

5-Year Term Contract for the Construction and Maintenance of the City's (Procured) 100' Aluminum Christmas Tree (Project No. 17-062):

The following Scope Work as described below shall be in effect for a 5-year term contract:

General Contractor shall supply the following:

- 1) An air conditioned & environmentally controlled storage facility to store the City's new 100' aluminum tree, branches, lights, harnesses, rack system, and the North Pole Village Structures (approximately 100' wide x 100' long x 15 ' high). (5-years)
- 2) Transportation of all the materials and equipment (2 times per year) from the storage facility to the Old Square School Site (51 South Swinton Ave., Delray Beach, FL 33444). (5-years)
- 3) Construction of a 48' diameter (minimum) concrete foundation (to be engineered by a Florida registered Professional Engineer meeting the 2014 Building Code (weight of the tree approximately 45,000 pounds). (One time only)
- 4) Installation of a new electrical service electrical panel (NEMA 4X/316 Stainless Steel) to supply the lighting requirements for the tree and sheds by a licensed Electrical Contractor. (One time only)
- 5) Assembly of 100' tree with all associated branches and lighting (TURNKEY). (5-years)
- 6) Disassembly of 100' tree with all associated branches and lighting (TURNKEY). (5-years)
- 7) Perform required maintenance on all aspects of the tree, branches, and lighting to be ready for the next year assembly. (5-years)
