Re: City of Delray Beach, Proposed Comprehensive Plan Amendment – 2015 Water Supply Facilities Work Plan.

Dear Ms. Oblaczynski:

Thank you for your comments on the City's proposed comprehensive plan amendment addressing the 2015 Water Supply Facilities Work Plan (WSP). The following is in response to your email dated November 20, 2015. The following is offered with regard to the technical comments provided with the correspondence.

1. Consider updating Conservation Policy A-5.1 to read: In 2015, the City shall adopt a Water Supply Facilities Work Plan to assess ~~access~~-projected water needs and sources for at least a 10-year planning period considering the South Florida Water Management District's Lower East Coast Water Supply Plan.

Response: The Policy has been revised consistent with the Florida Department of Economic Opportunity's comment. Consistent with DEO's recommendation, Policy A-5.1 has been revised to read, "The City adopts, by reference, the City of Delray Beach's 2015 10-year Water Supply Facilities Work Plan."

2. Update the reference to the Work Plan on Public Facilities Element page PF-3 to read "...within in the ~~2014~~2015 10-Year Water Supply Facilities Work Plan..."

Response: The Reference on page PF-3 has been revised consistent with the Water Management District comment.

The City is committed to working with the South Florida Water Management District and appreciates your consideration of the responses and corrective measures. . .

If you have any questions, please feel free to contact me.

Sincerely,

Mark E. Stivers, AICP
City of Delray Beach
