WHO ARE WE

Galera Collective was founded in 2016 by South Florida creative designers. 10+ years of industry experience revealed that many creatives, as freelancing solopreneurs focused on their art, were missing opportunities essential to profitably selling their work and scaling their businesses.

Our focus is twofold: supporting local creatives in getting their work advantageously displayed and sold by marketing them across South Florida and beyond; and offering businesses and brands access to a stable of creatives across multiple disciplines including, but not limited to, artists, photographers, videographers, and graphic designers for services and special events.

Please feel free to visit Galera's websites: www.galeracollective.com and www.thegalera.com for more information, and we would be happy to help you, or your company, to realize it's creative vision!

OUR CREATIONS

Our creative team thrives on challenges, and offer a wide variety of styles and specialties, for both interior and exterior spaces. From smaller hand-painted signage and custom commission projects, to large scale creative pieces, and even commercial murals, we pride ourselves on our elasticity. Professionalism and punctuality are well balanced with our passion for creating.

Our artists use only the highest grade paints, so that your mural will stand the test of time, as well as weather conditions. We do love the jobs that allow creative freedom, but are happy to help install a mural based on a client's specific vision. And of course we always ensure safety, artists wear respirators on all jobs.

Check our websites or Instagram page for updates on our recent works, and reach out to us with your idea today!

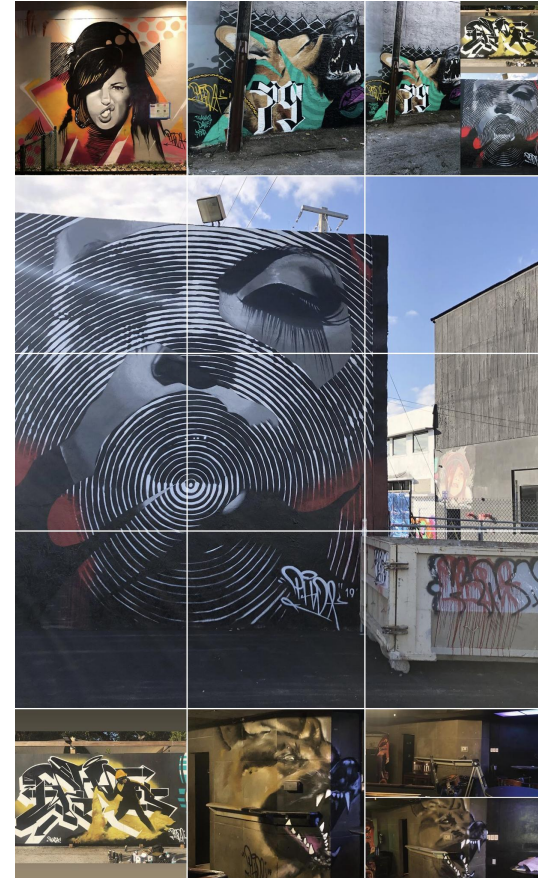

Artist Bio - PHD

Artist bio Paul Frederick Hughes a.k.a "PHD" I define my artwork as deliberate, carefully designed and unapologetic. I use visual art to communicate self expression and social commentary. I am the ruler of my works and revel in the freedom and power of infinite possibility. I believe in public art works. They are free to be enjoyed by anyone without prejudice or payment. I welcome challenging projects and am compelled to experiment with styles, approach, and mediums. In recent years I've leaned toward complex photo realistic freehand spray paint portraits.
