6.5 PRICE OFFERS AND EVALUATION

After the evaluation of the technical aspects of the Proposal, the City will evaluate the prices offered by the Proposers. The City will use the prices submitted by each Proposer to estimate the total cost of the Proposer's services for residential customers and commercial customers. The Proposer that submits the lowest total price for residential and commercial collection services will be awarded the maximum number of points (45). Other Proposers will receive points on a pro rata basis.
