Background:

On January 15, 2018, CRA staff presented a proposal to piggyback an agreement utilizing the City of Hollywood Point-to-Point Request for Proposals; however, the Board directed staff to issue a new Request for Proposals for a Pilot Program for Point-to-Point Transportation Services. The Board stated their desired for an expedited RFP process and open-air vehicles.

In addition, it is noted the following comments were provided on the point-to-point option at the Joint CRA/DDA Workshop on November 14, 2018, which were taken into consideration with crafting the RFP:

- Most of the members would like to have an open vehicle
- A Pilot program would include gathering data
- A service area needs to be defined
- Funding of the program may include marketing Ads from hotels, restaurants, etc.
- Transportation options may include more than 1 program: Palm Tran, Trolley, Chevy Volt, GEM carts, and bikes.

On January 28, 2019, the CRA issued a Request for Proposals for a Pilot Program for Point-to-Point Pilot Transportation Services (RFP).

On February 11, 2019, the CRA received six (6) responses to the RFP:
