planning meetings, or as needed. All PMT members and all AshBritt personnel, not just our Environmental Health and Safety Manager, will be empowered to address any potentially unsafe conditions or actions. Immediate and swift action will be taken to correct any safety deficiency while maintaining the utmost respect for all members of our workforce. All actions will be documented and the safety of citizens will be considered paramount.
- **Deficiency Response.** Project deficiencies (public or private collateral damage) will be posted, tracked, and reported promptly to the City. Reports will describe the deficiency, supply evidence of a response to the conflict resolution, and explain the corrective action taken to prevent future occurrences. All repairs and documents of any monetary settlement will be provided to the City in a timely fashion.
- **Project Organization.** The recovery will proceed in accordance with an objective plan of action that can be easily adjusted or scaled to accommodate an ever-changing recovery environment and mission. Operations will be efficient, unified, and cost-effective, meeting the full and utter approval of the City. Any deviations from the City's expectations or standards will be corrected in the shortest time possible.

■ *ii. 9 Phase Technical Approach*

AshBritt's entire disaster recovery, debris removal, and disposal process can be described in the following subsections which illustrate the general sequence of disaster recovery and debris removal operations for known and predictable events, such as hurricanes, tornadoes, flooding, or similar events. This approach outlines the methods of operation, operational structure, and services to be provided for the City. Additional detailed information regarding the sequence of debris removal operations and the means and methods of such is included in our General Event Sequence Diagram below. This diagram is an organizational chart outlining the methods of operations. Per the City's request in the solicitation to provide an operational plan in the scope of work, the below 9 Phase Technical Approach will be utilized as our operational plan for the City.

AshBritt's General Event Sequence Diagram of Debris Management Services

AshBritt follows a prescribed sequence of phases for storm clearing operations that are based on 24 years of experience in a variety of jurisdictions and supporting a variety of recovery operations.

- *Phase 1 – Planning and Preparation*

AshBritt will coordinate annually with the City of Delray Beach to review logistical, operational, and administrative aspects of the possible response and recovery plans and projects. Some of the key issues and elements that will be addressed in this annual training will include organization and communication structures to the community and public warning systems. AshBritt will verify contact information and the City's expectations and special circumstances to review and critique the City of Delray Beach emergency response plans.

AshBritt will review the nearby recycling facilities and their classification, critical facilities and priority route clearance maps, geographic sectoring, and infrastructure (GIS review). It is crucial to have up to date Logistical Staging Areas (LSA's) and Points of Distribution (POD) areas. AshBritt will assist in identifying and/or updating these areas within the City.

Given our recent experience with the City and our local knowledge of the area (HQ 13 miles from the City) will help AshBritt understand and prepare for the type, source, and location of debris if a disaster-generating event occurs in the City.

- *Local Subcontractor Management*

During our Annual Planning and Training with the City, AshBritt will identify, screen, and engage disadvantaged local subcontractors at our sponsored workshops/job fairs. AshBritt has already reached out to subcontractors located within the City of Delray Beach in addition to our over 1,850 subcontractors registered in the state of Florida. Having our Headquarters in Florida allows AshBritt to establish and strengthen relationships with various local subcontractors that can be utilized at a moment's notice. Given our location, experience, and extensive history providing these services in the state of Florida and the U.S., AshBritt feels as though we are uniquely positioned to respond to the City. AshBritt has always exceeded our contractually obligated goal of local disadvantaged business including but not limited to: Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VOSB) participation and will maintain this practice if we are once again awarded the debris removal contract for the City. During this phase, AshBritt will work as a partner to the City of Delray Beach's National Incident Management System (NIMS)/Incident Command System (ICS) structure. We will also assist in the review of:

- Staging areas and base camps for personnel
- Equipment and resource marshaling areas
- Clear-zone staging and rally points
- Final disposal sites
- Coordinate with monitoring firm representatives
- Take into account safety and environmental concerns
- Work with the City on any necessary assistance in regards to the Public Assistance Program, 2 C.F.R. 200, FEMA regulations, and Stafford Act provisions, as applicable.

AshBritt has received commitments from two Delray Beach subcontractors that can be utilized at a moments notice.

- **Delray Beach Tree Trimming Service** – Conducted Emergency Push, and ROW Collection as a subcontractor for AshBritt In resposne to Hurricane Irma for the City of Delray Beach.
 1. 2 Self Loaders
 2. 2 Dump Trucks
 3. 3 Skid Steers
- **Juarez Lawn & Tree Services** – Minority owned local business.
 1. 4 Dump Trucks
 2. 2 Skid Steers
 3. 1 Bucket Truck
 - *Technical Assistance Planning*

AshBritt's Technical Assistance Team has worked as Administrators for bureau's in FEMA and the Florida Division of Emergency Management. They will be able to utilize their knowledge and experience from their previous employers to assist in FEMA Technical issues or questions that may arise. Our Team consists of:

- Mark Merritt – Former Deputy Chief of Staff for FEMA
- Barry Scanlon – Former Director of Corporate Affairs for FEMA
- Jim Loomis – Former Recovery Bureau Chief of Florida Division of Emergency Management (FDEM)
- Christopher Holsinger – Former FDEM Debris Specialist and Public Assistance Coordinator

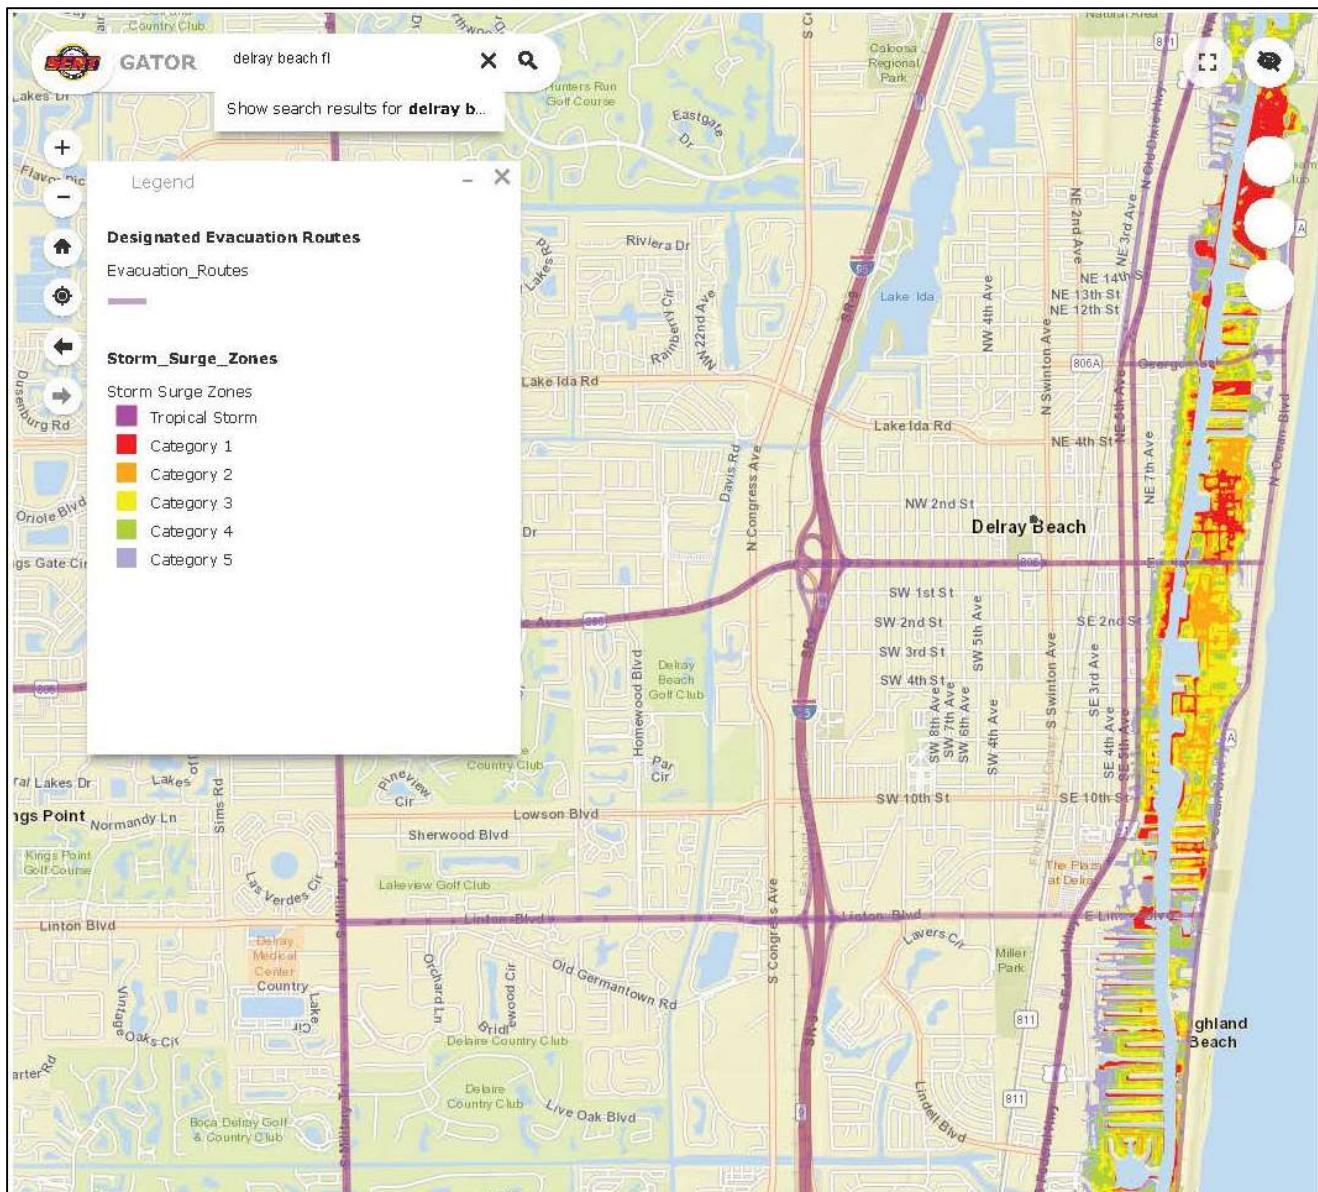

AshBritt has experience with the maintenance process of various emergency management plans at the state level. We will dedicate our specialized personnel to attend planning and training sessions with City staff. AshBritt believes that proper mitigation and preparedness measures save more tax dollars for jurisdictions than any other task in the four phases of Emergency Management.

AshBritt assisted the City of Delray Beach with the development of the current Debris Management Plan. AshBritt has a thorough understanding of all facets of the plan and the responsibilities of all stakeholders.

- *Florida State Emergency Response Team GATOR Analysis*

AshBritt utilized the state of Florida GATOR system to generate an up to date critical facility map for the City of Delray Beach to facilitate planning and response efforts. AshBritt can analyze current weather outlooks, flood zones, evacuation zones, storm surge areas, and other critical information in real time during a disaster event. This system is effective for identification of hazardous material spills and areas that it will effect based on current and forecasted weather conditions. The map below denotes storm surge areas and evacuation routes.

<https://maps.floridadisaster.org/gator/map.html>

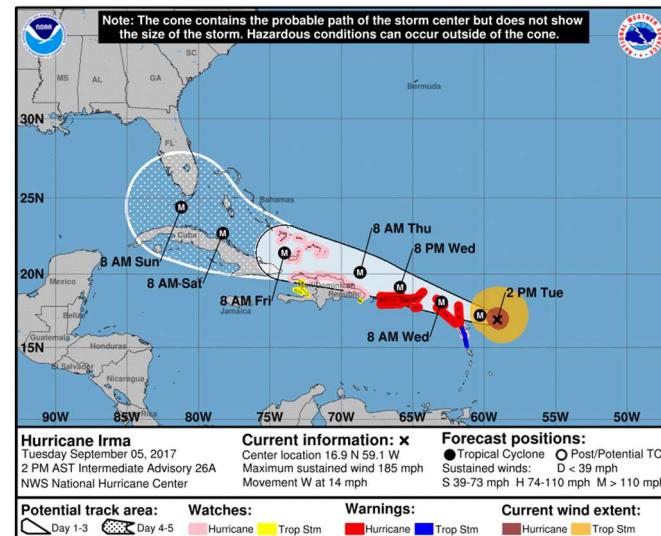

Note: This is just one of the many tools AshBritt uses for planning, response, and recovery efforts for our missions throughout the state of Florida.

▪ *Phase 2 – Ready and Watch*

As hurricane season approaches, AshBritt enters a ready and watch stage. During this time, we conduct internal reviews of our systems and procedures and inventory and perform maintenance on our equipment and relevant assets. We stock up on all necessary supplies and consumables, canvass our teaming partners, subcontractors, suppliers, and reserve personnel, and continue to touch base with the City. We increase the frequency of our planning and operations meetings to ensure that all key management and support personnel are operationally synchronized for the upcoming season. Several operation management personnel are designated to track regularly and notify our management team of any imminent threats, though all staff tracks storm activity. We meet with our first-responder subcontractors and debrief them on any relevant modifications to our response plans for the upcoming season.

▪ *Phase 3 – Monitor, Alert, and Notification*

If a storm path is aimed at the vicinity of the City, AshBritt will begin closely monitoring the track and conditions of the storm. AshBritt's Project Manager – **Dow Knight** will contact the City as a precursor to your official alert stage. We believe it is important to engage communication lines as soon as possible and notify our clients that we are monitoring the status of all impending events.

AshBritt Tracks all NOAA Advisories

Public Service Announcement Examples

equipment for deployment.

AshBritt will work in unison with the City to utilize AshBritt's or the City's Public Service Announcements (PSA's) for urgent notifications. An example of these PSA's can be seen on this page.

During this phase, we will put our management, supervisory, support, and reserve personnel, as well as our first response subcontractors and suppliers on a preliminary alert status. Our operations staff will review and satisfy our task preparation lists to ensure all necessary supplies, equipment, and assets are ready to go. We may secure and prepare our mobile command buses, satellite communications systems and other computer and communications

Upon official alert and notification by the City of an imminent threat (and likely strike), we will amplify our monitoring and readiness actions. Our operations staff will review the contractual scope of work and any established planning elements that had been derived during the pre-planning and preparation stage. We will put our management team, support personnel, reserve staff and primary and specialty subcontractors on standby status. Select management personnel and our first-responder subcontractors will be deployed to the pre-designated rally points.

AshBritt's Project Manager or other key team members will be physically present as requested by the City. AshBritt duties will include but are not limited to

- Assisting and coordinating with the impact assessment and required resources
- Assessing damage
- Coordinating the helicopter and drone survey
- Preparing for first push
- Ordering and staging equipment and supplies
- Coordinating the opening of the TDSRS
- Coordinating the action plan to be operational

▪ *Phase 4 – Strike, Mobilization, Assessment, and Clearance*

Following the impact of a debris-generating disaster, AshBritt will immediately deploy the management team to engage with the City. Preliminary courses of action and coordination will be addressed at this time if they have not been completed already. This will act as the cue to proceed with our pre-established response and mobilization plan. Many of the critical actions here will proceed concurrently. We will implement our communications plan as appropriate. If required, we will deploy aircraft and vehicles to assist the City with their initial damage assessment. We will also assist the City with vital public information.

As part of this assessment, we will review the pre-designated staging areas and TDSRS for continued viability. As staging areas and debris sites are assessed, we will instruct our local subcontractors to ramp-up preparation.

