Good morning Roger,
Could you also submit an updated Color and Materials form. We would also need this by Monday.
Thank you!

Thank you and Stay safe

I'll do my best to get you new docs (whole set) by Monday but make no mistake we are in agreement with you!

Yes, will remove from Cover Sheet!

May as well add center window at East 2nd floor too!

RC

Yes to adding center window facing East (2nd floor)!
Yes to eliminating gable vents!

Roger,

I am sorry to hear this, I hope you are doing ok and are on the mend.

To confirm, staff will add the following to the HPB staff report:

1. Change proposed round windows to square;
2. Change proposed boral siding to wood; and,
3. Remove illustration of breezeway structure from cover sheet.

Could you also please confirm if you are going to make the changes as mentioned in a previous email. If yes, we are happy to also update the HPB staff report:

4. Add a center window to the 2nd floor (east side).

Finally, I don't know if there was a final decision on the following, could you please confirm so that we can also add to the staff report:

5. Remove louvers from gable detail.

Again, I hope you feel better soon. Sorry for the back and forth on email, hopefully this is the last of it.

Regards,

Michelle Hoyland

Michelle:

I had emergency eye surgery Thursday and have not been able to modify those three (3), minor windows from round to square! As you know we are in complete agreement to do so!

Please make them a simple condition of approval!

The cover sheet modification is irrelevant as it is an image not a drawing to be built by - it can be modified as a condition of approval too!

Unless Ron has a new Color/Material form to present - please use the one submitted!

As you know we agreed to not use Boral siding anywhere on this Project! Condition of approval too!

Thank you!

Good morning,

We are preparing agenda items for the March 1st HPB

meeting, and I wanted to know if you have the updated plans/color and materials form for the project? We need them as soon as possible, so you can email the copies to us.

Additionally, will louvers still be utilized on the arches of the main structure?

Thank you and Stay safe
