Sewer Vac Truck .....	94
Stormwater Pump Maintenance Truck .....	95
Police Vehicles .....	96

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## TREE PLANTING

Delray Beach is dedicated to enhancing the quality of life in the community by enhancing the quality of the environment. Tree resources and the services they provide are vital to a healthy urban community.

Recognizing the important role that trees play, objectives were adopted in the Always Delray Comprehensive Plan, designed to enhance tree canopy. The Tree Canopy Assessment concluded that the citywide overall tree canopy coverage was approximately 23 percent and recommended that the City plant 10,000 trees in 5 years and increase the tree canopy to 28 percent by the year 2035.

A tree planting program was initiated as a primary action to increase the tree canopy. A one-year tree planting program contract was awarded beginning in mid-2020, resulting in the planting of 2,000 trees on City property, parks and rights-of-way, and partner properties. The project was substantially completed in June 2021.

To continue the tree planting program, the City entered into an agreement with Community Greening on June 14, 2022. The agreement is for a one-year tree planting program, with 3 subsequent yearly options for renewals, to perform the additional plantings necessary to reach the 10,000 tree goal. This effort will be funded by the Tree Trust Fund.

Estimated Cost: \$325,809.00.

## BENEFITS

- Reduces Urban Heat Island Effect.
- Improves Water Quality.
- Reduces Erosion.
- Encourages Outdoor Activity and Improves Community Health
- Raises Property Values

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## PINE GROVE PLAYGROUND

The playground and pavilion, enjoyed by many families throughout the years, are in need of an update. The replacement of the aging playground equipment and picnic area will bring new life to a currently under-utilized space and enjoyment to the community.

The project scope includes:

- Replacing the existing pavilion with a new, aesthetically appealing pavilion to encourage meetings, gatherings, and rental opportunities.
- Updating the existing playground to provide children with the benefits of social, physical, mental, and emotional development, as well as critical thinking, self-esteem, and the building of fine and gross motor skills.
- The playground will include safety surfacing that will absorb impact, and make walking, running, and jumping easier on the child.

Estimated Cost: \$225,000.

### BENEFITS OF PLAY

- Promotes Socialization and Interaction with Other Children on the Playground.
- Mental Stimulation through Problem-solving.
- Engages the Imagination.
- Burns Energy and Helps Fight Childhood Obesity While Building Fine and Gross Motor Skills.
- Releases Tension, Relieves Anxiety and Promotes Good Mental Health.

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## WAYFINDING SIGNAGE

The intent of wayfinding signage is to provide guidance and navigational information for local cultural, historical, and recreational locations and activities. Based on needs identified by the community, the project will replace existing outdated signage, improving direction and enhancing streetscapes. Funded by the Community Redevelopment Agency (CRA), the project is managed by the City and proposes installing custom fabricated post-mounted wayfinding signs with up to four variations in the size and design type.

### Vehicular wayfinding signs:

- Trailblazers leading to downtown.
- Directional signs (up to two size forms).
- Parking identification signs (for public parking facilities).

### Pedestrian wayfinding signs:

- Static map.
- Directional signs.
- Trailblazers leading to specific destinations.
- Interactive map kiosk.

### Gateway features:

- Boundary markers.
- "Welcome To" landmarks.

Design and Construction Estimated Costs:  
\$1,600,000.

**Signs guide residents and visitors by improving wayfinding and providing useful information, enhancing the overall user experience.**

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## LOWSON BOULEVARD FROM DOVER ROAD TO SE 5TH AVENUE (US-1/FEDERAL HIGHWAY)

Lowson Boulevard is a 3.45-mile collector roadway running east-west between S Military Trail and SE 6th Avenue. The City identified a need to improve Lowson Boulevard with new shared-use paths and sidewalks to improve pedestrian and bicyclist mobility. The project includes pavement rehabilitation, two pedestrian bridges over an existing canal along with drainage, signage, traffic signalization, and pavement marking improvements.

This project will improve Lowson Boulevard for a distance of 2.35-miles between Dover Road and SE 5th Avenue.

Estimated Construction Cost: \$5,300,000.

Contact: Jason Kaufman at 561-243-6235.

Website: [lowsonimprovements.com](http://lowsonimprovements.com)

### BENEFITS

- New Shared-Use Paths & Pedestrian Bridges.
- Drainage Improvements.
- New Bus Shelters and Pads.
- Rehabilitated Pavement.

### DETAILS

The City secured a grant from Palm Beach Transportation Planning Agency (TPA). The TPA program funds on- and off-road pedestrian and bicycle facilities; infrastructure for improving non-driver access to public transportation for enhanced mobility; community improvement activities; environmental mitigation; recreational trail projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of formerly divided highways.

A combination of 10-feet to 12-feet wide shared-use paths and 5-feet to 6-feet wide sidewalks will be installed for the entire length of the project. Existing pavement will be rehabilitated with either full reconstruction of the road or milling and resurfacing. Two prefabricated pedestrian bridges will be installed above the E-4 Canal that runs parallel to an existing vehicular bridge on Lowson Boulevard.

Bus shelters and pads, curbs and gutters, ADA curb ramps, swales, guardrails, gravity walls, and drainage, will be constructed and signage and pavement markings will be added throughout the project.

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## PALM TRAIL NEIGHBORHOOD IMPROVEMENTS

The Palm Trail neighborhood is a high traffic pedestrian area and the community has requested improvements to include additional pedestrian mobility, drainage improvements and a landscape tree overlay. This will improve sidewalk connectivity and ADA accessibility in the area to promote increased use of these outdoor amenities.

This study proposes to start an evaluation of existing right of way, identify concerns and solutions, and propose improvements in the area for consideration.

Estimated Study Cost: \$153,623.

### BENEFITS

- Identifies Stormwater Needs.
- Provides an Inventory of Specimen Trees.
- Provides a Plan for Future Capital Improvement Projects.

