Semi-Finalists for Delray Beach City Manager Position

Recommended Action:

Discuss the candidates for City Manager position and recommend the top 3 finalists.

Background:

City Officials gave direction to Interim City Manager Neal de Jesus to hire a search firm to solicit potential candidates to fill the position of City Manager for the City of Delray Beach. Staff hired W. D. Higginbotham, Jr. with Mercer Group Florida, LLC to perform the executive search. After extensive research and background checks on potential candidates, the semi-finalists are being presented for discussion by the City Commission with a recommendation to narrow down the candidate selection to the top 3 finalists.
