2. ***Automobile brokerages:*** Inventory must only be located within an enclosed building. Automobiles which are part of the business inventory must not be placed in parking areas.

- d. The SPRAB may approve automated parking garages that utilize an alternative façade design or cladding materials provided photovoltaic cells (solar panels) are incorporated into the structure and used as a power source for the garage operations or uses associated with the automated parking garage; if solar panels are not incorporated, facades that do not meet the architectural standards in Section 4.4.13(F) require City Commission approval.

(e) – (f) (These subsections shall remain in full force and effect as adopted.)

(g) **Rooftop Terraces:** These regulations are intended to guide the use of rooftops in the downtown.

These regulations are intended to guide the non-habitable use of rooftops for buildings built to the maximum story height limit to allow rooftop terraces. Rooftop terraces and rooftop amenities, such as roof gardens, observation decks, swimming pools, and running tracks, are encouraged to create unique gathering spaces, to aid in the reduction of the urban heat index, and to add aesthetic value to the buildings. Rooftop terraces are not intended to add additional story height. Rooftop terraces shall be subject to the following criteria:

- b. Rooftop terraces shall be hardscaped with materials such as, but not limited to, patterned concrete, pavers, or wood decking.

The following restrictions apply:
 - i. Covered structures located above the maximum number of stories shall not exceed a maximum height of 60 feet, except in the Railroad Corridor Sub-district south of SE 2nd Street where such structures may exceed the maximum allowed height by 10 feet.

The specific incentives and required performance criteria are set forth in this section and may be revised or amended after seeking community input and in response to factors such as update to the Downtown Master Plan, changing conditions within the CBD, transportation impacts, or market and/or demographic shifts. Any incentives shall be broad based and applicable within the entire CBD or CBD sub-district, no incentives programs shall be considered on a case-by-case basis or project-by-project basis.

- (1) ***Residential Incentive Program.*** To encourage a variety of unit types and income ranges within the downtown area, opportunities to increase density are offered in certain CBD Sub-districts. This Residential Incentive Program is the only way to obtain increases in density for property zoned CBD. The maximum density allowed by Table 4.4.13(C) in certain CBD Sub-districts may only be increased in the locations described below. The required Performance Standards are set forth in Section 4.4.13(H)(2).
 - (a) Density may be increased over 12 du/ac (up to 30 du/ac) within the West Atlantic Neighborhood Sub-district.
 - (b) Properties located within a historic district or on individually designated sites as listed on the Local Register of Historic Places in Section 4.5.1(I) are not eligible to use the Residential Incentive Program, except properties that meet the criteria in (c) below.
 - (c) Properties located within the West Atlantic Neighborhood Sub-district that are also located within the West Settlers Historic District may utilize the Residential Incentive Program to increase the density to over 12 du/ac (up to 20 du/ac) if the following criteria is met:
 1. The property is located between West Atlantic Avenue and NW 1st Street; and,
 2. The property does not contain a contributing structure;
 3. The property does not contain a non-contributing structure that is at least 30 years old, from the original date of construction;
 4. If the property is vacant, it has not contained a structure on the site for at least 15 years.
 - (d) Density may be increased over 30 du/ac (up to 80 du/ac) within the Railroad Corridor Sub-district south of SE 2nd Street.
- (2) ***Performance standards for density increases.*** Projects ~~which~~ proposing to increase density from the base amount allowed in the West Atlantic Neighborhood Sub-district or the Railroad Corridor Sub-district shall provide workforce housing units. Workforce housing units, equal to at least 20 percent of the bonus density shall be provided within the development onsite, offsite, or through monetary contributions as referenced in Article 4.7 (fractions shall be rounded up). The workforce housing units shall be at the low or moderate income levels and shall comply with other applicable provisions of Article 4.7.

(3) **Approval process for incentives.**

- (a) Applications to utilize the Incentive Program will be reviewed as part of a Class V site plan by the SPRAB or HPB for compliance with the regulations in this code that direct building configuration, uses, open space, streetscape design, parking location and quantity, and the performance standards in Section 4.4.13(H)(2). The SPRAB or HPB will make a recommendation to the City Commission on the entire Class V site plan before the City Commission takes final action to approve or deny the site plan and the increased density.
- (b) Applications must include, in addition to the standard application items of 2.4.3(A), a site and development plan (including landscaping, elevations, and floor plans) of sufficient detail to determine that the applicable development and performance standards are being met.