We will notify our primary first-responder subcontractors to deploy to the areas for certification from pre-positioned locations. This will be done by the City's personnel or monitoring firm. Additional support and reserve staff will be ordered to begin deployment, as needed. Subcontractors and personnel will be checked-in and put through an orientation. The AshBritt Operations Manager will coordinate with the City regarding emergency routes, federal-aid roads, and the existing debris management zones, as well as other special logistical aspects.

In regards to the federal-aid roads, AshBritt incorporates the regulations stemming from Moving Ahead for Progress in the 21st Century, which resulted in the publication of the *Fact Sheet 9580.214 Debris Removal on Federal-Aid Highways*. The summary below identifies the applicable changes in regards to funding sources for the Emergency Relief program.

○ *MAP 21 - Emergency Relief [1107]*

“The Emergency Relief (ER) program assists federal, State, tribal and local governments with the expense of repairing serious damage to federal-aid, tribal, and federal lands highways resulting from natural disasters or catastrophic failures.” MAP-21 continues the ER program, with some applicable changes:

AshBritt Hurricane Matthew DMS in Charleston, SC - 2016

- *For emergency repairs, a 100 percent Federal share is allowed during the first 180 days following a disaster. MAP-21 allows the Secretary to extend the period if access to damaged areas is limited.*
- *Debris removal for major disasters declared under the Stafford Act will be funded by FEMA.*

- *Emergency Road Clearance*

Upon request, AshBritt will begin mobilizing all the necessary resources to assist with emergency road clearance. AshBritt will assist the City in identifying key facilities based on the following priorities and field assessments:

- Support for Search and Rescue and other life-saving resources.
- Critical life-sustaining facilities (e.g., hospitals, nursing homes, other).
- Additional life-sustaining facilities (e.g., emergency feeding and sheltering sites, Local Distribution Points, other).
- Critical community support facilities (e.g., police, fire, EMS, and emergency management sites, other).
- Critical infrastructure facilities (e.g., Electrical Utilities, Telecommunication Utilities, other).
- Long-term sustaining facilities (e.g., water treatment facilities, wastewater treatment facilities, water pumping stations, other).

During our continued assessment, AshBritt project managers and ground crews will conduct a survey of the affected areas to ensure safe passage during the emergency road clearance phase and upcoming ROW mission. Emphasis on safety during this phase is critical, as there may be downed electrical lines and other hazardous materials released.

Due to the fact that there will be many stakeholders involved during this response phase, AshBritt will maintain a strong commitment to coordination. Our personnel and forces will not interfere with the vital rescue and recovery efforts of other organizations and agencies within the City of Delray Beach. Quality Control will be extremely pertinent throughout this phase and all phases. In assisting with emergency road clearance, as coordinated with the City, our ground crews will systematically cut, toss, and clear debris from vital travel lanes and critical facilities. Requisite traffic safety control methods and devices will be employed throughout this phase. All pertinent safety equipment will be supplied and required for ground crews and field personnel. We will work closely with the City to facilitate documentation of all activities for FEMA cost reimbursement during this phase and all applicable phases. AshBritt maintains the highest levels of safety, quality, and integrity in conducting our services and operations while adhering to all guidance set forth by OSHA.

AshBritt's TDSRS managers and supervisory personnel will ensure that the debris sites are prepared according to contractual requirements and FEMA guidance as established within the FEMA P-325 Debris Management Guide Ch. 8 Debris Management Sites and FDEP guidance for Establishment, Operation, and Closure of Disaster Debris Management Sites (10/4/2016)."

All construction, environmental, safety and logistical factors will be addressed. As these sites become operational, initial loads of debris may be delivered. Although debris is not generally collected during the emergency road clearance phase of the response; sometimes it is necessary to collect and haul debris to preclude an encumbrance to the clearance mission.

- *Phase 5 – Equipment Certification, TDSRS Setup, Right-of -Way Collection (ROW)*

Throughout the initial mobilization, damage assessment and emergency road clearance phase, continued efforts are made to coordinate our subcontracting and operations plans. Out-of-area and local subcontractors with whom we have established commitments are contacted and instructed to deploy to our established staging areas within the impacted area.

Equipment certification areas will be established at select staging areas to examine the operability and safety of hauling vehicles and to measure and assign a load carrying capacity to them. This certification becomes the official tracking identification for all loads that a particular vehicle hauls. The measured capacity of all hauling vehicles is identified on the truck certification form and a placard affixed to each vehicle. All truck certifications are manually logged, scanned, and entered into our proprietary Disaster Information Management System (DIMS).

Equipment Certification Process

Typical Vegetative Curbside Debris Pile

The tracking of certifications is customarily duplicated by the client or their monitoring firm. (Note: AshBritt maintains a very diligent protocol for field data collection, processing, and reporting. This is crucial to successful accounting, invoicing and maximizing reimbursements.) Once haul vehicles are measured in, they are assigned a zone per the pre-established geographic area management plan (or any modifications made due to the initial damage assessment). As the emergency road clearance wraps up, we will accelerate the mobilization and certification of equipment.

○ *Temporary Debris Storage and Reduction Site Procedures*

Temporary Debris Storage and Reduction Site (TDSRS) will be fully manned with supervisory, monitoring and safety personnel, traffic control, security personnel, and all operators and spotters. After the TDSRS baseline study is initiated and site plans are completed, the ROW mission can be fully accelerated. AshBritt will provide as many Monitoring Towers as designated by the City at each debris site. The collection of debris from the ROW and other public property is organized by conducting multiple scheduled collection and removal passes. Passes are conducted in each established zone and area simultaneously. For the most part, this allows for an efficient and consistent recovery. Organized multiple passes give residents and others affected ample time to remove debris from their private property to the ROW. Areas with the greatest damage and corresponding debris are assigned the greatest number of equipment resources (as the area allows).

○ *TDSRS Operations*

Effective TDSRS operations have a significant impact on managing disaster-generated debris. Proper management and reduction of the debris will avoid significant accumulation of material at the TDSRS. This is accomplished by ensuring unprocessed debris is continually reduced and processed debris is hauled to the final disposal location.

The site layout is set up in such a way to lessen the effects of operations that might irritate occupants of neighboring areas. Buffer zones are established in accordance with the City and local regulations to abate concerns over smoke, dust, noise, and traffic. Planning on-site traffic patterns and location of separation areas for incoming materials is based on anticipated volume reduction methods.

Debris management areas are established for ash, HHW, e-waste, white goods, fuels, and other materials that may contaminate soils and groundwater. Plastic liners are placed under stationary equipment such as generators and mobile lighting plants. These actions are included as a requirement in the contract scope of work. If the site is also an equipment storage area, fueling, and equipment repair area, these areas need to be monitored to prevent spills and contain the appropriate spill kits to mitigate spills of petroleum products and hydraulic fluids. Care is taken

to avoid operations that significantly modify the landscape, such as soil compaction and over excavation of soils when loading debris for final disposal, as they will adversely affect landscape restoration.

The volume of the debris stream factors into determining the hours of operation for the sites. Site operations will be managed to coincide with hauling operations during daylight hours.

Under the most aggressive scenario, AshBritt can operate multiple TDSRS locations 24 hours per day, 7 days per week including execution of burning operations, unless otherwise directed by the City.

AshBritt staffs each site with management personnel that are responsible for day and night shifts and overall management of the TDSRS operations. In large sites with unimproved roads, motor graders are utilized to maintain the roadways. Water trucks are deployed to control dust emissions. The City representatives and FEMA personnel may inspect the TDSRS at any time, day or night, provided they comply with site safety requirements. Each TDSRS will have a day foreman who will be responsible for all operations of the site to include traffic control, dumping operations, separation of debris into burnable, mixed, and metals materials, burning and chipping, and safety. The TDSRS day foreman monitor and document equipment and labor time and provide the daily operations report to the City, including the cubic yards reduced per day and the cubic yards removed from the site. Where applicable, each TDSRS will have a night foreman responsible for managing all night operations.

AshBritt will construct all necessary and appropriate sites, managing the operation of the sites, performing debris reduction by burning, air curtain incineration and/or reduction by mechanical means using chippers, grinders, shredders as specified in the task order, separation of debris, and final disposal. We will perform environmental baseline testing. Debris trucks entering the TDSRS must stop at the vehicle inspection tower where the debris load is quantified and recorded by a City inspector or Monitoring Firm representative. Upon leaving the vehicle inspection tower, the truck is directed by traffic control personnel to the appropriate offload area based on debris classification. Once offloaded the truck exits the site passing the vehicle inspection tower, where it is verified empty.

○ Site Identification and Setup

AshBritt will provide all the labor, equipment, and materials to operate and maintain TDSRS as necessary for the efficient execution of the recovery operations. AshBritt will perform all required baseline environmental testing. Potential sites should be identified prior to a storm event and could include parks, recreational areas, and other parcels.

Upon TDSRS selection, AshBritt and the City representative will:

- Catalog any known hazardous material or conditions existing on-site
- Identify ingress and egress routes
- Define site preparation requirements
- Establishment or modification of road system
- Determine traffic flow, control, and safety
- Identify the location of debris separation activities and separation of non-vegetative debris
- Identify the location of all reduction operations
- Identify the location of hazardous material, e-waste, and white goods containment area
- Identify the location of above ground fuel tank containment area
- Identify the location of vehicle inspection tower
- Determine the TDSRS activation date/time
- Determine the TDSRS daily hours of operation

The following actions are considered best practices to record the baseline data on all selected sites:

- **Video and/or Photograph the Site.** AshBritt will thoroughly videotape and photograph (ground and aerial) each TDSRS before commencing activities. Under the direction of the TDSRS Manager, we will periodically update video and photographic documentation to track site evolution.
- **Document Physical Features.** AshBritt will note and document, via photographs, sketches, and narrative, existing structures, fences, culverts, irrigation systems and landscaping to help evaluate potential damage claims made later.

- **Historical or Archaeological Investigation.** AshBritt will research property past use and ownership to note any issues regarding historical or archaeological significance. Our subject matter experts will contact the Florida Department of Environmental Protection (FDEP) and the State Historic Preservation Officer (SHPO) for assistance and notification of intent prior to assuming ownership through a lease agreement.
- **Baseline Soil Samples.** Where applicable, advanced planning with the City and environmental agencies will establish requirements, a chain of custody, acceptable collection methods, certified laboratories and testing parameters. For samples, AshBritt will contract in advance with an environmental consulting firm who can respond rapidly to the City following an event. The firm will collect random soil samples, surface and sub-surface that may be impacted by debris management and volume reduction activities.

- *Permits*

AshBritt will acquire all permits necessary to complete the recovery in the City in full compliance with all local, state and federal guidelines. We will be responsible for determining what permits are necessary to perform specific work under the contract. Permits that may be expected include:

- Temporary land-use permits
- Land-use variances
- Grading permits
- Building permits (for temporary structures)
- Electrical permits
- Waste processing permits
- Recycling operations permits
- Water and air quality permits.
- Fire department permits (hydrant use)
- Traffic permits
- Hazardous waste permits
- Coastal commission land-use permits
- FDEP
- National Environmental Policy Act (NEPA) compliance permits
- EPA, USACE, UFWS and NMFS permissions

Waivers may be granted by governing bodies for certain permits and regulations directly related to recovery operations. The AshBritt team will coordinate with the City and state representatives to identify any official waivers that may affect the recovery. AshBritt often employs the services of environmental consulting firms with extensive experience in preparing and obtaining regulatory permits in the state of Florida. We have teaming partners on standby for this critical task. These firms are experts in the interpretation of federal Clean Water Act Sections 401 and 404 regulations, National Environmental Policy Act, National Historic Preservation Act, Endangered Species Act, and Department of Fish and Game Code, and all state and local statutes and regulations. These firms have strong working relationships with federal and state regulatory agency staff. Copies of all permits will be submitted to the City prior to the commencement of work under the applicable task order. AshBritt will promptly correct any citations, notices or violations, inadvertent or otherwise, regarding issues with permits or licenses when received during the performance of the contract. As operations proceed throughout the debris removal and reduction process, AshBritt's project and Site Foreman will direct additional data to be collected throughout the project for close-out and quality assurance reasons. These data can be compared to previously established baseline information to determine remediation that may be necessary.

- **Sketch Site Operation Layout.** TDSRS operations may grow, shrink, or shift on the site. It will be important to track reduction, hazardous waste collection, fuel, and equipment storage in order to sample soil and water for contaminants. AshBritt Quality Control (QC) personnel will periodically map or sketch activity locations so areas of concern can be pinpointed later for additional sampling and testing.
- **Document Quality Assurance Issues.** QC personnel will document operation activities that will have a bearing on site close-out. This may include items such as petroleum spills at fueling sites and hydraulic fluid spills at equipment breakdowns. In addition, installation of water wells for stockpile cooling or dust control, discovery of HHW and commercial, agricultural or industrial hazardous and toxic waste storage and disposal will be documented.
- **Plan Environmental Remediation.** The final site restoration will be conducted by AshBritt personnel and equipment. The site will be put back into the same or better condition when it was turned over to AshBritt. Final seeding/grassing is difficult to discuss prior to DMS selection, therefore it will be addressed with the job close out.

○ *ROW Collection Overview*

The City will define the boundaries of the geographic working area. This will be outlined in the Task Order by identifying the municipality, region or agency and the respective area of jurisdiction. If changes in the operational boundaries are required, the City will provide those. AshBritt's approach to management within the defined working area will remain consistent regardless of the response area. The general process of separating a task order area of operation into smaller divisions for the purposes of managing recovery operations defines geographic area management.

Three complete debris passes are usually sufficient to complete the cleanup, although extra passes may be necessary for more densely populated areas, and areas with the greatest damage or special logistical circumstances. Typically, the first pass of debris collection is completed within the first two to three weeks. The lion's share of debris is collected during this pass. The amount of debris collected diminishes with each subsequent pass. Our Quality Control field personnel consistently survey and report results in order to maintain an efficient allocation of resources. As subcontractors complete zones, the areas are jointly surveyed with the City or its designated monitoring firm and closed out. Subcontractors are either shifted to areas needing attention or officially released from the job. Throughout this phase, AshBritt will maintain extensive reporting of all debris loads and will provide the City with daily, weekly, and monthly status reports to illustrate production rates and progress. All damage claims and deficiencies reported during our debris passes are addressed by our Quality Control (QC) Manager and managed by our claims representative. All claims are managed through our Disaster Information Management System (DIMS).

○ *Clean-As-You-Go (C-A-Y-G):*

During all phases of work, with our resources or subcontractor's resources, we enforce our clean-as-you-go policy. The concept of Clean-As-You-Go is a component of our Quality Control Plan. C-A-Y-G epitomizes the value of "do it right the first time." AshBritt field personnel and forces will be directed to complete assignments and cleanup activities as thoroughly as practicable at each stage of work so as to avoid do-over's, inefficiencies, and delays. C-A-Y-G does not interfere with the concept of multiple debris passes, but emphasizes the objective of removing all accessible and eligible debris during each respective pass, sometimes employing basic hand laborers and tools. Maintaining C-A-Y-G objectives is especially important for debris work on emergencies and major disasters where restoration of critical public functions is the highest priority. AshBritt personnel and subcontracted partners will be expected to abide by this policy. If after orientation and performing under the C-A-Y-G concept work site conditions do not reflect the objectives of this policy, AshBritt personnel and subcontractors will be subject to corrective action which may include dismissal from the project.

