The CRA has requested appraisals from Anderson & Carr, Inc. and Allied Appraisals Services, Inc. which will be completed on November 15, 2019.

This request for consideration comes at a time where the redevelopment of the block is in the conceptual stages and where acquiring the additional properties may allow for additional compatible and congruent development with the potential for highest and best use of the land. Although the CRA owns several properties within the block, the redevelopment is limited due to the size and configuration of the currently owned CRA parcels. Acquiring the additional parcels to create an assemblage, specifically fronting Atlantic Avenue would achieve the goals and objectives of the CRA Redevelopment Plan.