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## DELRAY BEACH SEABOARD AIR LINE RAILWAY STATION RECONSTRUCTION

The station opened in 1927 and operated as a train station until 1995. It was placed on the National Register of Historic Places in 1986. The City bought the building in 2005.

In February of 2020, the station was the target of arson. The building will be reconstructed and the City will endeavor to preserve as much of the existing structure as possible.

The new structure, which is inspired by the original building, will contain the City's Wellness Clinic and much-needed office space for various City departments.

Total Estimated Project Cost: \$5,100,000  
Estimated Insurance Proceeds: \$3,500,000  
Estimated Cost to City: \$1,600,000

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## NORTH SWINTON AVENUE ROADWAY AND UNDERGROUND UTILITY IMPROVEMENTS

The Historic North Swinton Avenue is experiencing pavement deterioration including uneven surfaces of the roadways, asphalt cracking, and accelerated deterioration adversely impacting roadway stability and rideability. This has increased maintenance and shortened the lifespan of resurfacing projects. As part of this project, the City intends to address the deficiencies in the existing roadway and underground utility infrastructure.

In addition, there are non-continuous sidewalks that prohibit pedestrian connectivity throughout the roadway corridor. The City intends to provide improved bicycle/pedestrian connectivity along the North Swinton Avenue corridor, including the dedicated bicycle lanes within the NE 2nd Avenue (Seacrest Boulevard) corridor along NE 22nd Street, and improvements to the sidewalk located at the NE corner of NE 2nd Avenue and NE 22nd Street intersection that were not included in the NE 2nd Avenue Beautification Project. The City will also include drainage improvements at the SW corner of NE 2nd Avenue and NE 22nd Street. Additionally, drainage, lighting, signage and pavement markings, and landscaping will be addressed throughout the project limits.

Estimated Design and Construction Costs: \$5,756,764.

Contact: Jason Kaufman at 561-243-6235.

Website: [swintonutilityimprovements.com](https://www.swintonutilityimprovements.com)

## PROJECT LIMITS

- Underground Utilities – NE/NW 3rd Street to NW 25th Court
- Reclaimed Water Branch 1 – Tangerine Trail to Plumosa School of the Arts South Campus
- Reclaimed Water Branch 2 – NE 17th Street to Plumosa School of the Arts South Campus
- Roadways – North of NE 4th Street (Lake Ida Road) to South of SW 36th Street (Northern city limits)

## BENEFITS

- Provides Sidewalk Connectivity and Meet ADA Requirements.
- Implementation of Traffic Calming
- Preserves Historic Character and Enhances Landscaping.
- Drainage Improvements.
- Upgrades Underground Utilities.

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## MEMBRANE SOFTENING PLANT

The City of Delray Beach draws its drinking water from the Biscayne/Surficial aquifer through 30 production wells. The water from these wells is high in iron, hardness, color and organics. The City has been utilizing Conventional Lime Softening to treat the water prior to delivery to its customers.

Aged infrastructure, upcoming stringent water quality regulations and the City's desire to produce outstanding drinking water required the City to seek an alternative treatment process, such as membrane filtration.

Drinking water produced by proper membrane filtration treatment is aesthetically pleasing water with no perceptible color and meets current and anticipated future water quality requirements.

Estimated Construction Cost: \$130,000,000.

## BENEFITS

- Stabilizes Water Quality Out of the Plant and in the Distribution System.
- Softer Finished Water.
- Reduces Finished Water Color.
- Enhances Disinfection.
- Meets More Stringent Regulatory Requirements.

# CAPITAL IMPROVEMENT PROGRAM

Project Highlight - Fiscal Year 2023/2027

## CEMETERY MAUSOLEUM & COLUMBARIUM

The mausoleum is an external free-standing building that is an above-ground burial option where the casket is placed in a crypt and sealed. The deceased is memorialized with lettering placed on their crypt with their name, date of birth and death. The mausoleum also has niches for the placement of urns for cremations.

A columbarium is a wall structure that will connect all three mausoleums together and will contain niches for urns containing cremated remains.

The project scope includes:

- Two new mausoleums built on each side of the existing one. Each will consist of 282 single casket spaces, 48 tandem spaces, and 432 large niches.
- Granite crypt and niche doors.
- 8' sidewalks around the mausoleums with a 10' connecting walk to the road.
- LED lighting.
- 600 prefabricated (12"x12"x12") granite niches in the columbarium.

Estimated Design and Construction Costs: \$2,380,000.

### BENEFITS

- Additional Burial Options.
- Enhances Overall Appearance of the Cemetery.
- Improves Mausoleum Lighting.
- Large Sidewalks Connecting Mausoleums.

<b>Project Status:</b>	<input type="checkbox"/> New Project <input checked="" type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2019	<b>Department Priority #:</b>	1

#### Project Description

A Tree Canopy Assessment was performed in May 2019. The report recommended setting a goal of planting 10,000 trees over a 5 year period to raise city-wide tree canopy cover to 28%. The first year of this project was initiated in 2020. Year 2 of the project is in the Negotiation phase of the Purchasing process, and includes an optional extension for Years 3 to 5 Plantings. The current CIP Project request is for a vendor to perform Year 3 through 5 Planting, assuming Year 2 begins prior to the end of FY 2022.

#### Project Justification / Relation to Other Projects

The City Commission accepted the recommendations of the Tree Canopy Assessment report, including setting a goal of planting 10,000 trees to raise the tree canopy coverage to 28% overall for the City.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	Mobility Plan and Fee	
<b>Project Location:</b>	Citywide	
<b>Department:</b>	Development Services	
<b>Contact Person:</b>	Anthea Gianniotis	
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation	
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b> 1

#### Project Description

Create a Mobility Plan that identifies and prioritizes a capital improvement plan for transportation needs beyond new vehicular lane miles including: roadway, transit, parking, bike, and pedestrian improvements. Use the Plan to establish a Mobility Fee as a funding source.