▪ *Phase 6 – Hazardous Stump and Tree Work, Special Services, and Private Property Work*

Hazardous Stump Removal

Usually, during the second and third passes of debris collection, specialized equipment and crews are deployed to remove hazardous stumps and dangerous leaning trees and hanging limbs. This work often requires special documentation, monitoring, and reporting. During the first, second and third passes of ROW debris collection, other specialized debris collection, and clearance missions may be initiated. These include the removal of debris from drainage systems, sewers, culverts, catch basins, canals, streams or other designated waterways. Also, tasks may be issued for the removal of hazardous trees and debris from other public facilities, such as parks, trails or utility infrastructure (e.g., water plants). The debris created from this work typically becomes part of the general ROW debris stream. At

the TDSRS, programs may be implemented and underway to reduce and recycle white goods and other metals and reusable materials that may have been collected in the debris stream. These are typically segregated during the ROW mission on-site or at the debris site.

○ *C&D Debris Management*

AshBritt will provide all labor, materials, equipment, tools, traffic control, signage and any other incidental items; to collect and remove eligible disaster debris from the City's ROW and transport eligible disaster-related C&D debris to a City approved Temporary Debris Storage and Reduction Site or to a City designated final disposal site, in accordance with all federal, state, and local rules and regulations.

- AshBritt will only remove eligible C&D debris which is placed within the City's ROW.
- All eligible C&D debris will be removed from each loading site before proceeding to the next loading site.
- AshBritt will to the extent possible, keep separate C&D materials from other debris, so that loads are primarily of similar materials.
- All eligible C&D debris loads will be transported to the City's TDSRS or approved final disposal facility.

○ *Private Property Debris Removal (PPDR)*

Private Property Debris Removal work may be authorized and tasked to AshBritt. This may include just debris removal and hazardous tree removal from private property to demolition and the removal of debris from the property—sometimes with the need to handle asbestos-containing materials and other hazardous materials. This is highly specialized work that requires experienced and certified crews. As this work requires much investigation, assessment, documentation, and monitoring, it is usually conducted during the third pass (or more) of the mission. AshBritt recognizes per FEMA P-325 Debris Management Guide Ch. 4, the need for:

■ Right-of-Entry (ROE) forms	■ Environmental and Historical Review
■ PPDR assessments	■ Photos in order to conduct ROE/PPDR

AshBritt will assist the jurisdiction and relevant agencies in obtaining ROE forms for the project to move forward.

Note: The Federal Coordinating Officer (FCO) may be contacted during these situations to verify all work will be eligible for maximum federal reimbursement.

○ *Management of Hazardous and Special Wastes*

According to the **2016 FEMA Public Assistance Program and Policy Guide FP 104-009-2**, removal and disposal of pollutants and hazardous substances are eligible. Eligible activities include:

- Separation of hazardous materials from other debris
- Specialized procedures for handling and disposing of hazardous materials
- Control or stabilization of the hazardous material
- Pumping and treating water contaminated with the hazardous material
- Clean up and disposal of the hazardous material

AshBritt will construct a containment area at the reduction site to store Hazardous Waste materials. This containment area will consist of an earthen berm with a non-permeable soil liner. The containment area will be covered at all times with a non-permeable cover. All materials that are classified as Hazardous Waste will be reported immediately to the City. This material will be segregated from the remaining debris using a method that will allow the remaining non-hazardous waste debris to be processed. All hazardous debris will be moved and placed in the designated containment area.

Hazardous Waste and Waste Spills Reporting

Upon the occurrence and when applicable, AshBritt will report to the City all identified hazardous materials or any hazardous waste spills. We will remediate and clean all hazardous waste spills that occur during our operations at no additional cost to the City. We will take immediate containment actions to minimize the effects of any spills or leaks. These activities will be in full accordance with applicable federal, state, and local laws and regulations. AshBritt will report any and all spills to the City and the Florida Department of Environmental Protection (FDEP) immediately following discovery. We will then submit a written follow-up report to the City no later than seven days after the initial report. The written report, at a minimum, will include the following:

- Description of the material spilled (including the identity, quantity, manifest number, etc.)
- The determination as to whether or not the amount spilled is EPA/FDEP reportable, and when and to whom it was reported
- The exact time and location of the spill, including a description of the area involved
- Receiving stream or waters
- The cause of incident and equipment and personnel are involved
- Injuries or property damage
- Duration of discharge and containment procedures initiated
- Summary of all communications AshBritt has had with press, agencies, or government officials other than City
- Description of cleanup procedures employed or to be employed at the site, including disposal location of spill residue

○ Marine Debris Removal

AshBritt has extensive experience identifying and removing eligible debris from waterways. The City will prescribe the specific schedule to be used for waterway debris removal. Floating and debris along the shoreline can be removed with the shallow draft workboats and barges. This equipment typically has a grappler hooks (or other similar securing mechanism) to recover float and beached debris. The debris can be staged on a barge or on an additional shallow draft barge to be used as a transport vessel to the offloading station.

Vessels used to recover the debris may consist of shallow draft barges with lightweight hoists and loaders, work boats with grapplers, landing craft or other work type vessels. In areas where it is required, hand crews will work which will reduce any environmental impacts. Wet debris located in deeper water or floating can be removed by spud or jack-up barges equipped with cranes or other lifting mechanisms. These vessels can remove large amounts of material at a time. These barges may also be used in the recovery of vehicles, vessels or other large items. Commercial divers may be utilized to go into the water to attach lifting cables, slings or air barges to aid in the recovery of large debris targets.

AshBritt conducting waterway debris removal
NJ, Hurricane Sandy 2012

Depending on water depth, shallow draft flat barges, scow barges, landing craft and other work vessels will be utilized to transport the material to the marine offloading staging site. As directed by City personnel, AshBritt will remove all eligible debris from waterways. The City will make every effort to identify and provide access to offloading sites where debris removed from waterways can be safely removed and loaded into haul trucks for transport to a final disposal site. Should the City be unable to secure such access on public property, AshBritt will pursue leasing options with owners of private property to obtain use as an offloading site. Any lease entered into by AshBritt will contain a “hold harmless” clause in favor of the state and federal government and jurisdiction. AshBritt will operate offloading sites and only AshBritt vehicles and others specifically authorized by the City will be allowed to use the sites. Designated drop-off sites may also be established. AshBritt will remove all debris from those sites daily.

○ *Sand/Soil Screening*

AshBritt is accustomed to screening various materials in order to reduce the mixing of debris streams. AshBritt is able to remove sand, silt, and other earthen materials from streets, roads, bridges, and other ROW. Assigned crews and equipment configurations suitable to the task will screen sand, separate and haul-off resultant debris and contaminants, and return clean sand to beaches, sand dunes, berms or other designated places.

In 2012, during our response to Hurricane Sandy, AshBritt screened over 200,000 cubic yards of sand. We are well versed in soil screening and can provide this service for the City.

Beach Restoration and Nourishment

AshBritt is able to perform the specialized service of restoring eroded beaches and destroyed sand dunes in the aftermath of a major hurricane. Beach sand, natural and man-made sand dunes, seaweed, and other marine materials are blown away or washed up and scattered throughout the affected area. This sand and other material become strewn about and commingled with other storm debris, such as wood, glass, concrete, asphalt, stone, clay, metals, and other building and vegetative materials. It is operationally challenging to quickly, efficiently and economically sort through and segregate this material to recover as much sand as possible to restore and rebuild the eroded coast.

Sand Screening – Hurricane Sandy

This task is completed by establishing a separate recovery site to which collected sand and debris is trucked. The debris is then processed using a heavy-duty sand screening plant, which is able to process materials from fine sands to varied C&D materials. The debris is screened and stacked according to size, usually via triple splitting. Sand is then hauled and restored back to the beach while other materials are recycled or disposed of as appropriate.

AshBritt conducted multiple beach debris removal missions in response to Hurricane Sandy throughout the state of New Jersey. We conducted sand screening and other methods to remove, load, and transport the debris on the beaches to a debris management site where it was processed and sent to a permitted final disposal site. Those jurisdictions in which we conducted these services are listed below:

- Seaside Heights, NJ
- Berkeley, NJ
- Point Pleasant Beach, NJ
- Lavallette, NJ
- Brick, NJ
- Belmar, NJ

More recently, in response to the 2016 Hurricane Matthew, AshBritt conducted extensive beach debris removal missions in St. John County and Nassau County, FL. AshBritt utilized wheel loaders, skid steers, and laborers to

pick up debris from the beach. The debris stream included docks, boardwalks, driftwood, trees, trunks, and other various debris streams consistent with a hurricane.

AshBritt was responsible for the removal of thousands of yards of marsh grass that washed up on the beaches throughout St. John County, FL.

▪ ***Phase 7 – Final Disposal, ROW Demobilization, and Hot Spot Punch List***

As the debris is hauled to the designated TDSRS, it is continually managed and processed. Debris is segregated by class. The types of debris are typically reduced by a variety of means, such as grinding, chipping, incinerating, open burning, compacting, mauling, crushing, and baling. AshBritt will abide by all the City of Delray Beach ordinances that apply to open and controlled burning should that be the preferred method. AshBritt will also utilize the local Fire Marshall or any other authority that may be involved with issuing burn permits. Certain debris types may be segregated or contained; this debris includes household hazardous waste, gas containers, rubber tires, scrap metal, and other beyond-scope materials. The disposal of reduced debris is coordinated and scheduled from the onset of the mission.

**Mulch Haul Out for Beneficial Re-use
Augusta, GA - 2014**

As the ROW mission winds down, resources are scaled back, and AshBritt management begins releasing and demobilizing equipment and personnel. We typically maintain Hot Spot Crews to respond to special client requests and to complete generated punch lists. The balance of the debris is reduced, and final disposal activities continue. During this phase, AshBritt attempts to route and dispose of debris to its most beneficial reuse. We employ a variety of means to lessen the burden on local landfills and to encourage recycling and reuse of debris. As with all elements of the project, all debris hauled to final destination sites is carefully tracked and documented to substantiate full and accurate reimbursements.

▪ ***Phase 8 – TDSRS Restoration and Close-out***

During the debris removal process and after the material has been removed from each of the TDSRS sites, environmental monitoring may be needed to close each of the sites. This is to ensure that no long-term environmental contamination is left on the site.

- **Ash.** The monitoring of the ash should consist of chemical testing to determine the suitability of the material for either agricultural use or as a landfill cover material.
- **Soil.** Monitoring of the soils should be by portable inspection methods to determine if any of the soil is contaminated by volatile hydrocarbons. This phase of the monitoring should be done after the stockpiles are removed from the site.

**AshBritt restoring TDSRS to pre-use condition
S. Congress Ave TDSRS – Delray Beach, FL 2017**

All equipment and site resources, such as the inspection tower and any fencing or erosion control devices, will be removed. AshBritt will finish the environmental baseline data checklist to verify the work did not alter the soil or air in any adverse manner. AshBritt's TDSRS Manager & Operations Manager will conduct a final close-out inspection with a representative of the City and execute a final release upon a determination that the site meets the approval criteria.

After the removal of all debris at the TDSRS, the site will be restored to pre- use condition (or better). As can be seen in the photo on this page, AshBritt hired a local asphalt and paving company to repair TDSRS damages that occurred during the Hurricane Irma recovery mission in Delray Beach.

▪ *Phase 9 – Final Reconciliation and Audit*

For the final phase of the mission, AshBritt's experienced accounting team will conduct a final audit/reconciliation with City representatives and/or the monitoring firm. All truck certifications, load tickets, work logs, time sheets, invoices, and so forth will be reconciled to ensure all eligible work has been accurately accounted for and invoiced. At a minimum, AshBritt will retain all records for a minimum of seven years from receipt of final payment for the services provided.

AshBritt will assist the City with audits and documentation requests for years after the project is completed. AshBritt follows standard protocols identified in the list below to prevent de-obligation and issues during audits.

○ *First Level of support: Avoid Conflicts!*

- Know the rules & comply with them
- Follow Federal Procurement guidelines
- Document: Get it all in writing
- Be thorough: No incomplete paperwork
- Track all project costs
- Tie back all costs to specific PWs
- Quality control & reconcile on an “as-go” basis

○ *The Audit Process: Interfacing*

- Validate project data continually throughout recovery process
- Multi-part forms as “checks-and-balances.”
- Scan & record all project paperwork for efficient filing & reference
- Data swapping & cross-checking exercises
- Pre-Invoice reconciliations to ensure accurate billing and supporting backup data
- Common data formats and flow processes

- *Ancillary Services*

Major disasters can be utterly devastating to communities, warranting the need for more extensive support services beyond debris removal. In many cases, these services are necessary precursors to ensure the debris mission advances effectively, safely and efficiently.

AshBritt is a full-service contractor able to coordinate and deliver turnkey emergency response, environmental remediation, recovery, and restoration services. We can minimize the worry and confusion surrounding a client's recovery, restoration, and build-back needs following a major event. Through our resources and teaming partners, we will ensure that these vital services are delivered expeditiously and professionally. The following is a list of additional support services that AshBritt has provided in previous projects and can offer for the City of Delray Beach:

- *Emergency Services*

- **Emergency Water/Ice** – Supplies of water in a gallon, 2-ltr bottles, or bulk potable water tankers; supplies of bagged ice (50-100lb), reefers/fridges, as needed, delivered to central distribution points. Logistical managers and Point of Distribution (POD) supervisors to oversee the orderly distribution and tracking of provisions. *AshBritt delivered emergency water and ice to numerous jurisdictions in Texas in response to Hurricane Harvey in 2017.*
- **Emergency Housing** – Secured temporary housing and turnkey base camps to support local relief representatives, workers, volunteers, and residents. can be established. Basecamps will be scaled and equipped to meet event scenarios. Hard-sided and soft-sided tents, CONEX systems, or other modular structures can be supplied and fully managed. *Most recently, AshBritt delivered base camps to Monroe County, FL in response to Hurricane Irma in 2017.*
- **Mobile Kitchen and Shower Units**
 - As an extension to camps, these units may serve local relief representatives, workers, volunteers, and residents. They can be delivered, set up, and powered by generators. Multiple configurations and outputs are available. Full oversight and maintenance of facilities are included. *During the 2016 Blue Cut Fire, AshBritt provided 40 portable toilets, 40 portable showers, 25% of which were American Disability Act (ADA) compliant for the County of San Bernardino, CA. AshBritt also set up staffing donation stations, freezer and refrigerator trailers, laundry units, among other similar services. (See picture to the right).*
- **Canteen, Commissary and Meals Ready to Eat (MRE)** – Full canteen and commissary services that serve hot breakfast, lunch, and dinner, as well as mid-rations, can be established, and expanded to support local relief representatives, workers, volunteers, and residents. MREs and heater meals can also be distributed systematically. *AshBritt delivered numerous orders of emergency MRE's throughout Texas in response to Hurricane Harvey in 2017.*

- **Emergency Power Generation** – Temporary power generation for critical facilities can be delivered, set up, and maintained if the regular power supply is disrupted. Emergency light towers can be provided and distributed throughout the affected area and work sites. *In response to Hurricane Irma (2017) and Hurricane Harvey (2017), AshBritt delivered an array of generators to clients in Florida and Texas to maintain essential services throughout numerous jurisdictions.*
- **Light Sources** – Light and power sources are available. Capable of supplying these items to multiple locations simultaneously without interruption.
- **Satellite Service/Communication Infrastructure** – Satellite telecommunication services can be provided, based on the magnitude of the event and scope of the damage. Services will support telephone and online internet access. Various equipment/configurations are available depending on the scenario.
- **Emergency Fuel Supply** – Through strategic coordination and partnerships with wholesale fuel distributors, fuel can be provided immediately and as necessary to maintain continuity of vital services. *AshBritt provided fuel trucks to the County of San Bernardino, CA in response to the 2016 Blue Cut Fire.*
- **Temporary Offices, Warehousing, and Container Storage** – Mobile command centers, temporary offices, critical document and asset warehousing, and storage containers (CONEX or other) can be supplied in any configuration to meet local needs. Temporary prison facilities can also be delivered and maintained.
- **POD Manpower & Equipment** – All necessary manpower, management, equipment and supplies (i.e., forklifts, pallet jacks, lighting, hygiene stations, traffic devices, trash collections, etc.) can be supplied. Community relations and security personnel, and other provisions to safely and efficiently deliver water, ice, meals, tarps, food supplies or any other commodity or supplies may be distributed.
- **Emergency Barge Transport** – When major bridges and access routes to areas surrounded by water are damaged, and transportation is impeded due to storm damage, vital equipment and supplies may require transport by barge.
- **Emergency Roof Tarping and Repair** – Coordination of temporarily patching roofs when permanent repairs cannot be made immediately, mitigating further damage. Multiple experienced crews can be deployed. Also, distributing tarps to residents from PODs is available.
- **Fire Suppression Support** – Provision of water trucks and personnel as necessary to augment local water supply systems. Trucks with minimum capacities of 2000 gallons, which are filled and outfitted with valves compatible with fire hose connections meeting NFPA standards.

