### ENERGY EFFICIENCY DAY PROCLAMATION

#### **Recommended Action:**

Motion to proclaim October 5, 2022 as Energy Efficiency Day.

#### **Background:**

The Energy Efficiency Day message is simple: "Save Money. Cut Pollution. Create Jobs." Since the inaugural Energy Efficiency Day in 2016, this annual awareness event has been supported by hundreds of prominent organizations, companies, government agencies and others. The goal is to share tips, tools and stories that promote the multiple benefits of energy efficiency, from lower costs to healthier homes. Reducing use of electricity also is the most cost-efficient way to reduce the carbon emissions which are driving climate change.
