

EXHIBIT F - PROJECT NARRATIVE

My office is located in the commercial district of Delray Beach. In 2018, I was fortunate to be a recipient of the Site Assistance Grant. That grant allowed me to make improvements to my property, i.e. paint, awnings, landscaping, and signage. The improvements were amazing. More improvements need to be made to protect the property from inclement weather. My goal is to have impact glass installed at the office.

The impact glass and door will increase the value of the property and will continue to revitalize this area. Last year's improvements added to the value of the building and to the tax base.

This improvement will also add to the visual impact of the area. More visual interest will be created for both pedestrian and vehicular traffic.
