Invoice amount will reflect deposit received. All professional services are billed as delivered with payment due, in accordance with the Payment Term set out in this Order Form. Unless otherwise indicated above, this order is subject to the relevant Kronos Terms and Conditions executed between the parties. THIS ORDER IS SUBJECT TO APPLICABLE TAXES. THE ACTUAL TAX AMOUNT TO BE PAID BY CUSTOMER WILL BE SHOWN ON CUSTOMER'S INVOICE. Shipping and handling charges will be reflected on the final invoice. The Monthly Price on this Order Form has been rounded to two decimal places for display purposes. As many as eight decimal places may be present in the actual price. Due to the rounding calculations, the actual price may not display as expected when displayed on your Order Form. Nonetheless, the actual price on your invoice is the true and binding total for this order for purposes of amounts owed for the term. If you are tax exempt; please provide a copy of your "Tax Exempt Certificate" with your signed quote.

Scope Statement

Purpose and Overview of Scope Statement

This Scope Statement outlines the scope of services to be provided by Kronos for the Setup Fees indicated on the applicable Order Form, to CITY OF DELRAY BEACH ("Customer"), related to the Core entitlements, Value-add entitlements, and/or Additional Services contained in this document. Our Professional Services engagements are designed to help our Customers successfully deploy Core entitlements, as well as easily layer Value-add entitlements and functionality over time based on your priorities, schedule, and resources.

The UKG Dimensions™ Scope Statement described herein is fixed scope based and is subject to the terms and conditions governing your UKG Dimensions Agreement (the "Agreement"). Unless otherwise defined herein, words and expressions defined in the Agreement shall have the same meaning in this Scope Statement.

UKG Dimensions Solution

CITY OF DELRAY BEACH and Kronos are onboarding the following UKG Dimensions entitlements with:

Core Entitlement	On-boarding Type	Number of Employees
UKG Dimensions Timekeeping Hourly	Net New	800
UKG Dimensions Timekeeping Salaried	Net New	200
UKG Dimensions Accruals	Net New	1000

CITY OF DELRAY BEACH and Kronos Collaboration

A successful project requires close collaboration between CITY OF DELRAY BEACH and Kronos. The Kronos Professional Services team is equipped to help keep you on target for meeting project milestones and requirements, as well as to assist you in configuring and deploying the UKG Dimensions solution in support of your organization's business outcomes. Your organization's participation and commitment to the project goals and timeline are critical to ensure success.

The Kronos onboarding process is driven by value and enabling business outcomes. This approach is focused on accelerated time to value using tools and techniques, such as industry and region-specific configuration, Kronos process recommendations, dynamic documentation, and accelerated testing processes. All project information is available online to allow project team members access to project status, contact information, issues log, test case tracking, training plan, etc. at any time.

The onboarding process will be completed in three iterative phases: Initiate, Collaborate, and Adopt. Please review the Kronos Paragon™ Overview for the project life cycle, roles & responsibilities in more detail in the following link: [Kronos Paragon Overview](#).

Project Overview

Project Management services include:

- Kronos Project Manager working with Customer Project Manager to jointly run the project.
- Transition to Kronos Global Support after the first deployment go-live.
- Maintain project workspace, work plan, issues and risks management, weekly status calls and reports.

Implementation:

- Fixed scope implementations are designed to deliver value quickly to your organization. Project timelines generally span 6-8months depending on the number of entitlements selected. Onboarding support for these time spans are included in the scope. Extended project timelines requested by customers can be supported with additional professional services and will be agreed via change order.

Remote Implementation approach:

- Kronos will conduct one Solution Development Workshop with the customer project team to create one solution design for the customer's organization.
- The customer team will conduct one testing cycle to accept that solution, which Kronos will support.
- Kronos will support two production go-lives (one for IT and Finance followed by one for the remaining departments) and provide knowledge transfer to allow you to be self-sufficient in any subsequent phased go-lives you choose to conduct.**

Deployed Solution:

- Two tenants (1 Production, 1 Non-Production) will be designed and deployed with entitlements. The Non-Production environment may be refreshed from Production to support testing and training activities. Onboarding work will deliver configured solutions that operate on all supported desktop and mobile client platforms.
- Kronos will deliver the integrations using the Boomi™ UKG Dimensions Integration Platform. Integrations are based on predefined templates and are assumed to be low to medium complexity. Interfaces are scheduled via UKG Dimensions and transfers data via flat files (CSV) to the UKG Dimensions secure FTP (SFTP) environment.

