

Planning & Zoning Department

BOARD ACTION REPORT – APPEALABLE ITEM

Project Name: 231 NE 1st Avenue

Project Location: 231 NE 1st Avenue, Old School Square Historic District

Request: Certificate of Appropriateness

Board: Historic Preservation Board

Meeting Date: December 7, 2016

Board Action:

Approved the Certificate of Appropriateness, on a 7-0 vote.

Project Description:

The property is located on the east side of NE 1st Avenue between NE 2nd Street and NE 3rd Street within Banker's Row of the Old School Square Historic District. The proposal consists of a flat roof between the historic structures and hip roof of the addition. The roof height of the bay window on the front elevation is proposed to be raised to provide additional interior head room.

Staff supported the Certificate of Appropriateness, subject to the four minor conditions of approval.

Board comments:

The Board comments were supportive.

Public input:

No members of the public spoke for or against the project.

Associated Actions: All required actions were taken.

Next Action: HPB actions are final.

HISTORIC PRESERVATION BOARD

CITY OF DELRAY BEACH

---STAFF REPORT---

MEETING DATE: December 7, 2016

ITEM: 231 NE 1st Avenue, Old School Square Historic District (2017-029) – Certificate of Appropriateness for alterations to a contributing structure.

RECOMMENDATION: Approve.

GENERAL DATA:

Owner/Applicant..... Mindi Schifrin
 Agent..... Ames International Architecture
 Location..... East side of NE 1st Avenue
 between NE 2nd Street and
 NE 3rd Street.
 Zoning District..... OSSHAD (Old School Square
 Historic Arts District)
 Adjacent Zoning:
 North: OSSHAD
 East: Central Business District
 (CBD)
 South: OSSHAD
 West: OSSHAD

ITEM BEFORE THE BOARD

The item before the Board is the consideration of a Certificate of Appropriateness (COA) associated with alterations to the contributing structure located at **231 NE 1st Avenue, Old School Square Historic District**, pursuant to LDR Section 2.4.6(H).

BACKGROUND & PROJECT DESCRIPTION

The subject property is located on the east side of NE 1st Avenue between NE 2nd Street and NE 3rd Street within Banker's Row of the Old School Square Historic District. A circa 1938, 1,503 square foot, single-family residence exists on the 0.17 acre property and is zoned OSSHAD (Old School Square Historic Arts District).

Banker's Row began from a replat of the original Block 66 as the individual lots were sold by J.C. Keen, who purchased the block from J.S. Sundy in 1924. Mr. Keen sold the lots to wealthy businessmen in Delray. By 1926, the west side of NE 1st Avenue within Block 66 was developed. Soon thereafter, the Great Depression hit and the east side of the street, which was part of Block 74, remained undeveloped. In 1938, however, the Mackle brothers received building permits for 11 modest houses and 9 guest cottages for the properties along the east side of NE 1st Avenue. The first owner of the subject property was Harry J. Morgan, a local accountant, who purchased it in 1939.

The row of Minimal Traditional cottages along the east side of the street significantly contrast from the Mediterranean Revival structures across from them on the west side. The Banker's Row Plan, developed in the early 1990s, accurately described these structures as relatively small, simple one-story structures, with a dominant gable and simplified façade absent of traditional detailing with an off-center front door. With the increasing dependence on the automobile, garages were either integrated into the structure or free-standing. The houses were originally very much alike, however, changes were incorporated over the years "as owners adapted their houses to new housing needs."

At its meeting of October 19, 2016, the Board approved a COA (2016-202) for a one-story addition to the rear of the historic structure to provide approximately 910 square feet of additional living space, and modifications to the existing front elevation. The approval was subject to conditions which have been addressed. However, the applicant has made additional modifications which Staff determined should be reviewed by the Board as a new application.

The subject proposal includes a flat roof between the historic structure and hip roof of the addition; a gabled roof was previously proposed and approved in this location. A flat roof presently exists on the rear of the structure, which is not original. The proposed flat roof will be higher than the existing flat roof, but at the same height at the approved ridge line, and provide additional interior headroom in that portion of the residence. In addition, the roof height of the bay window on the front elevation is proposed to be raised to also provide additional interior head room.

The COA is now before the Board for consideration.

ANALYSIS OF PROPOSAL

Pursuant to **LDR Section 2.4.6(H)(5)**, prior to approval, a finding must be made that any Certificate of Appropriateness which is to be approved is consistent with Historic Preservation purposes pursuant to Objective A-4 of the Land Use Element of the Comprehensive Plan and specifically with provisions of Section 4.5.1, the Delray Beach Historic Preservation Design Guidelines, and the Secretary of the Interior's Standards for Rehabilitation.

