Board Discussion

The Board discussed the Comprehensive Plan and the ROW dedications as they pertain to Laing Street and Sandpiper Lane. Mr. Hadjimiry inquired about a reclaimed water line along the edge of the property. Mr. Eliopoulos replied that the line had been there since the early 2000's and the trees were planted over it. The Board considered the placement of the water line. Mr. Tobias asked if the footprint of the new home would be the same as the previous home, and would the new home need a variance. Mr. Eliopoulos replied that if the 5' ROW is granted they would need to redesign. Mr. Figurella asked what the proposed setbacks would be. Mr. Eliopoulos replied 2' from the existing ROW. Ms. Buce added that R1AAA zoning requires a 17' side street setback. The Board continued to debate the importance of the reclaimed water pipeline, and felt it was important to know exactly where it lies in reference to the subject property. Ms. Barletto questioned if The Board could recommend to approve with the condition that the applicant supply a hold harmless agreement for city work on the property. The Board determined the hold harmless agreement would be acceptable, but they ultimately did not have enough information to make a recommendation. Utilities will perform an exploratory dig prior to the next meeting.

Motion to table 1221 Laing Street (2025-003): with consideration of a reduction to the right-of-way width for Sandpiper Lane to maintain the existing, 30-foot platted width, whereas a width of 40 feet is required was made by Sam Metott and seconded by Patrick Figurella. The request to table was approved and all were in favor.

7. ADJOURN

There being no further business to come before the board, the meeting was adjourned at 2:52pm.

The undersigned is the Board Clerk of the Development Services Management Group and the information provided herein is the Minutes of the meeting of said body on **November 14, 2024**, which were formally adopted and APPROVED by the Board on _____.