#### Project Justification / Relation to Other Projects

This plan builds on the Parking & Curbside Management Plan, the Citywide Bicycle Pedestrian Master Plan and the current CIP. County impacts fees do not provide a funding stream to the City for the types of transportation improvements needed at this stage of the City's development. The City has a TCEA that relieves development from remitting transportation impact fees to the County, yet this same area requires a high level of multi-modal transportation options. This plan will create a long term, holistic plan for mobility in the City and establish a method for implementation and funding.

#### Project Description

Park restroom improvements and miscellaneous updates.

#### Project Justification / Relation to Other Projects

Due to the age and continued use of the restrooms throughout city parks, many are in need of renovations and updates. In addition, there are several other facilities throughout the parks that are in need of attention. These funds will be used to improve and enhance the conditions these facilities.

Project Description
Multi-use restroom trailer.

Project Justification / Relation to Other Projects
Parks & Recreation is looking to purchase a restroom trailer to be used for all department events. Currently, the department is spending in excess of \$20,000 annually to rent a restroom trailer for events hosted throughout the city. This purchase will allow for those annual funds to be spent in more beneficial ways. This trailer will be used for all Parks & Recreation sponsored events in addition to assisting emergency services when needed.

#### Project Description

This is a complete street project on Andrews Avenue between Atlantic Avenue and George Bush Boulevard. This project includes implementing traffic calming features, addressing continuity of sidewalks, bicycle accommodations via Sharrows, and landscaping.

#### Project Justification / Relation to Other Projects

This project is in response to resident requests for implementation of traffic calming features on this road.

**Public Works**

**Contact Person:**

**Cynthia Buisson**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**Annual Task**

**Department Priority #:**

#### Project Description

The scope of work includes multiple phases of Self-Evaluation & Transition Plan (SE&TP) to address ADA deficiencies on city sidewalks and driveways within the right-of-ways, including the addition of missing sidewalk segments and correction of the existing ADA deficiencies. Using Transition Plan I, four separate design and construction packages were developed to address these deficiencies. One package is under construction, two packages are on shelves ready for construction and one package ready for design. Self-Evaluation & Transition Plan II is on planning phase.

#### Project Justification / Relation to Other Projects

The Americans with Disabilities Act (ADA) is a civil rights law that mandates equal opportunity for individuals with disabilities. Part of the Act requires government entities to meet mobility requirements. This project will improve the City's sidewalks and driveways to be ADA compliant.

#### Project Description

Design and construction of improvements of the drainage system for the showers to reduce windblown sand onto the sidewalk and into the beach shower drains.

#### Project Justification / Relation to Other Projects

This project aims to reduce the amount of windblown sand onto the paved beach accesses. This will both create a cleaner more aesthetic beach access and greatly reduce the amount of shower drain maintenance due to sand clogging.

#### Project Description

This project provides active management of the various dune management requirements, including dune trimming, invasive exotic species removal, strand zone pruning, planting specifications, fertilization, irrigation, survival criteria and replanting.

#### Project Justification / Relation to Other Projects

Coastal dunes serve a number of functions, including trapping and stabilizing wind blown sand, keeping sand off the street and on the beach. The dune also provides a protective storm buffer reducing flooding and wave damage all while providing a habitat for over two hundred plant and animal species. The City's coastal dune system, is almost entirely man-made and must be actively managed to balance engineering, recreational, aesthetic and maintenance needs.

#### Project Description

Blue Flag is an international award program for beaches that promotes environmental education and information, environmental management, safety and services, and social responsibility for public beaches. Awards are given by an international jury to applicants who meet the 33 criteria. The US pilot portion of this program kicked off in 2021 and the City is looking to apply during the next cycle in Fall / Winter 2022. This request is for the water quality testing, application fees, flags, and the information boards.

#### Project Justification / Relation to Other Projects

This program furthers the goals, objectives and policies in the City's Comprehensive Plan, Coastal Management Element (CME). CME 1 is preservation, protection, restoration and management: continue to preserve, protect, restore, and diligently manage the natural coastal environment to maintain or enhance it's quality for present and future generations. CME 5 is public participation and strategic partnerships: foster and participate in partnerships and programs that address regional and local coastal management issues, provide funding and encourage public participation in such programs.

**Project Description**

Annual sea turtle nesting monitoring including daily nesting surveys, monthly lighting surveys, several public outreach events (nesting excavation), and reporting to the Florida Wildlife Commission.

**Project Justification / Relation to Other Projects**

The Federal and State permits for beach nourishment require annual sea turtle nesting monitoring on the beach during nesting season from March 1 to October 31. The City's Marine Turtle Conservation program began in 1984 and includes annual sea turtle nesting monitoring of the City's 2.8-mile long beach area.

<b>Date Project Began:</b>	Annual Task	<b>Department Priority #:</b>

#### Project Description

Topographic (onshore) and bathymetric (offshore) surveys of the beach and offshore on the City's beach are conducted annually in the summer. The monitoring data is to be used to assess, with quantitative data, the performance of the beach nourishment projects. The monitoring data provides the City, FDEP, and USACE information necessary to continue planning for the next renourishment project and evaluate the beach performance.

#### Project Justification / Relation to Other Projects

The City has one of the most successful beach maintenance and preservation programs in the United States. Since 1973, the City performs these beach monitoring/surveying activities annually to comply with permit requirements and track performance of the beach system.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**CRA - Pompey Park Community Center & Campus Improvements**

**Project Location:**

**1101 NW 2nd Street**

**Department:**

**Public Works**

**Contact Person:**

**Kevin Matthews**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**2018**

**Department Priority #:**

#### Project Description

The design and construction of the Master Plan for Pompey Park improvements, including aquatic and community centers. The proposed improvements will include a new building, refurbished fields and amenities, additional parking, lighting, and landscaping. Additional on-site improvements will provide off-site connectivity for pedestrians and bicyclists.

