MATERIALS & CONSTRUCTION

Tent shell	Triple-layer: 420D Oxford Polyester with PU waterproof coating, 120gsm cotton insulation, high-temperature TPU windows
Frame	Fiberglass pop-up poles
Stove body	430 stainless steel with PFAS-free powder coating
Anchoring	Ground stakes and tie-down ropes included

FIRE SAFETY FEATURES

Heat source	Wood-fired stainless steel stove. Fire is fully contained inside the enclosed stove box with a latching glass door.
Spark arrestors (2)	One spark arrestor inside the stove box and one at the end of the chimney pipe to prevent ember escape.
Chimney	Stainless steel chimney pipe vents all smoke and exhaust outside the tent through a heat-shielded roof port.
Fireproof flooring	A fireproof floor mat is available to place under the stove inside the tent when the sauna is set up on a wooden or combustible surface.
Clearance	Stove sits on folding steel legs, elevating the firebox off the ground. Interior layout keeps seating separated from the stove.
Stability	Tent is secured with included ground stakes and tie-down ropes.

INTERIOR LAYOUT

Layout notes

Stove is positioned against the rear wall, directly below the chimney roof port.

Benches are placed along the side walls, keeping occupants clear of the stove.

Door is located on the front wall, opposite the stove, for unobstructed exit.

360-degree windows provide visibility in and out of the tent at all times.

Top-down layout: stove position and bench placement (6.5 ft x 6.5 ft interior)
