The exhibition changes about every month - 6 weeks, allowing us to showcase many artist and makers.

The Exhibitions are curated by **theme**, and have specifically highlighted **social issues**, **artistic mediums**, and even **solo shows**, exhibiting multiple works by one artist.

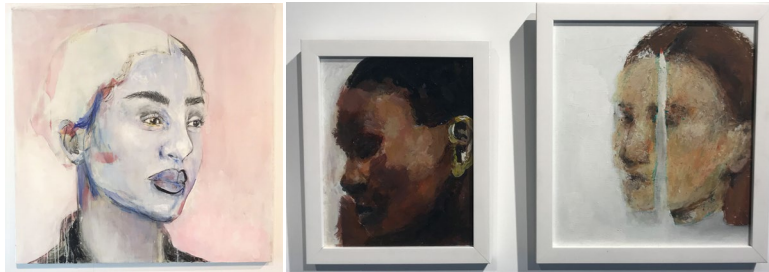

The gallery is for all ages, free and open to the public during open business hours and during special events

Gallery Exhibition Examples

Solo Exhibition

Lifebloodlust by Christina Nicola a painting/mixed media exhibition about personal evolution

Exhibition Statement

Our past trauma and disparities have shaped who we are today. We have all experienced brokenness and pain. While our wounds may remind us of the damage done to us, they can also act as symbols and trophies of our humanity and strength. *Lifebloodlust* speaks to the overwhelming yearning for us to live, despite everything. My hope is to bring us all into a conversation about pain, purpose, and healing.