▪ **Marine & Remediation Services**

- **Sewer/Catch Basin Clearing** – Removal of storm-generated sediment/debris from storm water sewer systems aids the prevention of secondary flooding. Clearing is typically accomplished using industrial Vac Trucks. *AshBritt conducted Vac Truck missions in response to Flooding events in South Carolina and Texas in 2015, 2016, and 2017.*

- **Oil Spill Recovery** – AshBritt has the ability to deploy boom and utilize other methods to mitigate an oil spill spreading. AshBritt performed the staging, deployment, maintenance, repair and removal of 106,000 linear feet of oil deflection boom for the Florida Department of Environmental Protection in Bay and Gulf County, FL.

- **Marine Recovery** – Can conduct underwater search and rescue, vessel recovery, underwater welding and salvage, debris removal from canals and waterways. Also able to deploy divers, remotely operated vessel (ROV), barge and landing craft as work platforms for equipment and supply transport. *AshBritt conducted waterway debris removal in multiple areas throughout Collier County, FL in response to Hurricane Irma in 2017. In 2012, AshBritt was tasked by the State of New Jersey and New York City to remove vessels from the bay following Hurricane Sandy.*

- **Dredging** – Mechanical and hydraulic dredging of canals, marinas, and navigable waterways. *Following Hurricane Sandy, AshBritt was tasked with a wet debris removal and dredging mission by the State of New Jersey Department of Environmental Protection.*

- **Mass Decontamination** – Decontamination of buildings and facilities after detection of bio/chem toxic, harmful agents.

- **Drying-in Services** – Emergency dry-in of public facilities to include removal and disposal of affected building materials, securing structural openings, dehumidification, and moisture abatement. *In 2008 following Hurricane Ike, AshBritt was tasked by Orange County, TX with providing building restorations services for 17 government buildings. (See picture to the right).*

- **Mold Remediation** – Identification and remediation of mold in buildings and facilities.

▪ **Other Restoration Services**

- **Derelict Vehicle, Boat & Vessel Containment & Disposal** – Removal, transport, and disposal of abandoned vehicles, boats, and other vessels to include aggregation staging, inventorying and indexing for easy location and retrieval. Information dissemination, owner contact, and supplemental investigations for proper disposition will be conducted, as well as decontamination and recycling of vehicles and vessels. AshBritt has a significant amount of experience removing abandoned vehicles. *In 2012, AshBritt was tasked by New York City for a vehicle removal mission and transported 3,503 vehicles.*

- **Dead Animal, Livestock, Fish Collection** – Collect and lawfully dispose of animal, bird and fish carcasses from public property and ROW. Specialized crews are dispatched to specific locations where remains have been identified to collect, haul and dispose of all carcasses as directed by the jurisdiction. Collection, removal, and disposal of dead fish and sea life due to red tide algae blooms. *In November 2015, AshBritt was tasked with the collection, removal, and disposal of 10,000 lbs. of dead fish due to a red tide for Longboat Key, FL.*

■ *iii. Implementation Plan & Schedule*

AshBritt understands the importance of mobilization commitments and responses. Please see Tab (5), Section: *Past Experience Table* for a chart that identifies our rapid-response times for all projects in the last five years. As stated in this solicitation, AshBritt has made all arrangements necessary to mobilize and demobilize our labor force and equipment needed to perform the Scope of Services contained herein. AshBritt has developed a tiered activation approach for responding to all types of disaster events.

Our approach encompasses two types of potential occurrences: predictable threats with advanced warnings and the ability to monitor and track the situation of unpredictable events, which can have sudden, catastrophic impact.

Predictable events include:

- Hurricanes
- Tropical storms
- Floods
- Ice storms/ snow storms
- Wildfires

Unforeseen events include:

- Tornadoes
- Earthquakes
- Tsunamis
- Flash floods
- Terrorist attacks
- Infrastructure failure
- Disease outbreak response

Our response, mobilization, and approach to all disasters pre-event and post-event are uniform and consistent, as we follow established base guidelines and Standard Operating Procedures (SOP).

For predictable events, we will pre-plan and prepare for a rapid, coordinated, and efficient mobilization. We will commence mobilization, alert, activate and prepare our management team, staff, reserve staff, consultants, subcontractors, vendors, and suppliers for deployment. This will allow us to respond almost simultaneously with the passing of any event.

For an unpredictable event, we employ the same tiered approach, yet all actions are compressed and sufficiently expedited to ensure the most rapid response in line with post, real-time assessments. We will have the maximum number of resources available and be ready to deploy in the shortest timeframe.

AshBritt has a proven ability to have all critical personnel, pre-identified first-responder subcontractors, critical supplies, and materials, ready to move. AshBritt's operational prepositioning allows us to mobilize immediately upon issuance of a task order and notice-to-proceed for debris removal, emergency debris clearance, TDSRS management, or other tasks. We will provide crews to commence debris removal operations and to begin debris reduction/disposal operations at each site immediately after the issuance of a task order/notice-to-proceed. The performance will be done in accordance with the task order in all designated work areas established therein. We present below, the core steps of our tiered approach and activation. We will always be ready to deploy contractually mandated personnel and equipment to an affected locale. Using a tiered approach allows us to receive vital information ensuring our resource deployment is commensurate with the damage and debris quantities.

Our extensive positive experience across the nation in response to many diverse disaster events is a true testament to the efficiency of our response and mobilization efforts. We are modeled as a mobile workforce with the ability to respond to any disaster, anywhere. Our operational plans revolve around expediting all response actions to minimize further risk and prevent recovery delays in the affected region. We can coordinate and ramp-up our response and recovery plans directly from the affected area as rapidly as the prevailing conditions allow.

- ***Tiered Approach Response Actions***

Tier One activation is a response to an anticipated event, such as an approaching hurricane that is over 1,000 nautical miles, or approximately 72 hours from landfall with a projected path that could impact the City of Delray Beach. At Tier One activation the following actions are taken:

- The AshBritt Project Manager will contact the City to discuss current emergency planning, potential evacuations, special needs, and to confirm emergency phone contacts.
- Initiate Tier One telephone contact and email cascade down the chain of command, issuing activation notifications to all AshBritt Disaster Response Team(s) members, personnel reservists, technical compliance personnel, subcontractor partners, and resource and supply chain vendors.
- Confirmation for critical personnel of impending deployment orders; consideration and devising of most efficient and safe travel methods to ensure key personnel are at or near potential strike area pre-event.
- All team members will check their fly away gear and ensure it is thoroughly prepped and ready.
- AshBritt Pre-Planning Team is placed on standby for deployment.
- The initial response resource plan is devised based on currently known factors of the imminent event and its prevailing state, for instance: storm wind speeds, projected tides, expected path, or any other forecasted predictions regarding meteorological events. Forecasting models generated by the USACE are also reviewed for resource planning.
- Stock levels of necessary disaster operation supplies are verified by our Quality Control Manager and other support personnel; applicable resource vendors are notified of looming event and of a possible consignment of vital supplies and materials.
- Equipment inventories, internal and external, are reviewed and verified by location, particularly those of regional first responders. Update preliminary subcontractor crew and equipment deployment databases and ad hoc report list.
- Run preliminary AshBritt model for debris stream projections and production crew matrix to gauge needed resources.

Tier Two activation is the response to a predictable disaster event such as a hurricane, approximately 36 hours, from landfall. At Tier Two activation the following actions are taken:

- AshBritt Project Manager will contact the City to discuss current emergency plans for conducting an initial damage assessment, special needs, and the potential location of the planning meeting.
- Initiate Tier Two telephone contact and email cascade down the chain of command to all AshBritt Disaster Response Team(s) members, personnel reservists, technical assistance personnel, subcontractors, and resource and supply chain vendors. All are directed to prepare for a post-event response. All AshBritt aircraft and flight crews placed on standby status. Crews commence flight planning operations into the potential impact area or vicinity.
- Critical personnel travel arrangements are formulated and prioritized (air and ground travel arrangements are solidified, and assignments and preliminary rendezvous points are established).
- Contingency routes and travel means are considered while closer identification of critical regional access routes occurs.
- Local temporary lodging contracts are activated. Regional and local temporary lodging contingency plans (i.e., man camps or established shelters) are considered.
- Regional and local first-responder subcontractors are activated. Out-of-area first-responders are alerted for potential response based on initial needs. Preliminary regional staging areas are identified and established outside of potential strike area.
- Equipment transportation permits ordered. Current rules and regulations disseminated to all deployed AshBritt crews.
- Equipment staging areas in safe zones with close proximity to the disaster area are confirmed. Subcontractors are instructed to converge at the pre-identified locations to allow for immediate and systematic post-event response.
- Surety is notified of potential activation and to ensure bond documents are prepared. The insurance company is notified of potential activation and to provide necessary coverage in the affected area.

Tier Three activation is in response to an unknown disaster event or a request for immediate assistance. AshBritt has been issued a task order by the City to mobilize and is thereby at full operational status. At Tier Three activation the following actions are taken:

- Initiate Tier Three telephone contact and email cascade down the chain of command, issuing activation notifications to all AshBritt Disaster Response Team(s) members, personnel reservists, technical compliance personnel, subcontractors, and resource and supply chain vendors.
- All Tier One and Two activities not referenced below, as applicable, are compressed and accelerated to affect the most rapid and effective response.
 1. Monitor the following for mobilization plans
 2. Local law enforcement (affected area) for route information and road closures
- Pre-Planning Team deploys to meet with the City's response team at the designated location.
- Expedited travel (corporate and chartered aircraft, mobile command centers and ground transportation) is activated. AshBritt Disaster Response Team(s) deploy to the scene by whatever reasonable and safe means of transportation are currently available.
- Prepare, present, and recommend as requested for development of the Debris Recovery Resource Plan.
- National and regional subcontractors, crews, equipment, supplies, materials, and personnel dispatched as indicated by the approved Debris Recovery Resource Plan. Staging areas and rally points established with instructions disseminated to all deployed parties on where to report and to whom to report to.
- Local temporary lodging contracts activated if possible and where applicable. Local temporary lodging contingency plans (i.e., man camps or established shelters) are activated as necessary. The supply chain for all emergency response goods and services is activated and administered.
- Local subcontractor first-responder partners activated; promotional and public information campaign for the recruitment of subcontractors and recovery assistance personnel commenced.
- AshBritt prepositions emergency road clearance crews for potential tasking. The objective of the clearance operations is to remove debris and obstructions from primary roadways so as to allow for emergency vehicular traffic. Debris is cut to a manageable size and stacked on the rights-of-way for subsequent collection.

• *Schedule*

The Exhibit below functions as a template/example for response planning.

Pre/Post-Event Countdown		Example Schedule	Responsible Party
Days	Hours		
-5	0	Within 24 hours of the City being placed in the National Oceanic Atmospheric Administration five (5) -day hurricane forecast, AshBritt will contact the City regarding potential contract activation. Discuss preliminary plan overview; identify and confirm contact information for City Contract Manager and response and recovery management team personnel; establish reporting schedule.	AshBritt Principal, Project Manager (PM) Operations Manager (OM)
-3	0	Notify potential regional and national First Responders (i.e., local standby subcontractors) to begin preparation for activation and deployment (Tier One Activation).	PM, OM
-2	0	Continue contact with City Contract Manager. Discuss response plan details and confirm initial expectations and responsibilities. Confirm regional and local "rally points" for inbound crews, vehicles, and equipment.	PM, OM, City Contract Manager (CCM)
-2	0	Organize regional and national first-responder teams. Instruct teams to prepare for immediate deployment (Tier Two Activation).	PM, OM
-2	0	Establish "hold points" 100 to 150 miles from the project target point, out of the storm path, where personnel and equipment can be staged. Follow established plans or improvise via ad hoc plans depending on projections.	PM

AshBritt Inc. Response to the City of Delray Beach
RFP 2018-001 for Disaster and Debris Management Services

Pre/Post-Event Countdown		Example Schedule	Responsible Party
Days	Hours		
-2	0	Inventory and distribute as needed communication resources: Sat phones, PDAs, cell phones, laptops, GPS units, cameras, safety supplies, badges, ADMS modules, and other individual support equipment. Final check and ready response trailers, supplies and materials. Inform first responders of initial resource expectations.	PM, OM, Quality Control Manager (QCM), Env. Health & Safety Manager (SM)
-2	0	Inspect and prepare internal equipment, materials, and supplies for transport. Ready pre-fabricated debris management site inspection towers for transport. Ready all other anticipated support resources.	CCM, QCM, PM, Support Staff (SS)
-1	0	Deploy regional and national first-responder crews, personnel and equipment to the pre-identified "hold point(s)."	PM, OM,
-1	0	Arrange for local post-event crew lodging or activate temporary man camp/housing provider. Activate local service and supply accounts.	OM, SS
-1	0	Place "on hold" orders for office trailers, generators, scissor lifts, scaffolding, light towers, tents, and other projected support equipment/material needs.	PM, OM, SM
-0	18	Initiate 18-hour update for the City of Delray Beach Contract Manager, EOC, First Responders, vendors and activated Staff.	PM, OM
-0	12	Initiate 12-hour update for the City of Delray Beach Contract Manager, EOC, First Responders, vendors and activated Staff.	PM, OM
-0	6	Initiate 6-hour update for the City of Delray Beach Contract Manager, EOC, First Responders, vendors and activated Staff.	PM, OM
0	0	Maintain contact with the City of Delray Beach Contract Manager and EOC. Receive available updates. Discuss preliminary damage reports, impending NTP. (OM, PM and others may be on-site at strike.)	PM, OM
+0	6	Upon NTP from City, AshBritt will mobilize to report to the City's Emergency Operations Center (EOC) or other designated City facility.	PM, OM, SM
+0	12	Deploy crews, personnel and equipment from "hold point(s)" to pre-determined "rally point(s)" within the affected region/area. Efficiently certify and ramp-up maximum crews within first 24 hours under authorized safe operational conditions.	PM, OM
+0	12	Following NTP and Task Order(s), review with the City as necessarily applicable contract provisions and expectations.	PM, OM, CCM
+0	12	Receive from the City a list of immediate emergency response and life support needs (tasks) to be supplied (ice, water, power generation, other), as applicable.	CCM, PM, OM
+0	12	Assist local forces with preliminary damage assessment to determine quantity and composition of recovery resources needed (windshield and flyover, as necessary)	PM, OM, CCM
+1	0	Deploy emergency road clearance crews as directed and tasked by the City. Continuation of certifying recovery crews and sector deployment planning.	PM, OM, City Planning Team
+1	0	Begin equipment certification at the rally point(s) to include load volume certification, safety inspection and compliance, truck numbering, insurance certification, and digital photos of all trucks and equipment.	OM, SM, QCM
+1	6	AshBritt to begin operations.	OM
+1	12	Assess damage to pre-identified TDSRS. Confirm TDSRS selection and post-storm viability.	OM, SM
+1	12	Submit/Approve site plans for development of TDSRS sites. Submit Quality Control (QC) plans, and Management/Ops plans. Daily QC reporting commences.	OM, CCM
+1	12	Begin baseline testing and development of TDSRS sites. Open for debris delivery as soon as possible.	SM