#### Project Justification / Relation to Other Projects

Delray Beach's Pompey Park is approximately a 14-acre site, bounded by NW 13th Avenue on the west, NW 2nd Street on the south, NW 10th Avenue on the east, and NW 3rd Street on the north. Pompey Park has an existing one story, 22,823 square foot community center building, located near the southeast corner of the site along with associated parking facilities. The center, constructed with Federal Funds in the 1950's, serves over 150,000 people each year and more than 40 organizations and civic groups utilize it on a monthly basis. The facility is one of the largest City parks that is centrally located in NW neighborhood, and it is in dire need of renovation and expansion. The City wishes to redevelop the park to accommodate the current programming needs of the community.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**CRA - Northwest Neighborhood Improvements**

**Project Location:**

**I-95 to Swinton, from Atlantic Avenue to Lake Ida Road**

**Department:**

**Public Works**

**Contact Person:**

**Begona Krane**

**Project Status:**

☐ New Project ☐ Project Continuation

**Date Project Began:**

**2019**

**Department Priority #:**

#### Project Description

This is a design RFQ for the Northwest Neighborhood infrastructure improvements, to include water, sewer, stormwater, roadway, sidewalks, traffic calming, and lighting.

#### Project Justification / Relation to Other Projects

The primary goal of the project is to improve the roadways and alleyways, and to upgrade the underground utilities, stormwater system, and drainage. This project will also upgrade the lighting to LED on the streets resulting in improved safety in the area. The project will introduce traffic calming to slow down vehicular traffic and facilitate on-street parking. This project is anticipated to have a minimum service life of 25-years.□

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Homewood Boulevard  
Reconstruction**

**Project Location:**

**Germantown Road to Lowson  
Boulevard**

**Department:**

**Public Works**

**Contact Person:**

**Richard Pereira (17-115)**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**07/2021**

**Department Priority #:**

#### Project Description

Roadway reconstruction on Homewood Boulevard from Lowson Boulevard to Old Germantown Road, to include construction of sidewalks and bicycle facilities, milling and resurfacing, and widening of the culvert on the south side of Linton Boulevard. Design and construction are being managed by FDOT per the City's request.

#### Project Justification / Relation to Other Projects

The City's goal is to expand bicycle and pedestrian facilities. Grant funding was made by the Transportation Planning Agency (TPA) of Palm Beach County under its Local Initiatives program (TPA 2019 priority #15-4-LI). This follows from an application submitted by the City and supported by resolution.

☐ New Project ☒ Project Continuation

**04/2021**

**Department Priority #:**

### Project Description

Construct sidewalks, bicycle facilities, milling and resurfacing, improve drainage, and add decorative lighting on George Bush Boulevard from NE 2nd Avenue to SR-A1A. Two (2) sections of deteriorated pavement will be reconstructed via locally funded agreement (LFA) between the City and FDOT. Design and construction are being managed by FDOT per the City's request.

### Project Justification / Relation to Other Projects

The City's goal is to expand bicycle and pedestrian facilities. Grant funding was made by the Transportation Planning Agency (TPA) of Palm Beach County under its Local Initiatives program (TPA 2019 priority #15-5-LI). This follows from an application submitted by the City.

### Fiscal Year 2023 - 2027

**Project Title:**

**Lindell Boulevard Bike/Pedestrian Improvements**

**Project Location:**

**Linton Boulevard to Federal Highway/US-1**

**Department:**

**Public Works**

**Contact Person:**

**Richard Pereira (17-074)**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**02/2022**

**Department Priority #:**

### Project Description

This three part project will allow bicyclists and pedestrians a more attractive and safer passage to move from just west of the FEC railroad to Linton Boulevard near Interstate-95 without having to travel in higher vehicular traffic commercial areas on US 1 and Linton Boulevard. The scope includes: sidewalks; bicycle paths; drainage improvements; lighting; and milling and resurfacing of the existing roadway.

### Project Justification / Relation to Other Projects

The City's goal is to expand bicycle and pedestrian facilities. Grant funding was made by the Transportation Planning Agency (TPA) of Palm Beach County under its Local Initiatives program (TPA 2019 priority # 17-2-LI). This follows from an application submitted by the city supported by City Commission Resolution No. 34-17.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Palm Trail Median Improvements**

**Project Location:**

**Palm Trail Neighborhood**

**Department:**

**Development Services**

**Contact Person:**

**Anthea Gianniotis**

**Project Status:**

☒ New Project ☐ Project Continuation

**Date Project Began:**

**11/1/2021**

**Department Priority #:**

#### Project Description

Create a plan for the Palm Trail Neighborhood that address stormwater improvement needs, identifies opportunities for planting trees in the public right of way, and provides an inventory of specimen trees in the neighborhood.

#### Project Justification / Relation to Other Projects

The Palm Trail Neighborhood has requested assistance from the City in maintaining and enhancing the existing tree canopy, which is an integral part of the character of the neighborhood. This effort will coordinate stormwater needs with the desire for street trees in the neighborhood and provide a plan for a future capital improvement project. The potential addition of roadway medians in the roadway create a traffic calming scenario on these streets which is good for the community. The project will continue after FDOT has completed improvements to George Bush Boulevard. The project includes the installation of a landscaped median along the road resurfacing on the south side of Palm Trail by Marina Delray.

10/1/2022         Department Priority #: 3

#### Project Description

This is a purchase of the power boat that would allow the Delray Beach Police Department to respond to emergencies and to patrol the 3+ miles of intercoastal waterway and beach front, Lake Ida and 15+ miles of canals. The cost of the boat is estimated at \$185,000 (With trailer) and the operating cost is estimated at \$3,500 per year, making the total project cost over five year period \$202,500.

