# SureNail® Technology

There's a line between a good shingle and a great shingle.

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology. With SureNail® strip, strength and durability are built into every Duration® Series shingle. This unique shingle design provides outstanding gripping power.

## Excellent Adhesive Power

Helps keep the shingle layers laminated.

## Outstanding Grip

The SureNail® strip enhances the already amazing grip of our proprietary Tri-Bond® sealant for exceptional wind resistance of a 130-MPH wind warranty.\*

## SureNail®

## Breakthrough Design

Patented SureNail® Technology™ is the first and only reinforced nailing zone on the face of the shingle.

## "No Guess" Wide Nailing Zone

This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

## Triple Layer Protection™

A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

## Double the Common Bond

SureNail® features up to a 200% wider common bond area in the nailing zone over standard shingles.
