In addition, to the separation requirements, certain zoning districts have been amended to add the use: General Commercial, Planned Commercial, Central Business District in the Central Core and Rail Road Corridor Sub-districts, Mixed Industrial Commercial (MIC) District, Light Industrial (LI) District, and Industrial (I) District.

## Review and Analysis

Pursuant to LDR Section 2.4.5(M)(1), amendments to the Land Development Regulations may be initiated by the City Commission, Planning and Zoning Board or City Administration; or an individual.

The proposed amendment is a City-initiated text amendment to the Land Development Regulations.

Pursuant to LDR Section 2.4.5(M)(5), Findings, in addition to LDR Section 1.1.6(A), the City Commission must make a finding that the text amendment is consistent with and furthers the Goals, Objectives and Policies of the Comprehensive Plan.

## Neighborhoods, Districts, and Corridors Element

**Policy NDC 1.1.2** Provide a complementary mix of land uses, including residential, office, commercial, industrial, recreational, and community facilities, with design characteristics that provide: Similar uses, intensity, height, and development patterns facing each other, especially in residential neighborhoods. Uses that meet the daily needs of residents. Public open spaces that are safe and attractive.

**Objective NDC 3.5:** Regularly review and update the Land Development Regulations to provide timely, equitable and streamlined processes including, but not limited to, building permit processes for residential developments and to accommodate mixed-use developments, address market changes and development trends, and other innovative development practices.

Policy NDC 3.5.1 Review the uses and use descriptions in the Land Development Regulations to provide consistent terminology.

**Policy NDC 3.5.3** Continue to develop zoning districts and regulations that utilize or include form-based code concepts to improve predictability in the built environment.

### **Economic Prosperity Element**

**Policy ECP 6.3.1** Review and improve the Land Development Regulations to ensure permitted uses and building requirements align with desirable industry clusters in targeted areas and with the vision of adopted neighborhood revitalization plans.

The proposed amendments seek to ensure complementary land uses and maintain the City's vision for its diverse areas by identifying appropriate zoning districts and locations for CBD Establishments. The addition of "CBD Oil Establishments" as a use updates zoning use terminology to add a relatively "new" retail product. Utilizing distance and frequency regulations helps establish predictability in the built environment.

# **Review By Others**

The Downtown Development Authority (DDA) will review Ordinance No. 58-20 at its meeting of November 9, 2020.

The Pineapple Grove Main Street advisory committee will review Ordinance No. 58-20 at an upcoming meeting.

The **City Commission** is anticipated to review Ordinance No. 58-20 at its meetings in November (First Reading) and December (Second Reading, Final Adoption).

## Assessment and Conclusion

The proposed amendments accommodate a new use in the City and are consistent with the Comprehensive Plan and meet the criteria set forth in LDR Section 2.4.5(M).