#### Project Justification / Relation to Other Projects

The Rigid Hull Inflatable Boat (RHIB) will be a 23' vessel that will be able to enforce laws, respond to emergencies and patrol the 3+ miles of ICW and beach front, Lake Ida and 15+ miles of canals. The watercraft will be used to reach locations not accessible by land, as well as to provide search and rescue services. Impact on operating cost does not include potential replacement/rental costs. The Police Department applied for a grant through Florida Inland Waterway District (FIND) for \$65,000 to attempt to offset the cost of the boat. Outcome of the grant will not be known until October 1, 2022.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	ERP Replacement	
<b>Project Location:</b>	100 NW 1st Avenue	
<b>Department:</b>	Finance	
<b>Contact Person:</b>	Laura Thezine	
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation	
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b> 1

#### Project Description

Project will begin with hiring of a FTE - Senior Technology Strategist. Technology Strategist will be paramount in complete business analysis, Project Management of implementation and software integrations. Transition the current Tyler New World system to be replaced with new Finance, Human Resource, Payroll, Purchasing, and Utility Billing software systems. In conjunction, transfer all the data out of the Superior HTE system into the new Software solutions. Create one system from Best of Breed software products for all operational departments in the City which can link GIS, mobile and document management together for a truly unified applications environment. ERP system will be hosted Software as a Solution and will enable increased Continuity of Operations and Disaster Recovery. This is a City-wide initiative for ERP software replacement and will affect all Departments.

#### Project Justification / Relation to Other Projects

A new ERP system is needed to Improve Infrastructure and to Create a City Organization of Excellence . We are currently working on multiple systems and stuck between two separate systems for Finance, Utility Billing, Community Improvement. Tyler New World is now an End of Life system and needs to be replaced within the next two years. This is a 2 year project to migrate to a new ERP system. Current annual maintenance payments will cease to Tyler \$100,000, Central Square \$150,000.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Phone System Replacement**

**Project Location:**

**100 NW 1st Avenue**

**Department:**

**Information Technology**

**Contact Person:**

**Don Marese**

**Project Status:**

☒ New Project ☐ Project Continuation

**Date Project Began:**

**10/1/2022**

**Department Priority #:**

**1**

#### Project Description

Replace VoIP phone system with a hosted system integrated with MS Teams. Current phone system was bid in 2016 and installation was completed in 2017. There have been many complaints both internal and external of how the system functions. This is standard practice to replace server hardware prior to failures. The recommendation is to change to a fully hosted phone system with SIP circuits terminating at the hosting provider location. This would allow the City to have a fully working phone system in case of disaster and business continuity. Employees working remotely would have full access to City phone service through their laptop.

#### Project Justification / Relation to Other Projects

IT Policy - IT.P0014 - Technology Replacement and Upgrade Policy states that server equipment be replaced in the Fiscal year immediately after the 5th year of use. The system has 8 physical servers and 2 separate SIP circuits in Delray Beach and Tallahassee. The system has had problems since inception with fax lines, Public Safety call boxes, dropped calls, caller-ID and overall functionality. We are constantly having issues with integration to the Admin phone lines at PD dispatch PSAP, and security issues with Anti-virus updates which cause the phone system servers to reboot. There are very few engineers who understand the workings of the Genesys phone system and we have been unable to receive adequate support to maintain the phone system. Our current annual expenses are \$26,000 for SIP circuits, \$40,000 for Genesys support, \$30,000 for server maintenance and backups and we have 2/3 of FTE Infrastructure Engineer working on phone system issues. We are due to replace the physical servers at a cost of \$50,000. The \$450,000 estimate for FY23 includes the replacement of all desktop phones, installation, increase in Microsoft licenses, SIP circuits and we estimate the recurring fees of \$300,000 per year for a fully hosted solution. The ongoing \$300,000 per year is maintenance and support for the solution and will be considered a regular budget item in the future.

#### Project Description

Renovation of the Old School Square (OSS) Crest Theater.

#### Project Justification / Relation to Other Projects

To restore the Crest Theater back to operational status. In 2022, the City of Delray Beach took back the responsibility of the OSS Campus. The previous tenants left the Crest Theater Building during renovations and it is currently an incomplete construction site. In order to resume operations, the building renovations must be complete.

Notes: The projected budget is designed to produce a stable program over a 10-year period with annual average average expenditures of \$4.4 million (network PCI stable at 80, backlog stable at about \$11 million). The average annual expenditure for Collector roads is \$432K and for Local roads \$3.99 million (see second table below). This program is based on two pavement preservation approaches: milling & resurfacing and full depth reclamation. Add \$100K in FY2024 for 5-year update to the condition survey.

#### Project Description

Reconstruction of the of the building that was destroyed by fire, to accommodate the Wellness Center and additional City office space.

#### Project Justification / Relation to Other Projects

On February 25, 2020, the Delray Beach Seaboard Air Line Railroad Station was largely destroyed by fire. Due to its important historical significance to the City, the City decided that it should be reconstructed. The building will be reconstructed by the City's insurer, Florida Municipal Insurance Trust (FMIT), under the TurnKey Recovery Program, through FMIT Recovery Manager SynergyNDS. The insurance company will only rebuild the project to what was originally existing ("like kind"), which does not include the proposed office buildout of the northern warehouse section or any site improvements. The project will be constructed as a whole, to include both insurance and non-insurance (capital improvement sections) scopes of work. The City will contribute a portion of the cost to pay for the capital improvement sections.

**Department Priority #:**

#### Project Description

The project includes the need for the realignment of the Swinton Avenue/Atlantic Avenue. Intersection to account for safer pedestrian and vehicular movements in the intersection. This project was presented to the City Commission on March 1, 2022.