Educational Services:

Effective training is the key to high user adoption rates. Training that results in self-sufficient administrators, managers, and employees increases the efficiency of use of the Application(s) and Customer's business processes.

Kronos' training model includes a role-based learning plan. Each role within Customer's organization has a specific set of courses required at specific points in the deployment methodology. Having role-based training classes ensures Customer's team members are trained on the processes they will use in their day-to-day interactions with the system. The timing of this training is key. Kronos aims to provide the training with as little time between training delivery date and system usage as possible. This provides for Customer's users to have an opportunity to reinforce the training through real-life application before they begin to lose the skills gained in training. End users (i.e. Managers and Employees) use a train the trainer model for learning. Customer is responsible for train the trainer learning for their managers and employees.

Virtual Learning Environment Training

Kronos shall provide its live, hands-on classroom training, including a comprehensive agenda and facilitation by a trained and knowledgeable instructor, delivered to Customer's personnel via the Internet. Training is intended for the following audiences:

- Core Team training to help key functional and technical users make informed solution design and configuration decisions, and to provide fundamental product knowledge.
- Application & System Administrator to prepare functional and technical super users to perform their most common tasks in the solution

Self-Paced Training

Kronos shall provide self-paced product training.

Note: Kronos also offers fee-based consulting services that are not included under the terms of the Training Services referenced above.

Education Services:

Qty	Service	Description
1	User Adoption Assessment	<p>UKG will work with designated Customer resources to ensure ongoing user adoption including:</p> <ul style="list-style-type: none"> • Conduct evaluation of user adoption needs • Review of user adoption resources for up to 15 participants per workshop • Provide access to user adoption action plan, along with adaptable change management, user training learning, and reinforcement tools and templates
1	Train the Trainer Package	<p>UKG will work with designated Customer training resources to support user training leveraging a train the trainer approach including:</p> <ul style="list-style-type: none"> • Consult on training delivery for manager and employee roles for up to 15 participants per workshop • Provide review of manager level course including access to hands-on exercises with the most common tasks for managers • Provide access to adaptable presentation and participant guide managers

Core Deliverables

Working in close collaboration, CITY OF DELRAY BEACH and Kronos will on-board the following core entitlements and functionality:

Core	Kronos Delivered Value
Timekeeping	<p>UKG Dimensions Timekeeping gets you started with the ability to accept punches and pay employees accurately through these core capabilities:</p> <ul style="list-style-type: none"> • Time capture and workflow automation • Adherence to policy through automated pay calculations • Automated time collection • Time-off balance tracking • Access to timekeeping information and self-service workflows • Visibility into labor tracking and accounting • Access to schedules • Mitigation of compliance risk • Proactive exceptions management <p>Scope assumptions:</p> <ul style="list-style-type: none"> • Employee Pay Groups <ul style="list-style-type: none"> • Up to 8 total Employee Pay Groups to be used across core entitlements noted in your UKG Dimensions Solution above. • Employee Pay Groups are a group of employees who are governed by a set of similar workforce management policy rules (e.g. overtime, shift premiums, holiday zones, etc.). • User Personas and Roles <ul style="list-style-type: none"> • Up to 5 functional and data security Personas:

