

Jerk and Lime at Nicole's House Updated Project Timeline

- July 22nd - Drawings completion
- July 25th - August 29th - Permit application timeline
- September 5th - November 28th - Buildout timeline
- December 2nd - Completion and final walkthrough

Requested extension date: December 2022

Reasons for the delay and requested extension:

Unfortunately, due to a professional disagreement with our original architect, we had to dissolve our working relationship. This breakdown occurred after the process and walkthrough had begun. As a result, we are working with a new architect at this current moment. Hence this is the reason for the extended timeline.