Pre/Post-Event Countdown		Example Schedule	Responsible Party
Days	Hours		
+1	12	Start to establish a local geographical area management plan, including primary routes, collection zones for crew assignment, TDSRS locations, dissemination of maps and/or GPS equipment to ensure maximum productivity and safety.	PM, OM, SM
+2	6	Collection crew meeting. Set debris collection parameters for project, truck routes, TDSRS status, reporting structure, quality control standards, safety concerns, and chain of command.	PM, SM, QCM
+2	12	Assign collection crews to areas/zones; ready QC field monitors. Coordination with City personnel. Begin wide-scale debris collection. Have all "documentation systems" primed and in place	PM, OM, SM, QCM, et al.
+2	12	Deployment of wide-scale (debris field monitors), and the QA tower monitors (as additional sites are opened).	CCM
+2	12	Deploy Quality Control personnel. Commence quality assurance and compliance program to identify, track and correct deficiencies. Interface with City Quality Assurance Monitors. Commence and ramp-up wide-scale QC and Safety reporting and distribution.	QCM, CCM
+3	0	Push continued; ROW collection ramp-up with emphasis on assessment priorities; TDSRS operations fine-tuned.	OM, TDSRS Manager
+4	0	Priority emergency road clearance completed; Full mobilization of resources; Continue ROW collection efforts; Begin Hazardous Tree and Stump assessment/removal.	PM, OM, CCM
+5	0	Continue assessment, planning, and progress; add additional resources as necessary.	OM, PM, CCM

AshBritt's recovery work is not complete until we conduct a final audit/reconciliation. All truck certifications, load tickets, work logs, time sheets, invoices, etc., will be reconciled to ensure all work has been accurately accounted for and correctly invoiced. AshBritt will keep the City abreast of all of its mobilization and demobilization actions throughout the project. As the project winds down, AshBritt may start demobilizing resources but will always maintain necessary personnel that oversee all projects.

iv. Location to Perform Project

This project will be performed from our Headquarters at 565 E. Hillsboro Blvd. Deerfield Beach, FL 33441. Work will be performed within the City limits on public roads and public areas that are the legal responsibility of the City to maintain. Work will not be performed on any ineligible roadways.

v. Accessibility and Availability

- **a. Availability**

AshBritt is able to meet with the City in person at any time throughout the terms of the contract for meetings, general communications, coordination, and supervision. AshBritt headquarters is just 13 miles from the City and a representative can be at any location within Delray Beach in under 30 minutes. Our staff is accessible via cell phone 24 hours per day.

- **b. Plan to attend Pre-Scheduled Meetings**

As mentioned previously, AshBritt can physically come to any meeting by means of driving. Not only is our office close to the City but multiple employees live within the City limits.

- *c. Accessibility During Term of Agreement*

As mentioned previously, due to our Headquarters location and location of employees we are able to ensure our availability during the entire term of the agreement.

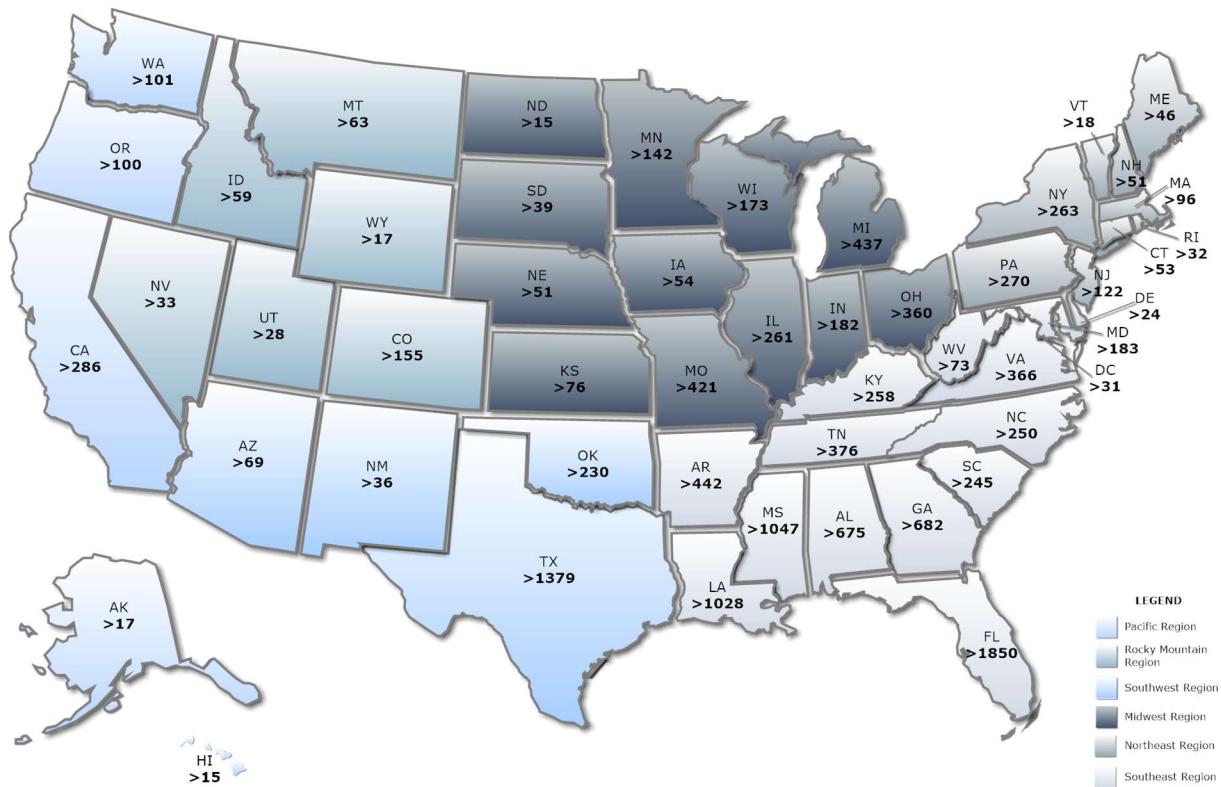

- *d. Staffing Resources*

The chart reflects the management and supervisory positions anticipated for a disaster recovery event. The size of the management team and number of support personnel hinges on the event magnitude and the scope of the cleanup. AshBritt has presented a chart that sources where additional personnel will be brought in from to ensure sufficient personnel are present to respond to the City of Delray Beach.

Personnel Description	AshBritt/Reserve	Contract	Subcontractor	Total
Project Manager	4	0	0	4
Operations Manager	7	0	11	19
Quality Control Manager	10	0	10	20
Operations Supervisor	10	4	10	24
Logistics Managers	7	2	8	17
Sector Managers	8	10	10	28
Quality Control (QC) Manager	5	5	10	20
Field QC Supervisor	5	10	25	40
Field/Site QC Personnel	4	10	50	64
Environmental Health & Safety Manager	3	2	10	15
Health & Safety Monitor	0	10	20	30
Safety Training Personnel	0	5	10	15
Environmental Compliance Manager	1	5	10	16
Hazardous Materials Field Personnel	0	10	25	35
TDSRS Director	1	4	10	15
TDSRS Manager	4	12	25	41
TDSRS Foremen	2	25	40	67
Technical Assistance Manager	3	5	15	23
Data/Administrative Personnel	10	35	60	105

- *e. Staffing Resources including Subcontractors*

AshBritt has over 13,000 registered recovery-related subcontractors and vendors nationwide, with over 1,850 in the State of Florida.

Subcontractor participation in disaster recovery missions is instrumental to the success of any project. It is important that all stakeholders fully appreciate and comprehend the subcontracting plan and compliance controls exercised by the prime contractor. AshBritt takes affirmative steps to assure that Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) are used whenever possible in accordance with the FEMA *Checklist for Reviewing Procurements by Federal Grant Grantees and Subgrantees* (#6) and 2 C.F.R. 215.44b. AshBritt also adheres to the Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented by Department of Labor regulations.

These next sections elaborate upon how we will comply with these laws and regulations. AshBritt has always maintained a solid commitment and plan for the inclusion of local, small, minority, and disadvantaged businesses. More importantly, we have the historical data to substantiate this as identified below in our Small Business Goal Achievement section. Owing to our long history, we have experience in managing partnerships, and joint ventures with both small and large companies throughout complex disaster recovery projects. We pride ourselves on understanding our role as a professional stakeholder within these relationships, and we stay committed to team building and developing quality relationships.

AshBritt makes ongoing efforts to create new subcontractor relationships. We welcome any referrals by local representatives to meet and confer with local subcontractors. It benefits all parties involved to establish relationships and commitments prior to any storm event. AshBritt believes that the best solution is pre-disaster planning for identification and eventual inclusion of local businesses in the post-event recovery projects. The pre-event planning and relationship building must take place on an annual basis, and any subcontractor lists or relationships will be consistently updated.

▪ ***Commitment***

Our industry is largely based on subcontractor resources, both firms, and personnel. AshBritt has worked with thousands of subcontractors and individuals over our history. We maintain records and databases of all past subcontractors and employees, and we always encourage new firms and qualified individuals to register and submit resumes through our redesigned website (www.AshBritt.com). We maintain a core group of standby subcontractors who are exclusively available for deployment on AshBritt projects. We engage local, minority, women business enterprises, and other disadvantaged businesses whenever possible.

Local contractors and individuals are extremely beneficial, as they are quick to mobilize, highly motivated to assist their community and knowledgeable about local customs, politics, demographics, geography and area suppliers.

We are committed to giving local firms and individuals the first opportunity for work when it is available. We have accumulated a robust pool of qualified staff reservists across the country by following this practice. All available local resources are beneficial to the rapid, efficient, and successful completion of any recovery project.

▪ ***AshBritt's Website Registration***

AshBritt has provided images of the subcontractor registration page of our redesigned website below.

Our selection process is broken down into three generic steps: 1) Identification, 2) Qualification, and 3) Deployment. They are as follows:

- **Identification:** Identification of subcontractors is ideally conducted as part of the pre-planning process prior to the event response. Given the unpredictability of disasters, identification of subcontractors, especially those within the City and surrounding affected areas, occurs just after events and often throughout the recovery. In addition to utilizing the pre-identified subcontractors, we use various public and private sources that can garner additional useful and qualified subcontractors. We work toward cataloging all identified firms into our subcontractor database. Our Subcontractor Management System is

a customized web-based computer application that allows for efficient information storage, retrieval, and subsequent ongoing identification of subcontractors from the affected region. A robust and sophisticated set of filtering parameters allows for the efficient culling of relevant data, making our selection process one of the most thorough and rapid screening processes in the industry.

- **Qualification:** Qualification and vetting of viable subcontractors are accomplished through an operational, financial, and administrative review, which includes, but is not limited to, the following:
 1. An initial interview—via phone or in person.
 2. A review of equipment and resource list, work history, special qualifications, and capabilities.
 3. A review of applicable Dunn and Bradstreet Reports.
 4. An on-site inspection of facilities and equipment, as applicable.
 5. An insurance review to ensure current or future contract compliance.
 6. A review of the Excluded Party List System (EPLS) now identified as System for Award Management (SAM): www.sam.gov as directed by FEMA Recovery Policy (RP) P9580.212 Public Assistance Grant Contracting FAQ.

The screenshot shows the SAM (System for Award Management) website. At the top, there is a logo for 'SAM' with 'SYSTEM FOR AWARD MANAGEMENT' below it. To the right, there are fields for 'Username' and 'Password' with 'Forgot Username?' and 'Forgot Password?' links, and a 'Log In' button. Below the login area, there are links for 'Create an Account' and 'HOME', 'SEARCH RECORDS', 'DATA ACCESS', 'CHECK STATUS', 'ABOUT', and 'HELP'.

The main content area is titled 'Entity Dashboard' and shows the following information for 'Ashbritt, Inc.':

- DUNS:** 848970893 **CAGE Code:** ooZ46
- Status:** Active
- Expiration Date:** 04/03/2018
- Purpose of Registration:** All Awards

On the left, there is a sidebar with a tree-like navigation structure under 'Entity Overview' and 'Entity Registration' categories, including links for 'Core Data', 'Assertions', 'Reps & Certs', 'POCs', 'Exclusions', 'Active Exclusions', 'Inactive Exclusions', and 'Excluded Family Members'. At the bottom of the sidebar is a 'RETURN TO SEARCH' button.

The main content area also includes two summary boxes:

- Entity Registration Summary:** Displays information such as Name: Ashbritt, Inc., Doing Business As: Ashbritt Environmental, Business Type: Business or Organization, Last Updated By: Jim Loomis, Registration Status: Active, Activation Date: 04/03/2017, and Expiration Date: 04/03/2018.
- Exclusion Summary:** Displays the message 'Active Exclusion Records? No'.

- **Deployment:** Deployment of subcontractors on an AshBritt mission will take place only after careful consideration, evaluation, and selection by an AshBritt authorized representative. Ultimately, the selection process culminates with the execution of a Subcontract Agreement, either pre-event or post-event. This vetting process is based on the information obtained during the second phase of the hiring process. AshBritt will review in detail the scope of work each local contractor may be asked to perform within the terms of their contract. They will be briefed on all aspects of the operation, including safety rules and regulations, and required toolbox discussions. They will be in attendance at weekly safety meetings, learn to use the tracking system, invoicing procedures and all facets of AshBritt's response procedures. They will be provided the opportunity to review and ask questions about their Subcontract Agreement (Contract).

- *Subcontracting Plans & Agreements*

When utilizing subcontractor resources, it is critical to establish stringent standards and guidelines to protect AshBritt and the City's interests. AshBritt's Base Subcontracting Plan sets performance criteria for all prospective subcontractors. It also works to develop a professional and capable workforce and to promote workforce diversity and the inclusion of small and disadvantaged firms. Most importantly, it ensures real participation of qualified disaster-affected local firms. All potential subcontractors, to perform under an AshBritt contract, must be pre-approved from our resource database, have a favorable evaluation from either a prior AshBritt project or at least three non-AshBritt projects, or the favorable endorsement of the client. All equipment to be deployed is thoroughly inspected and certified as operationally safe. Workforce Safety training is administered when necessary, and a compliance agreement with all safety policies as mandated by all governing authorities must be acknowledged.