Core	Kronos Delivered Value
	<ul style="list-style-type: none"> • 1 payroll administrator role • 2 types of manager roles • 2 types of employee roles (e.g. "Payroll Admin", "Manager", "Salaried Employee", "Hourly Employee"). • We will also provide knowledge transfer to the customer team to configure additional Personas as you require them. • 2 Yes / No questions for employees to attest with workflows • Data collection devices <ul style="list-style-type: none"> • Configure up to 5 Timekeeper Terminals with Biometrics (TouchID or TouchFree ID) and provide knowledge transfer for customer to configure remaining terminals. • Business Data Automation: One-time initial loads of business structure and labor categories to avoid manual and time-consuming entry tasks before go-live. • Standard integration templates: <ul style="list-style-type: none"> • Accrual Reset Import • Payroll Export that runs at the end of the pay period • Recurring person import for employee demographic data • Strategic Technical Advisor (STA) service included. The STA functions as the customer's single point of contact for technology related considerations. They will engage with the customer's technical teams and Kronos Technology Partners to assist with network infrastructure assessment, client access methods such as desktop, mobile, data collection devices and technology partner solutions. Additionally, the STA will advise, mentor and guide clients throughout solution implementation and adoption. The STA provides: <ul style="list-style-type: none"> • Technical readiness plan • Clock migration plan • Successful SSO deployment • Technical guidance & knowledge transfer
Accruals	<p>UKG Dimensions Accruals entitlement becomes the system of record for accruals and adds comprehensive accrual administration to UKG Dimensions Timekeeping by automatically enforcing your time-off policies with:</p> <ul style="list-style-type: none"> • Automated accruals policy • Access to timekeeping information and self-service workflows • Mitigation of compliance risk • Time-off balance tracking • Visibility into labor tracking and accounting <p>Scope assumptions:</p> <ul style="list-style-type: none"> • Up to 10 configurable accrual policies

Scope Statement

Purpose and Overview of Scope Statement

This Scope Statement outlines the scope of services to be provided by Kronos for the Setup Fees indicated on the applicable Order Form, to CITY OF DELRAY BEACH ("Customer"), related to the Core entitlements, Value-add entitlements, and/or Additional Services contained in this document. Our Professional Services engagements are designed to help our Customers successfully deploy Core entitlements, as well as easily layer Value-add entitlements and functionality over time based on your priorities, schedule, and resources.

The UKG Dimensions™ Scope Statement described herein is fixed scope based and is subject to the terms and conditions governing your UKG Dimensions Agreement (the "Agreement"). Unless otherwise defined herein, words and expressions defined in the Agreement shall have the same meaning in this Scope Statement.

UKG Telestaff for Dimensions Migration Services Guideline

The following applies to all entitlements within UKG TeleStaff™ with UKG Dimensions™ migrations:

UKG Delivered Value	
UKG TeleStaff Entitlement	Project Management services including: <ul style="list-style-type: none"> Creation and maintenance of an online project workspace, work plan, issues and risks management, status calls and reports. UKG Project Manager will work with customer Project Manager to jointly run project. Project Management includes transition to UKG Global Support after the first deployment go-live.
	Implementation approach: <ul style="list-style-type: none"> UKG will conduct one remote assessment with your project team to create one integration solution design for your organization. Your team will conduct one testing cycle to accept that solution, which UKG will support. UKG will support one production cutover.
	Technical Architecture: Two environments (1 Production, 1 Development). A new Production and Development Cloud environment will be provisioned to support UKG the latest TeleStaff version.
	Training: Through KnowledgeMap, we provide training for your core team, and provide you with collateral and toolsets to train your end-users. UKG training curriculums can be reviewed on the UKG customer website.
	Rapid Implementation: UKG SaaS SMB fixed scope implementations are designed to deliver value quickly to your organization. Project timelines span up to 6 months. Implementation support for this time span is included in the package. Extended project timelines beyond 6 months must be supported with additional professional services agreed via change order.

UKG TeleStaff Standard Services

UKG Delivered Value	
UKG TeleStaff Scope	<p>Installation of (1) PROD and (1) DEV environment</p> <p>(1) standardized UKG Dimensions-UKG TeleStaff integration design mapping for one institution</p> <p>Optimize UKG TeleStaff Design to leverage UKG Dimensions-UKG TeleStaff Integration best practices</p> <p>System Overview of latest major UKG TeleStaff version</p> <p>Testing Support for one Institution</p> <p>Authentication (SSO/LDAP)</p> <p>Standard integration with UKG Dimensions</p> <p>One production cutover aligned with UKG Dimensions cutover</p> <p>Post Go Live Support for 2 pay periods</p> <p>Assumptions:</p> <ul style="list-style-type: none"> • A new Production and Development cloud environment will be provisioned to support the latest UKG TeleStaff version • Existing core configuration will be moved to customer's new cloud environment • Only the historical data necessary to ensure the staffing rules are correct will be imported into the new database. It is the responsibility of the customer to archive their existing database for historical purposes.

UKG TeleStaff Value Added Services

The following value-added services are available for UKG TeleStaff SaaS SMB implementations for an additional fee and if identified on the Order Form. Refer to the UKG order form for a list of a la carte services included with your purchase.
