

- For the axe cages, the material is not chain link, but a much more attractive black metal screen with square openings. These will not be visible from anywhere except within our patio. The aesthetics of our venue is of the highest priority and we believe these provide a clean, polished look and use them in our three other venues in NYC, Philadelphia, and Washington, DC.

- The hedge barriers are to restrict access to the area to only those with reservations for axe throwing. Making them 10' high may provide a safety hazard for guests.
