DATE: September 19, 2022

DIAPER NEED AWARENESS WEEK

Recommended Action:

Motion to approve September 24th - October 2, 2022 as Diaper Need Awareness Week.

Background:

The National Diaper Bank supports a network of over two hundred active diaper banks which support diaper distribution programs located in nearly every state in the United States. Along with the National Diaper Bank Network, individual diaper banks across the country will hold events and work with their local and state governments to raise awareness of this need and the good work that diaper banks do to help parents obtain this basic necessity for their children.