Historic Preservation District and Sites

Pursuant to **LDR Section 4.5.1(E)(4), Alterations**, in considering proposals for alterations to the exterior of historic buildings and structures and in applying development and preservation standards, the documented, original design of the building may be considered, among other factors.

The existing structure, and its remaining original form, has been considered in the proposed alterations and additions which have been sensitively designed.

Pursuant to **LDR Section 4.5.1(E)(5), Standards and Guidelines**, a historic site, building, structure, improvement, or appurtenance within a historic district shall only be altered, restored, preserved, repaired, relocated, demolished, or otherwise changed in accordance with the Secretary of the Interior's Standards for Rehabilitation, and the Delray Beach Historic Preservation Design Guidelines, as amended from time to time.

The applicable Standards are noted below:

- Standard 2: The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Standard 9: New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
- Standard 10: New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

In consideration of these applicable Standards noted above, the overall historic character will be maintained as the increased height on the flat roof or the front bay window is not deemed to impact the historic integrity of the structure. Further, these alterations could likely be removed in the future without again impacting the historic integrity. Therefore, positive findings can be made with respect to compliance with the Standards.

Pursuant to **LDR Section 4.5.1(E)(8), Visual Compatibility Standards**, new construction and all improvements to both contributing and noncontributing buildings, structures and appurtenances thereto within a designated historic district or on an individually designated property shall be visually compatible. In addition to the Zoning District Regulations, the Historic Preservation Board shall apply the visual compatibility standards provided for in this Section with regard to height, width, mass, scale, façade, openings, rhythm, material, color, texture, roof shape, direction, and other criteria set forth elsewhere in Section 4.5.1. Visual compatibility for minor and major development as referenced in Section 4.5.1(E)(2) shall be determined by utilizing criteria contained in (a)-(m) below. Visual compatibility for all development on individually designated properties outside the district shall be determined by comparison to other structures within the site.

In consideration of the Visual Compatibility Standards, the proposed alterations are generally in keeping with the intent of the standards. The flat roof will not be seen from the front elevation and essentially mimics the existing flat roof in that same location. The increased roof height for the bay window on the front elevation is also appropriately designed, and will be in line with the window headers and fascia on the opposite side of the elevation. The extended roofline of the bay window towards the rear is where a slight inconsistency is found; however, it isn't necessarily deemed to be inappropriate. Given the minor adjustments of the proposal, positive findings can be made.

ALTERNATIVE ACTIONS

- A. Continue with direction.
- B. Approve the Certificate of Appropriateness (2017-029) for **231 NE 1st Avenue, Old School Square Historic District**, by adopting the findings of fact and law contained in the staff report, and finding that the request and approval thereof meets the criteria set forth in the Land Development Regulations Section 2.4.6(H)(5).
- C. Deny the Certificate of Appropriateness (2017-029) for **231 NE 1st Avenue, Old School Square Historic District**, by adopting the findings of fact and law contained in the staff report, and finding that the request and approval thereof does not meet the criteria set forth in the Land Development Regulations Section 2.4.6(H)(5).

RECOMMENDATION

Approve the Certificate of Appropriateness (2017-029) for **231 NE 1st Avenue, Old School Square Historic District**, by adopting the findings of fact and law contained in the staff report, and finding that the request and approval thereof meets the criteria set forth in the Land Development Regulations Section 2.4.6(H)(5).

