Mr. Timothy R. Stillings, Director
Planning and Zoning Department
City of Delray Beach
City Hall, 100 NW 1st Avenue
Delray Beach, FL 33444

RE: Abandonment of a Portion of Alley more particularly described in Exhibit A ("Alley")

Dear Mr. Stillings: *Tim*

Enclosed is an application to the City for the abandonment of an alley right-of-way segment of approximately 124 feet in length, located generally within the southeast corner of a block bounded by SE 1st Avenue to the east, Swinton Avenue to the west, SE 1st Street to the south, and E. Atlantic Avenue to the north.

Per Section 2.6.3 (M) of the City of Delray Beach's ("City") Land Development Regulations, Public rights-of-way may be abandoned if returned to the fee simple owner of the surrounding property, in the degree in which it was retained. As the applicant, MGM Sundry House, LLC ("Applicant") now owns three nearly contiguous parcels within the subject block, and the alley right-of-way to be abandoned, is at present running in between two of those three lots. Therefore, the question of returning right-of-way to a fee simple owner of surrounding property as specified in this section is not an issue.

The area to be abandoned, as reflected in the attached aerial, has over the years been eroded away or due to downtown development cut off from the nearby streets, thereby resulting in a disconnect to the City's alley grid system. As a result, the present configuration does not provide relief to either Swinton Avenue, Atlantic Avenue or SE 1st Avenue. In fact, traffic traveling east on Atlantic Avenue cannot use the north-south alley (parallel to Swinton) in a direct manner to get to SE 1st Street, as a bypass to Swinton or SE 1st Avenue. Furthermore, traffic traveling east on the existing alley segment from SE 1st Avenue is unable to get to Swinton Avenue as the alley grid is interrupted, so the segment to be abandoned has very limited usefulness. By dedicating the missing north-south link to enable north-south traffic to flow from Atlantic to SE 1st Street (by creating a "T" alley formation within this block), an important part of the alley grid is being restored by the Applicant's proposal, and will improve traffic flow in the entire area.

Understanding that Section 2.6.3(M) also requires City Commission to make several findings in terms of the impact of abandoning rights-of-way prior to approval, we are providing your office with how our client intends to meet the criteria within each of the findings.

Finding 1: "That there is not nor will there be a need for the use of the right-of-way as stated in Policy A-6-3 of the Transportation Element." This policy states that "Abandonment of right-of-way shall not be granted unless it is conclusively demonstrated that there is not, nor will there be, a need for the use of the right-of-way for any public purpose." The Applicant can conclusively demonstrate that there will not be a need for the use of this right-of-way in the future. The Applicant is proposing a hotel to be located on the three lots and the proposed abandoned alley right-of-way. The Applicant's proposal to extend the existing north-south alley southward to SE 1st Street will enhance the connectivity of the City's grid and alley system in the OSSHAD zoning district.

Finding 2: "That the abandonment does not nor will prevent access to a lot of record." The Applicant is presently the owner of record for the land parcels located within the block abutting the proposed alley right-of-way abandonment. The Applicant has Unity of Control over three blocks, including where the alley segment exists, and is confident through the site planning process that adequate public access within the block will be ensured. The proposed re-configuration of the existing disjointed alley system in this block is consistent with Goal Area "C" and Objective C-1.2 of the City's Comprehensive Plan, in short to help create a convenient, safe and efficient traffic system, that will help residents and visitors avoid congested local and collector streets.

Finding 3: "That the abandonment will not result in a detriment to the provision of access and/or utility services to adjacent properties or the general area." In fact, with the dedication proposed, this request will enhance and facilitate traffic flow, thereby improving the alley system. There are presently no overhead utilities within the alley segment right-of-way. The Applicant anticipates that the survey of the right-of-way will reveal any additional utilities. The Applicant will work with all utility service providers to ensure they will have access to any utility network reconfiguration on site.

As required we have also attached a survey and legal description of the right-of-way to be abandoned, as well as a mailing list as specified in Section 2.4.2 (B)(1) have been included as part of this application. The Applicant looks forward to working closely with the City in the future as the process advances.

Sincerely,

Bonnie Miskel Esq.

Please print or type all of the required information, and ensure that the application is complete and accurate. In order to be accepted for processing, the application must be accompanied by the Standard Application Items, as listed on Page 8.

Abandonment of rights-of-way is reviewed by the Planning and Zoning Board which holds its regular meeting on the third Monday of each month. Final action is taken by the City Commission, which meets on the first and third Tuesday of each month. Abandonment of rights-of-way is scheduled for City Commission action once all conditions associated with the request have been addressed. An application for abandonment of right-of-way shall be submitted by the first Friday of the month in order to be on the agenda of the following month's P&Z Board meeting. It takes approximately ten (10) weeks between submission of the application and action by the P&Z Board. Please refer to Section 2.4.6(M) of the City's Land Development Regulations for the processing and findings required for the abandonment application. A pre-application conference with a member of the Planning staff is strongly recommended, and can be scheduled at your convenience. We will be glad to assist you in any way possible.

EXHIBIT A

Existing Condition of Right-of-Way

The existing alley runs approximately 124.12 feet from its entrance on SE 1st Avenue west to the intersection of a north-south alley running north from this intersection (creating an 'L' formation). The applicant is proposing to create an extension of the north-south alley running south of this existing 'L' intersection to SE 1st Street.

The alley is currently paved, with a mountable curb providing for drainage. The primary purpose of this alley segment is to provide access to the north-south alley that runs north at the L intersection with the alley segment to be abandoned. Extending the north-south alley southward to SE 1st Street would provide this access in the future in a more efficient and accessible manor. Originally, the lots in this area of the block were platted so that they faced SE 1st Street, therefore this alley served a purpose to serve the rear of those the properties. Since the applicant has gained Unity of Control of all the properties surrounding the alley, it no longer serves any purpose other than to provide and egress/ingress to the north-south alley it intersects. The applicant will improve access to the north-south alley with their proposed development. The applicant explains in greater detail how these improvements will be achieved in the Cover Letter addressed to Planning and Zoning Director Timothy R. Stillings enclosed with this application.

EXHIBIT B

Intended Use of Right-of-Way

The southeastern area of the block bounded by E. Atlantic Avenue to the north, SE 1st Avenue to the east, S. Swinton Avenue to the west, and SE 1st Street to the south (also identified as block 69) will be developed as a hotel with underground parking garage. The hotel will be built directly over where the segment of current alley right-of-way that is to be abandoned. Access to the hotel as well as the overall downtown grid network of alleys will be improved by extending the present north-south alley within block 61 all the way south to meet SE 1st Street, where presently no alley right-of-way exists. This is explained in greater detail in the Cover Letter to Timothy R. Stillings, Planning and Zoning Director enclosed as part of this application.

Statement of Interest in Property and Authorization to File Petitions

MGM Sundy House, LLC certifies that it is the Owner of the adjacent properties to the subject property (right-of-way to be abandoned) to which the subject property will revert, located within Block 69, and roughly near the northwest corner of SE 1st Avenue and SE 1st Street, located in the City of Delray Beach, hereby authorizes DUNAY, MISKEL, AND S BACKMAN, LLP, as agent, and WES BLACKMAN, AICP HISTORIC PRESERVATION PLANNER WITH CWB ASSOCIATES as agent, to submit and process any and all development applications to the City of Delray Beach, Palm Beach County and State of Florida and in the approval, permitting and development of the proposed commercial development, and appear at any meetings or public hearings necessary for the approval, permitting and development of the proposed mixed-use development located within the City of Delray Beach and Palm Beach County.
