WHY YOU SHOULD INSTALL OUR COMMERCIAL IMPACT WINDOWS
TORM PROTECTION

hen you get retail store impact windows installed on your property, it's like as if you've just added a massive shield to your home. And th
ield provides ultimate protection 24/7 against all of South Florida's natural elements. No matter if a storm is coming or not, you'll benefit fro
ing always prepared. Other than being visually stunning, our impact windows are strong and can withstand any harsh storms. Even whe
ing debris occurs and strikes your new storefront impact windows, they won't shatter as the plastic films that cover your windows will he
ep them intact. Rest assured, you can sleep at night knowing that your windows can't be penetrated, even during the harshest hurricar
ack

RIMINAL PROTECTION

orm protection is typically the ultimate reason why most Floridians get our retail store hurricane windows installed. But besides being shielde
m storms, our commercial impact windows also shield your property against criminals. No amount of human force is able to destroy o
pact windows. So rest assured, when they're installed on your commercial property, no criminal will be able to break them. Even if they we
le to cause a tiny crack, our windows are shatter-proof, so entry is impossible. Ultimately, you can relax as no looters will be able to ent
ur store as you're away.

NERGY EFFICIENCY

ying for monthly energy bills can be a huge problem for many commercial property owners. Your normal windows actually contribute to
nificant amount of heat gain in your store because they don't entirely seal off. So heat seeps in, causing your A/C to overwork itself, and yc