Subcontractors must execute a Subcontractor Agreement, which defines the scope of work, responsibilities, accountabilities, and binds the subcontractor to comply with Federal Acquisition Regulations (FAR) and FEMA regulations, as well as all contract requirements.

Subcontractors must execute a hold harmless agreement indemnifying the City as well as relevant stakeholders. Based on the estimated cost of the project, comprehensive insurance coverage, including worker's compensation is mandated to cover the estimated amount. A certificate of liability insurance with established limits as mandated by the contract must be submitted before work can commence. Moreover, compliance with all applicable federal, state, and local tax, unemployment compensation, and worker compensation laws is required.

- *"Small" Business Goal Achievement*

Hurricane Sandy Recovery Mission: AshBritt subcontracted over 65% of the subcontracted work to small businesses in the New Jersey Hurricane Sandy effort. The goal set by AshBritt in our proposal was 40%.

For our Hurricane Katrina recovery mission, AshBritt's contractually obligated goal for hiring small business concerns, which included HUB Zone SB, SDB, MBE, WOSB, HBCU/MI, and VOSB (including Service-Disabled VOSB) was 60 percent. AshBritt surpassed that goal of 60 percent small business subcontractor utilization mark. Throughout our history, AshBritt has had great success in employing HUB/SBE/MBE/WBE and DBE businesses on our past disaster debris management contracts, often exceeding 50 to 60 percent local participation. We have always strived to meet and exceed any expectations for our past clients, and we have typically exceeded our goals.

- *Florida Subcontractors Experience and Resources*

See the following list of potential subcontractors AshBritt may utilize if activated. The following list is not exhaustive; additional or substitute subcontractor resources would likely be used if the event warranted the participation. Fewer subcontractors would be used for a lesser event. Preference is offered to "qualified" local subcontractors, including local SDB/SDVB/M/W/DBE, who have the appropriate equipment and experience and meet the applicable project criteria.

▪ *Other Major Subcontractors*

Below is a list of key/major subcontractors that have successfully performed work on contracts of a similar size and scope to the work that the subcontractor is designated to perform. AshBritt assures that all of our major subcontractors are well versed in all aspects of FEMA documentation, reimbursement, project management, as well as demolition and debris removal work. In order to fully understand each of our major subcontractor's capabilities, we have provided a link to their website to elaborate upon their individual project management experience, contact information, and other pertinent facts. Local disadvantaged businesses that have the ability to perform a discipline in the scope of work will receive the first opportunity to perform the services. Below is a list of major vendors that are available if the scope of work exceeds the smaller companies' abilities.

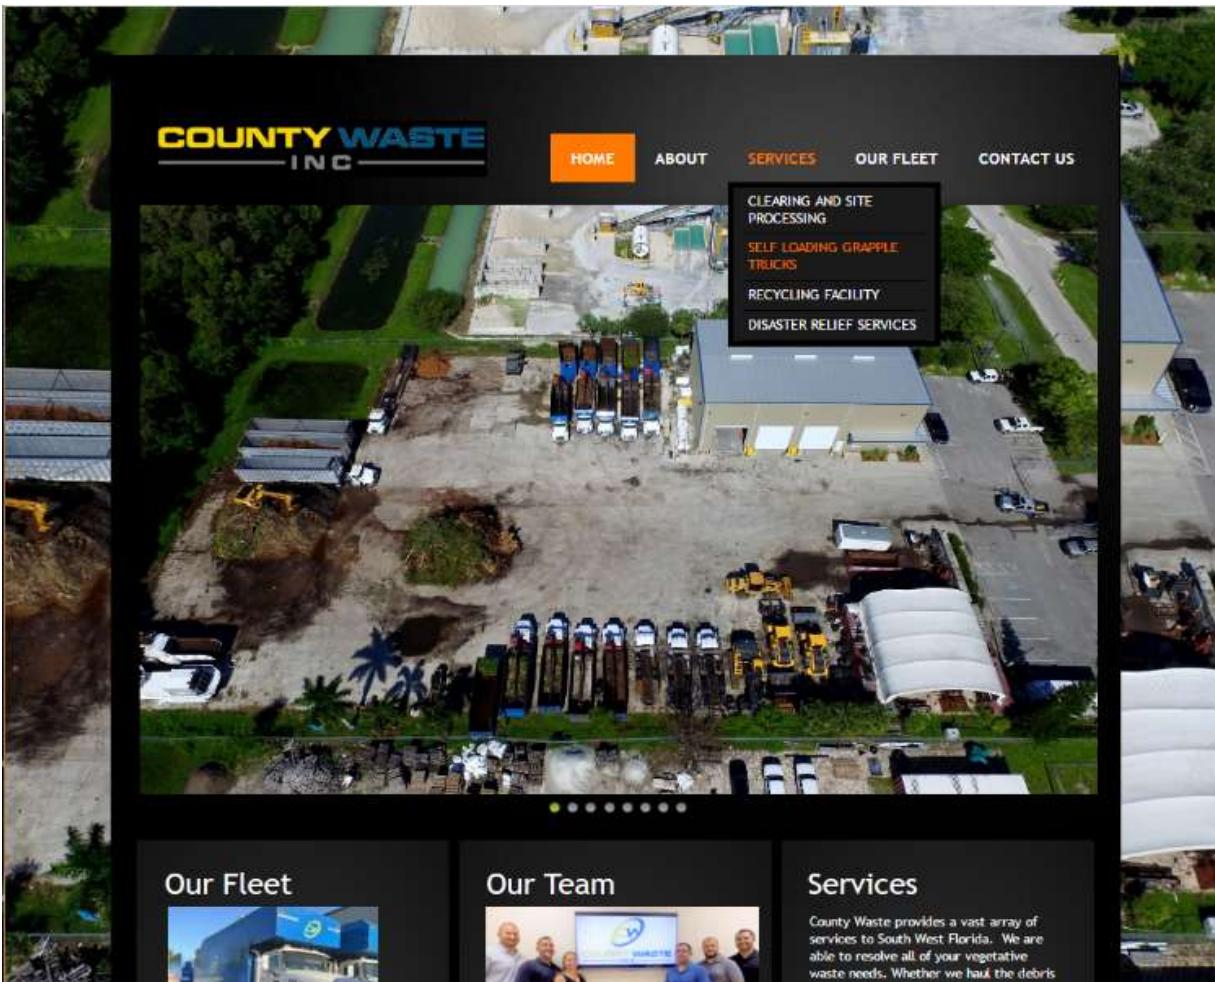

Subcontractor	Discipline/Services Performing
County Waste Inc.	Right of Way Debris Collection, TDSRS Management and Reduction, Haul-Out Services
Riccelli Trucking Inc.	Right of Way Debris Collection, Haul-Out Services

PARS Environmental Services	Environmental Consulting

County Waste Inc. has been an industry leader for over 15 years in the vegetative management and processing field. They have utilized our experiences from large-scale natural disasters and implemented them into local debris hauling. Their logistical expertise allows them the opportunity to haul any amount of debris from various locations while keeping the overall costs to the customer down. County Waste has worked with AshBritt in multiple jurisdictions in response to the 2016 Hurricane Matthew, 2015 California Valley Fire, 2012 Hurricane Sandy, 2011 CT & MA Severe Storms, 2008 Hurricane Ike, 2005 Hurricane Katrina, 2005 Hurricane Wilma, and an array of other projects.

Address: 8060 Mainline Parkway Fort Myers, FL 33912

Services to Perform: Right of Way Debris Collection, TDSRS Management, Haul-Out Services

Riccelli Trucking, Inc. was certified as a Woman-Owned Business Enterprise by the New York State Department of Economic Development since the day it was founded in 1995. From crushed stone and bulk commodities, to solid waste and contaminated soil, Riccelli knows exactly how to get it done. General contractors as well as many industrial, commercial and municipal customers have come to rely on them for a variety of transportation and environmental services. Riccelli owns and carefully maintains every vehicle. The most up-to-date GPS technology is standard equipment in all of them, illustrating our commitment to dependable scheduling and prompt customer service.

Address: 6201 East Taft Rd. North Syracuse, NY 13212

Services to Perform: Right of Way Debris Collection, Haul-Out Services

Red is the New Color of Transportation

Anyone can put a few trucks on the road. But it takes experience, knowledge and an extensive fleet to truly be prepared for every customer requirement. Riccelli Trucking, Inc. has it all, and we've proven our ability to serve you well, time after time.

We first took to the highways in 1995 with a single roll-off truck. Through years of outstanding customer service, Riccelli has expanded to become one of the largest transportation service firms in upstate New York. Today, our 21-vehicle fleet gives us the flexibility to respond quickly – whenever and wherever you need us – for a wide variety of jobs.

No matter what you need hauled, Riccelli has probably already hauled it by the ton. From crushed stone and bulk commodities, to solid waste and contaminated soil, we know exactly how to get it done. General contractors as well as many industrial, commercial and municipal customers have come to rely on us for a variety of transportation and environmental services.

Riccelli owns and carefully maintains every vehicle. The most up-to-date GPS technology is standard equipment in every one, illustrating our commitment to dependable scheduling and prompt

President Lucie Nicholson oversees all operations. In 2009, Riccelli Trucking, Inc. was certified as a Woman-Owned Business Enterprise by the New York State Department of Economic Development (NYS WBE). In fact, the company has been woman-owned since the day it was founded in 1995.

Their long standing and successful history in hauling and emergency cleanup makes them an ideal partner for immediate response needs.

Address: 7368 Westport Pl, West Palm Beach, FL 33413

Services to Perform: Right of Way Debris Collection

Jet Hauling Experience

Jet Hauling Inc.

[Home](#) [Shop](#) [Equipment](#) [Experience](#) [Hurricane Season](#) [Pricing](#) [Contact Us](#)

Experience

Jet Hauling contracted with certain entities to move debris during the most trying of times.

We currently have contracts with certain entities for the residential bulk & vegetation removal in numerous cities around the South Florida Tri County area and are running 16 self loading grapple Trucks, 6 days a week.

We have an excellent reputation with the Solid Waste Authority of Palm Beach County, Waste Management of south Florida in three different counties, and several city municipalities. We can and will do whatever it takes to get the job done.

WE CAN CERTAINLY MOVE EXTREMELY LARGE AMOUNTS OF DEBRIS FAST AND SAFE. CONSIDER US FOR THE UPCOMING SEASON FOR FAST AND RELIABLE SERVICE.

Northern Tree Service, Inc. is a small business based in Palmer, Massachusetts. The company was founded in 1932 and has grown to become the most diversified tree care company in the industry. Servicing all of New England and surrounding states, Northern provides the most skilled personnel operating the latest equipment in order to address any measure of work and has experience and expertise with all types of heavy equipment. Northern Tree performs waste collection and is a large and important industry participant in all aspects of managing trees and forests. Northern Tree is a small business in NAICS 562119 but has a demonstrated performance history in quick strike disaster recovery mobilizations.

Address: 1290 Park St, Palmer, MA 01069

Services to Perform: Right of Way Debris Collection, TDSRS Management, Haul-Out Services

Since 1932 our commercial clients trust us to deliver proven solutions

The Northern Team has earned a reputation for being a leader of quality tree care services that tailor to many enterprise commercial projects, including municipal institutions, utility R.O.W.'s, golf courses, sensitive environmental habitats, historic properties, prestigious colleges throughout New England, and specialized services such as line clearing for AMTRAK trust Northern.

Sensitive Habitats

Northern offers practical options for wetland access, sensitive habitat management, erosion control, sedimentation traps, riparian area restoration, wetland mitigation and more.

Golf Course Care

We understand the importance of esthetics in the golfing industry and how well-managed tree features affect nuanced hole play.

Institutional Services

Northern Tree Service offers full spectrum plant care; providing campuses with all their landscaping and arboricultural needs.

Land Clearing

Northern is an industry leader in land clearing. Past projects include utility R.O.W., airport modification, stump removals, expansion, habitat restoration and more.

Municipal

Northern's fleet of 50+ tree trucks are well prepared to provide municipalities with all their tree needs including 24-hour emergency storm response teams.

Railroad

Railroad and Commuter Rail Tree & Vegetation Management - Our arborists are certified by the State, ISA, AMTRAK and MBTA to provide the best in vegetation management.

Utilities

Our unparalleled fleet of specialized equipment, timber mats and line clearance arborists allow us to address even the most challenging work with unmatched utility access solutions.

Northern Tree Service - Commercial Tree Care Services
Servicing Massachusetts, New Hampshire, Connecticut, Vermont, New York, Rhode Island, Maine

Stanley Tree Service, Inc. is a small business based in North Smithfield, Rhode Island that has worked with AshBritt performing load and haul services and specialty hazardous tree work in Massachusetts (Springfield Tornado) and in Rhode Island (statewide MPA with Tier III Emergency storm response).

Address: 662 Great Rd., North Smithfield, RI 02896

Services to Perform: Right of Way Debris Collection, TDSRS Management

A screenshot of the Stanley Tree Service website. The header includes links for 'home', 'about us', 'services', 'photo gallery', and 'contact us'. The 'about us' page has a red header with the text 'about us'. The main content area features a large image of a red bucket truck with a crane arm working on a tree. To the right of the image is a sidebar with the heading 'Our Services' and a list of services.

Founded in 1986, Stanley Zuba started Stanley Tree Service company out of the back of the trunk of his car with a single chainsaw and a climbing strap. From that point forward, Stanley Tree Service has set its roots in Blackstone Valley's community while never forgetting everyone else. A staple in North Smithfield area, Stanley Tree Service's fleet of red bucket trucks is regularly seen by the local communities

branching out all over Rhode Island (RI) and southern Massachusetts (MA).

Stanley Tree Service takes pride in providing quality, prompt service to the needs of the community at an affordable cost to the consumer. We know that a company's reputation evolves everyday and can quickly be chopped down. There is no better advertisement than good old fashioned word-of-mouth and we take that philosophy to heart.

In addition to providing residential service, Stanley Tree operates a 100 foot crane for any heavy lifting need. Not limited to trees, we have aided builders in hoisting building materials and new business erecting signs for their location. We have helped property managers and commercial clients since our inception.

Utility service is also provided. Our employees are trained to operate around electrical cables and that training is always on-going. Stanley Tree Service has been a partner with National Grid, Verizon, and Cox Communications to be pro-active in keeping service active to your home or business. Keeping trees and limbs away from utility lines prevent outages from falling debris. Our Hazard Tree Mitigation Program has prevented countless outages and prevented needless inconvenience for utility customers.

Stanley Tree Service has grown beyond fifty devoted and well-trained employees that care about your property and your job as if it was their own. Our licensed arborists will evaluate your job and provide the quickest, most efficient solution to minimize your inconvenience. Located in North Smithfield, RI, we provide all facets of tree care needs including 24 hour emergency service. From the simplest job to the most complex, let Stanley Tree Service be your full service tree company.

Emergency Management

The Polote Corporation demonstrates years of experience in the emergency management industry. We have been providing services to disaster areas since the 90's. Our first big relief effort was after Hurricane Andrew which left our neighbors to the south (FL) devastated after the category 5 storm created billions in damage to the state of Florida. Andrew left cities and businesses destroyed and our fellow Americans in need of help. The Polote Corporation was one of the first responders answering the call to assist the Corps of Engineers "Big Six" and others in the efforts to relieve the state from the damage Andrew caused.