#### Project Justification / Relation to Other Projects

The Swinton Avenue/Atlantic Avenue intersection is problematic for vehicle, pedestrian, and bicycle traffic and safety. Several concepts have been proposed with no firm direction being pursued. Exploring an option to direct traffic west of Swinton Avenue would potentially alleviate downtown congestion related to traffic flow and parking. Additionally, a mid-block (non-signalized) pedestrian crossing across Swinton Avenue by the Old School Square will also be investigated. This project will be fully funded through the CRA.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Tropic Isle Neighborhood Improvements**

**Project Location:**

**Tropic Isle**

**Department:**

**Public Works**

**Contact Person:**

**Isaac Kovner (19-015)**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**5/19/2020**

**Department Priority #:**

#### Project Description

Improvements within the Tropic Isle development include: roadway improvements, water & sewer, and drainage infrastructure, landscaping, and other neighborhood improvements. Undergrounding of FPL, AT&T, and Comcast Utilities will not be included in this project. The engineering design is scheduled to be completed by the end of 2022; and the construction has been phased over a 3-year period.

#### Project Justification / Relation to Other Projects

This project is for the complete design and rebuild of all the roadways and to improve the City's aging underground infrastructure piping network (water, sewer, and drainage). The roadways within the Tropic Isle development have experienced uneven wear, excessive sinkholes, asphalt cracking, and accelerated deterioration thus adversely impacting roadway drainage and rideability (due to a muck layer 6-9 feet below the roadway surface). The water, sewer, and drainage infrastructure system is approximately 50 years old and has reached the end of its useful life expectancy and needs to be improved.

Notes:

Basis of Design was budgeted in FY21. The Basis of Design Report is completed and engineering is estimated to be begin in April 2022 and be completed in April 2023. Construction is estimated to last 3-years, beginning October 2023 through June 2026. The costs for the undergrounding (engineering and construction) of the FPL, Comcast, and AT&T utilities are not included in this project.

# City of Delray Beach, Florida

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**N Swinton Avenue Roadway/Utility Improvements**

**Project Location:**

**Lake Ida Road to NE 36th Street**

**Department:**

**Public Works**

**Contact Person:**

**Richard Pereira (19-012)**

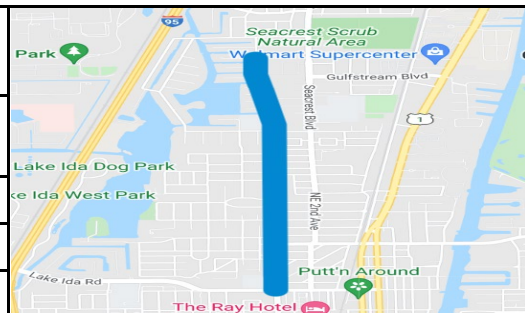

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**03/2021**

**Department Priority #:**

#### Project Description

Design and construction of roadway improvements and upgrades to stormwater, sanitary and reclaimed facilities along Swinton Avenue. Roadway improvements also include underground utilities from NE/NW 3rd Street to NW 25th Court (reclaimed water branch 1 from Tangerine Trail to Plumosa School of the Arts north campus and reclaimed water branch 2 from NE 17th Street to Plumosa School of the Arts south campus). Project scope is north of Lake Ida Road to south of SW 36th Street (northern city limits).

#### Project Justification / Relation to Other Projects

A preliminary evaluation report was completed by Engenuity Group, Inc. in 2019 recommending some of the utility infrastructure improvements included in the design services currently underway. The City's pavement management program identified severe pavement deficiencies.

### Fiscal Year 2023 - 2027

**Project Title:** Membrane Softening Plant  
**Project Location:** 200 SW 6th Street  
**Department:** Utilities  
**Contact Person:** Juan Guevarez  
**Project Status:** ☒ New Project ☐ Project Continuation  
**Date Project Began:** 10/1/2022

**Department Priority #:** 1

#### Project Description

New 14 MGD Water Treatment Plant (WTP). A new nanofiltration water treatment plant is needed to produce finished water that meets more stringent water quality parameters for color, hardness, as well as being able to meet other emerging contaminants. The new plant will have a permeate capacity of 14 MGD. This project will consist of designing and construction of the pretreatment system, membrane trains, degassifiers and scrubbers among others.

#### Project Justification / Relation to Other Projects

Operational challenges to meet regulations with existing WTP. Finished water from the new plant will be blended with the existing plant. Meet color and new emerging contaminants.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Upgrade to Telemetry System - SCADA**

**Project Location:**

**200 SW 6th Street**

**Department:**

**Utilities**

**Contact Person:**

**Juan Guevarez**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**10/1/2022**

**Department Priority #:**

**3**

#### Project Description

Upgrade of an old 20-year telemetry Supervisory Control & Data Acquisition (SCADA) system used for monitoring the operations of utility assets such as lift stations and the water treatment plant. Upgrade of current system is required as replacement parts are becoming obsolete. Phase 1 is on going as part of RFQ #2020-015 This project will require several phases as the conversion is extensive and time consuming.

#### Project Justification / Relation to Other Projects

Upgrade of the SCADA system is essential to properly monitor and operate Water Treatment, Water Distribution and Wastewater Collections. A properly setup SCADA system allows the operation to be both effective and efficient. It is our eyes and ears to monitor and operate 24 hrs a day 365 days a year. An unreliable SCADA system, risks adversely affecting our customers since it directly impacts our drinking water and wastewater collection; two of the most essential services.

<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation	
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b> 5

#### Project Description

Construction improvement to the City's 1-million gallon water storage tank which is currently under design. Improvements will consist of modifications to the inlet and outlet piping configuration to allow for new separate influent and effluent lines for the storage tank, modifications to chlorine and ammonia sampling and dosing locations, and ancillary improvements.

#### Project Justification / Relation to Other Projects

The tank's current piping is not configured to minimize the water age within the tank, which inhibits maintaining chlorine residuals within the distribution system. Upgrade will aid in chlorine residuals in the potable water system.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

Laboratory - Replacement of Ion Chromograph Equipment

**Project Location:**

200 SW 6th Street

**Department:**

Utilities

**Contact Person:**

Juan Guevarez

**Project Status:**

☒ New Project ☐ Project Continuation

**Date Project Began:**

10/1/2022

**Department Priority #:** 8

#### Project Description

Replacement of existing ion chromatograph instrument used at the laboratory.