SITE PLAN NOTES

- LOWEST SLAB AT LIVING AREA SHALL BE MINIMUM 10" ABOVE CROWN OF ROAD.
- LOT DRAINAGE SHALL BE AS ALL LOCAL CODES, REGULATIONS AND RESTRICTIONS HAVING JURISDICTION.
- LANDSCAPING, IRRIGATION, BERMING, ETC., SHALL BE AS ALL LOCAL CODES, REGULATIONS, RESTRICTIONS HAVING JURISDICTION, AND FURTHER, AS SELECTED AND DIRECTED BY BUILDER. (NOT A PART OF THE AMES INTERNATIONAL ARCHITECTURE CONTRACT).
- DRIVEWAYS, WALKWAYS, SLAB ON GRADE, POOL DECKS, SWIMMING POOL ARE BY OTHERS AND PERMITTED SEPARATELY.(NOT A PART OF THE AMES INTERNATIONAL ARCHITECTURE, CONTRACT).
- SWIMMING POOL, DECK, SPA, ETC., BY OTHERS, SEE POOL SUBCONTRACTORS ENGINEERED SHOP DRAWINGS. PERMITTED SEPARATELY AND NOT A PART OF THE AMES INTERNATIONAL ARCHITECTURE CONTRACT. SEE OWNER.
- LAND SURVEYOR SHALL VERIFY LOCATION OF HOUSE ON SITE AND ANY OCCURRING SETBACK ENCROACHMENTS SHALL BE BROUGHT TO THE ATTENTION OF THE ARCHITECT PRIOR TO ANY WORK BEING DONE.
- SITE PLAN AS DRAWN REFLECTS ARCHITECTS CONCEPTION OF OVERALL SITE LAYOUT AND FEATURES, AND MAY NOT NECESSARILY BE AN ACCURATE REPRESENTATION OF THE BUILDERS STANDARD INCLUDED FEATURES OR LAYOUT AND DESIGN.

PLUMBING NOTES

- SANITARY LINES SHALL BE OF CAST IRON, OR PVC (SCHEDULE 40) AS APPROVED BY THE BUILDING OFFICIAL.
- WATER LINES SHALL BE COPPER (UNLESS NOTED OTHERWISE).
- CONDENSE LINES SHALL BE 3/4" ϕ PVC (SCHEDULE 40), INSULATED WITH 1/2" AMAFLEX.
- HOT WATER LINES INSULATED WITH 1" ARMAFLEX ABOVE.
- PROVIDE AIR CHAMBER WITH ALL WATER SUPPLIES.
- COPPER WATER LINES RUN UNDER SLAB SHALL BE PROTECTED BY MINIMUM OF 12" OF EARTH COVER, 1" ARMAFLEX (HOT WATER ONLY) AND SLEEVED TO 12" ABOVE SLAB.
- PROVIDE CONDENSE DRIIP PAN UNDERNEATH ELECTRIC WATER HEATERS, METAL PANS SHALL BE GALVANIZED AND RUSTPROOF. PROVIDE DRAIN LINE FROM DRIIP PAN TO EXTERIOR OF BUILDING.
- SHOWER HEADS TO HAVE FLOW CONTROL DEVICE TO GIVE MAXIMUM FLOW OF (2 1/2) GALLONS PER MINUTE EACH.
- HOSE BIBS TO BE PROVIDED WITH BACK FLOW PREVENTER.
- ELECTRIC WATER HEATER SHALL HAVE A STAND BY LOSS NOT TO EXCEED 4.0 WATTS PER SQUARE FOOT TO TANK SERVICE AREA.
- PLUMBING FIXTURES, TRIM, ACCESSORIES, COLORS, ETC. SHALL BE SELECTED. (SEE BUILDER TO VERIFY).
- ALL POOL PLUMBING AND RELATED EQUIPMENT SHALL BE PROVIDED BY POOL SUBCONTRACTOR AND SHALL BE PERMITTED SEPARATELY. SEE POOL SUBCONTRACTOR'S ENGINEERED SHOP DRAWING. PLUMBING CONTRACTOR SHALL PROVIDE (2) TWO COPIES OF THE "AS-BUILT" PLUMBING RISER DIAGRAM TO THE AMES INTERNATIONAL ARCHITECTURE.
- THE PLUMBING SUBCONTRACTOR SHALL PROVIDE A HOSE BIB AT THE POOL EQUIPMENT LOCATION (VERIFY LOCATION WITH OWNER) AND SHALL LOCATE A POOL-FILL LINE WITH A VACUUM BREAKER. PLUMBING SUBCONTRACTOR SHALL COORDINATE WITH POOL SUBCONTRACTOR AND SHALL ALSO PROVIDE A LINE, TIED DIRECTLY FROM THE "FILL" LOCATION, UNDER POOL DECK (SLEEVED IN PVC PIPE) INTO TILE BAND AREA OF POOL AND COORDINATE SAME WITH SUBCONTRACTOR.
- ALL CLEAN OUTS UP TO GRADE.
- NO VENT STACKS SHALL PASS THROUGH ROOF CRICKETS OR VALLEYS.
- SIZE AND LOCATION OF CLEAN OUTS SHALL CONFORM TO ALL LOCAL BUILDING CODE.
- FIXTURE SUPPLY SIZES SHALL CONFORM TO ALL LOCAL BUILDING CODE.
- PLUMBER TO DIVERT ALL VENTS TO REAR ELEVATION.