Disaster Management

The Polote Corporation possesses the resources and relationships to provide a full service emergency management effort. We understand the challenges faced when cities are left without running water and electricity, the importance of state and city management getting back to full operational capacities in order to provide the citizens of those areas with the relief necessary for them to start on the path back to normalcy. Roads must be cleared for access to families, utilities restored for homes and businesses, and hazardous waste removed for a healthy quality of life. Our Disaster Management Professionals have chosen their paths out of a desire to help those in need.

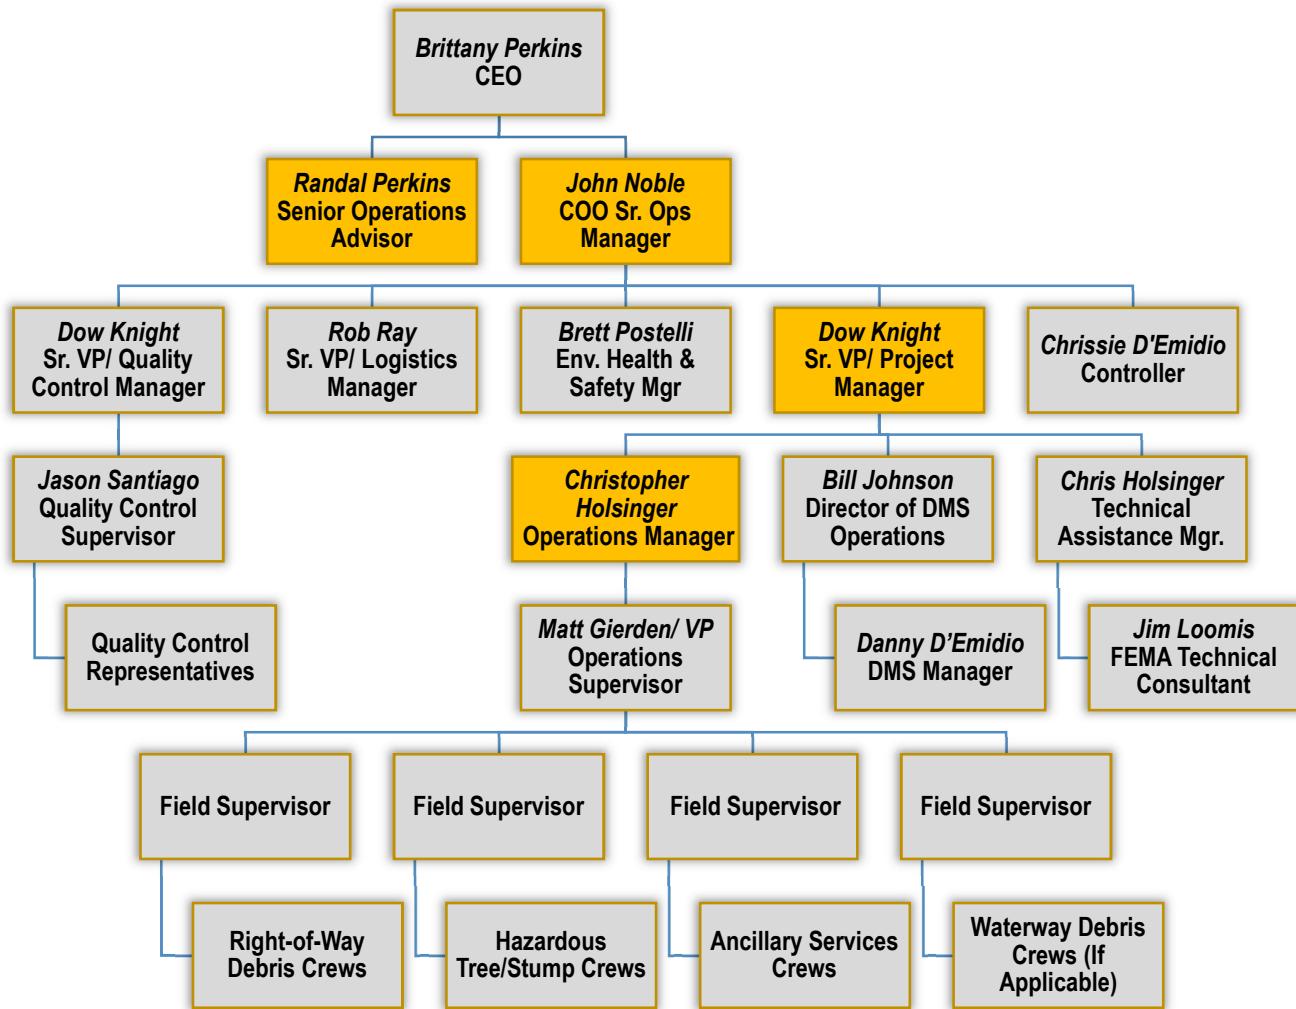

Emergency Supplies

Through our alliances and partnerships The Polote Corporation can provide emergency supplies and materials to most anywhere in the country and including overseas within hours of an event.

- *f. Organizational Diagram*

Our Project Management model and staffing organization is designed to fit the unique situational and operational requirements that each debris client/project presents. While we will continually adjust the scale and structure of our team to match daily project requirements, the City of Delray Beach specific organizational chart is located below. AshBritt has identified Dow Knight as the Project Manager should AshBritt be activated by the City of Delray Beach.

Note: Other staffing resources such as AshBritt's reserve personnel can be found in our Tab (5), Section E. Key Team Member Overview, Sub-section Years of Experience.

- *Function, Roles, and Responsibilities*

AshBritt has identified the potential roles and responsibilities each position may be performing for the City. Management responsibilities for select key task positions are summarized below. Roles and responsibilities may be altered dependent on the size and magnitude of the event.

- **Project Manager (PM)** - The PM is responsible for all aspects of the AshBritt disaster recovery operation. They are empowered to make all decisions to ensure successful mission execution. They are the prime mission liaison with the City, provides mission progress reports, and conducts mission planning with the City. Furthermore, they assist the City with media briefings and statements. They also serve as AshBritt's Pre-Execution Planning Team leader.

- ***Operations Manager (OM)*** – The OM is the mission operations leader for all tasks and Operation Supervisors. They develop mission-specific plans and geographic area management necessary to execute operational techniques, approaches, and methodologies. They also assist the City with the identification of potential TDSRS locations and alternative disposal and recycling options. The OM will attend daily project meetings with the City for the duration of the work. The OM will coordinate all communications with the City. The OM will oversee and be responsible for all reporting, information, and invoicing submitted to the City.
- ***Quality Control Manager (QCM)*** – The QCM is the mission leader for Safety and Quality Control (QC). They also support the use of an Automated Debris Management System (ADMS) if the City's monitoring firm uses one. They are responsible for establishing and maintaining AshBritt's QC organization. They will develop mission-specific plans related to Quality Control by identifying personnel, procedures and control methods to be used to ensure contractual compliance. They develop mission-specific and site-specific Safety and Health Plan and Activity Hazard Analysis (AHA), to ensure safety compliance. The QCM is responsible for the development of the steps, processes and procedures for implementation of ADMS.
- ***Environmental Health & Safety Manager (EHSM)*** – The EHSM is responsible for establishing and communicating mission safety rules, ensuring vehicle and equipment safety inspections are to specifications. They will also prepare weekly safety agendas, investigate accidents, implement and review TDSRS specific Safety and Health Plans. The EHSM will perform structural safety inspections, including the TDSRS inspection towers.
- ***Controller*** – The Controller is responsible for tracking of pertinent project data, compilation of daily project reports, prompt payment of subcontractors and vendors, accurate and timely invoicing, and technical support on FEMA documentation/regulations.
- ***TDSRS Director*** – The TDSRSD assists the QCM in the development of TDSRS plans, supervises site management and debris separation and reduction crews. They also ensure proper containment and categorization of hazardous waste found in the debris stream, arrange for the recycling of appropriate debris materials as per the mission or task specific plans. They will ensure adherence to work rules, safety and environmental monitoring guidelines, supervise the loading of reduced debris for transportation to final disposal, and ensure debris haul trucks are loaded within the City and DOT weight limits.
- ***Data Manager*** – If an ADMS is utilized by the City's monitoring contractor, then this position is the lead administrator responsible for the ADMS operation, maintenance, and implementation. They will validate equipment and system functions, ensures operability, troubleshoot problems, and institute programming updates or changes as needed or required. Furthermore, they will coordinate with City data representatives regarding ADMS to ensure data integrity. If an ADMS system is not utilized, they will still be responsible for verifying that all forms and documentation is correct.
- ***Operations Supervisor (OS)*** – The OS is the task operations leader for a specific task order(s) issued under a City mission. They develop task specific operational and geographic area management plans necessary to execute techniques, approaches, and methodologies to complete the mission. They attend City area meetings and provide task progress reports and conduct task planning in conjunction with the City to align mission focus.

■ Potential TDSRS

AshBritt sourced a privately owned TDSRS at the SW corner of Germantown Rd. and S. Congress Blvd. in Delray Beach. This site was utilized for management and processing of the vegetative debris that was collected throughout the City in response to Hurricane Irma in 2017. AshBritt is currently discussing the ability to have a pre-event agreement in place with the private owner to utilize this TDSRS for the 2018 hurricane season. If an agreement can be made, AshBritt will intend on utilizing this location to store, reduce, segregate, and/or process eligible debris for the City of Delray Beach. This site's current capacity is approximately 150,000 cubic yards of debris. If mulch haul out operations are conducted simultaneously with collection, this site would be viable to hold any amount of debris generated from a storm impacting the City.

Tab 8. Attachments

**** Please see the following pages for AshBritt's Fee Schedule/Attachment/Forms and Affidavits ****

Section A – Fee Schedule

Item #	Item / Description	Unit of Measure	Estimated Quantity	Price Per Unit of Measure	Extended Price
A1)	Vegetative Debris Removal Vegetative debris removal from public rights-of-way and hauling to final disposal site.	Cubic Yard	100,000 150,000 <u>450,000</u>	\$ 9.95	\$ 4,477,500.00
A2)	Mixed Debris Removal Mixed Debris Removal from designated work zone and hauling to final disposal site.	Cubic Yard	150,000 <u>450,000</u>	\$ 10.95	\$ 4,927,500.00
A3)	Haul-out of Reduced Vegetative Debris Hauling reduced Vegetative Debris to final disposal site.	Cubic Yard	<u>450,000</u>	\$ 8.95 See Note	\$ 4,027,500.00
A4)	Haul-out of Separated C&D Debris Hauling construction and demolition debris to final disposal site.	Cubic Yard	50,000	\$ 10.50 See Note	\$ 525,000.00
A5)	Haul-out of White Goods Removal of freon from white goods; hauling of White Goods to recycler	Each	300	\$ 95.00	\$ 28,500.00
A6)	Haul-out of E-Waste Recovery and recycling of eligible E-Waste, such as televisions, computers, computer monitors, microwaves, and other items specified by the City in writing (hauling of E-Waste to final disposal site).	Cubic Yard Each	50	\$ 85.00	\$ 4,250.00

Note (A3 & A4) - Up to 120 Miles

A7)	Hazardous Stump Removal 25-36 Inches Diameter Removal of Hazardous Stumps in rights-of-way and hauling to final disposal site.	Each	<u>100</u>	\$ 275.00	\$ 27,500.00
A8)	Hazardous Stump Removal 37-48 Inches Diameter Removal of Hazardous Stumps in rights-of-way and hauling to final disposal site.	Each	<u>400</u> <u>50</u>	\$ 375.00	\$ 18,750.00
A9)	Hazardous Stump Removal More Than 48 Inches Diameter Removal of Hazardous Stumps in rights-of-way and hauling to final disposal site.	Each	<u>50</u>	\$ 525.00	\$ 26,250.00
A10)	Hazardous Stump Backfill Delivered and Placed Backfill Delivered and Placed	Cubic Yard	<u>25,000</u> <u>250</u>	\$ 18.00	\$ 4,500.00
A11)	Removal of Partially Uprooted or Split Trees (Leaners) 24.99 Inches Diameter and Smaller Falling partially uprooted or split trees from the right-of way or overhanging portion of the right-of-way and placing the debris in the right-of-way for removal. Price includes excavating root ball and placing it in right-of-way and backfilling	Each	<u>300</u> <u>500</u>	\$ 150.00	\$ 75,000.00

A12)	Removal of Partially Uprooted or Split Trees (Leaners) 25-36.99 Inches Diameter Falling partially uprooted or split trees from the right-of-way or overhanging portion of the right-of-way and placing the debris in the right-of-way for removal. Price includes excavating root ball and placing it in right-of-way and backfilling	Each	50 500	\$ 225.00	\$ 112,500.00
A13)	Removal of Partially Uprooted or Split Trees (Leaners) >36.99 Inches Diameter Falling partially uprooted or split trees from the right-of-way or overhanging portion of the right-of-way and placing the debris in the right-of-way for removal. Price includes excavating root ball and placing it in right-of-way and backfilling	Each	500	\$ 400.00	\$ 200,000.00
A14)	Removal of Partially Uprooted or Split Trees - Backfill Delivered and Placed Backfill delivered and placed	Cubic Yard	25,000 250	\$ 18.00	\$ 4,500.00
A15)	Removal of Split Leaner No Exposed Root Ball, Tree Diameter 24.99 Inches or Less Price Includes flush cutting the tree trunk	Each	500	\$ 120.00	\$ 60,000.00
A16)	Removal of Split Leaner No Exposed Root Ball, Tree Diameter 25-36.99 Inches Price Includes flush cutting the tree trunk	Each	500	\$ 200.00	\$ 100,000.00
A17)	Removal of Split Leaner No Exposed Root Ball, Tree Diameter > 36.99 Inches Price Includes flush cutting the tree trunk	Each	500	\$ 325.00	\$ 162,500.00

A18)	Removal of Dangerous Hanging Limbs, 2 Inches or More in Diameter, 1-5 Limbs Removing hanging or partially broken limbs from trees in the right-of-way or limbs hanging over the right-of way and placing the debris in the right-of-way for removal	Each	<u>500</u>	\$ 135.00	\$ 67,500.00
A19)	Removal of Dangerous Hanging Limbs, 2 Inches or More in Diameter, 5-10 Limbs Removing hanging or partially broken limbs from trees in the right-of-way or limbs hanging over the right-of way and placing the debris in the right-of-way for removal	Each	<u>500</u>	\$ 135.00	\$ 67,500.00
A20)	Removal of Dangerous Hanging Limbs, 2 Inches or More in Diameter, All Limbs Removing hanging or partially broken limbs from trees in the right-of-way or limbs hanging over the right-of way and placing the debris in the right-of-way for removal	Each	<u>500</u>	\$ 135.00	\$ 67,500.00
A21)	Management and Haul-Out of Household Hazardous Waste Proper management, storage and disposal of household hazardous waste	Pound	<u>1,000</u>	\$ 20.00	\$ 20,000.00
A22)	Dead Animal Removal Dead animal collection, transport and disposal	Pound	<u>5,000</u>	\$ 4.25	\$ 21,250.00
A23)	Bagged Ice Delivered on pallets in trailer truck load quantities	Pound		\$	\$ 1.95

City of Delray Beach
RFP 2018-001, Disaster and Debris Management Services
Exhibit B

A24)	Bottled Water Sixteen (16) ounce bottles delivered, in cases of twenty-four (24) bottles, on pallets in trailer truck load quantities.	Case		\$	\$ 8.53
A25)	Annual Cost of Payment and Performance Bond	Lump Sum	4	\$	\$
A26)	Grinding Debris Reduction	Cubic Yard	<u>450,000</u>	\$ 2.25	\$ 1,012,500.00
A27)	Debris Site Management	Cubic Yard	<u>450,000</u>	\$ 2.50	\$ 1,125,000.00
A28)	Hauling Debris	Cubic Yard	<u>450,000</u>	\$ 9.95	\$ 4,477,500.00

NOTE: ESTIMATED QUANTITIES in this Section A, General Services, are for calculation of Proposers Proposal and Performance Bonds only.