#### Project Justification / Relation to Other Projects

Equipment is 13-years old and has reached it's lifetime expectancy.

#### Financial Information

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Forcemain 50 to SCRWWTP  
Replacement**

**Project Location:**

**Lowson Boulevard/Congress  
Avenue**

**Department:**

**Utilities**

**Contact Person:**

**Robert Hunt**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**10/1/2022**

**Department Priority #:**

**9**

#### Project Description

Under RFQ#2020-027, design and construction of 2.5 miles of new parallel forcemain from Liftstation 50 to wastewater treatment plant. This is a primary transmission forcemain to the wastewater treatment plant, under high traffic roadway Congress Avenue. Perform conditional assessment(s) at spot locations to confirm condition.

#### Project Justification / Relation to Other Projects

Regulatory requirement to maintain the integrity of all wastewater pressure pipes to prevent failures and overflows. This project will ensure the reliability of the pipe run, thus avoiding overflow conditions, as well as fines associated with such failures.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**North Pump Station  
Painting/Resealing**

**Project Location:**

**200 NW 1st Avenue**

**Department:**

**Utilities**

**Contact Person:**

**Juan Guevarez**

**Project Status:**

☒ New Project ☐ Project Continuation

**Date Project Began:**

**10/1/2022**

**Department Priority #: 10**

#### Project Description

Repainting of north pump station to including removing existing coating on tank deck and resurfacing with two coats of Tnemec waterproofing.

#### Project Justification / Relation to Other Projects

Recoating of tank surface and resealing of joints ensures no contaminants can enter the treated water system, as well as extending the tank's useful life.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	High Pressure Sewer Cleaner Truck		
<b>Project Location:</b>	434 S Swinton Avenue		
<b>Department:</b>	Utilities		
<b>Contact Person:</b>	Juan Guevarez		
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b>	12

#### Project Description

Purchase of 747-TK Classic Truck Mounted High Pressure Sewer Cleaner Truck.

#### Project Justification / Relation to Other Projects

Cleaner for the purpose of responding to and removing lateral blockages for both residential and commercial customers. This means and method is more up to date, much more efficient and aggressive with penetrating through and removing the blockage than with the current sectional sewer rod machine. The truck is capable of removing blockages in sewer mains and can serve as back unit when the Vac-Con unit is unavailable. This truck will also be used to wash down surfaces that have come in contact with sanitary sewer spills. This will assist the division by optimizing best practices by improving the efficiency, productivity, and performance of wastewater collection operations.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:** Lakeview Golf Course Equipment  
**Project Location:** 1200 Dover Road  
**Department:** Parks & Recreation  
**Contact Person:** Sam Metott  
**Project Status:** ☒ New Project ☐ Project Continuation  
**Date Project Began:** 10/1/2022

**Department Priority #:** 2

#### Project Description

Replacement of aging and broken golf course equipment.

#### Project Justification / Relation to Other Projects

Update and replace aging equipment to improve and maintain conditions of the course to ensure an acceptable level of safety and play as well as attract more players.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Thomas Street Stormwater Pump Station Improvement**

**Project Location:**

**1101 Thomas Street**

**Department:**

**Public Works**

**Contact Person:**

**Daisy Zheng**

**Project Status:**

☒ New Project ☐ Project Continuation

**Date Project Began:**

**10/1/2022**

**Department Priority #:**

### Project Description

A new 85,000 gpm pump station will be constructed with an upgraded drainage network, back up generator, diesel fuel tank, buried underground powerlines and onsite water treatment facility.

### Project Justification / Relation to Other Projects

Design is 90% completed. The project will be shovel ready in summer 2022. Existing 18,000 gpm (gallon per minute) pump station was originally built in 1976 and has reached the end of its designed useful life (about 50 years). The pump station is a vital lifeline for approx. 800 residents living in the 50-acre drainage basin. It has experienced frequent breakdowns since 2017 Hurricane Irma. The major breakdown in 03/2019 costed the City over \$300,000 in emergency acquisitions to keep temporary pumping while the pump was being repaired. The existing pump station does not meet South Florida Water Management District (SFWMD) Level of Service criteria for 30-year sea level rise (SLR) and tidal conditions. New pump station will provide increased protection such as 100-year 3-day storm flood protection and 30-year projected SLR resilience.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:**

**Tropic Isle Neighborhood Improvements**

**Project Location:**

**Tropic Isle**

**Department:**

**Public Works**

**Contact Person:**

**Isaac Kovner (19-015)**

**Project Status:**

☐ New Project ☒ Project Continuation

**Date Project Began:**

**5/19/2020**

**Department Priority #:**

#### Project Description

Improvements within the Tropic Isle development include: roadway improvements, water & sewer, and drainage infrastructure, landscaping, and other neighborhood improvements. Undergrounding of FPL, AT&T, and Comcast Utilities will not be included in this project. The engineering design is scheduled to be completed by the end of 2022; and the construction has been phased over a 3-year period.

