Board Comments

Christina Morrison clarified that the Applicant has received 2 approvals to increase the density and inquired about the parking spots provided for the proposed increased density.

Allen Zeller inquired regarding the number and location of resident and visitor parking spaces provided in addition to the deed restrictions imposed on the proposed project.

Julen Blankenship inquired regarding the 48 offsite parking parallel spots listed on the parking tabulation provided by the applicant. Ms. Blankenship was concerned that adequate parking was not provided, and the proposed bus shelter may pose an egress and ingress concern.

Max Weinberg did not believe that parking spaces along SW 13th Avenue and SW 12th Avenue should be considered when calculating the number of available parking spaces as those parking spaces are considered public parking that can be utilized by the public.

Chris Davey requested confirmation that the 48 off street parking spots provided in the required parking tabulations were deeded to the proposed development and not considered to be public access spaces that can be utilized by the general public. Mr. Davey proposed that the conditional approval be conditioned on the applicant providing 114 onsite parking spaces.

Rob Long indicated that surplus parking was provided in Phase 1 and 2, these spaces should be considered when regulating the required parking spaces in phase 3. Providing affordable housing needs to be balanced with the number of required parking spaces.

MOTION to approve request to modify the approved conditional use for the 18.18- acre three-phase Village Square development, increasing the approved density from 15.51 dwelling units per acre to 15.84 dwelling units per acre, to develop the 3.07-acre Phase III portion as Island Cove, with the condition that the applicant must provide a minimum number of 114 onsite parking spaces, finding that the request is consistent with the Land Development Regulations and the Comprehensive Plan was made by Julen Blankenship and seconded by Joy Howell.

Amy Alvarez- A limited access easement on NE 22nd Street and North Swinton Avenue was provided.

Board Comments

Joy Howell requested clarification as to if the parcels seeking waivers were considered to meet the definition to be corner lots. Ms. Howell believed that the amount of tree canopy and shade tree preserved should be increased.

Julen Blankenship questioned the applicant if the applicant took any efforts to relocate any existing trees to an offsite location or preserve the existing tree canopy.

Rob Long was supportive of the project, in addition found that the applicant exceeded the amount of mitigation required by the Land Development Regulations.

Max Weinberg inquired regarding preserving the existing structures and vegetation. Mr. Weinberg inquired regarding a large Ficus tree that is located in the center of the proposed project and the viability of building around the existing landscaping.

Christina Morrison stated that the requested waivers were unreasonable as the minimum waiver requested was 10 feet.

Chris Davey was concerned that the waivers if granted would create nonconforming parcels that will require ancillary improvements to seek variances in the future. Mr. Davey recommended that the applicant should take steps to preserve more of the additional existing canopy.