SECTION 12 SOLICITATION SUMMARY

The City of Delray Beach
100 NW 1st Street
Delray Beach, FL 33444

PURCHASING DEPARTMENT

SOLICITATION SUMMARY

IMPORTANT NOTICE

The information you provide on this page will be read aloud at the PUBLIC OPENING for this Solicitation. It is VERY IMPORTANT that the summary information you provide below is exactly the same information contained in your Proposal. If subsequent to the opening of Proposals, the City determines that the information contained in the electronic version of your Proposal is different from the information on this Solicitation Summary, the City reserves the right to deem your Proposal NON-RESPONSIVE, and remove your Proposal from further evaluation and consideration for contract award.

PROPOSAL INFORMATION

Proposal Number: RFP 2018-001

Title: Disaster and Debris Management Services

Due Date and Time: June 19, 2018, 2:00 P.M., ET

Name of Proposer: AshBritt, Inc.

Address: 565 E Hillsboro Blvd Deerfield Beach, FL 33441

Contact Person: Dow Knight

Authorized Signature: Brittany Perkins Brittany Perkins, C.E.O.

Date: 6/14/2018

By signing and submitting this Solicitation Summary, the Proposer affirms that the information provided above is an exact and correct summary of the information contained in the electronic version of the Proposer's Proposal to the City of Delray Beach.

**THIS SOLICITATION SUMMARY MUST BE SIGNED AND INCLUDED AS AN ORIGINAL HARDCOPY
IN THE ENVELOPE CONTAINING YOUR PROPOSAL.**

ACKNOWLEDGEMENT OF ADDENDA**INSTRUCTIONS: COMPLETE PART I OR PART II, WHICHEVER APPLIES****PART I:**

List below the dates of issue for each addendum received in connection with this Solicitation:

Solicitation Addendum

Addendum No.: 1

Solicitation No.: 2018-001

Project No.: N/A

Solicitation Title: DISASTER AND DEBRIS MANAGEMENT SERVICES

Addendum Date: May 31, 2018

Purchasing Contact: Ja'Anal McAden mcadenj@mydelraybeach.com

RFP 2018-001 IS HEREBY AMENDED AS SET FORTH HEREIN BELOW. CITY RESPONSES TO QUESTIONS POSED BY PROSPECTIVE PROPOSERS ARE ALSO PROVIDED BELOW. THIS ADDENDUM NO. 1 IS HEREBY INCORPORATED IN AND MADE A PART OF RFP 2018-001

QUESTIONS AND RESPONSES:

Q1. A1 states the material will be hauled direct to final disposal, but A3 states hauling reduced debris to final disposal. However, there isn't a line item for grinding or site management. Is this correct?

R1. See updated pages Exhibit B Fee Schedule

Q2. Is there an estimated budget for this?

R2. \$5,000,000.

Q3. Regarding the Evaluation of the Fee Schedule, There are some line items (example: A1) that have estimated quantities assigned to them and many that do not (example: A2). Does the City want the proposer to assign a quantity of 1 across those without any assigned quantity in order to identify an extended price for each line item, or does the City not intend to evaluate the line items without quantities in them?

R4. See updated pages Exhibit B Fee Schedule

NOTE: Items that are ~~struck through~~ are deleted. Items that are underlined have been added. All other terms and conditions remain as stated in the RFP.

End of Addendum

INSTRUCTIONS:

Receipt of this addendum must be acknowledged as instructed in the solicitation document. Failure to acknowledge receipt of this Addendum may result in the disqualification of Respondent's response.

Q5. Does the City intend on adding up all extended price line items to get a total figure to compare against other proposer's?

R5. Yes.

Q6. Will the Section B & C Hourly pricing schedules hold any weight in price evaluation? If so how will it be evaluated and what weight will it hold in the price category in comparison to Section A?

R6. Section A, B and C of the Fee Schedule (Exhibit B) will comprise the entire price evaluation. Please see Section 7.5 of solicitation regarding evaluation of price as well as Section 7.3 that details the weighted evaluation criteria.

Q7. "The total dollar amount of Debris you handled at Temporary Debris Staging and Reduction Sites" Pg. 35 Section XIII. Did the City intend to ask for the total cubic yardage of debris we handled at the TDSRS?

R7. Yes.

Q8. There are two tab 5's. Would the City like us to assume a chronological order of tabs or duplicate the headers as is?

R7. Tabs should be in chronological order.

MODIFICATIONS:

SECTION 2 PROJECT OVERVIEW

2.3 The City intends to award a contract for five (5) years with the option to renew for an additional five (5), one years, at the City's sole discretion.

CITY OF DELRAY BEACH
100 N.W. 1st AVENUE, DELRAY BEACH, FL 33444

Solicitation Addendum

Addendum No.: 2

Solicitation No.: 2018-001

Project No.: N/A

Solicitation Title: DISASTER AND DEBRIS MANAGEMENT SERVICES

Addendum Date: June 11, 2018

Purchasing Contact: Ja'Anal McAden mcadenj@mydelraybeach.com

RFP 2018-001 IS HEREBY AMENDED AS SET FORTH HEREIN BELOW. CITY RESPONSES TO QUESTIONS POSED BY PROSPECTIVE PROPOSERS ARE ALSO PROVIDED BELOW. THIS ADDENDUM NO. 2 IS HEREBY INCORPORATED IN AND MADE A PART OF RFP 2018-001

QUESTIONS AND RESPONSES:

Q1. Within the schedule there are line items for "haul-out of reduced debris". However, there are no line items for debris reduction (Veg. or C&D), DMS site management, or hauling debris to DMS. There are only line items for debris hauling to final disposal site. Please clarify.

R1. See updated pages Exhibit B Fee Schedule

Q2. Are Tipping Fees/Disposal Fees to be a Pass through expense whereby the contractor pays the disposal fees and invoices the city for direct reimbursement with no markup?

R2. Section 5 Scope of Services

5.20 PRICING

Selected Proposer shall provide all-inclusive unit prices that include supplying all equipment, tools, and labor necessary to perform the duties described in the bid item. The documentation and recovery process, including plan development, mobilization, demobilization, record keeping and quality control shall be included in the prices. Disposal costs must be documented and shall be pass-through costs to the City without markup by the Selected Proposer. Prices must be provided for bid items or Selected Proposer may be deemed non-responsive.

- i. Bid prices assume the distance between the pickup location and TDSR Site. Invoices to be paid based on incoming load tickets.
- ii. Bid prices assume the distance between the TDSR Site or other designated location and final disposal site. Invoices to be paid based on outgoing load tickets.
- iii. Selected Proposer will pay disposal fee, if applicable, at final disposal site(s) and bill the City at cost. Selected Proposer will likewise reimburse City for any revenue received for salvaged or recycled materials.
- iv. Only for stumps requiring extraction from rights-of-way, including backfill, etc. to be priced using **Stump Conversion Table and Hazardous Stump Worksheet in FEMA Disaster Assistance Policy (DAP) 9523.11** dated May 15, 2007, or any subsequent edition.
- v. In addition, the Selected Proposer shall provide hourly labor and equipment rates for the items listed in **Exhibit B "Fee Schedule"**.

Q3. How will Section B (Labor) and Section C (Equipment) be evaluated against Section A (Fee Schedule)? Do they hold any weight in the total assigned percentage points towards the pricing schedule? If so, how much weight do they hold?

R3. Section A, B and C of the Fee Schedule (Exhibit B) will comprise the entire price evaluation. Please see Section 7.5 of solicitation regarding evaluation of price as well as Section 7.3 that details the weighted evaluation criteria.

Q4. A25) Annual Cost of Performance Bond Can the City confirm that this cost can be billed to the city annually regardless if the contract is activated for disaster response operations?

R4. See updated pages Exhibit B Fee Schedule

Prompt Payment Terms: ____% ____ days' net ____ days

Signature: B. Perkins
(Signature of authorized agent)

Print Name: Brittany Perkins

Title: C.E.O.

Date: 6/13/2018

By signing this document, the Proposer agrees to all terms and conditions of this Solicitation and the resulting contract/agreement.

THE EXECUTION OF THIS FORM CONSTITUTES THE UNEQUIVOCAL OFFER OF PROPOSER TO BE BOUND BY THE TERMS OF ITS PROPOSAL, FOR NOT LESS THAN 90 DAYS, AND THE PROPOSER'S UNEQUIVOCAL OFFER TO BE BOUND BY THE TERMS AND CONDITIONS SET FORTH IN THIS SOLICITATION. FAILURE TO SIGN THIS SOLICITATION WHERE INDICATED ABOVE, BY AN AUTHORIZED REPRESENTATIVE, SHALL RENDER THE PROPOSAL NON-RESPONSIVE. THE CITY MAY, HOWEVER, IN ITS SOLE DISCRETION, ACCEPT ANY PROPOSAL THAT INCLUDES AN EXECUTED DOCUMENT WHICH UNEQUIVOCALLY BINDS THE PROPOSER TO THE TERMS OF ITS PROPOSAL.

CONFLICT OF INTEREST DISCLOSURE FORM

The award of this contract is subject to the provisions of Chapter 112, *Florida Statutes*. All Proposers must disclose within their Proposal: the name of any officer, director, or agent who is also an employee of the City of Delray Beach.

Furthermore, all Proposers must disclose the name of any City employee who owns, directly or indirectly, an interest of more than five percent (5%) in the Proposer's firm or any of its branches.

The purpose of this disclosure form is to give the City the information needed to identify potential conflicts of interest for evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any City duty or responsibility in administration, management, instruction, research, or other professional activities.

Please check one of the following statements and attach additional documentation if necessary:

To the best of our knowledge, the undersigned firm has no potential conflict of interest due to any other Cities, Counties, contracts, or property interest for this Proposal.

The undersigned firm, by attachment to this form, submits information which may be a potential conflict of interest due to other Cities, Counties, contracts, or property interest for this Proposal.

Notification of Public Records Law Pertaining to Public Contracts and Requests for Contractor Records Pursuant to Chapter 119, *Florida Statutes*

Pursuant to Chapter 119, *Florida Statutes*, Contractor shall comply with the public records law by keeping and maintaining public records required by the City of Delray Beach in order to perform the service. Upon request from the City of Delray Beach' custodian of public records, contract shall provide the City of Delray Beach with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, *Florida Statutes* or as otherwise provided by law. Contractor shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract. If the Contractor does not transfer the records to the City of Delray Beach. Contractor upon completion of the contract shall transfer, at no cost, to the City of Delray Beach all public records in possession of the Contractor or keep and maintain public records required by the City of Delray Beach in order to perform the service. If the Contractor transfers all public records to the City of Delray Beach upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City of Delray Beach, upon request from the City of Delray Beach' custodian of public records, in a format that is compatible with the information technology systems of the City of Delray Beach.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, *FLORIDA STATUTES*, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT OFFICE OF THE CITY CLERK LOCATED AT 100 NW 1ST STREET, DELRAY BEACH, FLORIDA 33444, PHONE NUMBER (561) 243-7000, EMAIL ADDRESS: CITYCLERK@MYDELRAYBEACH.COM.

NON-COLLUSION AFFIDAVIT

STATE OF Florida
COUNTY OF Broward

Before me, the undersigned authority, personally appeared Brittany Perkins, who, after being by me first duly sworn, deposes and says of his/her personal knowledge that:

a. He/She is C.E.O. of AshBritt, Inc., the Proposer that has submitted a Proposal to perform work for the following:

RFP No.: 2018-001 Title: DISASTER AND DEBRIS MANAGEMENT SERVICES

b. He/She is fully informed respecting the preparation and contents of the attached Request for Proposals, and of all pertinent circumstances respecting such Solicitation.

Such Proposal is genuine and is not a collusive or sham Proposal.

c. Neither the said Proposer nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including this affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly, with any other Proposer, firm, or person to submit a collusive or sham Proposal in connection with the Solicitation and contract for which the attached Proposal has been submitted or to refrain from proposing in connection with such Solicitation and contract, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm, or person to fix the price or prices in the attached Proposal or any other Proposer, or to fix any overhead, profit, or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure through any collusion, conspiracy, connivance, or unlawful agreement any advantage against the City or any person interested in the proposed contract.

d. The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

Signature

Subscribed and sworn to (or affirmed) before me this 13 day of JUNE 2018 by

Re: AshBritt, Inc.

Dear Sir/Madam:

It is the privilege of Liberty Mutual Insurance Company to provide surety support for AshBritt, Inc. for the past 10+ years. In the past, AshBritt, Inc. has successfully completed single projects in the \$500,000,000. range with an overall program of \$650,000,000 US Dollars.

Please accept this as our Letter of Commitment. Should any projects be awarded to and accepted by AshBritt, Inc. we are prepared to provide the required bonds on their behalf. Our support is conditioned upon completion of the underwriting process, including satisfactory review of contract documents, confirmation of financing and our ongoing review of the operational and financial capacity of AshBritt, Inc.

We are pleased to share with you our favorable experience and high regard for AshBritt, Inc. This letter is not an assumption of liability and is issued only as a prequalification reference request from our client. It should be understood that any arrangement for bonds is strictly a matter between AshBritt, Inc. and Liberty Mutual Insurance Company.

Liberty Mutual Insurance Company is listed on the U.S. Treasury Department's Listing of Approved Sureties (2005 Department Circular 570). Liberty Mutual Insurance Company is rate A (Excellent) Financial Size Category XV (\$2 Billion or greater) by A.M. Best Company.

Sincerely,

LIBERTY MUTUAL INSURANCE COMPANY

Re: Ashbritt, Inc.
565 E. Hillsboro Blvd.
Deerfield Beach, FL 33441

I, Kimberly Bryson, a Senior Vice President of Bank of America, N.A. ("Bank of America"), confirm that AshBritt Inc. maintains average balances with Bank of America in the eight figures. Ashbritt Inc. has a Low to Mid Eight Figure Line of Credit with Bank of America that has been handled as agreed.

This information is being delivered to you at the request of AshBritt. Please note that the information set forth in this letter is subject to change without notice, and is provided in strictest confidence to you for this limited purpose and your own use only, without any responsibility, guarantee, commitment or liability on the part of Bank of America, its affiliates or any of its or its affiliates' directors, officers or employees. Bank of America cannot provide any credit ratings or opinions of the creditworthiness of AshBritt, and the above information does not constitute an opinion of Bank of America of the ability of AshBritt to successfully perform any obligations under any agreement it may enter into with you, Bank of America or any other entity. Finally, Bank of America undertakes no responsibility to update the information set forth in this letter.

If you have any additional questions, please do not hesitate to contact me.

Regards,

Kimberly Bryson
Senior Vice President