#### Project Justification / Relation to Other Projects

This project is for the complete design and rebuild of all the roadways and to improve the City's aging underground infrastructure piping network (water, sewer, and drainage). The roadways within the Tropic Isle development have experienced uneven wear, excessive sinkholes, asphalt cracking, and accelerated deterioration thus adversely impacting roadway drainage and rideability (due to a muck layer 6-9 feet below the roadway surface). The water, sewer, and drainage infrastructure system is approximately 50 years old and has reached the end of its useful life expectancy and needs to be improved.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	Backflow Prevention		
<b>Project Location:</b>	Citywide		
<b>Department:</b>	Public Works		
<b>Contact Person:</b>	Elsa Gonzales-Soto		
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b>	

#### Project Description

Systematically install city standard WaStop Inline Check Valves on outfall pipes to reduce nuisance flooding from King Tides, projected sea level rise, and major storm events such as hurricanes. The WaStop Inline Check Valve is made of stainless steel and installed inside the pipe. The check valve will only allow water to exit into the Intracoastal. Seawater cannot enter the pipe or the stormwater system, preventing this flooding from neighborhoods and nearby businesses. WaStop Inline Check Valves are a proven success in the City. Over the past 3-years, seven (7) of these check valves have been installed. They require no maintenance and last for about 20-25 years. Group 1 has 13 outfall pipes that are scheduled for check valve installation in FY23.

#### Project Justification / Relation to Other Projects

To protect the City's stormwater drainage system from seawater intrusion during King Tide, severe storm events such as hurricanes, and projected Sea Level Rise (SLR) by installing WaStop Inline Check Valves at 13 prioritized locations along intracoastal waterway. The project goal is to protect properties, roadways, and businesses from flooding damage and provide a safe, enjoyable, and resilient community for the next 30- years.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	Stormwater Master Plan 2023 Update		
<b>Project Location:</b>	Delray Beach		
<b>Department:</b>	Public Works		
<b>Contact Person:</b>	Daisy Zheng		
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b>	

#### Project Description

Update the existing 2018 master plan using hydrologic modelling to address current and future conditions of the City's stormwater management infrastructure and provide updated recommendations necessary to address future impacts of climate change.

#### Project Justification / Relation to Other Projects

Required by Florida Statutes (F.S.) section 403.9302 and Signed House Bill 53, "Public Works" (Chapter 2021-194, Laws of Florida), every municipality is required to provide (every five years) a stormwater management program that develops a need analysis over the subsequent 20-years. It is also required by Community Rating System (CRS) to update the plan every five-years in order to lower homeowners' insurance within the City's limits. Additionally, the master plan update will provide the City with opportunities to apply for a variety of stormwater/sea level rise related grants that can assist with offsetting the cost of infrastructure projects.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	Rescue 1461		
<b>Project Location:</b>	501 W Atlantic Avenue		
<b>Department:</b>	Fire/Operations		
<b>Contact Person:</b>	Greg Giaccone		
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b>	Fleet Replacement Cycle

#### Project Description

Replacement of one (1) Heavy Duty Rescue Truck (ambulance) as part of the established 10-year fleet replacement cycle. This project is being moved forward one year, due to manufacturer projected 2-year lead time in production.

#### Project Justification / Relation to Other Projects

In order to maintain a serviceable fleet of fire rescue apparatus to provide emergency medical services and transport of the sick and dying. The established vehicle replacement cycle reduces maintenance costs, and helps to ensure reliable transport vehicles are in a constant state of readiness. This cycle puts the Rescue Units in frontline service for 5 years, then in reserve status for 5 years, and replacement every 10 years.

**Date Project Began:** 10/1/2022

**Department Priority #:** Fleet Replacement Cycle

#### Project Description

Replacement of one (1) Pierce fire engine as part of the established 15-year fleet replacement cycle.

#### Project Justification / Relation to Other Projects

In order to maintain a serviceable fleet of fire apparatus to provide emergency fire protection services, reduce maintenance costs, and ensure a state of readiness, a standard vehicle replacement cycle was established. This cycle puts the engines in frontline service for 10-years, then in reserve status for 5-years, with replacement every 15-years.

### Fiscal Year 2023 - 2027

<b>Project Title:</b>	Stormwater Pump Maintenance Truck		
<b>Project Location:</b>	434 S Swinton Avenue		
<b>Department:</b>	Public Works		
<b>Contact Person:</b>	Cynthia Buisson		
<b>Project Status:</b>	<input checked="" type="checkbox"/> New Project <input type="checkbox"/> Project Continuation		
<b>Date Project Began:</b>	10/1/2022	<b>Department Priority #:</b>	

#### Project Description

This request is for a F-350 maintenance truck with a crane lift for the two (2) proposed stormwater pump technicians. These are a new position for FY 2023 and if approved they will need this vehicle to complete the duties of their position.

#### Project Justification / Relation to Other Projects

This truck will allow the proposed stormwater pump technicians to maintain the existing stormwater pump stations.

## Capital Improvement Project Request

### Fiscal Year 2023 - 2027

**Project Title:** Police Vehicles  
**Project Location:** 300 W Atlantic Avenue  
**Department:** Police / Fleet  
**Contact Person:** Jim Wintemute  
**Project Status:** ☐ New Project ☒ Project Continuation  
**Date Project Began:** 10/1/2021

**Department Priority #:** 2

#### Project Description

This project involves purchasing new vehicles to bring the fleet to the needed size. The vehicles have been requested in numerous CIPs but due to the lack of funding they have not been purchased. This caused the vehicles scheduled for replacement to be retained in the fleet. The vehicles are planned to be purchased over the five-year period; five the first year and then four each subsequent year. The total vehicle purchase cost is expected to be \$1,260,000 over the five-year period (\$300,000 first year and \$240,000 each subsequent year). The operating cost is projected to be \$815,100 over the five-year period.

#### Project Justification / Relation to Other Projects

Needs assessment identified that a total of 21 vehicles are needed to match the fleet size to personnel. This does not include any new vehicles that would be purchased for the proposed and approved new personnel for each year of the CIP. The fleet does not currently match personnel due to issues with replacement of totaled vehicles throughout the years and lack of funding. This resulted in the need to retain replaced vehicles for as long as possible. These vehicles are to be budgeted each FY in CIP until fleet numbers match number of employees with needs assessment done on a regular basis. Base cost + up fit is estimated to be \$60,000 per vehicle. The impact on operating is \$12,540 per vehicle which includes rental costs, maintenance, tires, accessories, gas/oil & lube.
